See CHANT.] **1.** A special articulative effort giving prominence to one syllable of a word or a phrase over the adjacent syllables, and consisting in stress of voice (*stress accent*), change of pitch (*pitch accent*), increase of duration, or a combination of these elements ; also, the prominence so given. *Stress* being the chief element of English accent, the two terms are often used as synonymous. Cf. STRESS, PITCH, EMPHASIS. See *Guide to Pron.*, §§ 78–87.

> We may speak of stress of voice as "*accent*," but it is better to designate it by the more specific term "stress " *Hempl*

2. A mark or character used to regulate pronunciation ; esp.: **a** A mark to indicate the nature and place of the spoken accent. **b** A mark to indicate the length or quality of sound of the letter marked, usually called *graphic*, or *grammatical, accent ;* as, the French *accents.* In ancient Greek the *acute accent* (ˊ) meant a raised tone or pitch , the *grave* (ˋ) indicated that the tone was lowered from a higher pitch, but probably not so far as to the level tone called "grave ; " the *circumflex* (ˆ, later ~) designated a tone raised and then depressed. The same varieties occurred in Latin, in which, however, such pitch accent was probably subordinate to stress. In modern dictionaries, spelling books, and the like, the *acute accent* is used to indicate stressed or accented syllables ; as, *a'cent.* It is used in French, as over *e* (é), to indicate vowel quality. It may indicate stress, as in Spanish, or a long vowel, as in Hungarian and Bohemian. In works on elocution and phonetics it often indicates a rising inflection of the voice, the *grave* indicating a falling inflection, and the *circumflex* (ˆ) a compound (rising-falling) inflection. The *acute* is further sometimes used to show that a final *e* is pronounced, as sometimes in *Brontë*. The *grave* in French indicates vowel quality, as in *vivandière*, or distinguishes meaning only, as in *la, là*. It is sometimes used in English print over the *e* of a final *-ed* to show that it forms a separate syllable, as *armèd*. The *circumflex* has been sometimes used in modern times in writing Latin to indicate contraction. In modern French it usually indicates a long vowel (commonly due to contraction, as *pâle*, OF. *paste*) when the vowel stands in a final syllable and is followed by a consonant sound. The *circumflex* is variously used in modern English over vowels to indicate "length," a "broad " quality, etc.

3. Modulation of the voice in speaking ; manner of speaking or pronouncing ; peculiar or characteristic modification of the voice , tone ; as, a foreign *accent ;* a French or a German *accent.* "Beguiled you in a plain *accent.*" *Shak.*

> The tender *accent* of a woman's eye *Byron.*
>

acetic acid, a compound, CH_3COOH, which in the pure state is a colorless, pungent, biting liquid congealing in cool weather, and hence called *glacial acetic acid*. It is used in medicine as a corrosive and vesicant. The *acetic acid* of commerce is an aqueous solution containing 33–36 per cent of the glacial acid; vinegar contains 4.5–12 per cent. Acetic acid is obtained by oxidation of alcohol, as in vinegar making, by the destructive distillation of wood, etc. See VINEGAR, PYROLIGNEOUS. — **a. anhydride**, a colorless, mobile liquid, $(CH_3CO)_2O$, with a pungent odor like acetic acid. It is much used as a reagent in making acetyl derivatives, in condensations, etc. — **a. ether**, *or*, *better*, **a. ester**, an ester of acetic acid, esp. the ethyl ester, or ethyl acetate, $CH_3CO_2C_2H_5$, a colorless liquid of agreeable odor. The aroma of vinegar is partly due to its presence. — **a. ferment**, any microorganism capable of effecting acetic fermentation. — **a., *or* acetous, fermentation**, a process of oxidation in which alcohol is converted into acetic acid by the agency of certain bacteria (as *Bacterium aceti* or *B. pasteurianum*), as in the production of vinegar from cider or wine. The process consists of two stages, in the first of which an intermediate product, aldehyde, is formed.

a-cet'i-fy (ā-sĕt'ĭ-fī), *v. t. & i.*; A-CET'I-FIED (-fīd); A-CET'I-FY'ING (-fī'ĭng). [*acet-* + *-fy*.] To turn into acid or vinegar. — **a-cet'i-fi'er** (-fī'ĕr), *n.* — **a-cet'i-fi-ca'tion** (-fĭ-kā'shŭn), *n.*

ac'e-tim'e-ter (ăs'ĕ-tĭm'ĕ-tĕr), *n.* [*acet-* + *-meter*.] An instrument for estimating the amount of acetic acid in any solution of it, esp. in vinegar.

ac'e-tim'e-try (-trĭ), *n.* Act or method of ascertaining the amount of acetic acid present, esp. in vinegar. — **ac'e-ti-met'ri-cal** (-mĕt'rĭ-kăl), *a.*

ac'e-tin (ăs'ĕ-tĭn), *n.* [*acetic* + *-in*.] *Chem.* Any of three liquid esters formed when glycerin and acetic acid are heated together, and known respectively as *monacetin*, $C_3H_5(OH)_2C_2H_3O_2$, *diacetin*, $C_3H_5(OH)(C_2H_3O_2)_2$, and *triacetin*, $C_3H_5(C_2H_3O_2)_3$. The last is said to occur in small quantities in certain fats.

ac'e-to- (ăs'ĕ-tō), **acet-**. Combining forms from Latin *acetum*, vinegar, denoting *connection with*, or *derivation from*, *acetic acid* or *acetyl*; as, *aceto*meter; *acet*aldehyde; *aceto*nitrile, etc.

ac'e-to—ac'e-tate (ăs'ĕ-tō-ăs'ĕ-tāt), *n.* A salt or ester of aceto-acetic acid.

ac'e-to—a-ce'tic (-ā-sē'tĭk; -ā-sĕt'ĭk), **a-ce'ta-ce'tic** (ā-sē'tȧ-sē'tĭk; -sĕt'ĭk), *a. Chem.* Pertaining to acetyl in which a hydrogen atom is replaced by an acetyl group.

ac'e-to-a-ce'tic acid, an acid, CH_3COCH_2COOH, present in diseased urine, esp. in cases of diabetes. — **a. ester**, the ethyl ester of the above acid, a colorless liquid with pleasant odor. It is prominent in organic chemistry on account of the desmotropism of its sodium compound, and the numerous condensations of which it is capable.

ac'e-tol (ăs'ĕ-tōl; -tŏl), *n.* [*aceto-* + 1st *-ol*.] *Chem.* Methyl ketol; also, any of various homologues of the same.

ac'e-to-la'tum (ăs'ĕ-tō-lā'tŭm), *n.* [NL., fr. F. *acétolat*, fr. L. *acetum* vinegar + (prob.) *oleum* oil.] *Pharm.* A distilled aromatized or medicated vinegar.

ac'e-to-na'mi-a, -ne'mi-a (-nē'mĭ-ȧ), *n.* [NL. See ACETONE; -ÆMIA.] *Med.* A morbid condition characterized by the presence of acetone in the blood, as in diabetes.

ac'e-tone (ăs'ĕ-tōn), *n.* [See ACETIC.] *Chem.* **a** A volatile liquid ketone, CH_3COCH_3, occurring in crude wood spirit and also obtained by the distillation of certain acetates, citric acid, starch, sugar, or gum. It is used as a solvent for many organic compounds, and in making sulphonal, chloroform, and iodoform. **b** Any ketone.

ac'e-ton'ic (-tŏn'ĭk), *a. Org. Chem.* Of or related to acetone.

acetonic acid, a white, crystalline acid, $(CH_3)_2C(OH)CO_2H$, a hydroxy derivative of isobutyric acid.

ac'e-to-nu'ri-a (-tō-nū'rĭ-ȧ), *n.* [NL. See ACETONE; -URIA.] *Med.* Excess of acetone in the urine, as in starvation or diabetes.

ac'e-to-nyl (ăs'ĕ-tō-nĭl; ā-sĕt'ō-), *n.* [*acetone* + *-yl*.] *Org. Chem.* The univalent radical CH_3COCH_2, of which acetone is the hydride.

acetonyl acetone. *Chem.* A mobile, fragrant liquid, $(CH_3COCH_2)_2$, obtained by heating pyrotritartaric acid with water, and in other ways.

ac'e-to-phe'none (ăs'ĕ-tō-fē'nōn), *n.* [*aceto-* + *phenyl* + *-one*.] *Chem.* A crystalline ketone, $CH_3COC_6H_5$, which may be obtained by the dry distillation of a mixture of the calcium salts of acetic and benzoic acids. It is used as a hypnotic under the name of *hypnone*.

a-ce'tous (ā-sē'tŭs; 277), *a.* [L. *acetum* vinegar, fr. *acere* to be sour.] Pert. to, or producing, vinegar; sour; acid.

Till all France were grown *acetous*, virulent. *Carlyle.*

acetous acid, vinegar. *Obs.* — **a. fermentation**. See ACETIC FERMENTATION.

ac'et-ox'ime (ăs'ĕt-ŏk'sĭm; -sēm), *n.* Also **-ox'im**. [*acetone* + *oxime*.] *Org. Chem.* A colorless, crystalline, volatile substance, $(CH_3)_2C{\cdot}NOH$, formed from acetone by the action of hydroxylamine.

ac'et-ox'y-. [*aceto-* + *oxy-*.] *Org. Chem.* A combining form denoting the presence of the group CH_3COO-.

a-ce'tum (ā-sē'tŭm), *n.* [L., vinegar.] *Pharm.* **a** Vinegar. **b** A preparation of a drug made with dilute acetic acid.

ac'e-tyl (ăs'ĕ-tĭl), *n.* [*acet-* + *-yl*.] *Chem.* The radical, CH_3CO, of acetic acid. Cf. BENZOYL. — **ac'e-tyl'ic** (-tĭl'ĭk), *a.*

a-cet'y-late (ā-sĕt'ĭ-lāt), *v. t. Chem* To introduce one or more acetyl groups into (a compound) by means of a chemical reaction.

acetyl chloride. *Chem.* A colorless, pungent, volatile liquid, CH_3COCl, made by distilling a mixture of acetic acid and phosphorus trichloride, and otherwise. It is much used in preparing acetyl derivatives.

a-cet'y-lene (ā-sĕt'ĭ-lēn; 277), *n. Chem* A colorless gaseous hydrocarbon, HC:CH, formed by the direct union of carbon and hydrogen in the electric arc, by the incomplete combustion of other hydrocarbons, by the action of water on certain carbides, etc. Acetylene has an ethereal odor, which is usually unpleasant, owing to the presence of impurities. With sufficient air it burns with a brilliant, white, diffusive light, yielding 35–45 candle hours per cubic foot, — which is nearly fifteen times the light of an ordinary illuminating gas in an ordinary burner, or three to four times that of ordinary gas in a Welsbach burner. It is less poisonous than coal gas, and is not liable to explosion if kept at a low pressure. The commercial source of the gas is calcium carbide (see this), one pound of which, treated with water in an efficient generator, yields 5–5.8 cubic feet of acetylene, and calcium hydroxide as a by-product. Acetylene polymerizes readily; and various compounds, as alcohol and sugar, can be built up from it by synthesis.

acetylene black. A superior grade of lampblack made from acetylene.

a-cet'y-lide (ā-sĕt'ĭ-līd; -lĭd; 184), *n.* Also **-lid**. *Chem.* A compound formed by the replacement, in acetylene, of hydrogen by a metal; as, cuprous *acetylide*, C_2Cu_2.

a-cet'y-lize (ā-sĕt'ĭ-līz), *v. t. Chem.* To acetylate. — **a-cet'y-li-za'tion** (-lĭ-zā'shŭn; -lī-zā'-), *n.*

acetyl phenylhydrazine. *Chem.* A white crystalline substance, $C_6H_5NH{\cdot}NHC_2H_3O$, prepared by heating glacial acetic acid and phenylhydrazine together. It is a powerful antipyretic, and is the active principle of the preparations known as *pyrodine* and *hydracetin*.

acetyl value. *Chem.* A value obtained in the analysis of fats, oils, etc., depending on the extent to which the substance can be acetylated. It is taken as a measure of the amount of hydroxy acids and higher alcohols, other substances ordinarily present not being affected.

A-chæ'an (ā-kē'ăn), **A-cha'ian** (-kā'yăn), *a.* [L. *Achaeus*, *Achaius*; Gr. Ἀχαιός.] Of or pertaining to Achaia, either, specif., a section of the northern Peloponnesus, or, loosely, Greece in general. — *n.* One of the people of Achaia, broadly, a Greek. Some scholars view the Achæans of Homer as an immigrant warrior race.

Achæan, *or* Achaian, league, either of two confederations of Achæan towns. The first league, of which little is known, was dissolved shortly after 300 B. C. The second was organized in 281–80 B. C., in opposition to Macedonian domination and Roman encroachment, and lasted until 146 B. C. At the height of its power (about 225 B. C.) it included, besides other Grecian cities, most of the Peloponnesian cities except Sparta, Elis, and Tegea. The towns remained independent except in their foreign relations.

Ach'æ-men'i-an (ăk'ē-mĕn'ĭ-ăn; -mē'nĭ-ăn), *a.* [L. *Achaemenius*, fr. *Achaemenes*, Gr. Ἀχαιμένης, O. Per. *Hakhāmanish*, reputed founder of the family.] Of, pertaining to, or designating, the Achæmenidæ or the Persian language of their inscriptions. — *n.* An Achæmenian king or prince.

Ach'æ-men'i-dæ (ăk'ē-mĕn'ĭ-dē) } *n. pl.* [L. *Achaemenidæ*.]
Ach'æ-men'i-des (ăk'ē-mĕn'ĭ-dēz) } *pl.*, from eponymous *Achæmenes*, through Gr., fr. O. Per. *Hakhāmanish*.] The kings and princes of the ruling house of ancient Persia. The house took its name from Achæmenes (probably 8th century B. C.) Under the Achæmenian Cyrus the Great (reigned 559–530 B. C.) the Persians overthrew the Median and the later Babylonian empires; and the Achæmenidæ were supreme in Asia until the overthrow of Darius III., 330 B. C., by Alexander the Great

A'chan (ā'kăn), *n. Bib.* The Israelite who took devoted spoil from Jericho (*Joshua* vii.) and thus caused a Jewish defeat at Ai. Hence, an undoer.

a-char' (ā-chär'), *n.* [Per. *ačhār* pickles.] Any salt or acid relish; a pickle, as pickled bamboo shoots. *India.*

A-char'i-a'ce-æ (ā-kăr'ĭ-ā'sē-ē), *n. pl.* [NL.; after E. *Acharius*, Swedish botanist.] *Bot.* A family of erect herbs (order Hypericales) related to the passion flowers (Passifloraceæ) and containing three South African monotypic genera. — **a-char'i-a'ceous** (-shŭs), *a.*

‖ **a'char'ne-ment'** (ā'shär'nē-mănt'; ā-chärn'mĕnt; 277), *n.* [F.] Savage fierceness; bloodthirstiness; ferocity.

The frenzy and *acharnement* of the pursuers, and the bloody desperation of the miserable fugitives, had reached its uttermost extremity *De Quincey*

A-cha'tes (ā-kā'tēz), *n.* [L.] A faithful companion of Æneas in Vergil's "Æneid," usually mentioned as *fidus Achates*. Hence, a faithful friend.

Ach'a-ti'na (ăk'ā-tī'nȧ), *n.* [NL., fr. Gr. ἀχάτης agate.] *Zool.* A genus of very large pulmonate land mollusks. See AGATE SHELL.

A-chat'i-nel'la (ā-kăt'ĭ-nĕl'ȧ), *n.* [NL., dim. of *Achatina*.] *Zoöl.* A genus of pulmonate gastropods, peculiar to the Hawaiian Islands, remarkable for the large number of its species and varieties.

acer + ACRE

Ac'er-a (ăs'ĕr-ȧ), *n.* [N. See ACERALA.] *Zool.* A genus of marine gastropods of the family Bullidæ, having thin, horny, partly internal shells. **b** *pl* = ARACHNIDA. *Obs.*

ac'er-ate (-ĭt), *a.* Acerose

A-cer'a-the'ri-um (ā-sĕr'ā-thē'rĭ-ŭm), *n.* [NL. See ACERATA; -THERIUM.] *Paleon.* A genus of hornless rhinoceroses of the Miocene and Pliocene.

a-cer'a-to'sis (ā-sĕr'ā-tō'sĭs), *n.* [NL; *a-* not + *ceratos-*] *Med* Imperfection of the horny tissue.

ac'er-bate, *a.* Embittered.

a-cer'bic (ā-sûr'bĭk), *a.* Acerb; sour or severe.

a-cerb'i-tude (-bĭ-tūd), *n* [L. *acerbitudo*] Sourness and harshness. *Obs*

ac'er-ous (ăs'ĕr-ŭs), *a.* Acerose.

a-ce'rous (ā-sē'rŭs), *a.* [See ACERATA.] **a** Without horns. **b** Without antennæ, as the Arachnida **c** Without tentacles, as certain gastropods.

a-cer'ra (ā-sĕr'ȧ), *n.* [L.] *Rom. Antiq.* A receptacle, usually a box or casket, for incense burned at religious ceremonies.

‖ **a-cer'ri-ma pro'zĕ-mo'rum o'di-a** (prŏk'sĭ-mō'rŭm). [L.] The hatreds of the nearest relatives (are) most intense
Tacitus (History, IV. 70).

acertain. + ASCERTAIN

a-cer'val (ā-sûr'văl), *a.* [L. *acervalis*, fr *acervus* heap.] Pertaining to a heap *Obs.*

‖ **ac'er-va'tim** (ăs'ĕr-vā'tĭm), *adv* [L.] By heaps; in heaps; briefly; summarily.

a-cer'vose (ā-sûr'vōs), *a* Full of heaps. *Rare.*

‖ **a-cer'vu-lus ce're-bri** (ā-sûr'vŭ-lŭs sĕr'ē-brī). [NL.] *Anat.* = BRAIN SAND.

ac'e-ta-ble (ăs'ĕ-tȧ-b'l), *n.* An acetabulum. *Obs.* See MEASURE.

ac'e-tab'u-la (ăs'ĕ-tăb'ū-lȧ), *n.*; *L pl.* of ACETABULUM.

ac'e-tab'u-lar (-lar), *a.* **a** Acetabuliform. **b** *Anat.* Pertaining to the acetabulum. — **acetabular bone**, *Anat.*, the cotyloid bone.

Ac'e-tab'u-la'ri-a (-lā'rĭ-ȧ), *n.* [NL., fr. L. *acetabulum* a cup-shaped vessel.] *Bot.* A genus of green algæ (class Chlorophyceæ), remarkable for their resemblance to small mushrooms.

Ac'e-tab'u-lif'er-a (-lĭf'ĕr-ȧ), *n. pl* [NL. See ACETABULUM; -FEROUS.] *Zool* = DIBRANCHIATA — **ac'e-tab'u-lif'er-ous**, *a.*

ac'e-tab'u-lous, *a.* = ACETABULIFORM.

a-ce'ta-ce'tic (ā-sē'tȧ-sē'tĭk; -sĕt'ĭk), *a.* = ACETO-ACETIC

ac e-tan'i-on (ăs'ĕ-tăn'ĭ-ŏn), *n.* [*acet-* + *anion*.] *Chem* The anion $C_2H_3O_2$, present in aqueous solutions of acetates or acetic acid.

ac'e-ta-ry (ăs'ĕ-tȧ-rĭ), *n.* [L. *acetaria* salad plants.] An acid pulpy substance mingled with grit cells, at the basal end of the pear and related fruits *Obs.*

ac'e-ta'tion (-tā'shŭn), *n. Chem* Acetification.

ac'e-te-nyl (ăs'ĕ-tē-nĭl), *n.* [*acetylene* + *-yl*.] *Chem.* The radical C_2H, of which acetylene is the hydride

‖ **ac e'ti-am** (ăk ē'shĭ-ăm). *or, sometimes*, **ac-e'ti-am** [L.] Lit., and also; — used in and of certain actions in which it was necessary to allege a fictitious cause of action to found jurisdiction, and also the real cause.

ac'e-tite (ăs'ĕ-tīt), *n.* *Chem.* Acetate. *Obs* [*Rare.*]

ac'e-tize (-tīz), *v. t* To acetify

ac'e-tom'e-ter (-tŏm'ē-tĕr), *n.* = ACETIMETER

ac'e-tom'e-try (-trĭ), *n. Chem.* Acetimetry

ac'e-to-ni'trile (-tō-nī'trĭl), *n. Chem.* Acetic nitrile See NITRILE.

ac'e-tose (ăs'ĕ-tōs), *a* Sour like vinegar; acetous — **ac'e-tos'i-ty** (-tŏs'ĭ-tĭ), *n*

ac'e-to-sol'u-ble, *a. Chem.* Soluble in acetic acid.

ac'e-to'sous, *a* Acetose *Obs.*

acetyl carbinol = METHYL KETOL [DRIDE.]

acetyl oxide. = ACETIC ANHYDRIDE.

ach + AC, OWE

‖ **ach** (äk), *interj* [G] Ah.

ach (ăch), *n* [Native name] Any of several East Indian trees of the genus *Morinda*.

ache, ake (āk; *see note below*), *v. i.*; ACHED, AKED (ākt); ACH'ING, AK'ING (āk'ĭng). [ME. *aken*, AS. *acan*, both strong verbs, AS. *acan*, imp. ōc, p. p. *acen*, to ache.] To suffer pain; to have, or be in, pain, or continued pain; to be distressed. "My old bones *ache*." *Shak.*
The sins that in your conscience *ache* *Keble.*
☞ Historically the verb is spelt *ake* (pron. ak, āk), the noun *ache* (pron ach, āch), like *bake* and *batch*, etc. About 1700 the two began to be confused in pronunciation, and hence in spelling, and as a result of this confusion we have for both words the spelling *ache*, but the pronunciation "āk."

ache, ake (āk; *see note under verb*), *n.* [ME. *ache*, AS. æce, ece, fr. *acan* to ache. See ACHE, *v. i.*] Continued pain, as distinguished from sudden twinges, or spasmodic pain. "Such an *ache* in my bones." *Shak*
Syn. — See PAIN.

a-chene' (*ā*-kēn'), *n.* Also *akene*. [Gr. *ā-* not + *χαίνειν* to gape.] *Bot.* A small, dry, indehiscent, one-seeded fruit, having a thin pericarp, as the fruit of the buttercup. It was formerly called a *naked seed*. — **a-che'ni-al** (*a*-kē'nĭ-*ăl*), *a.*

Achene of Buttercup in vertical section, showing solitary seed.

A'cher-nar (ā'kẽr-nar), *n.* [AR. *ākhar al nahr* end of the river (i. e., of the constellation).] *Astron.* A star in the constellation Eridanus. See STAR.

A-cher'ni-an (*ā*-kûr'nĭ-*ăn*), *a.* *Astron.* In chemical classification of the stars, denoting likeness of spectrum to that of Achernar, and indicating hydrogen, helium, asterium, oxygen, nitrogen, and carbon.

Ach'er-on (āk'ẽr-*ŏn*), *n.* [L., fr. Gr. 'Αχέρων.] *Class. Myth.* The River of Woe, one of the rivers of Hades; hence, the Nether World itself.
Sad *Acheron* of sorrow, black and deep. *Milton.*

Syn. — See FEAT.

a-chi'la-ry (*ā*-kĭ'lă-rĭ), *a.* [Gr. *ā-* not + *χεῖλος* lip.] *Bot.* Having no lip, as some orchidaceous flowers.

Ach'il-le'a (ăk'ĭ-lē'*ă*), *n.* [NL., fr. L., a plant, perh. the same as *achilleos* (*herba*), fr. Gr. ἡ Ἀχίλλειος (βοτάνη); a plant said to have been used by *Achilles* in treating Telephus.] *Bot.* A large genus of asteraceous plants, mainly of the Old World, distinguished by the flattened achenes and chaffy receptacle, and including the common yarrow (*A. millefolium*) and the sneezewort (*A. ptarmica*).

Ach'il-le'an (ăk'ĭ-lē'*ăn*), *a.* [L. *Achilleus*, Gr. 'Αχίλλειος.] Pert. to or like Achilles, as in youthful strength and beauty, in valor, in invulnerableness, or in moody and resentful wrath.
Achillean wrath — an untamable petulance. *Emerson*

Ach'il-le'id (-ĭd), *n.* The original epic narrative which (according to those who consider the Iliad to be a composite or expanded work) forms the basis of the Iliad, comprising the books directly concerned with the story of Achilles.

A-chil'les (*a*-kĭl'ēz), *n.* [L., fr. Gr. 'Αχιλλεύς.] The son of Peleus and Thetis, the hero of Homer's Iliad, who became the type to the Greeks of youthful strength, beauty, valor, and chivalry. He took part in the Trojan war, knowing he would be killed, but preferring an early death to a longer inglorious life. In his wrath at being deprived of Briseis by Agamemnon he withdraws from the war, but later returns to it to avenge the death of his friend Patroclus, and slays Hector. His death is alluded to in the Odyssey. By dipping him in the Styx, his mother had made him invulnerable except in the heel, by which she held him. Here he was finally fatally wounded by an arrow shot by Paris. See AMAZON, CHIRON; cf. HECTOR.
Achilles of England, Arthur Wellesley, Duke of Wellington (1769–1852). — **A. of Germany**, Albert III., Margrave of Brandenburg (1414–86). — **Achilles' tendon** [L. *Achillis tendo*], *Anat.*, the strong tendon formed of the united tendons of the large muscles in the calf of the leg, and inserted into the bone of the heel; — so called from the mythological account of Achilles being held by the heel. In most quadrupeds it is called *hamstring* (which see).

A-chim'e-nes (*a*-kĭm'ĕ-nēz), *n.* [NL., fr. L. *achaemenis* a magic plant (Pliny), Gr. ἀχαιμενίς] *Bot.* A genus of tropical American gesneriaceous herbs, commonly cultivated for their handsome flowers, resembling gloxinias. Also [*l. c.*], a plant of this genus.

Ach'i-nese' (ăch'ĭ-nēz', -nēs'), *n. sing. & pl.* A native of Achin, a kingdom of northwestern Sumatra, now under Dutch rule. The Achinese are a mixed Malay, Indonesian, and Arab population, somewhat affected by Hindu culture. See MALAYO-POLYNESIAN. — **Ach'i-nese'**, *a*

ach'ing, ak'ing (āk'ĭng), *p. a.* That aches; continuously painful. See ACHE. — **ach'ing-ly, ak'ing-ly**, *adv.*

A-chit'o-phel (*a*-kĭt'*ŏ*-fĕl), *n.* **1.** = AHITHOPHEL
2. The first Earl of Shaftesbury (1621–83); — a nickname given by his contemporaries, and made use of by Dryden in his poem "Absalom and Achitophel." See ABSALOM, 2.

a-chlam'y-date (*ā*-klăm'ĭ-dāt), *a.* [*a-* not + *chlamydate*.] *Zoöl.* Without a mantle; — said of some gastropods

Ach'la-myd'e-æ (ăk'*la*-mĭd'ē-ē), *n. pl.* [NL.] *Bot.* A subdivision of the Apetalæ embracing all that are destitute of a perianth. See APETALÆ. — **ach'la-myd'e-ous** (-ŭs), *a.*

Achlamydeous Flower of Lizard's-tail (*Saururus cernuus*).

a-cho'li-a (*a*-kŏ'lĭ-*ă*), *n* [NL., fr. Gr. ἀχολία, *a-* not + χολή bile.] *Med* Deficiency or want of bile. — **a-chol'ic** (-kŏl'ĭk), **ach'o-lous** (ăk'ŏ-lŭs), *a.*

a-chon'drite (*a*-kŏn'drīt), *n.* [*a-* not + *chondrite*.] A meteoric stone destitute of chondrules; — opposed to *chondrite*.

a-chon'dro-pla'si-a (-drŏ-plā'zhĭ-*ă* ; -zĭ-*ă*), *n.* [NL.; *a-* not + *chondro-* + *-plasia*.] *Med.* Lack of the normal formation of cartilage, as in fetal rickets.

A-cho'ri-on (*ā*-kŏ'rĭ-*ŏn*), *n.* [NL., fr. Gr. ἄχωρ scurf.] *Bot.* A genus or subgenus of fungi, frequently included in the genus *Oïdium*, parasitic on the skin of men and other animals. *A. schœnleinii* causes favus.

Ach'ras (āk'răs), *n.* [NL., fr. L. *achras*, Gr. ἀχράς, a wild pear tree.] *Bot.* a Syn. of SAPOTA. **b** A genus of tropical American sapotaceous trees having leathery leaves, small flowers with a 4–5-parted corolla, and mostly edible fruits.
☞ The genus *Achras* was originally based by Linnæus on the marmalade tree of the West Indies, which he called *A. zapota*; but he later described an entirely different tree, the sapodilla, under the name *Achras sapota*. The first species, *A. zapota*, was afterward included by Gaertner in the genus *Lucuma*, under the name *L. mammosa*; and this erroneous nomenclature has become familiar to botanists. But *Lucuma* is retained only as the name of a genus consisting of 2 Chilean and Peruvian species; the marmalade tree is therefore *Achras zapota*, while the sapodilla is *Sapota zapotilla*.

Ach'ro-an'thes (ăk'rŏ-ăn'thēz), *n.* [NL. See ACHROOUS; ANTHO-.] *Bot.* A large genus of small terrestrial orchids found in Europe, Asia, and America. *A. monophylla*, the white adder's-mouth, and *A. unifolia*, the green adder's-mouth, are natives of the United States. They have greenish, inconspicuous flowers.

a-chro'o-cy-thæ'mi-a, *or* **-the'mi-a** (*ā*-kroĭ'ŏ-sĭ-thē'mĭ-*ă*), *n.* [NL.; Gr. ἄχροος colorless + *cyto-* + *-hæmia*.] *Med.* Deficiency of hæmoglobin in the red blood corpuscles

ach'ro-ite (āk'rŏ-īt), *n.* [See ACHROOUS; -ITE.] *Min.* A colorless variety of tourmaline.

ach'ro-mat'ic (-măt'ĭk), *a.* [Gr. ἀχρώματος colorless; *ā-* not + χρῶμα, χρώματος, color.] **1.** *Opt.* a. Free from color; refracting light without decomposing it into its constituent colors; giving or showing images almost free from extraneous colors, as, an *achromatic* telescope or microscope; *achromatic* images.
2. *Biol.* **a** Uncolored; not readily colored by the usual staining agents, — said of tissue. **b** Composed of achromatin.
3 *Music.* Without accidentals or modulation.
achromatic condenser, *Optics*, an achromatic lens used as a condenser. — **a. lens**, *Optics*, a lens composed usually of two separate lenses, a convex and a concave, of substances having different refractive and dispersive powers, as crown and flint glass, with the curvatures so adjusted that the chromatic aberration produced by the one is corrected by the other, and light emerges from the compound lens undecomposed, or nearly so — **a. prism**, *Optics*, a prism constructed on the same principle as an achromatic lens, so that a ray of white light passed through it is refracted, but is nearly free from color. — **a spindle**, *Biol.* See SPINDLE, *Biol.*

Achromatic Lens.

Achromatic Prism

ach'ro-mat'ic, *n.* A telescope having an achromatic object glass

a-chro'ma-tin (*a*-krō'*ma*-tĭn), *n* *Biol.* The substance of the cell nucleus which is not readily colored by basic stains; — opposed to *chromatin*.

a-chro'ma-tism (-tĭz'm), *n.* State or quality of being achromatic; as, the *achromatism* of a lens.

a-chro'ma-tize (*a*-krō'*ma*-tīz), *v. t.*; -TIZED (-tīzd); -TIZ'ING (-tīz'ĭng). To deprive of color, to make achromatic. — **a-chro'ma-ti-za'tion** (-tĭ-zā'shŭn; -tī-zī'-), *n.*

a-chro'ma-to-, achromat-. Combining forms fr. Gr. ἀχρώματος, *colorless*. See ACHROMATIC.

a-chro'ma-tous (*ā*-krō'*ma*-tŭs), *a* [See ACHROMATIC] Lacking, or deficient in, color, as, *achromatous* blood.

a-chro'mic (-mĭk), *a.* [Gr. ἀχρωμος colorless; *ā-* not + χρῶμα color] Free from color; colorless; as, in *Physiol. Chem.*, the *achromic* point of a starch solution acted upon by an amylolytic enzyme is the point at which it fails to give any color with iodine.

ach'ro-ö-dex'trin (ăk'rŏ-ō-dĕks'trĭn), *n* [Gr ἄχροος colorless + E. *dextrin*.] *Chem* A variety of dextrin not colorable by iodine. See DEXTRIN.

ach'ro-ous (ăk'rŏ-*ŭs*), *a.* [Gr. ἄχροος; *ā-* not + χρόα color.] Colorless; achromatic.

Ach'y-ran'thes (ăk'ĭ-răn'thēz), *n.* [NL; Gr ἄχυρα chaff, husks + ἄνθος flower.] **a** *Bot.* A genus of tropical amaranthaceous herbs having spicate flowers, the sepals being pointed or awn-tipped. **b** [*l. c.*] *Hort.* Any of several species of *Iresine* (which see).

a-cic'u-la (*a*-sĭk'ū-*la*), *n.*; *pl.* -LÆ (-lē). [L., dim. of *acus* needle.] A needlelike spine, bristle, or crystal.

a-cic'u-lar (-*lar*), *a* Needle-shaped, slender like a needle or bristle, as some leaves or crystals; also, having sharp points like needles. — **a-cic'u-lar-ly**, *adv.*

a-cic'u-late (*a*-sĭk'ū-lāt) } *a.* *Bot.* & *Zool.* **a** Furnished
a-cic'u-lat'ed (-lāt'ĕd) } with aciculæ. **b** Acicular. **c** Marked with fine irregular streaks like needle scratches.

a-cic'u-lum (-lŭm), *n.*; *pl.* E. -LUMS (-lŭmz), L. -LA (-*la*). [NL. See ACICULA.] A needlelike spine or bristle of an animal or plant; specif., *Zoöl.*, one of the stiff setæ in the base of a parapodium of an annelid.

ac'id (ăs'ĭd), *a.* [L. *acidus* sour, fr. a root meaning to be sharp. cf. F. *acide*. Cf ACUTE.] **1.** Sour, sharp, or biting to the taste; tart; having the taste of vinegar; as, *acid* fruits or liquors. Also fig., sour-tempered.
He was stern and his face as *acid* as ever *A. Trollope.*
2. Of, pertaining to, or of the nature of, an acid.
3. Having acid-forming constituents present in excess of the proportion required to form a neutral or normal compound; as, *acid* salts; *acid* (highly siliceous) rocks.
Syn. — See SOUR.
acid albumin. *Physiol. Chem.* See ALBUMINATE. — **a. amide**. *Chem.* = AMIDE b. — **a. anhydride** *Chem.* = ANHYDRIDE a. — **a. azide**, *Chem*, the azide of an acid radical. — **a. bromide** *or* **chloride**, *Chem.*, the bromide or chloride of an acid radical. — **a. brown**. See DYE. — **a. chloride**, *Chem.*, a chloride of an acid radical, as acetyl chloride. — **a. color** *or* **dye**, a dye which is either an acid, as picric acid, or a salt in which the color is due to the acid constituent. Acid

ac'id (ăs'ĭd), *n* **1.** A sour substance.

2. *Chem.* **a** Any one of a class of substances which typically are soluble in water, sour in taste, and redden vegetable blues, as litmus: (1) In the older chemistry, an oxide of a negative element or radical which forms salts by direct union with bases; as, sulphuric *acid,* SO_3, unites with the base calcium oxide, CaO, to form calcium sulphate, $CaO{\cdot}SO_3$. (2) According to modern views, a compound containing hydrogen capable of being replaced by positive elements or radicals to form salts, or, in terms of the dissociation theory, a compound that dissociates in aqueous solution with the production of hydrogen ions; as, sulphuric *acid,* H_2SO_4, in aqueous solution reacts with the base calcium hydroxide, $Ca(OH)_2$, to form calcium sulphate, $CaSO_4$, and water. Only a few acids contain no oxygen; and these are sometimes called *hydracids* in distinction from the others, called *oxygen acids* or *oxyacids.* See also SULPHACID. Acids may be regarded as salts of hydrogen, hence the names, sometimes used, *hydrogen nitrate* for nitric acid, *hydrogen sulphate* for sulphuric acid, etc.

☞ Names of oxyacids end in *-ic* and their corresponding salts in *-ate,* unless it is desired to indicate increasing proportions of oxygen, as in the following series: *hypochlorous* acid, HClO, *chlorous* acid, $HClO_2$, *chloric* acid, $HClO_3$; *perchloric* acid, $HClO_4$. Salts formed from *-ous* acids take the ending *-ite;* as, potassium chlor*ite.*

b By extension, a compound which in any solvent dissociates, with the production of hydrogen ions; as, an ammono-*acid.* See AMMONO-.

3. *Elec.* Dilute sulphuric acid, used in storage batteries.

acid egg. A cylindrical cistern from which acid is forced by compressed air, as in manufacturing sulphuric acid.

ac'id—fast', *a. Biol.* Not easily decolorized by acids or other agents when stained; — said of bacilli, tissues, etc.

ac-knowl'edge (ăk-nŏl'ĕj; *by some, esp. in England,* -nō'lĕj), *v. t.*; AC-KNOWL'EDGED (-ĕjd; -ĭjd); AC-KNOWL'EDG-ING. [Prob. fr. *a-* + the verb *knowledge.* See KNOWLEDGE; cf. ACKNOW.] **1.** To own or admit the knowledge of; to recognize as a fact or truth, to declare one's belief in; as, to *acknowledge* the being of a God; — often followed by an objective with an infinitive, or by a dependent sentence.

I *acknowledge* my transgressions *Ps* li 3.

For ends generally *acknowledged* to be good *Macaulay.*

The king promised to *acknowledge* himself to be the author of the enterprise. *Robertson.*

2. To own or recognize in a particular character or relationship; to admit the claims or authority of; to recognize.

In all thy ways *acknowledge* Him *Prov* iii 6

By my soul, I'll ne'er *acknowledge* thee *Shak.*

3. To own with gratitude or as a benefit or an obligation, as, to *acknowledge* a favor, or the receipt of a letter.

They his gifts *acknowledged* none. *Milton*

4. To own as genuine; to assent to, as a legal instrument, to give it validity; to avow or admit in legal form; to make acknowledgment of; as, to *acknowledge* a deed.

Syn. — Grant, concede, allow, assent, accept, recognize. — ACKNOWLEDGE, ADMIT, OWN, AVOW, CONFESS agree in the idea of assent, frequently under some sort of pressure. *Acknowledge,* as here compared, implies the making public of one's knowledge of something which has been, or might have been, kept back or concealed; as, to *acknowledge* a secret marriage, one's faults, one's ignorance. *Admit,* with less suggestion of possible concealment, stresses the notion of granting or conceding, and refers rather to facts than to their implications; to *admit* a charge may involve merely the granting of the fact alleged, not necessarily (as frequently with *acknowledge*) the acceptance of the point of view which the charge implies. *Own* is less formal than *acknowledge,* and regards the thing acknowledged in its relation to one's self; as, to *own* one's self at a loss, to *own* to forty years. *Avow* implies an open or bold declaration, frequently in the face of hostility; as, to *avow* one's principles, one's participation in a movement. *Confess* (opposed to *deny*) usually applies to what one feels to be wrong (as, to *confess* a crime); but it is often used with no such implication, suggesting merely deference to the opinion of others; as, I am not, I *confess,* convinced. See ALLOW, AGREE, GRANT, RECOGNIZE.

I do not think there is an able writer in verse of the present day who would not be proud to *acknowledge* his obligations to the Reliques: . . . for myself, I am happy in this occasion to make a public *avowal* of my own. *Wordsworth.*

She excused herself for her fault not by *admitting* and deploring it, but by pleading not guilty *Thackeray.*

When a man *owns* himself to have been in an error, he does but tell you in other words that he is wiser than he was *Pope.*

Confess your faults one to another *James* v. 16.

For my own part, I must *confess* that I do not understand this phraseology. *Huxley.*

c The owning of a benefit received; courteous recognition; expression of thanks. *Shak.* **d** A declaration or avowal of one's act or a fact to give it legal validity; specif., a declaration before a duly qualified public officer, by one who has executed a deed, that the execution was his (free) act and deed. The acknowledgment entitles the deed to be recorded and enables it to be used in evidence without further proof of its execution; but it is not required to make it good between the parties and their privies with notice.

2. That which evidences the act of acknowledging; as: **a** A thing done or given by way of recognition of something, as a favor, communication, etc., received. **b** The formal certificate made by an officer before whom one has acknowledged a deed, including as an essential part thereof the signature and seal of the officer.

Syn. — Confession, concession, admission, recognition.

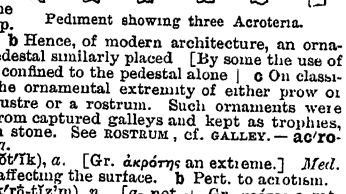
ac'ro-tar'si-um (ăk'rō-tär'sĭ-ŭm), *n.* [NL. See ACRO- ; TARSUS.] *Zool.* The instep, or front of the tarsus. — **ac'ro-tar'si-al** (-ăl), *a.*

ac'ro-te-leu'tic (-tē-lū'tĭk), *n.* [Gr. *ἀκροτελεύτιον* fag-end, burden, chorus ; *ἄκρος* extreme + *τελευτή* end] *Eccl.* The end of a verse or psalm, or something added thereto, to be sung by the people, by way of a response, as a doxology.

ac'ro-te'ri-um (-tē'rĭ-ŭm), **ak'ro-te'ri-on** (-ŏn), *n. ; pl.* -RIA (-*ā*). [L. *acroterium,* Gr. *ἀκρωτήριον* summit, fr. *ἄκρος* topmost.]



Pediment showing three Acroteria.

Arch. **a** On classical buildings, one of the angles of a pediment ; also, a statue or other ornament placed at one of these, esp. at the apex. **b** Hence, of modern architecture, an ornament or its pedestal similarly placed [By some the use of *acroterium* is confined to the pedestal alone] **c** On classical galleys, the ornamental extremity of either prow or stern ; an aplustre or a rostrum. Such ornaments were often taken from captured galleys and kept as trophies, or imitated in stone. See ROSTRUM , cf. GALLEY. — **ac'ro-te'ri-al** (-ăl), *a.*

a-crot'ic (*ā*-krŏt'ĭk), *a.* [Gr. *ἀκρότης* an extreme.] *Med.* **a** Pert. to or affecting the surface. **b** Pert. to acrotism.

ac'ro-tism (ăk'rō-tĭz'm), *n.* [*a-* not + Gr. *κρότος* a rattling, beating.] *Med.* Failure or defect of pulsation

a-crot'o-mous (*ā*-krŏt'ō-mŭs), *a.* [Gr. *ἀκρότομος* cut off sharp ; *ἄκρος* extreme + *τέμνειν* to cut.] *Min.* Having a cleavage parallel with the base.

ac'ry-late (ăk'rĭ-lāt), *n.* A salt or ester of acrylic acid.

a-cryl'ic (*a*-krĭl'ĭk), *a.* [*acrolein* + *-yl* + *-ic*] *Chem.* Pertaining to or designating an acid, CH_2 CH CO_2H, obtainable from acrolein by oxidation. It is a liquid with an odor like that of acetic acid.

act (ăkt), *n.* [F. *acte*, L. *actus*, and *actum*, fr. *agere* to drive, do. See AGENT.] **1.** That which is done or doing ; the exercise of power, or the effect of which power exerted is the cause ; a performance ; a deed.

> That best portion of a good man's life,
> His little, nameless, unremembered *acts*
> Of kindness and of love. *Wordsworth.*

Jurisprudence is concerned only with outward *acts.* An "*act*" may therefore be defined, for the purposes of the science, as "a determination of will, producing an effect in the sensible world." The effect may be negative, in which case the *act* is properly described as a "forbearance." The essential elements of such an *act* are three, viz., an exertion of the will, an accompanying state of consciousness, a manifestation of the will.
T. E Holland

2. The result of public deliberation ; the decision or determination of a legislative body, council, court of justice, etc. ; a decree, edict, law, judgment, resolve, award ; as, an *act* of Parliament, or of Congress. Properly a legislative *act* is the complete formally declared will of the legislature, the final step in which is usually the signature of the proper executive officer ; and it is properly to be distinguished from a *bill*, which is strictly the draft of a proposed act, and is properly so called prior to its final enactment as law. *Act* and *statute* are generally used synonymously, and *bill* and *law* are also often used in the same sense, *law*, however, being a term of much wider application, and therefore inexact in this use. Under the common law an act took effect by relation as of the first day of the session at which it was enacted, but by statute it is now provided in England (by 33 Geo. III. c. 13, 1793), and generally in the United States, that except when otherwise provided a statute shall take effect only as of the date of the actual completion of its enactment. Acts are broadly divided into *general*, or *public*, and *special*, or *private*. See under PUBLIC and PRIVATE.
3. A formal writing expressing that something has been done ; as, an *act* of sale.
4. A performance of part of a play ; one of the principal divisions of a play or dramatic work in which a certain definite part of the action is completed.
5. A thesis maintained in public, as in some English universities, by a candidate for a degree, or to show the proficiency of a student ; also, the occasion of this performance.
6. *Metaph.* A state of reality or real existence as opposed to a possibility or possible existence. Cf. ENTELECHY, ACTUS.

> The seeds of plants are not at first in *act*, but in possibility, what they afterward grow to be. *Hooker*

7. *pl.* [*cap.*] Short for *Acts of the Apostles.* See NEW TESTAMENT.
8. Process of doing ; action. *In act,* in the very doing, on the point of (doing). "*In act* to shoot." *Dryden.*

> This woman was taken . . . *in* the very *act* *John* VIII. 4.

Syn. — See ACTION.

act and warrant, *Scots Law*, the final interlocutor of the sheriff by which the appointment of a trustee in insolvency or bankruptcy is confirmed, constituting his title to the office, and vesting in him the bankruptcy estate. — **A. of Abjuration,** *Netherlands*, an act of July 26, 1581, renouncing allegiance to Philip of Spain, and declaring Dutch independence. — **a. of attainder.** *Law.* See ATTAINDER. — **a. of bankruptcy,** *or* **insolvency,** an act which subjects a person to be proceeded against as an involuntary bankrupt or insolvent. — **a. of court,** *Eng & Scots Law*, an instrument or memorandum setting forth the proceedings in an action, as the pleas, tender of payment, etc. — **A. of Elizabeth,** *Eng.*, an act (1 Eliz. c. 1, 1559) declaring Elizabeth to be the head of the Church of England. — **A. of Emancipation.** *Eng.* = CATHOLIC EMANCIPATION ACT. — **a. of faith.** See AUTO-DA-FÉ. — **a. of God,** *Law*, an inevitable accident ; such an extraordinary interruption of the usual course of events that any experience, foresight, or care which might reasonably have been expected could not have foreseen or guarded against it, as lightning, tempests, extraordinary tides, etc. No one is held liable for damage by act of God, except under special contract.

> The expression "*act of God*" requires a word of explanation. It will be sufficient to say that it is not synonymous with force majeure ; but it includes every loss by force majeure in which human agency, by act or negligence, has had no part. *Lueke But.*

— **a. of grace,** an act extending clemency to offenders before the law, as one granting pardon or amnesty to numerous offenders at the beginning of a new reign ; specif. [*cap.*], *Scots Law*, the act of 1696, by chapter 32 of which persons imprisoned for civil debts were released unless the creditor alimented them. — **a. of honor,** *Com.*, an acceptance or payment for honor of a protested bill of exchange, also, the instrument reciting such protest and acceptance or payment. — **a. of hostility,** *Internat. Law*, any proceeding which may be considered an adequate cause for war — **a. of indemnity,** *Law*, an act passed to relieve persons, esp officials, from some penalty to which they are made liable by acting illegally, or beyond the limits of their powers, or, less commonly, to provide compensation for damage incurred in the service of the government or resulting from some public measure. Prior to the general act of 31 & 32 Vict. c. 72, § 16, an act of indemnity was passed yearly in England. — **a. of insolvency** See *act of bankruptcy*, above. — **a. of law,** a change of a person's legal rights, obligations, or liabilities, as in the acquisition of a right or exemption from a liability, arising from the legal effect of some external event, as bankruptcy adjudication, an act of the legislature, etc.

> The distinction between involuntary and voluntary investitive facts is expressed by the English law terms "*act of law*" and "*act of party*" *T. E Holland.*

— **A of Mediation,** *Switz.*, the constitution of Feb 19, 1803, given by Napoleon, by which the Swiss Confederation was restored. — **a. of Providence,** *Law*, an act of God *Rare.* — **A. of Rescission,** *Scot.*, an act of 1662 rescinding all laws passed during 28 years previous. — **A of Security,** *Scot.*, an act of 1703 and 1704 declaring the independence of Scotland. It was not assented to by the queen till 1704. — **A. of Settlement,** *Eng.*, an act (12 and 13 William III. c. 2., 1701) limiting the crown to members of the House of Hanover, provided they be Protestants. — **A. of Submission,** *Ch. of Eng.*, an agreement passed by Convocation in 1532 (called the *Submission of the Clergy*) which prevented the clergy from meeting in Convocation and from passing any canons without the king's express permission, and ordered all previous enactments to be submitted to the king for approval or rejection. This was embodied in an act of Parliament (25 Hen. VIII. c. 19) in 1534 — **A. of Succession.** See *Limitation of the Crown Act*, under LIMITATION. — **A. of Supremacy.** *Eng. Hist* **a** The act of 26 Hen VIII c. 1, 1534, declaring the "only supreme head on earth of the Church of England" to be the Crown. It was repealed in Mary's reign. **b** The act of 1 Eliz. c 1, in effect reenacting the previous one, and declaring the Crown to be the "supreme governor" in spiritual as well as temporal matters. — **A. of Toleration.** *Eng.*, an act (1 Wm. & M. st. 1, c. 18, 1689) enabling dissenters (except Roman Catholics and Unitarians) to worship after their own forms — **A. of Uniformity** *Eng.*, any of various acts (as 2 & 3 Edw. VI. c. 1, 1548 ; 5 & 6 Edw. VI., 1551 ; 1 Eliz., 1559, and, esp., 14 Car. II. c. 4, 1662, which was amended by 25 & 26 Vict. c. 35, 1872) prescribing the use of the "Book of Common Prayer" in public worship in the Established Church, and enjoining uniformity in religious observances — **acts of adjournal,** *Scots Law*, the ordinances issued by the Court of Justiciary for regulating the procedure in that court and the inferior criminal courts. — **Acts of Pilate.** = GOSPEL OF NICODEMUS. See APOCRYPHA. — **acts of sederunt,** *Scots Law*, ordinances of the Court of Session for regulating the forms of proceeding before the Court of Session and inferior civil courts. The modern acts of sederunt are confined to matters of procedure. — **Acts of the Apostles.** See NEW TESTAMENT.

act (ăkt), *v. t. ;* ACT'ED ; ACT'ING. [L. *actus*, p. p. of *agere* to drive, lead, do ; but influenced by E. *act*, n.] **1.** To move to action ; to actuate ; animate *Obs.*
2. To perform , execute ; do. *Archaic.*

> That we *act* our temporal affairs with a desire no greater than our necessity. *Jer Taylor.*
> Industry doth beget ease by procuring good habits, and facility of *acting* things expedient for us to do *Barrow.*

3 To perform as an actor ; to represent dramatically, on the stage.
4. To assume the office or character of ; to play ; personate ; as, to *act* the hero.
5. To feign or counterfeit ; to simulate.

> With *acted* fear the villain thus pursued. *Dryden.*

to act a part, to sustain the part of one of the characters in a play ; hence, to simulate ; dissemble. — **to a. the part of,** to take the character of ; to fulfill the duties of.

act, *v. i.* **1.** To exert power ; to produce an effect ; as, the stomach *acts* upon food.
2. To perform actions ; to fulfill functions ; to put forth energy ; to move, as opposed to remaining at rest ; to carry into effect a determination of the will.

> He hangs between, in doubt to *act* or rest. *Pope.*

n. [NL. ; *acro-* + Gr. *μικρός* small.] *Med.* Abnormal smallness of the extremities.

a-cro'mo'no-gram-ma'tic, *a.* [*acro-* + *mono-* + Gr. *γράμμα* a letter.] *Pros.* Having each verse begin with the letter that ends the preceding verse.

a-crom'pha-lus (*a*-krŏm'fă-lŭs), *n.* [NL. ; *acro-* + Gr. *ὀμφαλός* navel.] *Med* Abnormal prominence of the navel ; also, the center of the navel.

acron. † ACORN.

ac'ro-neu-ro'sis, *n.* [NL. ; *acro-* + *neurosis.*] *Med.* Neurosis of the extremities

a-cron'i-cal, a-cron'i-chal, *a.* Acronycal.

a-cron'yc (*ā*-krŏn'ĭk), *a.* Acronycal.

ac'ro-nyc'tous (ăk'rō-nĭk'tŭs), *a.* [Gr. *ἀκρόνυκτος.*] *Astron.* Acronycal

a c'ro-nyx (ă k'rō-nĭ ks), *n.* [*acro-* + Gr. *ὄνυξ* nail, claw.] *Med.* An ingrowing nail.

a-crook', *adv.* Crookedly. *Rare.*

a c'ro-par'ses-the'si-a, *or* **-es-the'si-a** (ăk'rō-păr'sĕs-thē'sĭ-*ā*), *n.* [NL. ; *acro-* + *paræsthesia*] *Med* Neurosis characterized by paræsthesia in the extremities.

a-crop'a-thy (*ā*-krŏp'*a*-thĭ), *n.* [*acro-* + *-pathy.*] Any diseased state of the extremities.

a c'r o-p o'd i-um (ăk'rō-pō'dĭ-ŭm), *n. ; L. pl.* -DIA (-*ā*). [NL. See ACRO- ; -POD.] *Zool.* In birds, the upper surface of the foot.

ac'ro-pol'i-tan (-pŏl'ĭ-tăn), *a.* Pertaining to an acropolis.

Ac'ro-po'ra (ăk'rō-pō'rā ; *ă*-krŏp'ō-rā), *n.* [NL. ; *acro-* + *-pora.*] *Zool.* The genus consisting of the typical madrepores. *Madreporea* is a synonym.

ac'ro-sarc (-sark), **ac'ro-sar'cum** (-sär'kŭm), *n. ; L. pl.* -SARCA (-*kă*). [NL. *acrosarcum.* See ACRO- ; SARCO-.] *Bot.* A berry which results from the union of the fleshy calyx with the ovary, as the gooseberry, cranberry.

a c'r o-s c o p'i c (-skŏp'ĭk), *a.* [*acro-* + *-scopic.*] *Bot.* Looking towards the apex, that is, on the side towards the apex.

ac'ro-some (-sōm), *n.* [*acro-* + *-some*] *Zool.* A minute body or organ situated at the anterior end, or head, of a spermatozoon.

a-cros'tic, *a.* [Cf. ACROSS.] Crosswise ; erratic. *Obs.*

a-cros'ti-chal (*a*-krŏs'tĭ-kăl), *a.* Var. of ACROSTICAL. — **a-cros'ti-chal-ly,** *adv.*

ac'ros-tich'ic (ăk'rŏs-tĭk'ĭk), *a.* Of or pert. to acrostics.

a-cros'ti-choid (*ā*-krŏs'tĭ-koid), *a.* [*Acrostichum* + *-oid.*] *Bot.* Resembling, or pertaining to, the genus *Acrostichum.*

ac'ro-sto'li-um (ăk'rō-stō'lĭ-ŭm), *n. ; pl.* -STOLIA (-*ă*). [NL., fr. Gr. *ἀκροστόλιον.*] = ACROTERIUM c.

ac'ro-ter (ăk'rō-tĕr ; *a*-krō'tĕr), *n.* [F *acrotère.*] *Arch.* = ACROTERIUM. — **ac'ro-te'ral,** *a.*

ac'ro-te'ri-on (-tē'rĭ-ŏn). Var. of ACROTERIUM.

‖ **a cru'ce sa'lus** [L.] Salvation (is) from or by the cross.

A'crux (ā'krŭks), *n.* [Prob. fr. Gr. *α* (alpha) + L. *crux* cross.] *Astron.* See STAR.

acsien. † ASK.

3. To behave or conduct, as in morals, private duties, or public offices; to bear or deport one's self, as, we know not why he has *acted* so.

4. To perform on the stage; to represent a character.

To show the world how Garrick did not *act*. *Cowper.*

5. To admit of being performed or acted; — said of plays. It is certainly one of the best *acting* plays going. Perhaps a play to *act* well should not be too poetical. *J. G. Lockhart.*

to act as *or* **for**, to do the work of, to serve as. — **to a. on**, to regulate one's conduct according to or in reliance upon. — **to a. up to**, to equal or fulfill in action or practice.

ac'ta (ăk'tȧ), *n. pl.* [L., pl. of *actum*. See ACT, *n.*] **1.** Lit., things done; deeds, esp., recorded proceedings; official acts; transactions; specif., among the Romans, the acts and orders of a magistrate.

2. The record of such transactions, as in: **a** *Rom. Hist.* **Ac'ta Se-na'tus**, *or* **Pa'trum**, the recorded transactions of the Roman senate, **Ac'ta Di-ur'na** (also called *Ac'ta Pub'li-ca*, *Ac'ta Ur-ba'na*, *Ac'ta Pop'u-li*, etc.), a kind of official gazette of the transactions of the courts, army, etc., and of important births, deaths, etc., posted up in public places during the later years of the republic and under the empire; **ac'ta fo-ren'si-a**, court records, being either private accounts admitted as legal evidence, or the **ac'ta ju-di'ci-o'rum** (jōō-dĭsh'ĭ-ō'rŭm), the records of the proceedings of magistrates. **b** *Eccl.* **Ac'ta Mar'ty-rum**, real or alleged contemporary accounts of early Christian martyrdoms, specif., the collection "*Ac'ta Pri-mo'rum Mar'ty-rum*" published by Thierry Ruinart in 1689; and **Ac'ta Sanc-to'rum**, lit., deeds of the saints, a collection of biographies of Christian saints and martyrs, such as that begun by the Bolland ists in 1643 and now comprising over sixty volumes.

3. [*cap.*] Short for ACTA DIURNA, ACTA MARTYRUM, etc. **Ac'ta A-pos'to-lo'rum.** = *Acts of the Apostles.* See NEW TESTAMENT.

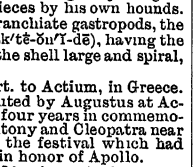
Ac-tæ'a (ăk-tē'ȧ), *n.* [L., herb Christopher; cf. Gr. *ἀκτέα, ἀκταία*, the elder tree.] *Bot.* A small genus of ranunculaceous herbs, the baneberries, having decompound leaves and small white regular flowers in dense racemes, succeeded by white or red acrid and poisonous berries.

Ac-tæ'on (ăk-tē'ŏn), *n.* [L., fr. Gr. *Ἀκταίων.*] **1.** *Class. Myth.* A huntsman (son of Aristæus and Autonoe) who, having surprised Diana bathing, was changed by the goddess into a stag, and was torn to pieces by his own hounds. **2.** [NL.] *Zoöl.* A genus of tectibranchiate gastropods, the type of a family, **Ac'tæ-on'i-dæ** (ăk'tē-ŏn'ĭ-dē), having the visceral loop streptoneurous, and the shell large and spiral, with the spire usually prominent.

Ac'ti-an (ăk'shĭ-ăn), *a.* Of or pert. to Actium, in Greece. **Actian games**, certain games instituted by Augustus at Actium, in Epirus, celebrated every four years in commemoration of his naval victory over Antony and Cleopatra near that place (B. C. 31), superseding the festival which had been celebrated there triennially in honor of Apollo.

ac'ti-nal (ăk'tĭ-năl; ăk-tī'năl), *a.* [Gr. *ἀκτίς, ἀκτῖνος*, ray.] *Zool.* Pertaining to the part of a radiate animal from which the tentacles or arms radiate and where the mouth is situated, — hence often equiv. to *oral*. — **ac'ti-nal-ly**, *adv.*

Ac'ti-na'ri-a (ăk'tĭ-nā'rĭ-ȧ) }
Ac-tin'i-a'ri-a (ăk-tĭn'ĭ-ā'rĭ-ȧ) }
n. pl. [NL., fr. Gr. *ἀκτίς, ἀκτῖνος*, ray.] *Zool.* An order of Actinozoa, differing from the corals in forming no hard skeleton, and in the individual animals being separate instead of forming colonies. It includes the sea anemones. Formerly used in a wider sense, including Madreporaria, etc. — **ac'ti-na'ri-an**, **ac-tin'i-a'ri-an** (-ăn), *a. & n.*



One of the Actinaria (*Urticina crassicornis*), Atlantic coast (⅓)

act'ing (ăk'tĭng), *p. a.* **1.** That acts; operating, doing, or performing; as, an *acting* owner of a ship, *acting* trustee. **2.** Doing duty (for another); officiating; holding a temporary rank or position or performing services temporarily; as, an *acting* captain; *acting* president.

Ac-tin'i-a (ăk-tĭn'ĭ-ȧ), *n.; pl.* L. **-IÆ** (-ē), E. **-IAS** (-ȧz). [NL., fr. Gr. *ἀκτίς, ἀκτῖνος*, ray.] *Zoöl.* **a** A genus of sea anemones. **b** [*l. c.*] Any sea anemone or related animal.

ac-tin'i-an (-ăn), *a.* *Zoöl.* Of or resembling the Actinaria. — *n.* One of the Actinaria; a sea anemone.

ac-tin'ic (-ĭk), *a.* Of or pert. to actinism; as, *actinic* rays. **actinic balance.** *Physics.* = BOLOMETER. — **a. focus**, *Optics*, the focus at which the chemically active rays, as distinguished from the optically active rays, are brought together by a lens or mirror. — **a. rays**, *Physics*, rays possessing actinism, esp. the ultraviolet rays of the spectrum, as having marked actinism. — **a. spectrum.** See SPECTRUM.

ac-tin'i-form (-ĭ-fôrm), *a.* [Gr. *ἀκτίς, ἀκτῖνος*, ray + *-form.*] Having a radiated form; like a sea anemone.

ac'tin-ism (ăk'tĭn-ĭz'm), *n.* [Gr. *ἀκτίς, ἀκτῖνος*, ray.] **1.** The science of the radiation of heat and light. *Obs.* **2.** The property of radiant energy (found especially in the shorter wave lengths of the spectrum) by which chemical changes are produced, as in photography.

ac-tin'i-um (ăk-tĭn'ĭ-ŭm), *n.* [Gr. *ἀκτίς, ἀκτῖνος*, ray.] *Chem.* **a** A metal the existence of which in commercial zinc was observed by Phipson in 1881 but has not been generally recognized; — so called from the darkening, on exposure to light, of certain substances supposed to be compounds of it. **b** A radioactive substance which was discovered by Debierne in 1898 and is probably an element, although a definite spectrum of it has not yet been obtained. In chemical properties it resembles thorium. It is the source, like radium, of three kinds of rays, *α*, *β*, and *γ*. In its transformation it yields **radioactinium**, which yields **actinium X**, which quickly changes to a gaseous emanation. This in turn gives rise to a rayless deposit, **actinium A**, which changes into an active deposit, **actinium B**.

ac'ti-no- (ak'tĭ-nō-), **ac'ti-ni-** (ăk'tĭ-nĭ-), **ac'tin-**. Combining forms from Greek *ἀκτίς, ἀκτῖνος, ray of light*, designating *ray or rays, radiated structure;* and specif. used: **a** To denote *relation to actinism; actinic effect;* as in *actino*chemistry. **b** *Zoöl.* To form names of genera, families, and larger groups of Anthozoa and echinoderms, and denote the presence of a *radiated structure* as well as *resemblance to actinans;* as in *Actinozoa, Actinaria*, etc.

ac'ti-no-bac'il-lo'sis (ăk'tĭ-nō-băs'ĭ-lō'sĭs), *n.* [NL.; *actino-* + *bacillus* + *-osis.*] *Veter.* A disease of cattle, in the Argentine Republic, very much like actinomycosis but more fatal, more contagious, and caused by a bacillus.

ac-tin'o-branch (ăk-tĭn'ō-brăŋk) } *n.* [NL. *actino-*
ac'ti-no-bran'chi-a (ăk'tĭ-nō-brăŋ'kĭ-ȧ) } *branchia.* See ACTINO-; BRANCHIA.] *Zoöl.* A gill-like organ of certain Actinozoa.

ac'ti-no-chem'is-try (ăk'tĭ-nō-kĕm'ĭs-trĭ), *n.* Chemistry in its relations to actinism.

ac-tin'o-gram (ăk-tĭn'ō-grăm), *n* [*actino-* + *-gram.*] A record made by the actmograph.

ac-tin'o-graph (ăk-tĭn'ō-grăf), *n.* [*actino-* + *-graph.*] An instrument for measuring and recording variations in actinic effect of light rays (usually of the sun) by their action on a sensitized surface.

ac'ti-noid (ăk'tĭ-noid), *a.* [*actino-* + *-oid.*] Raylike; radiated, as an actinia.

ac-tin'o-lite (ăk-tĭn'ō-līt), *n.* [*actino-* + *-lite.*] *Min.* A bright or grayish green variety of amphibole containing calcium, magnesium, and iron, $Ca(Mg,Fe)_3(SiO_4)_3$, and occurring often in fibrous, radiated, or columnar forms. Sp. gr., 3–3.2. — **ac'ti-no-lit'ic** (ăk'tĭ-nō-lĭt'ĭk), *a.*

ac-tin'o-logue (ăk-tĭn'ō-lŏg), *n.* [See ACTINOLOGY.] *Zoöl.* Any organ or part of an actinomere, in a radiate animal, that corresponds to another in a different actinomere. — **ac'ti-nol'o-gous** (ăk'tĭ-nŏl'ō-gŭs), *a.*

ac'ti-nol'o-gy (ăk'tĭ-nŏl'ō-jĭ), *n.* [*actino-* + *-logy.*] The science which treats of rays of light, esp. with regard to their chemical effects.

2. *Zoöl.* Correspondence of similar parts of a radiate animal, as of the different actinomeres; radial homology.

ac-tin'o-mere (ăk-tĭn'ō-mēr), *n.* [*actino-* + *-mere.*] *Zoöl.* One of the radial segments composing the body of a radiate animal. — **ac'ti-no-mer'ic** (-mĕr'ĭk), *a.*

ac'ti-nom'e-ter (ăk'tĭ-nŏm'ē-tĕr), *n.* [*actino-* + *-meter.*] **a** An instrument for measuring the direct heating power of the sun's rays. **b** An instrument for measuring the actinic effect of rays of light.

ac'ti-nom'e-try (-trĭ), *n.* Measurement of the intensity of heat rays, also, measurement of the actinic energy of light. — **ac'ti-no-met'ric** (-nō-mĕt'rĭk), **-met'ri-cal** (-rĭ-kăl), *a.*

ac'ti-no-mor'phic (ăk'tĭ-nō-môr'fĭk) } *a.* [*actino-* +
ac'ti-no-mor'phous (ăk'tĭ-nō-môr'fŭs) } *-morphic, -morphous.*] *Biol.* Radiosymmetrical; specif., *Bot.*, capable of division into like halves by each of three or more longitudinal or vertical planes; — said of a flower, as that of the buttercup. Cf BISYMMETRICAL, ZYGOMORPHIC; see RADIOSYMMETRICAL. — **ac'ti-no-mor'phy** (ăk'tĭ-no-môr'fĭ), *n.*

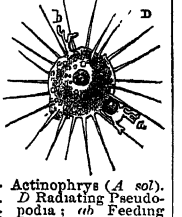
Ac'ti-no-my'ces (ăk'tĭ-nō-mī'sēz), *n.* [NL.; *actino-* + Gr. *μύκης* fungus.] *Bot.* A genus of filamentous plants of doubtful affinities, by some classified as a low fungus, by others included in the Chlamydobacteriaceæ, and occasionally referred to *Cladothrix*. *A. bovis* is the only species.

ac'ti-no-my-co'sis (-mī-kō'sĭs), *n.* [NL. See ACTINOMYCES; -OSIS.] *Med.* A chronic infectious disease of cattle and man due to the presence of *Actinomyces bovis*. It causes local suppurating tumors, esp. about the jaw. Called also *lumpy jaw* or *big jaw*. — **ac'ti-no-my-cot'ic** (-kŏt'ĭk), *a.*

ac-tin'o-phone (ăk-tĭn'ō-fōn), *n.* [*actino-* + *-phone.*] *Physics.* An apparatus for the production of sound by the action of the actinic, or ultraviolet, rays.

ac-tin'o-phon'ic (ăk-tĭn'ō-fŏn'ĭk), *a. Physics.* Pertaining to, or causing the production of, sound by means of the actinic, or ultraviolet, rays; as, *actinophonic* phenomena.

Ac'ti-noph'rys (ăk'tĭ-nŏf'rĭs), *n.* [NL.; *actino-* + Gr. *ὀφρύς* brow.] *Zoöl.* A genus of Heliozoa. *Actinophrys sol* is widely distributed in stagnant water, and is a well-known object of microscopic study. — **ac'ti-noph'ry-an** (-rĭ-ăn), *a.*



Actinophrys (*A. sol*). *D* Radiating Pseudopodia; *ab* Feeding Pseudopodia. × 200

Syn. — ACTION, ACT, DEED. *Action* refers primarily to the process of acting; *act* and *deed*, to the result, the thing done. An *action* is usually regarded as occupying some time, and involving more than one step; an *act* is more frequently thought of as momentary or instantaneous, and as individual; as, the rescue of a shipwrecked crew is an heroic *action*; the launching of the lifeboat a brave *act*; a course of *action*, the springs of *action*, an *act* of vengeance, caught in the *act*. But the distinction cannot always be made. In the plural, *action* has frequently an ethical connotation, and is loosely synonymous with *conduct*; as, "by him [the Lord] *actions* are weighed" (1 *Sam.* ii. 3); "Only the *actions* of the just smell sweet, and blossom in their dust" (*Shirley*) *Deed* refers to a thing as *done*; it frequently connotes an act as illustrious or as an achievement; as, "The *deed* is worthy doing" (*Shak.*); "What, are my *deeds* forgot?" (*Shak.*). DEED is frequently opposed to *word*, as *act* to *thought*; as, "I'll endeavor *deeds* to match these *words*" (*Shak.*); "Be great in *act*, as you have been in *thought*" (*Shak.*). See FEAT, BATTLE.

Give thy thoughts no tongue,
Nor any unproportion'd thought his *act*. *Shak.*
The attempt and not the *deed* confounds us. *Shak.*
Then boast no more your mighty *deeds*. *Shirley.*

Syn. — Quick, energetic, vigorous, busy; alert, lively, ready, prompt; smart, spirited, animated, sprightly. — ACTIVE, AGILE, NIMBLE, BRISK agree in the idea of quickness of movement. That which is *active* (opposed to *lazy, inert*) is thought of as busy or energetic as well as quick; as, an *active* child, an *active* demand. *Agile* implies dexterity and ease in the management of one's limbs; as, *agile* as a monkey; "managing their spears with incredible *agility*" (*Evelyn*). *Nimble* suggests lightness and swiftness; *brisk,* liveliness and animation of movement; as, *nimble* as a squirrel, *nimble* fingers, "a fine *brisk* stream" (*Gray*), a *brisk* fire of questions. See BUSY, LIVELY, PROMPT, FAST, VIGILANT.
Strong, *active,* and muscular, he follows the chase of the deer for days and nights together *Scott.*

When the trustee is invested with a discretion, however slight, he takes the place of the donor, and the *trust* committed to him is "*active.*" 180 *Pa.* 95.
— **a. wealth.** = ACTIVE CAPITAL.

ac'tive, *n.* [F. *actif.*] The assets of a person or corporation; — generally preceded by *the. A Gallicism.*

ac'tive-ly, *adv.* In an active manner; with or by action; nimbly; briskly; energetically.

ac'tive-ness, *n.* Quality or state of being active; activity.

ac-tiv'i-ty (ăk-tĭv'ĭ-tĭ), *n.; pl.* -TIES (-tĭz). [Cf. F. *activité,* LL. *activitas.*] **1.** State of action, or quality of being active; specif.: **a** Physical motion or exercise of force; esp., adroit or vigorous physical action; nimbleness; agility. **b** Change, development, or interplay not involving physical force; as, thought *activity.* **c** Natural or normal function or operation; as, the *activity* of a volcano; the *activity* of a cell or of an organ; human *activities;* creative *activity.* Cf. SELF-ACTIVITY.
Now, it would seem that in ordinary usage the word *activity* is felt to apply with special appropriateness to those cases in which the return of a causal process upon itself is especially prominent or important. To quote Mr Bradley "*Activity* seems to be self-caused change A transition that begins with, and comes out of, the thing itself is the process where we feel that it is active." Thus the life and growth of organisms are specially appropriate examples of *activity. G. F. Stout.*
2. State or quality of vigorous or energetic action; liveliness in doing, functioning, etc.. energy.
3. Anything which is active; an active agent or force.
4 *Physics.* Rate of working; number of units of work done in unit time.

Syn. — See EXPERT.

a-dept', *a.* Well skilled ; completely versed ; thoroughly proficient. — **a-dept'ness**, *n.*

ad'e-qua-cy (*ăd'ĕ-kwă-sĭ*), *n.* State or quality of being adequate ; sufficiency for a purpose.

ad'e-quate (*-kwāt*), *a.* [L. *adaequatus*, p. p. of *adaequare* to make equal to ; *ad* + *aequare* to make equal, *aequus* equal. See EQUAL.] Equal to or sufficient for some (specific) requirement , proportionate, or correspondent ; fully sufficient ; as, powers *adequate* to a great work ; an *adequate* definition. Specif., legally sufficient ; such as is lawfully and reasonably sufficient ; as, an *adequate* cause of passion ; an *adequate* remedy ; *adequate* compensation.

Ireland had no *adequate* champion *De Quincey.*

Syn. — Proportionate, commensurate, competent, suitable, fitting , equal, full, satisfactory, ample. — ADEQUATE, SUFFICIENT, ENOUGH agree in the idea of competency. That is ADEQUATE which is equal to or commensurate with some requirement ; as, "causes *adequate* to the solution of the assumed inconsistency" *(Coleridge).* That is SUFFICIENT which completely fulfills some proposed end ; as, "In answer . . . it might have been almost *sufficient* to observe" *(Wordsworth).* That is ENOUGH which is regarded as satisfying desire or meeting a want ; as, "There are three things that are never satisfied, yea, four things say not, It is *enough*" *(Prov.* xxx. 15). *Enough* and *sufficient* are often used without discrimination. See FIT.

By *adequate* knowledge he [Spinoza] does not mean what is exhaustive and complete, but what, as far as it goes, is distinct and unconfused. . We may have an *adequate* idea of a circle, though we are unacquainted with all the properties which belong to it. *Froude*

For which of you, intending to build a tower, sitteth not down first and counteth the cost, whether he have *sufficient* to finish it? *Luke* xiv 28

How can we say "*enough*" on earth —
"*Enough*" with such a craving heart? *C. Rossetti.*

adequate cause. See CAUSE. — **a. idea**, *Metaph.*, with Spinoza, an idea having all the intrinsic marks of a true idea , with Locke, one perfectly representing the archetype from which the mind supposes it to be taken ; with Hume, one derived directly (as a sort of copy) from a sense impression. — **ad'e-quate-ly**, *adv.* — **ad'e-quate-ness**, *n.*

ad'e-quate (*-kwāt*), *v. t.* **1.** To equalize , to make adequate. *Rare.* *Fotherby.*

2. To equal. *Obs.* "It [is] an impossibility for any creature to *adequate* God in his eternity." *Sheljord.*

ad'e-qua'tion (*ăd'ĕ-kwā'shŭn*), *n* [L. *adaequatio.*] Act of adequating, or result of being adequated. *Bp. Barlow.*

Ad-es'se-na'ri-an (*ăd-ĕs'ē-nā'rĭ-ăn*), *n.* [Formed fr. L. *adesse* to be present ; *ad* + *esse* to be.] *Eccl. Hist.* One (esp. of a sect of the 16th century) who believed in the real presence of Christ's body in the Eucharist, but not by transubstantiation.

ad'fix (*ăd'fĭks*), *n* [L. *adfixus*, p. p. of *adfigere, affigere.* See AFFIX.] *Philol.* An element or particle added to a stem so as to form an inflected or agglutinate word.

ad-here' (*ăd-hēr'*), *v. i. ;* AD-HERED' (*-hērd'*) ; AD-HER'ING (*-hēr'ĭng*). [L. *adhaerere, adhaesum ; ad* + *haerere* to stick : cf. F. *adhérer.* Cf. HESITATE.] **1.** To stick fast or cleave, as a glutinous substance does; to become joined or united ; as, wax *adheres* to the finger ; the lungs sometimes *adhere* to the pleura.

2. To hold, be attached, or devoted ; to remain fixed, either by personal union or conformity of faith, principle, opinion, or practice ; specif., to give support by some overt act of aid or assistance, including in a case of treason every act which, with regard to a domestic rebellion, would constitute an act of levying war ; as, men *adhere* to a party, a cause, a leader, a church.

3. To be consistent or coherent ; to be in accordance ; to agree. "Nor time nor place did then *adhere.*" *Shak.*

4. *Scots Law.* **a** To cohabit as husband or wife. **b** To affirm, or agree to, a prior judgment.

Syn. — Stick, cleave, cling, hold. — ADHERE, COHERE agree in the idea of sticking fast (see ATTACH). ADHERE denotes the mere cleaving of one object to another, and usually implies little or nothing as to a resulting unity ; as, a stamp *adheres* to an envelope ; mud *adheres* to one's boots. COHERE frequently suggests a more or less unified body or substance, of which the cohering objects form component parts ; as, the flakes in a snowball, or iron filings about a magnet, *cohere.* Similar distinctions apply in general to *adhesion, cohesion ; adherence, coherence, adhesive, cohesive.* See ADHERENCE, COHERENCE.

[The word] stuck to you, as nothing labored or literary could have *adhered* *G. Meredith.*

ad-her'ence (*ăd-hēr'ĕns*), *n.* [Cf. F. *adhérence*, LL. *adhaerentia.*] **1.** Quality, act, or state of adhering ; specif., continued observance ; fidelity ; steady attachment ; adhesion ; as, *adherence* to a party or to opinions.

2. That which is adherent ; an adherency. *Obs.*

Syn. — ADHERENCE, ADHESION are, as a rule, somewhat sharply distinguished in present usage, which tends to confine *adhesion* to the physical, *adherence* to the figurative sense ; as, "an *adhesion* of the lungs to the pleura" *(Stevenstone)*, "a faithful *adherence* to the truth of nature" *(Coleridge). Adhesion*, however, is still occasionally applied to mental or moral concurrence or assent, when it seems to imply a somewhat closer or stronger attachment ; as, "a transcendent *adhesion* of mind," "the iron force of *adhesion* to the old routine" *(M. Arnold).* See ADHERE.

An *adhesion* is, in plain English, only a sticking of two things together *Sterne.*

Assent is an *adhesion* without reserve or doubt to the proposition to which it is given. *J. H. Newman.*

ad-her'en-cy (*-ĕn-sĭ*), *n.* **1** State or quality of being adherent ; adherence.

2. That which adheres. *Obs.* *Dr H. More.*

ad-her'ent (*-ĕnt*), *a* [L. *adhaerens, -entis*, p pr. . cf F. *adhérent*] **1.** Sticking ; clinging , adhering. *Pope.*

2 Attached as an attribute or circumstance.

3. *Bot.* Having distinct parts united ; adnate.

ad-her'ent, *n.* **1.** One who adheres ; one who follows a leader, party, or profession ; follower ; partisan , a believer in a particular faith or church.

2. That which adheres ; an appendage. *Rare.* *Milton.*

Syn. — Partisan, upholder, disciple, supporter, ally, backer. See FOLLOWER.

ad'he-res'cent (*ăd'hĕ-rĕs'ĕnt*), *a.* [L *adhaerescens, -entis*, p. pr. of *adhaerescere*, incho. of *adhaerere* to adhere.] Tending to adhere , adhesive. — **ad'he-res'cence** (*-ĕns*), *n.*

ad-he'sion (*ăd-hē'zhŭn*), *n.* [L. *adhaesio*, fr. *adhaerere :* cf. F. *adhésion.*] **1.** Act or state of adhering ; specif., a sticking together of substances in contact with each other, as of glue to wood, parts united by growth or cement, etc.

2. Adherence ; steady or firm attachment ; fidelity ; as, *adhesion* to error, to a policy.

His *adhesion* to the Tories was bounded by his approbation of their foreign policy *De Quincey.*

3. Agreement to adhere ; concurrence ; assent.

Spain and England gave in their *adhesion.* *Macaulay.*

4. That which adheres ; an adhering mass. *Rare.*

5. *Physics.* The molecular attraction exerted between the surfaces of bodies in contact. See COHESION.

6. *Mech.* A grip or sticking effect produced by friction, or the friction itself , specif., *Railroads*, the grip of a wheel on the rail due to simple friction, or sometimes to a special device, as friction wheels gripping a center rail, or (loosely) to a cogged wheel engaging in a rack ; also, the force which must be developed to overcome this grip before slip occurs. *W. L. Webb.*

7. *Med.* Union of surfaces normally separate by the formation of new tissue resulting from an inflammatory process.

8. *Bot* The union of distinct parts, as of calyx and ovary , — usually said of dissimilar parts. Cf. COHESION.

Syn. — See ADHERENCE.

ad-he'sive (*-sĭv*), *a.* [Cf. F. *adhésif.*] **1.** Sticky ; tenacious, as glutinous substances ; of the nature of adhesion.

It thus appears that the conclusions derived from analogy are only of any considerable value when the case to which we reason is an *adjacent* case, *adjacent* not as before, in place or time, but in circumstances *J. S. Mill.*
2 *Org. Chem.* = VICINAL
Syn. — Near, close, neighboring, bordering, meeting, touching. — ADJACENT, ADJOINING, CONTIGUOUS, CONTERMINOUS, ABUTTING agree in the idea of proximity. Objects are ADJACENT when they lie close to each other, but not necessarily in actual contact; as, *adjacent* fields, villages. They are ADJOINING when they meet at some line or point of junction; as, *adjoining* farms, an estate *adjoining* the river. CONTIGUOUS properly applies to objects which touch along a considerable part or the whole of one side; as, a row of *contiguous* buildings, a wood *contiguous* to the plain. But *contiguous* is often loosely used without the implication of contact: as, *contiguous* towns. Objects are CONTERMINOUS which have a common boundary; as, "the side of Germany *conterminous* to France" (*Lecky*). ABUTTING is usually applied to that which is laterally against, or in contact with, something else, often with the implication of the termination of one thing by the other; as, *abutting* walls, an *abutting* tower, land *abutting* on the road. See NEAR, PROXIMITY, NEIGHBORHOOD.

ad'jec-tive (ăj'ĕk-tĭv), *n* [L. *adjectivum* (sc. *nomen*), neut. of *adjectivus* that is added, fr. *adjicere*: cf. F. *adjectif.* See ADJECT.] **1.** *Gram.* A word used with a noun, or substantive, to express a quality of the thing named, or something attributed to it, as in a *wise* ruler; or to limit or define it, as in *some* men; or to specify or describe a thing, as distinct from something else, as in *these* holes. Adjectives are thus variously classified according to meaning as *proper*, as in *French* diplomacy; *descriptive*, as in *red* roses; *quantitative* and *numeral*, as in *much* work, *five* men; *pronominal, participial*, etc. They are also classified as in the following citation:
We distinguish *adjectives* as assumptive (attributive) and predicative according as they imply or state an attribute or qualification of the noun word Thus we have assumptive adjectives in, good men, many men, . . and predicative adjectives in, he is good; . . to err is human. *H. Sweet.*
2. A dependent; an accessory. *Fuller.*
Syn. — See EPITHET.

2. [F.] (*F. pron.* ăj'wĂN'.) In France, an assistant or deputy of the mayor (F. *maire*) of a commune or arrondissement; also, an assistant professor in a college.

ad-journ' (ă-jûrn'), *v. t.*; AD-JOURNED' (-jûrnd'); AD-JOURN'ING. [ME. *ajornen*, OF. *ajorner*, *ajurner*, F. *ajourner*; OF. *a* (L. *ad*) + *jor*, *jur*, *jorn*, F. *jour*, day, fr. L. *diurnus* belonging to the day, fr. *dies* day. Cf. DIURNAL, JOURNEY.]

1. To set a day for (one) to appear; to cite or summon for a certain day. *Obs.*

2. To put off or defer to another day, or indefinitely; to postpone; to close or suspend for the day; — commonly used of the meeting or action of a convened body; as, to *adjourn* Parliament, to *adjourn* a debate. See ADJOURNMENT.

It is a common practice to *adjourn* the reformation of their lives to a further time. *Barrow.*

Syn. — Suspend, take a recess; terminate, break up; delay, defer, postpone, put off. — ADJOURN, PROROGUE, DISSOLVE are used of public bodies when they suspend business. See DEFER. When a deliberative body ADJOURNS, it merely suspends (usually for a brief period) its deliberations, which may be resumed where they ended at the next meeting, except for something to the contrary in its rules of procedure (cf. SINE DIE); when a parliament in Great Britain or her colonies is PROROGUED, the session is ended, and all bills not enacted are quashed, and can be taken up only de novo at its subsequent session; when a deliberative body is DISSOLVED, it entirely ceases to exist, and it cannot have any further meeting or session as such.

ad-journ', *v. i.* To suspend business for a time, as from one day to another, or for a longer period, or indefinitely; usually, to suspend public business, as of legislatures and courts, or other convened bodies; as, Congress *adjourned* at four o'clock; the court *adjourned* without day.

ad-journ'ment (-mĕnt), *n.* [F. *ajournement*.] Act of adjourning, or state of being adjourned; also, the time or interval for which a body adjourns.

An *adjournment* is either without day or to a day certain The distinction is vital. An *adjournment* without day ends the power of the court over the business and record of the term. The *adjournment* of the term to a day certain leaves it intact As no court can create a new term to itself without statutory authority, all *adjournments* to a future day certain are but prolongations of the terms adjourned. *Encyc Pl & P.* 243.

ad-judge' (ă-jŭj'), *v. t.*; AD-JUDGED' (-jŭjd'); AD-JUDG'ING (-jŭj'ĭng). [ME. *ajugen*, OF. *ajugier*, fr. L. *adjudicare*; *ad* + *judicare* to judge. See JUDGE; cf. ADJUDICATE.]

1. To determine in the exercise of judicial power; to decide or determine judicially; to adjudicate, order, or decree; as, the case was *adjudged* in the November term. *Adjudge* does not necessarily imply a final judgment, but is used as well of awards or decisions of arbitrators or other judicial officers, interlocutory orders or decrees of a court.

2. To regard or hold; to judge; deem.

He *adjudged* him unworthy of his friendship. *Knolles*

3. To sentence; condemn.

Without reprieve, *adjudged* to death. *Milton.*

4. To award or grant judicially in a case of controversy, as, the prize was *adjudged* to the captor.

5. Specif.: *Scots Law.* To award to a creditor by the process of adjudication.

Syn. — Decree, ordain, award, assign. See ADJUDICATE.

ad-judge', *v. i.* **1.** To adjudge something; to adjudicate.

2. *Scots Law.* To pursue or take a debtor's estate by the process of adjudication.

‖ad'ju-di'ca-taire' (ă'jo͞o-dē'kă-târ'), *n.* [F.] *Can. Law.* A purchaser at a judicial sale.

ad-ju'di-cate (ă-jo͞o'dĭ-kāt), *v. t.*; AD-JU'DI-CAT'ED (-kāt'ĕd); AD-JU'DI-CAT'ING (-kāt'ĭng). [L. *adjudicatus*, p. p. of *adjudicare*. See ADJUDGE.] To hear or try and determine, as a court; to settle by judicial decree; to adjudge. *Adjudicate* does not necessarily imply a final judgment, but is used otherwise less freely than *adjudge*.

Syn. — Decree, determine, settle, ordain, award, assign; try, pass sentence, doom, condemn; reckon, consider, regard, deem, esteem. — ADJUDICATE, ADJUDGE, JUDGE. To ADJUDICATE (a purely legal term) is to try and determine or to pronounce by judicial decree; as, to *adjudicate* a case. ADJUDGE has the further technical sense of awarding judicially, and also applies (less commonly than formerly) to determination by one's private judgment, as, to *adjudge* differences, to *adjudge* a man happy. JUDGE, in addition to its technical sense of sitting in judgment or pronouncing sentence, refers in general to the forming of an opinion about anything; as, "Cræsus . . . began to *judge* him a man of little wit" (*Sir T. North*). See ADJUDICATION, JUDGE.

ad-ju'di-cate, *v. i.* To come to a judicial decision, to act as judge; as, the court *adjudicated* upon the case.

ad-ju'di-ca'tion (-kā'shŭn), *n.* [L. *adjudicatio*: cf. F. *adjudication*.] **1.** Act or process of adjudicating.

2. A solemn or deliberate determination by the judicial power; a judicial decision or sentence; often specif., a decree in bankruptcy.

3. *Scots Law.* Attachment of heritable estate, as for security or for a debt. See ADJUDGE, *v. t.*, 5.

4. *Rom. Law.* See FORMULA.

Syn. — ADJUDICATION, ARBITRATION. ADJUDICATION is used of the determination of matters in dispute by the decision of a competent court; ARBITRATION of the determination of such matters by the decision of arbitrators, whose decision may not be binding until confirmed by a higher court or assented to by the parties.

ad'junct (ăj'ŭnkt), *a.* [L. *adjunctus*, p. p. of *adjungere*. See ADJOIN.] Conjoined; attending; consequent.

Though that my death were *adjunct* to my act. *Shak.*

adjunct note, *Music*, a short note between those essential to the harmony, an auxiliary or passing note.

ad'junct, *n.* [See ADJUNCT, *a.*] **1.** Something joined or added to another thing, but not essentially a part of it.

Learning is but an *adjunct* to our self. *Shak.*

2. A person joined to another in some duty or service; colleague; associate. *Wotton.*

3. *Gram.* A word or words added to qualify or amplify the force of other words, esp. such additional words as distinguished from the essential elements of the sentence. Thus in, "A merry heart goes all the day," *merry* is an adjunct to the subject, and *all the day* an adjunct to the predicate verb of the sentence.

4. *Logic.* An accidental or nonessential quality or property, as *color* in the body, *judgment* in the mind.

5. *Music.* A key or scale closely related to another as principal; a related key (which see). *Rare.*

2. Having qualities to excite wonder united with approbation; deserving the highest praise; most excellent; — used of persons or things. "An *admirable* machine." "*Admirable* fortitude." *Macaulay.*

Syn. — Wonderful, marvelous, excellent, praiseworthy.

Admirable Crich'ton, the (krĭ'tŭn). James Crichton, a Scottish intellectual prodigy, famous also for his beauty (1560-85?). At the age of 14 he took his degree of Master of Arts, and before the age of 20 was said to have "run through the whole circle of the sciences," mastered ten languages, and perfected himself in all knightly accomplishments. Written also Creighton.

Admirable Doctor. [L *Doctor mirabilis*.] Roger Bacon (1214-94), an English monk; — so styled because of his many discoveries in science.

ad'mi-ral (ăd'mĭ-răl), *n.* [ME. *amiral*, *admiral*, OF. *amiral*, ultimately fr. Ar. *amīr-al-bahr* commander of the sea; Ar. *amīr* is commander, *al* is the Ar. article, and *amīr-al*, heard in different titles, was taken as one word. Early forms of the word show confusion with L. *admirabilis* admirable, fr. *admirari* to admire. It is said to have been introduced into Europe by the Genoese or Venetians, in the 12th or 13th century. Cf. AMEER, EMIR.] **1.** An emir of the Sultan; a Saracen ruler or commander. *Obs.*

2. The commander in chief of a navy; formerly specif., in England, the naval officer or commander, often called "admiral of the seas," in whom were vested the extensive administrative and judicial powers afterwards possessed by the Lord High Admiral, and now by the Lords Commissioners of the Admiralty and the High Court of Admiralty.

3. A naval officer of the highest rank; a naval officer of high rank, of which there are different grades. In the British navy the admirals are of four grades: **Admiral of the Fleet**, ranking with a field marshal of the army, and only specially appointed; and **Admiral**, **Vice Admiral**, and **Rear Admiral**, ranking with a general, lieutenant general, and major general respectively. In the 17th century they were classed in divisions named, according to the colors hoisted by them, **Admirals of the Red**, **White**, or **Blue Squadron**; but this distinction was abolished August 5, 1864. Their squadrons were called the *red*, *white*, and *blue squadrons*. In the United States the grades are **admiral**, **vice admiral**, and **rear admiral**, the admiral ranking with the general of the army, a vice admiral with a lieutenant general, and the rear admirals with brigadier generals. The grades of admiral and vice admiral cease to exist when the holders die or retire, and can be revived only by act of Congress. Eighteen rear admirals constitute the active list, of whom those embraced in the nine lower numbers draw the pay and allowances of a brigadier general. Rear admirals in excess of eighteen may be created by advancement not exceeding thirty numbers, for eminent and conspicuous conduct in battle or extraordinary heroism, and carried as additional to the members of that grade. In the United States navy the insignia of the admiral's rank on epaulets, shoulder marks, and shoulder straps are four silver stars and two gold foul anchors, one under each outside star. See SHOULDER STRAP, *Illust.*

4. A commander or officer having a certain general control of a fishing or merchant fleet; esp., a fisherman appointed to preserve order, decide differences, etc, in a fishing fleet.

5 The ship which carries the admiral, also, the most considerable ship of a fleet. *Obs. or Rhet.*

Like some mighty *admiral*, dark and terrible, bearing down upon his antagonist with all his canvas straining to the wind, and all his thunders roaring from his broadsides. *E Everett.*

6. Any of several handsome butterflies, esp. the red admiral. See RED ADMIRAL

Admiral of the Blue. **a** See def. 3, above. **b** [*l. c.*] A tapster, alluding to the color of his apron. *Obs Slang*

admiral shell. A rare and handsome species of cone shell (*Conus admiralis*).

ad'mi-ral-ty (ăd'mĭ-răl-tĭ), *n.*; *pl.* -TIES (-tĭz). [F. *amirauté*, for older *amiralté*, office of admiral, fr. LL. *admiralitas*. See ADMIRAL.] **1.** Office or jurisdiction of an admiral.

2. The executive department or officers having authority over naval affairs generally. In England this department consists of the Lords Commissioners of the Admiralty.

3. The court which has jurisdiction of maritime questions and offenses; also, the system of law administered by admiralty courts In England, admiralty jurisdiction was formerly vested in the High Court of Admiralty, which was held before the Lord High Admiral, or his deputy, styled the Judge of the Admiralty; but admiralty jurisdiction is now vested in the probate, divorce, and admiralty division of the High Court of Justice. In the United States there are no admiralty courts distinct from others, but admiralty jurisdiction is vested in the district courts of the United States, subject to revision by the Circuit Court of Appeals and the Supreme Court of the United States. Admiralty jurisprudence has cognizance of maritime contracts and torts, collisions at sea, cases of prize in war, etc, and in America admiralty jurisdiction is extended to such matters arising out of the navigations of any of the public waters, as the Great Lakes and rivers.

4. The building in which the lords of the admiralty, in England, transact business.

5. The naval service; the navy. *Obs.*

ad'mi-ra'tion (ăd'mĭ-rā'shŭn), *n.* [L. *admiratio*: cf. F. *admiration*.] **1.** Wonder; astonishment. *Archaic.*

Season your *admiration* for a while *Shak.*

2. Wondering or marveling approbation or delight; an emotion excited by a person or thing possessed of wonderful or high excellence; as, *admiration* of a beautiful woman, of a landscape, of virtue.

These sentiments are replaced . . . by the several degrees of *admiration*, love, and worship, towards which the ethical feelings ever aspire and in which they ultimately merge. *J. Martineau.*

3. Cause of admiration; something to excite wonder, or pleased surprise; a prodigy.

Now, good Lafeu, bring in the *admiration*. *Shak.*

Syn. — Appreciation, liking, esteem, adoration, reverence, wonder. — ADMIRATION, APPROBATION, APPROVAL. *Admiration*, like *admire*, expresses gratification and delight, and implies a certain amount of wonder. *Approbation* adds to the idea of satisfaction that of commendation; *approval*, that of a more or less formal sanction.

Our young gentleman . . . *admired* this rising young divinity, and gazed at her . . . with endless delight and wonder. *Thackeray.*

The performance was therefore sinking in my esteem, when your *approbation* of it . . . buoyed it up again *Cowper.*

ad-mire' (ăd-mīr'), *v. t.*; ad-mired' (-mīrd'); ad-mir'ing (-mīr'ĭng). [L. *admirari*; *ad* + *mirari* to wonder, for *smirari*, akin to Gr. μειδᾶν to smile, Skr. *smi*, and E. *smile*: cf. F. *admirer*.] **1.** To regard with wonder or astonishment; to view with surprise; to marvel at. *Archaic.*

Examples rather to be *admired* than imitated. *Fuller.*

2. To regard with wonder and delight; to look upon with an elevated feeling of pleasure, as something which calls out approbation, esteem, love, or reverence; to estimate or prize highly; as, to *admire* a person of high moral worth.

Admired as heroes and as gods obeyed. *Pope.*

This spring of action is noble, and I *admire* it: it is binding, and I obey it: it is the dictate of perfect mind, and I revere it. *J. Martineau.*

Syn. — Esteem, approve, delight in.

ad-mire', *v. i.* **1.** To wonder; marvel; to be affected with surprise; — sometimes with *at*.

To wonder at Pharaoh, and even *admire* at myself. *Fuller*

For fools *admire*, but men of sense approve *Pope.*

☞ *Admire* with the infinitive is obsolete or colloquial; as, I *admire* to see a man consistent in his conduct.

2. To feel pleasure; to be pleased. *Dial.*

I always *admired* to study R.'s art. *Mark Twain.*

ad-mired' (ăd-mīrd'), *p. a.* Regarded with admiration, esp., contemplated with wonder and delight; highly prized; as, an *admired* poem. — **ad-mir'ed-ly** (ăd-mīr'ĕd-lĭ), *adv.*

ad-mir'er (ăd-mīr'ẽr), *n.* One who admires.

ad-mir'ing, *p. a.* Expressing admiration; as, an *admiring* glance. — **ad-mir'ing-ly**, *adv.* *Shak.*

ad-mis'si-ble (ăd-mĭs'ĭ-b'l), *a.* [F. *admissible*, LL. *admissibilis*. See ADMIT.] Entitled or worthy to be admitted; that may be allowed or conceded; allowable; as, the supposition is hardly *admissible*. — **ad-mis'si-bil'i-ty** (-bĭl'ĭ-tĭ), **ad-mis'si-ble-ness**, *n.* — **ad-mis'si-bly**, *adv.*

Syn. — ADMISSIBLE, PERMISSIBLE, ALLOWABLE agree in implying concession. *Admissible* refers primarily to ideas or propositions, which it characterizes as worthy to be entertained or considered; as, *admissible* evidence, an *admissible* assumption, excuse. *Permissible* usually applies to conduct or action, with the implication of consent or authorization; as, a *permissible* practice, a *permissible* absence. *Allowable* (see ALLOW) implies an attitude of toleration, and frequently suggests nothing more than the absence of prohibition; as, an *allowable* indulgence

It is a pure impertinence to affirm with oracular assurance what might perhaps be *admissible* as a suggestion offered with the due diffidence of modest and genuine scholarship *Swinburne.*

There was really no other love less *permissible*, more blameworthy, which honor was hurrying him away from. *G. Eliot.*

I always doubt if this ungrammatical construction be *allowable*. *Gray.*

ad-mis'sion (ăd-mĭsh'ŭn), *n.* [L *admissio*: cf. F. *admission*. See ADMIT.] **1.** Act or practice of admitting; permission or privilege to enter into a place, into society, etc.; admittance, entrance; access.

What numbers groan for sad *admission* there! *Young.*

2. Acceptance into an office or position; institution.

3. The granting of an argument or position not fully proved; act of acknowledging something asserted; acquiescence or concurrence in the truth of an allegation; acknowledgment; concession. In *Criminal Law*, an *admission* is distinguished from a *confession* as merely conceding that a fact or allegation is true, but not implying any acknowledgment of a criminal intent; and it has therefore been held to be error to use the word *confession* where there was no acknowledgment of such intent. In pleading, an admission obviates the necessity of proof.

The too easy *admission* of doctrines. *Macaulay.*

4 A fact, point, or statement admitted; as, *admissions* made out of court are received in evidence.

5. Price of entrance, fee at entering.

6. *Engin.* The act of admitting the working fluid, as steam, to the engine cylinder; also, the point in the cycle of operations, or on the corresponding indicator diagram, at which this act occurs; also, the period from this point to the completion of the cut-off.

Syn. — See ADMITTANCE.

Admission Day. A legal holiday commemorating the day of admission as a State of the United States, — Sept. 9 in California, Oct 31 in Nevada.

ad-mit' (ăd-mĭt'), *v. t.*; AD-MIT'TED; AD-MIT'TING. [ME. *amitten*, L. *admittere*, *admissum*; *ad* + *mittere* to send: cf. F *admettre*, OF *ametre*. See MISSILE.] **1.** To suffer to enter, to grant, or have capacity to allow, entrance, whether into a place, the mind, or consideration; to receive; to take; as, they were *admitted* into his house; to *admit* a serious thought into the mind; to *admit* evidence.

2. To give a right of entrance; as, this ticket *admits* one.

3. To allow (one) to enter on an office or to enjoy a privilege; to recognize as qualified for a franchise; as, to *admit* an attorney to practice law, he was *admitted* to bail.

4 To concede as true; to acknowledge or assent to, as an allegation, to own; as, the argument or fact is *admitted*; he *admitted* his responsibility, — in criminal law usually distinguished from *confess*. See ADMISSION, 3.

5. To allow; permit; as, this law *admits* no exceptions.

ad-mit', *v. i.* To allow or permit; — followed by *of*.

Both houses declared that they could *admit* of no treaty with the king. *Hume.*

Syn. — See ACKNOWLEDGE.

ad-mit'tance (-ăns), *n.* **1** Act of admitting.

2. Permission to enter; right or privilege of entrance; admission; also, actual entrance; reception.

To gain *admittance* into the house. *South.*
He desires *admittance* to the king. *Dryden.*
To give *admittance* to a thought of fear. *Shak.*
You are a gentleman of excellent breeding, admirable discourse, of great *admittance* *Shak.*

3. Concession; admission, as of an argument. *Obs.*

4. *Eng. Law.* Act of giving possession of a copyhold.

5. *Elec.* The reciprocal of impedance. See IMPEDANCE.

Syn. — Access, entrance; reception, initiation. — ADMITTANCE, ADMISSION. In present usage ADMITTANCE is mostly confined to the literal sense of allowing one to enter a locality or building; as, "No *admittance*," *admittance* to the grounds. ADMISSION has acquired the figurative sense of admitting to rights, privileges, standing, membership; as, *admission* to the church, *admission* to the best society, the *admission* of new words into the language. When entrance into a building or a locality carries with it certain privileges, *admission* rather than *admittance* is used; as, *admission* to a theater, the *admission* of aliens into a country.

ad-mit'ted (ăd-mĭt'ĕd; -ĭd), *p. a.* Received as true or valid; conceded; acknowledged. — **ad-mit'ted-ly**, *adv.*

admitted assets, *Insurance*, the assets which remain after the deduction of such items as are excluded by the insurance departments; — called also *net assets*.

ad-mix' (ăd-mĭks'), *v. t.*; AD-MIXED' (-mĭkst'); AD-MIX'ING. [*ad-* + *mix*: cf. L. *admixtus*, p. p. of *admiscere*. See MIX.] To mingle with something else; to mix.

2. That which is added to anything by mixing.

ad-mon'ish (ăd-mŏn'ĭsh), *v. t.*; AD-MON'ISHED (-ĭsht); AD-MON'ISH-ING. [ME. *amonesten*, OF. *amonester*, F. *admonester*, fr. supposed LL. *admonestare*, fr. L. *admonere* to remind, warn; *ad* + *monere* to warn. See MONITION.] **1.** To warn or notify of a fault; to reprove gently or kindly, but seriously; to exhort; as, he was *admonished* not to go. "*Admonish* him as a brother." 2 *Thess.* iii. 15.

2. To counsel against wrong practices; to caution or advise; to warn against danger or an offense; — followed by *of*, *against*, or a subordinate clause.

I warned thee, I *admonished* thee, foretold
The danger, and the lurking enemy. *Milton.*

3. To instruct or direct; to inform; notify.

Moses was *admonished* of God, when he was about to make the tabernacle. *Heb.* VIII. 5.

4. To inculcate by admonition. *Obs.*

Syn. — See REPROVE.

Ad'o-na'i (ăd'ō-nā'ĭ; *a*-dō'nī), *n.* [Heb. *adōnāi*, lit., my lord.] A Hebrew name for God, usually translated in the Old Testament by the word "Lord." The later Jews, as a rule, use its vowel points to fill out the tetragrammaton IHVH, "the incommunicable name," and in reading substitute "Adonai," except when Adonai follows or precedes it in the text, when it is pronounced "Elohim." See TETRAGRAMMATON.

Ad'o-na'is (ăd'ō-nā'ĭs), *n.* The poet Keats (1795–1821); — a poetical name given at his untimely death by Shelley in a monody entitled "Adonais," probably to hint an analogy between Keats's fate and that of Adonis.

Ad'o-ne'an (-nē'ăn), *a.* [L. *Adoneus.*] Pertaining to Adonis, Adonic. "Fair *Adonean* Venus." *Faber.*

A-don'ic (ă-dŏn'ĭk), *a.* [F. *adonique* cf. L. *Adonium*, n.] Relating to the mythical youth Adonis, famed for his beauty. — *n.* An *Adonic verse*, a verse consisting of a dactyl and a spondee or trochee; thus, - ◡◡ | --, or -◡◡ | -◡ (see PROSODY); — said to have been named from its use in songs at the Adonia. It is chiefly used with other verse.

a-don'i-din (-ĭ-dĭn), *n. Chem.* A glucoside obtained as a bitter yellow powder from *Adonis vernalis*. It is used as a cardiac stimulant and as a diuretic.

A-do'nis (ă-dō'nĭs), *n.* [L., fr. Gr. Ἄδωνις.] **1.** *Class. Myth.* A beautiful youth, beloved by Aphrodite (Venus). He was born of a myrrh tree (or his mother, Myrrh, was changed into the tree), and in the flush of youth was slain by a wild boar (in later versions represented as sent by or embodying the jealous Ares). From his blood sprang the plant *Adonis*. So great was Aphrodite's grief that the gods required him to spend only half (or one third) of the year in Hades. The festival of Adonis was the A-do'ni-a (*a*-dō'nĭ-*ā*), generally held at midsummer, at which the women first lamented his death and afterwards rejoiced in his resurrection. At this festival appeared the **Gardens of Adonis**, baskets or pots of earth in which quick-growing plants were sown, tended for eight days, allowed to wither, and then flung into the sea, or into springs, along with images of the dead Adonis. The myth is generally interpreted as symbolizing the annual decay and recurrence of vegetation. Its source is undoubtedly Semitic, the Phœnician *Adonis* being the same as the Babylonian *Tammuz* (which see). See APHRODITE, cf. ATTIS.
2. A preeminently beautiful young man; a dandy.
3. [NL.] *Bot.* A small genus of ranunculaceous plants, natives of Europe and Asia, having red or yellow flowers with 5 sepals and 5-15 petals; — so named because fabled to have sprung from the blood of Adonis. *A. autumnalis*, the pheasant's-eye, is a favorite garden plant.
4. [*l. c.*] A style of wig worn in the 18th century.

A-do'nist (ă-dō'nĭst), *n.* One who maintains that the points of the Hebrew word translated "Jehovah" are really the vowel points of the word "Adonai." See ADONAI.

a-do'nite (-nīt), *n. Chem.* A crystalline pentahydric alcohol, $C_5H_7(OH)_5$, occurring in *Adonis vernalis*.

a-door' (ă-dōr') } *adv.* [*a-* + *door.*] At the door; of the
a-doors' (-dōrz') } door; as, out *adoors*. *Obs. Shak.*

ad-op'er-ate (ăd-ŏp'ẽr-āt), *v. t.* [LL. *adoperatus*, p. p of *adoperari* to use.] To use; employ. *Rare.* — **ad-op'er-a'-tion** (-ā'shŭn), *n. Rare.*

a-dopt' (ă-dŏpt'), *v.t.*; A-DOPT'ED; A-DOPT'ING. [L. *adoptare*; *ad* + *optare* to choose, desire: cf. F. *adopter*. See OPTION.] **1.** To take by choice into a relationship, as child, heir, friend, citizen, etc.; esp., to take voluntarily (a child of other parents) to be in the place of, or as, one's own child. The chief reason for adopting a child in antiquity, as in Babylonia, Egypt, India, Greece, and Rome, and now among some peoples, is to provide for the continuance of the rites of the family cult. Under the Roman law the adopted child came under the potestas of his adopted parent; he became incapable of inheriting from his own blood relatives, the oldest and most formal method of adoption being the *arrogation*, and the later that called merely *adoption*. Among modern nations the adopted child is in general treated the same as an own child.
2. To take or receive as one's own (what is not so naturally); to select and take or approve; as, to *adopt* the view or policy of another; these resolutions were *adopted*.
3. To give for adoption; to attach. *Obs.*
Syn. — Receive, accept, choose, take up; welcome, attach one's self to. — ADOPT, EMBRACE, ESPOUSE come into comparison with reference to opinions, policies, or practices. ADOPT stresses the idea of making voluntarily one's own what (it is usually implied) one owes in some fashion to another; as, to *adopt* the Fabian policy, to *adopt* the tenets of a party, the methods of a school. EMBRACE adds to *adopt* the implication of eager or joyful acceptance; as, to *embrace* Christianity, "we must *embrace* this gentle offer of the perilous time" (*Shak.*). ESPOUSE adds the further implication of close attachment to the cause adopted, and participation in its fortunes; as, to *espouse* a friend's quarrel. "I never *espoused* any party with violence" (*Spectator*). See TAKE.

My canon is, there is no plagiarism when he who *adopts* has proved that he could originate what he *adopts*, and a great deal more. *E. Fitzgerald.*
I *embrace* the purpose of God, and the doom assigned. *Tennyson*
The names of the knights who intended to joust, with the side which each chose to *espouse*. *Scott.*

a-dopt', *v. i. Euchre.* To accept as trumps the suit of the card turned up; — said of the dealer.

a-dopt'ed (ă-dŏp'tĕd; -tĭd), *p. a.* Taken by adoption; as, an *adopted* son, citizen, word. — **a-dopt'ed-ly**, *adv.*

a-dopt'er (ă-dŏp'tẽr), *n.* **1.** One who adopts.
2. *Chem.* An adapter.

a-dop'tion (ă-dŏp'shŭn), *n.* [L. *adoptio*; akin to *adoptare* to adopt: cf. F. *adoption.*] Act of adopting, or state of being adopted; specif.: **a** Voluntary acceptance of a child of other parents to be the same as one's own child. See ADOPT, *v. t.*, 1.
The blessing brought by Christ in the fullness of the time is called *adoption* (Gal. iv 5), and this seems to indicate that St. Paul holds the sonship, of which he is speaking, to be founded on the covenant promise of God, and not on the natural relation to God of all men as such. . . It is as the whole context shows, a position bestowed by a disposition or covenant of God, and through a redemption by Christ. *Dict. of Bible.*
b Admission to a more intimate relation; reception; as, the *adoption* of persons into hospitals or monasteries.
Those friends thou hast, and their *adoption* tried,
Grapple them to thy soul with hoops of steel *Shak.*
c The choosing and making that to be one's own which originally was not so, acceptance; as, the *adoption* of opinions. *Jer. Taylor.*

Adoption Controversy. *Theol.* The controversy beginning in the 8th century over the doctrine of adoptionism.

a-dop'tion-ism (ă-dŏp'shŭn-ĭz'm), *n. Theol.* The doctrine, which arose in Spain under the bishops Felix of Urgel and Elipandus of Toledo in the 8th century, that Christ was the Son of God as to his human nature only by adoption or by name, but truly so as to his divine nature. *Adoptionism* was condemned by Pope Hadrian and by Alcuin, Paulinus, and others in three synods under Charlemagne, at Ratisbon, A. D. 792, Frankfort, 794 and Aix-la-Chapelle, 799. — **a-dop'tion-ist,** *n*

a-dop'tive (ă-dŏp'tĭv), *a.* [L. *adoptivus*: cf. F. *adoptif.*] Pertaining to adoption; made or acquired by adoption, fitted to adopt; as, an *adoptive* father; an *adoptive* child. **adoptive arms.** *Her.* See ARMS OF ADOPTION. **a. emperors,** the Roman emperors Nerva, Trajan, Hadrian, Antoninus Pius, and Marcus Aurelius; — so called because each of the last four was the adopted son of his predecessor.

a-dor'a-ble (*a*-dōr'*a*-b'l), *a.* [L. *adorabilis*: cf. F. *adorable.*] **1.** Deserving to be adored; worthy of divine honors.
The *adorable* Author of Christianity. *Cheyne.*
2. Worthy of the utmost love, respect, or admiration.
— **a-dor'a-bil'i-ty** (-bĭl'ĭ-tĭ), **a-dor'a-ble-ness,** *n.* — **a-dor'a-bly,** *adv.*

ad'o-ra'tion (ăd'ō-rā'shŭn), *n.* [L. *adoratio*: cf F. *adoration.*] **1.** Act of paying honor to a divine being, worship paid to God; act of addressing as a god; specif., *R. C. Ch.*, any of the three kinds of worship, latria, dulia, and hyperdulia, esp. latria.
The more immediate objects of popular *adoration* amongst the heathens were deified human beings *Farmer.*
The Catholic may answer . . that we adore God alone with latria or supreme *adoration*, and that to Him alone we offer the sacrifice of the Mass *Cath. Dict.*
2. Homage paid to one in high esteem; profound veneration; intense regard and love; fervent devotion.
3. A method of electing a pope by the expression of homage from two thirds of the conclave.
4. *Art & Archæol.* A representation of persons in the act of adoration, as in paintings, reliefs, medals, etc.
Syn. — See REVERENCE.
adoration of the cross, *R. C. Ch.*, the part of the service of Good Friday in which the cross is adored by the clergy and people. It follows the prayers.

a-dore' (*a*-dōr'), *v. t.*; A-DORED' (*a*-dōrd'); A-DOR'ING (*a*-dōr'-ĭng). [F. *adorer*, fr. L. *adorare*; *ad* + *orare* to speak, pray. In ME. existed also *aouren*, fr. OF. *aorer*, L. *adorare*. Cf. ORISON, ORATION.] **1.** To worship with profound reverence; to pay divine honors to, to honor as a deity or as divine; to pay adoration to
Bishops and priests, . . bearing the host, which he [James II.] publicly *adored* *Smollett.*
2 To love in the highest degree; to regard with the utmost esteem and affection; to idolize.
The great mass of the population abhorred Popery and *adored* Monmouth. *Macaulay.*

a-dore', *v. i.* To render adoration; to express, or be filled with, fervent devotion; to worship. "To bend, to tremble, and *adore*." *Shelley.*

a-dor'er (*a*-dōr'ẽr), *n.* One who adores; a worshiper.
I profess myself her *adorer*, not her friend *Shak.*

a-dorn' (ă-dôrn'), *v. t.*; A-DORNED' (ă-dôrnd'), A-DORN'ING. [ME. *adornen*, *adournen*, OF. *adorner*, for earlier *aorner* (whence a ME. *aournen*), fr. L. *adornare*; *ad* + *ornare* to furnish, embellish. See ORNATE.] To deck or dress with ornaments, to embellish; to set off to advantage; to render pleasing or attractive
As a bride *adorneth* herself with her jewels. *Is.* lxi 10
At church, with meek and unaffected grace,
His looks *adorned* the venerable place. *Goldsmith*
Syn. — Beautify, dignify, grace; enrich, emblazon, garnish, bedeck, array, attire. —ADORN, ORNAMENT, DECORATE, EMBELLISH, DECK, with the corresponding nouns, agree in the idea of enhanced or added beauty. ADORN is a term of higher connotation than the rest, and may imply the adding of a beauty other than external or material; as, "while Earth herself is *adorning*" (*Wordsworth*); a character *adorned* with every grace. ORNAMENT and DECORATE imply the addition of some pleasing adjunct, usually external; as, "Whose bridle was *ornamented* with silver bells" (*Scott*); "Escutcheons . . *decorated* the columns" (*Motley*). But *ornament*, unlike *decorate*, may be used in a sense approaching that of *adorn*; as, "the *ornament* of a meek and quiet spirit" (*1 Pet.* iii. 4); "That sweet *ornament* which truth doth give" (*Shak.*). EMBELLISH implies either the enhancing of effect, often by modification rather than mere addition (as, to *embellish* one's style with imagery, a missal with illuminations), or the addition of adventitious, sometimes even gaudy or fictitious, ornament, for the sake of a telling impression; as, a highly *embellished* tale. To DECK is to cover or clothe with that which decorates, and often suggests gayety or finery; as, "He likes to *deck* out his little person in splendor and fine colors" (*Thackeray*); "*Decking* with liquid pearl the bladed grass" (*Shak.*).
The armorial ensigns which, in the times of chivalry, *adorned* the crest and shield of the soldier, are now become an empty *decoration* *Gibbon.*
As the very word *ornament* indicates what is in itself nonessential, so the "one beauty" of all literary style is of its very essence, and independent . . of all removable *decoration* *W Pater*
Matter in itself capable of no other *embellishment* than purity of diction, and harmony of versification, can give to it. *Cowper.*
Three-mast vessels, *decked* out with their colors *Gray.*

a-dorn'ment (-mĕnt), *n.* [Of OF. *adornement.* See ADORN.] An adorning; an ornament; a decoration.

ADULTERER.] **1.** Unfaithfulness of a married person to the marriage bed; voluntary sexual intercourse by a married person with another than her or his husband or wife. Under the English common law adultery is not a crime, but is a subject of ecclesiastical censure only, the act of illicit intercourse being, there as elsewhere in Europe, adultery on the part of either a husband or wife, and fornication on the part of an unmarried participator, the offense being technically called *single* adultery when only one party is married, and *double* adultery when both are married. Under the Roman law and the Jewish law, to constitute criminal adultery the woman must be the wife of another. In some of the United States adultery is by statute made a crime for both parties, whether married or not; in others it is a crime only on the part of the married person; and in still others, only when one of the wrongdoers is a married woman.

2. *Bib.* **a** Lewdness or unchastity of thought as well as of act, as forbidden by the seventh commandment. **b** Faithlessness in religion. *Jer.* iii. 9.

See ADVERT.] **1.** Acting against, or in a contrary direction; opposed; contrary, conflicting; as, *adverse* winds; a spirit *adverse* to distinctions of caste.

2. Specif., *Law*, having opposing interests; having interests for the preservation of which opposition is essential.

The words "*adverse* party" [as to competency of witnesses] . . are not limited to the adversary positions of plaintiff and defendant, but affect any party, whether plaintiff or defendant, whose interests are actually *adverse* to those of another party to the action. 8 *Kan. App.* 841.

The "*adverse* party" is every party to the action, whether plaintiff or defendant, whose interests may be injuriously affected by a reversal or modification of the judgment or order appealed from. 116 *Cal.* 45.

3. Opposite. "Calpe's *adverse* height." *Byron.*

4. In hostile opposition; unfavorable; unpropitious, contrary to one's wishes; unfortunate, calamitous; afflictive; as, *adverse* fates; *adverse* circumstances, things *adverse.*

Happy were it for us all if we bore prosperity as well and wisely as we endure an *adverse* fortune. *Southey.*

5. *Bot.* Turned toward the stem or axis; as, *adverse* leaves; — the opposite of *averse.*

Syn. — Contrary, opposing, conflicting; disinclined, reluctant, loath. — ADVERSE, AVERSE come into comparison as denoting opposition, which in *adverse* has reference chiefly to opinion or intention, in *averse* (see RELUCTANT) to feeling or inclination: as, "Protestants . . . of that kind which is the most *adverse* to all implicit submission of mind and opinion" (*Burke*); "The Beefsteak and October clubs are neither of them *averse* to eating and drinking" (*Spectator*). See OPPOSITE, ANTIPATHY.

I . . . hope that our periodical judges will not be very *adverse* to me, and that perhaps they may even favor me. *Cowper.*

Which, like the toad, ugly and venomous,
Wears yet a precious jewel in his head. *Shak.*

Syn. — Distress, misery, suffering. See MISFORTUNE.

Adversity Hume. Joseph Hume, an English politician (1777-1855); — so called by Cobbett because of his predictions of disaster to Great Britain. Cf. PROSPERITY ROBINSON.

ad-vert' (ăd-vûrt'), *v. i.*; AD-VERT'ED; AD-VERT'ING. [Formerly also *avert*, fr. F. *avertir*, L. *advertere*, v. t., to turn to; *ad* + *vertere* to turn. See VERSION; cf. ADVERTISE.] To turn the mind or attention; to refer; to take heed or notice; — with *to*; as, he *adverted* to what was said.

I may again *advert* to the distinction. *Owen.*

Syn. — Refer, allude; return, recur. — ADVERT, REVERT come into comparison with reference to discourse. To ADVERT to something is literally to turn to or toward it, hence the word often implies turning away from one subject to take up another, as, "I speak of this point chiefly for the sake of method. . . . Let me now *advert* to what was peculiar in that testimony" (*Poe*). To REVERT to something is to turn back to it in speech or thought; as, "In my weaker moments I *revert* with a sigh . . . to the old notion of literature as holiday" (*Lowell*); "He now drops this idea, and *reverts* to his reasoning on death" (*Goldsmith*). But *advert* is frequently used as synonymous with *refer* (see ALLUDE); as, "I never heard him [Carlyle] *advert* to his works and his fame" (*E. Fitzgerald*). See RETURN.

ad-vert'ence (ăd-vûr'tĕns) } *n.* [OF. *advertence, avertence,*
ad-vert'en-cy (-tĕn-sĭ) } LL. *advertentia*, fr. L. *advertens.* See ADVERTENT.] Act of adverting, or quality of being advertent; attention; notice; regard; heedfulness.

To this difference it is right that *advertence* should be had in regulating taxation. *J. S Mill*

ad-vert'ent (-tĕnt), *a.* [L. *advertens, -entis*, p. pr. of *advertere.* See ADVERT.] Attentive; heedful; regardful. *Sir M. Hale.* — **ad-vert'ent-ly**, *adv.*

ad'ver-tise' (ăd'vĕr-tīz'; ăd'vĕr-tīz'; 277; *see note below*), *v. t.*; AD'VER-TISED (-tīzd, -tīzd'); AD'VER-TIS'ING (-tīz'ĭng; -tĭz'ĭng). Also **ad'ver-tize'**. [F. *avertir*, formerly also spelt *advertir*, to warn, give notice to, L. *advertere* to turn to. The ending was probably influenced by the noun *advertisement.* See ADVERT.] **1.** To notice; observe. *Obs*

2. To give notice to; to inform or apprise; to notify; to make known; hence, to warn; — often with *of* before the subject of information; as, to *advertise* a man of his loss.

I will *advertise* thee what this people shall do. *Num.* XXIV. 14.

3. To give public notice of; to announce publicly, esp. by a printed notice; as, to *advertise* goods for sale, a lost article, the sailing day of a vessel, a political meeting.

☞ This word was formerly accented *ad-ver'tise*, later becoming *ad'ver-tise'*. Present usage favors *ad'ver-tise'*, as in verbs in *-ize*, and in accordance with the tendency of the language to throw the accent toward the first syllable.

Syn. — Notify, announce, proclaim, promulgate, publish.

ad'ver-tise', *v. i.* Also **ad'ver-tize'**. **1.** To take note. *Obs.*

2. To give notice or information; esp., to give or make statements, requests, or the like, in printed announcements or advertisements

ad-ver'tise-ment (ăd-vûr'tĭz-mĕnt; *often* ăd'vĕr-tīz'mĕnt *in U. S.*; 277), *n.* Also **ad-ver'tize-ment**. [F. *avertissement*, formerly also spelt *advertissement*, a warning, giving notice.] **1.** Act of adverting to something; act of informing or notifying; notification. *Archaic.*

An *advertisement* of danger. *Bp. Burnet.*

2. Admonition; advice; warning. *Obs.*

Therefore give me no counsel:
My griefs cry louder than *advertisement.* *Shak.*

3. A public notice, esp. in some public print, as a newspaper, periodical, book, poster, or handbill; anything that advertises; as, a newspaper having many *advertisements.*

Advertisements of Elizabeth, a series of enactments promulgated in 1566 by Parker, Archbishop of Canterbury, to establish "due order in the public administration of Common Prayer and using of Holy Sacraments."

ad'ver-tis'er (ăd'vĕr-tīz'ĕr; ăd'vĕr-tīz'ĕr), *n.* Also **ad'ver-tiz'er**. One that advertises.

ad-vice' (ăd-vīs') *n.* [ME. *avis* opinion, advice, F. *avis*; *à* + OF. *vis*, fr. L. *visum* seemed, seen; really p. p. of *videre* to see, so that *vis* meant that which has seemed best. See VISION; cf. ADVISE, AVISO.] **1.** View or consideration of a thing; hence: **a** Opinion; judgment. **b** Prudence; consideration; wisdom; knowledge.

How shall I dote on her with more *advice*,
That thus without *advice* begin to love her? *Shak.*

c Determination; resolve or decision; plan. *Obs.*

2. An opinion recommended or offered as worthy to be followed; counsel.

We may give *advice*, but we cannot give conduct. *Franklin.*

3. Information or notice given; intelligence; as, late *advices* from France; — commonly in *pl.* Specif., *Com.*, usually, information communicated by letter, — chiefly as to drafts or bills of exchange; as, a letter of *advice.*

Syn. — Opinion, recommendation, instruction, suggestion, exhortation, admonition; consultation, deliberation. — ADVICE, COUNSEL. ADVICE implies real or pretended knowledge, often professional or technical, on the part of the one who gives it, and may apply to any of the affairs of life; as, *advice* regarding the choice of books, the conduct of a business, the care of poultry; legal or medical *advice.* COUNSEL is rather the fruit of wisdom or deliberation, and usually presupposes weightier occasions than *advice*; as, to seek *counsel* in an emergency, in affairs of state; a *counsel* of perfection. See WARN.

King Rehoboam forsook the *counsel* of the old men, and answered them after the *advice* of the young men.

æs-thet'ics (ĕs-thĕt'ĭks; *see* ÆSTHETIC), *n.* Also **es-thet'ics.** [Gr. *αἰσθητικός* perceptive, esp. by feeling, fr. *αἰσθάνεσθαι* to perceive, feel: cf. G. *asthetik.*] The theory or philosophy of taste; science of the beautiful in nature and art, esp. that treating of the expression and appreciation of beauty.

☞ The word *æsthetic*, in the Latin form *æsthetica*, was first used by Baumgarten about 1750 to designate the science of sensuous knowledge, the goal of which is beauty, in contrast with logic, whose goal is truth. Kant objected to this use of the term, and used *transcendental æsthetic* to denote the a priori principles of sensible experience, namely, time and space. Hegel (1820-30) elaborated a science of the fine arts which he called with some protest *Asthetik*, and won so much approval for his work that since his time the word in his sense is generally adopted. Cf. BEAUTY.

af-fec'tate-ly, *adv.* *Obs.*

4. Application or destination to a special use. *Obs. & R.*

Syn. — AFFECTATION, MANNERISM. AFFECTATION suggests something consciously artificial or assumed, and consequently insincere; *mannerism* may imply excess or singularity, but does not suggest insincerity. A MANNERISM consciously assumed becomes thereby an *affectation;* what begins as an *affectation* may become an unconscious trick of behavior and so a *mannerism.* See MANNER; cf. ASSUME.

What I liked about Byron was his utter contempt of all the *affectations* of literature, from the school-magisterial style to the lackadaisical. *Scott*

The *mannerisms* and errors of these [Burne-Jones's] pictures . . are never affected or indolent. The work is natural to the painter, however strange to us. *Ruskin*

af-fect'ed (ă-fĕk'tĕd, -tĭd), *p. p & p. a.* **1.** In obsolete uses: **a** Aimed at; wished for. **b** Cherished; done or had of deliberate choice. **c** Regarded with affection; beloved. **2.** Assumed artificially; not natural.

3. Moving the emotions; fitted to excite the emotions; pathetic; touching; as, an *affecting* address; an *affecting* sight.

The most *affecting* music is generally the most simple. *Mitford*

Syn. — AFFECTING, TOUCHING, MOVING, PATHETIC refer to influence upon the sensibilities. AFFECTING is the most general term for that which stirs emotion; as, an *affecting* discourse. TOUCHING suggests a more or less transitory impression; *moving*, a deeper agitation, which tends to action or expression; as, *touching* confidence, a *moving* appeal. PATHETIC (see PATHOS) applies to that which arouses sympathy, sadness, or pity; as, "the *pathetic* sense of the transitoriness of familiar . . . scenes" (*Longfellow*).

af-fec'tion (ă-fĕk'shŭn), *n.* [F. *affection*, L. *affectio*, fr. *afficere*. See AFFECT.] **1.** Act of affecting, or acting upon; state of being affected.

2. A feeling or emotion; — formerly commonly applied to strong emotions or passions, as joy, fear, hatred; now usually restricted to more moderate feelings. "The *affection* of grief." *Sir Wm. Hamilton.*

Most wretched man,
That to *affections* does the bridle lend. *Spenser.*

Affections; called so, because they . . form us into a certain frame of mind towards other persons, and operate therefore as attractions, and not, like the passions, as repulsions. *J. Martineau*

3. The lively representation of any emotion. *Wotton.* **4.** *Psychol.* The feeling or receptive aspect of consciousness; esp., the mental element representing what is common in all states of emotion or feeling; — contr. with *conation.*

Sensations one and all are intrusions, interferences, *affections*, or modifications in the "mental series." *James Ward.*

5. Bent of mind; feeling or natural impulse swaying the mind; inclination; disposition; propensity; tendency.

The *affection* of nobleness which nature shows above her breed ing. *Shak.*

6. A settled good will; kind feeling; love; zealous or tender attachment; — often in the *pl.* Formerly followed by *to*, but now more generally by *for* or *toward;* as, filial *affection;* to have an *affection* for or toward children.

All his *affections* are set on his own country. *Macaulay.*

7. Animosity; ill will; also, partiality; prejudice. *Obs.* **8.** A bodily state; esp., *Med.*, abnormal bodily state; disease; morbid symptom; malady; as, a pulmonary *affection.* **9.** A condition, state, or mode of being which is not essential or unalterable; as, the *affections* of time and place. **10.** An attribute; a quality or property; a condition; as, figure, weight, etc., are *affections* of bodies. "The *affections* of quantity." *Boyle.*

11. Affectation. *Obs.* "Spruce *affection*." *Shak.*

Syn. — Tenderness, fondness, kindness, love, good will. See ATTACHMENT

af'fi-da'tion (ăf'ĭ-dā'shŭn), *n.* [LL. *affidatio.*] A plighting of faith; specif., an affiancing. *Rare.*

She demanded William as her husband in the court Christian, relying on an *affidation* that had taken place between them *Pollock & Mait.*

af'fi-da'vit (ăf'ĭ-dā'vĭt), *n.* [LL. *affidavit* he has made oath, perfect tense of *affidare.* See AFFIANCE.] *Law.* A sworn statement in writing; esp., a declaration in writing, made upon oath before an authorized magistrate or officer. In its most general sense *affidavit* includes a deposition, but it is usually used specif. for a statement under oath, by whomsoever written down, made *ex parte*, and without cross-examination, and in this differs from a *deposition.* It is also applied to written statements made on affirmation. An affidavit must sufficiently identify the person who makes it, usually by his subscribed signature, but his signature is not necessarily a part of it.

affidavit of verification, *Law*, a form of short affidavit used to verify or make oath to the truth of the allegations in an instrument, as a petition or complaint, instead of including the allegations in extenso in a separate affidavit.

af-fil'i-ate (ă-fĭl'ĭ-āt), *v. t.*; AF-FIL'I-AT'ED (-āt'ĕd); AF-FIL'I-AT'ING (-āt'ĭng). [LL. *affiliatus*, p. p. of *affiliare*, to adopt as son; L. *ad* + *filius* son: cf. F. *affilier.*] **1.** To adopt; to receive into a family as a son; hence, usually, to bring or receive into close connection; to ally, to unite or attach as a member or branch.

Is the soul *affiliated* to God, or is it estranged? *I. Taylor*

2. To fix the paternity of; — said of an illegitimate child; as, to *affiliate* the child *to* (or *on* or *upon*) John Doe; to filiate; hence, to refer or ascribe as offspring (to).

3. To connect in the way of descent; to trace origin (to).

How do these facts tend to *affiliate* the faculty of hearing upon the aboriginal vegetative processes? *H. Spencer*

4. To attach (*to*) or unite (*with*); to receive into a society as a member, and initiate into its mysteries, plans, etc.; — followed by *to* or *with.*

affiliated societies, societies connected with a central society, or with one another.

af-fil'i-ate, *v. i.* To connect or associate one's self; — followed by *with;* as, they *affiliate* with no party.

5. *Biol.* A relation between species or higher groups dependent on resemblance in the whole plan of structure, and indicating community of origin.

6. A spiritual relationship or attraction held to exist between certain persons, esp. persons of opposite sexes; also, one who exerts such psychical or spiritual attraction.

7. *Math.* The correspondence between a plane figure and its image formed by parallel projection on another plane, a collineation such that the lines (or planes) at infinity are corresponding elements.

Syn. — Connection, kindred, kin. — AFFINITY, CONSANGUINITY, KINSHIP, RELATIONSHIP. *Affinity* refers to connection by marriage; *consanguinity*, to ties of blood; *kinship* and *relationship*, to either. But *kinship* often suggests greater warmth of feeling than *relationship.* See RESEMBLANCE, CONGENIAL.

affinity constant. *Phys. Chem.* The ratio of the affinities of the two opposed actions in a reversible reaction.

af-firm' (ă-fûrm'), *v. t.*; AF-FIRMED' (-fûrmd'); AF-FIRM'ING. [ME. *affermen*, OF. *afermer*, F. *affirmer*, fr. L. *affirmare; ad* + *firmare* to make firm, *firmus* firm. See FIRM.] **1.** To make firm; to confirm, or ratify, as an act otherwise voidable, esp., *Law*, to assert as valid or confirm, as a judgment, decree, or order, brought before an appellate court for review.

2. To assert positively; to tell with confidence; to aver, to maintain as true, — opposed to *deny.*

Jesus, whom Paul *affirmed* to be alive *Acts* xxv. 19

3. *Law.* To testify to, or declare, by affirmation.

Syn. — Assert, declare, allege, pronounce, profess, avouch, avow, testify, attest. — AFFIRM, AVER, ASSEVERATE, PROTEST agree in the idea of positive assertion. To AFFIRM (opposed to *deny*) is to declare as a fact; as, "*Affirming* what few persons will *deny*" (*Wordsworth*); "These things I will that thou *affirm* constantly" (*Tit.* iii. 8). To AVER is to affirm confidently, as a matter of positive knowledge; as, "For all *averred*, I had killed the bird" (*Coleridge*). To ASSEVERATE is to affirm solemnly or emphatically, as that which cannot be disputed; as, to *asseverate* that one has seen a ghost, "bonds, promises, or *asseverations*" (*G. Meredith*). To PROTEST is to affirm publicly or formally, as if in the face of doubt or contradiction; as, to *protest* one's love; "I here *protest*, in sight of heaven, . . . that I am clear" (*Shak.*). See ASSERT, DECLARE, ALLEGE, VOUCH.

‖ **a fort'i-o'ri** (ā fôr'shĭ-ō'rī : fōr'-). [L.] With the greater force; — said of an argument that is developed to a given proposition from the evidence for a less probable proposition which is dependent upon the same premises or conditions as is that which is to be proved.

a-foul' (*ə-foul'*), *adv. & a.* In collision; fouled; entangled; as, to run or fall *afoul* of, or come in collision with.

a-fraid' (*ə-frād'*), *p. a.* [ME. *afrayed, affraide,* p. p. of *afraien* to affray. See AFFRAY.] Impressed with fear or apprehension; in fear; apprehensive. "Back they recoiled, *afraid.*" *Milton.*

☞ This word follows the noun it limits. It is followed by *of* before the object of fear, or by the infinitive, or by a dependent clause; as, to be *afraid of* death. "I am *afraid* to die." "I am *afraid* he will chastise me." "Be not *afraid* that I your hand should take." *Shak. I am afraid* is sometimes used colloquially to soften a statement, as, *I am afraid* I cannot help you in this matter.

Syn. — Apprehensive, anxious, alarmed, terrified, scared; shrinking, faint-hearted, pusillanimous, cowardly. — AFRAID, FEARFUL, FRIGHTENED, AGHAST, TIMID, TIMOROUS. AFRAID implies a state of fear or apprehension; as, "And [Adam] said, I heard thy voice in the garden, and I was *afraid*" (*Gen.* iii, 10). FEARFUL (see FEARFUL), as synonymous with *afraid,* implies fear about an object, rather than for one's self; as, *fearful* of the consequences. It is also sometimes used as a synonym for *timid;* as, the *fearful* hare. FRIGHTENED (see FRIGHTEN) suggests a sudden access of alarm; as, *frightened* at a noise, a *frightened* deer. AGHAST connotes the outward manifestation of fear or terror; as, "'*Afraid*' was the word, was n't it? . . . I should have said, *aghast;* you exhibited every symptom of one laboring under uncontrollable fear" (*G. Borrow*). TIMID (see *meticulous,* under CAREFUL) implies habitual or constitutional lack of courage; as, *timid* as a mouse, a *timid* counselor; "I am not *timid* generally, but I am always *afraid* of him" (*Dickens*). TIMOROUS is commonly more or less contemptuous; as, "Murray, the most *timorous,* as Byron called him, of all God's booksellers" (*Scott*). See FEAR, APPREHENSION, COWARDLY.

af'ter, *prep.* **1.** Behind in place; as, men in line one *after* another; — often used with the same noun preceding and following to denote repetition, succession of a number; as, wave *after* wave, day *after* day, etc.
2. Moving toward from behind; following the course of; in search of; in pursuit of; as, what is he *after?*
Ye shall not go *after* other gods *Deut.* VI 14.
3. Hence: Denoting the aim or object, concerning, in relation to; as, to look *after* workmen; to inquire *after* a friend; to thirst *after* righteousness.
4. Later in time; subsequent to; as, *after* supper; *after* three days. It often precedes a clause, formerly with *that* interposed. Where a time is expressed as to be computed, or an act as to be done, *after* a certain date, the word *after* is usually judicially construed as not intended to include the day or period governed by the word *after;* so that, thirty days *after* April 1st would include the period beginning with April 2d and including May 1st; two months *after* July would include all of August and September; ten days *after* sight of a draft would include ten days subsequent to, and not including, the day of its presentation. But the word may be construed to include the day or period referred to, as where this will plainly give effect to the intention of the user, as in a devise or a statute, to subserve public policy, avoid a forfeiture, etc.
5. Subsequent to and in consequence of; as, *after* what you have said, I shall be careful.
6. Subsequent to and notwithstanding; as, *after* all our advice, you took that course.
7. Below in rank; next to in order. *Shak.*
Codrus *after* Phœbus sings the best *Dryden*
8. In imitation of; in conformity with; after the manner of; as, to make a thing *after* a model; a picture *after* Rubens; the boy takes *after* his father.
9. According to; in accordance with; in conformity with the nature of, as, he acted *after* his kind.
He shall not judge *after* the sight of his eyes *Is.* xi. 3.
They that are *after* the flesh do mind the things of the flesh. *Rom.* VIII. 5.
10. With reference or in correspondence to; in proportion to; befitting. *Archaic.*
He takes greatness of kingdoms according to bulk and currency, and not *after* their intrinsic value *Bacon.*
11. Derived from, as, malachite pseudomorph *after* cuprite.
Syn. — AFTER, BEHIND. AFTER implies movement, order, consecutiveness, either in time or space; as, *after* dinner, to follow *after* some one, June comes *after* May, N *after* M. BEHIND implies position, usually in space, less frequently in time, as, *behind* the door, to leave something *behind,* "forgetting those things which are *behind*" (*Phil.* III. 13). See POSTERIOR.
after all, when everything has been considered; upon the whole, nevertheless. — to name *or* call after, to name like and in reference to.
Our eldest son was *named* George *after* his uncle *Goldsmith.*

af'ter (ăf'tĕr), *a.* [AS. *æftera.* See AFTER, *adv.*] **1.** Next; later in time; subsequent, succeeding; second; as, an *after* period of life; *after* baptism, or subsequent or repeated baptism.
2. Hinder, nearer the rear; usually, *Naut.,* toward the stern of the ship; — applied to any object abaft the midship section, or in the rear part of a vessel, or relatively near to this part, as, the *after* body, *after* cabin, *after* hatchway, *after* leech. The *after* bowlines, *after* braces, *after* sails, *after* yards, etc., are those on the masts abaft the foremast or on the stays abaft the mainmast.

aft'er-. In composition *after* appears in its various prepositional, adverbial, and adjectival relationships and meanings, primarily of sequence or of posteriority, or afterness; secondarily with an implication of interiority or futility, as in *afterthought, afterwit.* When the adverb *after* precedes the verb it modifies, out of the normal order, or when the adjective or preposition *after* stands in an unusual or sufficiently conventionalized relation to the word following, the two are generally best written as one word, as in *afterago, aftersend, afterglow.*

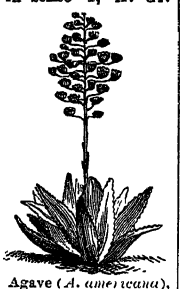
A-ga've (*a-gā'vē*), *n.* [L. *Agave*, in sense 1, fr. Gr. Ἀγαυη, properly fem. of ἀγαυός illustrious, noble.] **1.** *Gr. Myth.* The mother of Pentheus. See PENTHEUS; cf. BACCHÆ.



Agave (*A. americana*), in Flower.

2 [NL.] *Bot.* A large and important genus of amaryllidaceous plants of tropical America and the southwestern United States; also [*l. c.*], a plant of the genus. The common fleshy-leaved century plant, or American aloe (*A. americana*), shows the habit of most of the species, though some have a woody trunk or caudex. The leaves are frequently spiny-margined and sharp-pointed; the flowers, with a 6-parted perianth, are borne in a tall candelabriform panicle. Most species are slow in attaining maturity, and some have never been known to flower. Valuable fiber is obtained from *A. rigida* and its allies, pulque and mescal are made from *A. atrovirens* and other species. Several possess detergent properties, and are known as amoles, or soap plants. In Mexico the plants are called *maguey*. See PULQUE, MESCAL, AMOLE, SISAL HEMP.

agave cactus. A cactus (*Leuchtenbergia principis*) having short columnar stems and persistent yellow flowers borne at the summit.

Ag'chy-los'to-ma (ăg'kĭ-lŏs'tŏ-mă), *n.* [NL.; irreg. fr. Gr. ἀγκύλος crooked + *-stoma*.] *Zool.* A genus of small nematode worms having the mouth armed with hooks. They are parasites of man and various mammals, burrowing in the intestinal walls, and when numerous causing *ankylostomiasis* (which see). *A. duodenale* is the best-known species. *Uncinaria* (subgenus *Necator*) *americana* is an allied tropical American form, also infesting man.

age (āj), *n.* [OF. *aage*, *eage*, F. *âge*, fr L. *ætas* through a supposed LL. *ætaticum*. L. *ætas* is contracted fr. *ævitas*, fr. *ævum* lifetime, age. See AYE ever.] **1.** That part of the duration of a being or a thing which is between its beginning and any given time; as, what is the present *age* of a man, or of the earth?

2. The whole duration of a being, whether animal, vegetable, or other kind; lifetime.

Mine *age* is as nothing before thee. *Ps.* XXIX. 5.

3. The time of life at which some particular qualification, power, or capacity naturally or conventionally arises or becomes vested. Not all of a person's legal capacities and liabilities become vested at any one time. At the common law an infant under seven years of age is conclusively presumed incapable of criminal intent, and between the age of seven and fourteen is presumed to be so until the contrary is proven. Before the age of majority (see def. 4) also come military age, the age of consent, and the age of discretion (see phrases, below; also cf. ADULT). General political capacity is usually attained at full age; and in Great Britain a person may then be a member of Parliament. In the United States and various other countries, however, a greater maturity is required of holders of various important offices.

4. Specif.: Mature age; esp., the time of life at which one attains full personal rights and capacities; full age; as, to come of *age*; he (or she) is of *age*. Full *age*, or majority, at the common law is fixed at 21 years for men and women alike, and is considered to be attained on the last day of the 21st year of age. In some of the States of the United States women attain majority on becoming 18 years of age. At the Civil Law full age was fixed at 25 years. Cf. def. 3 above.

5. One of the stages of life; as, the *age* of infancy, of youth, etc. *Shak.*

6. The latter part of life; an advanced period of life, seniority; state of being old.

Nor wrong mine *age* with this indignity *Shak.*

7. A particular period of time in history or in the development of man, esp. with reference to civilization; as, the golden *age* (see AGES IN MYTHOLOGY, below); the *age* of Pericles. "The spirit of the *age*." *Prescott.* In paleëthnology, the prehistoric development of mankind is usually divided into three ages, or culture periods: The age of stone, subdivided into a *paleolithic* and a *neolithic* period (see the terms). The age of bronze, characterized by the widespread use of bronze implements. It is sometimes taken as immediately following the stone age, sometimes as preceded by an intermediate age of copper. The third is the age of iron, marked by the coming into general use of that metal. The extent of these culture epochs, varying in different parts of the world, is usually reckoned in terms of geological time. Thus, paleolithic man, still exemplified by the Australian savages, is by some referred as far back as Pliocene (Tertiary) times. Neolithic culture in Europe is commonly held to date from near the close of the last glacial period, the age of bronze is considered to have not long antedated the historic period, into which the age of iron merges.

He was not of an *age*, but for all time. *B. Jonson.*
Truth, in some *age* or other, will find her witness *Milton.*

8. A long period in the history of the earth; often, a period of geologic time with reference to some especial characteristic; as, the *Age of Fishes*, the period (Devonian) during which fishes first became the dominant type of animal life; the *Age of Reptiles* (the Mesozoic era); the *Age of Invertebrates*, etc. For full classification see GEOLOGY, *Chart.*

9. The people who live at a particular period, hence, a generation. "*Ages* yet unborn." *Pope.*
The way which the *age* follows *J. H. Newman.*

10. A century; the period of one hundred years.
Fleury apologizes for these five *ages* *Hallam.*

11. A long time (indefinitely). *Colloq.* "He made minutes an *age*." *Tennyson.*

12. In poker, the right belonging to the player to the left of the dealer to have the last say: (1) (unless there has been a straddle) whether or not he will make his ante good and draw cards or drop out, and (2) after the draw, whether he will bet or drop out (see ANTE, BLIND, *n.*); also, the player holding this position; the eldest hand.

Syn. — Time, period, generation, date, era. See EPOCH.

Age of Acrogens, etc. *Geol.* See def. 8, above. — **a. of bronze**, **a. of copper**. See def. 7, above. — **a. of gold**. See GOLDEN AGE. — **a of a tide.** **a** The time from the origin of a tide in the South Pacific Ocean to its arrival at a given place, about 36 hours on the coast of North America, and two days at London. **b** = *Retard of the tide*, under RETARD. — **a. of consent**, *Law*, the age at which one is competent to give legal consent, esp. to marriage or to unlawful sexual intercourse. The age of consent to unlawful sexual intercourse was at the common law ten years, but has been generally raised by statute to ages varying from 13 to 18 years. The age of consent to marry was 14 for male minors and 12 for females; but these ages have also generally been raised by statute. Cf. ADULT. — **a. of discretion**, *Law*, the age at which the law imputes to a person the possession of sufficient knowledge for him to become responsible for certain acts or competent to exercise certain powers. At 14 years of age a minor is presumed to have acquired legal discretion so as to be responsible for all criminal acts. At 14 a minor may choose his own guardian. See def. 3, above. — **A. of Fishes, A. of Invertebrates**, etc. *Geol.* See def. 8, above. — **a. of the moon**, *Astron.*, the time that has elapsed since the last new moon. See MOON. — **ages in mythology.** **a** In classical mythology, the successive periods of the world's history. Hesiod distinguished: the golden age, in which mankind lived free from bodily infirmities or the necessity of tilling the soil, an era of perfect happiness which was identified with the reign of Cronus and the elder gods; the silver age, under Zeus and the younger gods, in which men lost the virtue of reverence while their former innocence gave place to luxury and pride, until Zeus swept them from the face of the earth; the bronze age, in which a violent and warring race eventually destroyed itself; the heroic age, wherein heroes and demigods fought at Troy and Thebes; and the iron age, the age of the poet himself, wherein toil and selfishness are the burden of a degenerate mankind. Ovid follows Hesiod closely, but omits the heroic age. With the Latins, the golden is the age of Saturn. Cf. LATIN, *n.*, 1. **b** Hence, any similar mythical period, as the *golden age* of Mexico under Quetzalcoatl (which see). Cf., also, YUGA. — **of age.** **a** Of full or mature age. See def. 4, above. **b** Having the outer incisors (corner nippers) developed, — said of the young horse. Cf. AGED, 1 **c**.

age (āj), *v. i.*; AGED (ājd); AG'ING, AGE'ING (āj'ĭng). To grow aged; to become old; to show marks of age; to undergo change with age or the lapse of time; as, he grew fat as he *aged*; wine *ages*; an incandescent lamp *ages* (i. e., decreases in candle power); the iron core of a transformer *ages* (i. e., changes slowly in hysteretic quality).

They live one hundred and thirty years, and never *age* for all that. *Holland*

I am *aging*; that is, I have a whitish, or rather a light-colored, hair here and there. *Landor*

age, *v. t.* **1.** To cause to age, or grow old; to impart the characteristics of age to; as, grief *ages* us; hence, to ripen or mature for use, as wine, potter's clay, etc.

2. Specif.: *Dyeing.* To treat (mordanted or dyed material) by hanging for some time in warm moist air or (more rapidly) by the use of steam, thereby inducing certain chemical changes.

-age (-ăj; 124). [F. *-age*, fr. L. *-aticum*.] A suffix used to form nouns denoting: **a** Something in the relationship of appurtenance, function, or the like, and esp. the collection, aggregate, or sum total of things in, or arising from, such relationship; as in prisage, pontage, postage, average, scutage, breakage, shrinkage, leakage, mileage, etc. **b** Act or process; as in passage, plunderage, marriage, etc. **c** State, condition, rank, dignity, or the like; as in pupilage, pastorage, baronage, etc.

aged (*see under each def.* *In compounds*, ājd), *a.* **1.** That has grown (more or less) old. Specif.: **a** (ā'jĕd; -jĭd) Old; having lived long; of an advanced age; as, an *aged* man; an *aged* oak. **b** (ā'jĕd; -jĭd) *Phys. Geog.* Well advanced toward reduction to base level; — said of topography and topographic features. **c** (ājd) Of a horse, of the age of seven, eight, or nine years or more, as shown by the teeth; specif., *Horse Racing*, more than six years old Cf. *of age* **b**, under AGE. **d** (ājd; ā'jĕd; -jĭd) Having a certain age; at the age of; having lived, as, a man *aged* forty years.

2. (ā'jĕd; -jĭd) Belonging to old age. "Shorten up their sinews with *aged* cramps." *Shak*

Syn. — AGED, OLD, ELDERLY come into comparison as referring to persons (see OLD). OLD applies to one who is far advanced in years, as, "a man *old*, wrinkled, faded, withered" (*Shak.*). AGED implies extreme old age; as, "The *aged* creature came, shuffling along with ivory-headed wand" (*Keats*). One is ELDERLY who has passed the prime of life; as, "When you see me again I shall be an *old* man — that was a slip, I meant to say 'elderly'" (*Lowell*).

— **a'ged-ly** (ā'jĕd-lĭ; -jĭd-lĭ), *adv.* — **a'ged-ness**, *n.*

age'less (āj'lĕs), *a.* Without old age or limits of duration; as, fountains of *ageless* youth.

a'gen-cy (ā'jĕn-sĭ), *n.*; *pl.* -CIES (-sĭz). [LL. *agentia*, fr. L. *agens*, *agentis*. See AGENT.] **1.** Faculty or state of acting or of exerting power; action; instrumentality.

The superintendence and *agency* of Providence *Woodward*

2. Office of an agent, or factor; relation between a principal and his agent, business of one intrusted with the concerns of another.

The scanty and gradual admission of *agency* in Roman law is a well-known chapter in the history of that system. The tendency of modern times is towards the fullest recognition of the principles proclaimed in the canon law; "potest quis per alium quod potest facere per seipsum;" "qui facit per alium facit per se; et facit per seipsum." *T. E. Holland.*

3. The place of business or district of an agent.

4. Specif., in the United States, an Indian agency, or the district of a government agent established in or near an Indian reservation, to have charge of its interests.

Syn. — Action, operation, efficiency, management.

agency coupled with an interest, *Law*, an agency such that the agent has a legal interest in the subject-matter of the agency. Such an agency is not subject to the ordinary rules of revocation or termination of agencies.

a-gen'dum (*ä-jĕn'dŭm*), *n.*; *pl.* -DA (-dă). [L., neut. of the gerundive of *agere* to act.] **1.** A thing to be done, — usually in *pl.*; specif., a program of the business to be brought up at a meeting; as *coll. pl.*, a memorandum book.

2. *Eccl.* A church service; a ritual or liturgy; a matter of practical duty as distinguished from *credenda*, doctrines to be believed, — usually *pl.* or *coll. pl.*

A-ge'nor (*ä-jē'nôr*), *n.* [L., fr. Gr. Ἀγήνωρ.] *Gr. Myth.* One of the bravest of the Trojan warriors, the son of Antenor. He rescued Hector from Ajax.

a'gent (ā'jĕnt), *a.* [L. *agens*, *agentis*, p. pr. of *agere* to act; akin to Gr. ἄγειν to lead, Icel. *aka* to drive, Skr. *aj* Cf. ACRE.] Acting, — opposed to *patient*, or sustaining action. *Archaic.* "The body *agent*." *Bacon.*

Inasmuch as the soul is present there will be power not confident but *agent*. *Emerson.*

agent intellect. [A trans. of L. *intellectus agens*, trans. of Gr. νοῦς ποιητικός.] *Philos.* See NOUS.

a'gent, *n.* **1.** One who exerts power, or has the power to act; that which manifests activity, an actor; an active being or quality.

Heaven made us *agents*, free to good or ill. *Dryden.*

The elements which are said to compose it may be considered as the mere *agents* of its production, the conditions on which it depends, the facts which make up its cause *J. S. Mill.*

2. One who acts for, or in the place of, another, by authority from him; one intrusted with the business of another; a substitute; a deputy. An *agent's* authority may be given to him prior to his act, or by due ratification after it, or it may be implied by law (as in the case of wife or children purchasing necessaries, they being then sometimes called **agents of necessity**). The term *agent* in its broadest sense includes any person acting for another by his authority. In law the terms *attorney* and *servant* are sometimes used in a sense nearly as broad as that of *agent*; but *servant* usually implies one who works under the direct employment and control of the principal, while *agent*, except in torts, implies one who is intrusted with more or less discretion. Agents are called **general** when their authority is defined by the character of their business, as in the case of factors, shipmasters, consignees, etc.; and **special** when their authority is expressly limited.

3 An active power or cause; that which has the power to produce an effect, as, a physical, chemical, or medicinal *agent*; heat is a powerful *agent*.

a'ger (ā'jĕr), *n.* One that ages; specif., *Dyeing*, an apparatus for aging material with steam. See AGE, *v. t.*

‖ **a'ger** (ā'jĕr), *n.* [L.] Land; as in **a'ger pu'bli-cus** (pŭb'lĭ-kŭs), *Roman Hist.*, the public lands, which were acquired by conquest in war. Much of such land was leased on a long or perpetual lease, like the private emphyteusis, for a rent called vectigal, and was then called **a'ger vec'ti-ga'lis** (vĕk'tĭ-gā'lĭs).

A-ger'a-tum (*ä-jĕr'ä-tŭm*; ăj'ĕr-ā'tŭm), *n.* [NL., fr. Gr. ἀγήρατον a sort of plant; *ä-* not + γῆρας old age.]

1. *Bot.* A large genus of tropical American asteraceous plants. They have opposite leaves and small heads of blue or white flowers in terminal cymes.

See GLOMERATE.] To wind or collect into a ball; hence, to gather into a mass or anything like a mass; to cluster; mass.

Where he builds the *agglomerated* pile. *Cowper.*

ag-glom'er-ate (-ăt) } *a.* Collected into a ball, heap,
ag-glom'er-at'ed (-āt'ĕd) } or mass, specif., *Bot.*, collected into a mass but not coherent, as a head of flowers.

ag-glom'er-ate (-ăt), *n.* **1.** A collection or mass.

2. *Geol.* A mass of angular volcanic fragments united haphazard, without distinction of size or shape; — distinguished from *conglomerate*.

Syn. — AGGLOMERATE, AGGLOMERATION, CONGLOMERATE, CONGLOMERATION. As general terms, *agglomerate* (more frequently *agglomeration*) suggests a massing by loose juxtaposition with little or no implication regarding the objects massed (cf. AGGREGATE), *conglomerate* (or *conglomeration*) usually connotes a certain incongruity or heterogeneousness among the objects heaped together. Cf. ADHERE.

ag-glom'er-a'tion (-ẽr-ā'shŭn), *n.* [Cf. F. *agglomération*.] **1.** Act or process of agglomerating; a heaping together.

An excessive *agglomeration* of turrets *Warton.*

2. State of being collected in a mass.

3. A mass of agglomerated things or stuff; clump; cluster.

Syn. — See AGGLOMERATE.

ag-glom'er-a-tive (ă-glŏm'ẽr-ā-tĭv), *a* Having a tendency to gather together, or to make into collections.

ag-glu'ti-nant (ă-gloo'tĭ-nănt), *a* [L. *agglutinans*, p. pr.] Uniting, as glue; causing, or tending to cause, adhesion. — *n.* Any viscous substance that causes objects to adhere.

ag-glu'ti-nate (-nāt), *v. t.*; AG-GLU'TI-NAT'ED (-nāt'ĕd); AG-GLU'TI-NAT'ING (-nāt'ĭng). [L. *agglutinatus*, p. p. of *agglutinare* to glue to a thing, *ad* + *glutinare* to glue; *gluten* glue. See GLUE.] **1.** To unite, or cause to adhere, as with glue or other viscous substance; to unite by adhesion.

2. To form (words or discourse) by agglutination.

This brings us to the *agglutinating* state of language, in which sentences are built up of words united to formal parts, prefixes, suffixes, or infixes, which denote the relationship of each to the other members of the phrase. *Census of India*, 1901.

3. *Bacteriol.* To cause to undergo agglutination.

ag-glu'ti-nate (-nāt), *a.* [See AGGLUTINATE, *v.*] **1.** United with glue or as with glue; cemented together; — in *Bot.* said of the pollen masses of orchids, milkweeds, etc.

2. *Philol.* Consisting of agglutinative words or elements; formed or marked by agglutination.

3. *Zoöl.* = OBTECTED, 2.

ag-glu'ti-na'tion (-nā'shŭn), *n.* **1.** Act or process of agglutinating, or state of being agglutinated.

2. *Med.* The process of union in the healing of wounds.

3. That which is composed of agglutinated parts.

4. *Philol.* A combination or running together of primitive words into compounds, in which the form and meaning of the constituent parts undergo little or no change. See AGGLUTINATIVE LANGUAGES.

5. *Bacteriol. & Physiol. Chem.* A process by which cells distributed in a liquid collect into clumps or floccules and subside (losing at the same time their motility if they are ciliated organisms). It is supposed to be brought about by the agency of specific substances called *agglutinins*, the molecules of which unite themselves to the cells. See SIDE-CHAIN THEORY. Agglutination may be observed when a bacterial culture is treated with serum immunized against the particular organism. It is variously utilized in diagnosis. See WIDAL'S TEST.

ag-glu'ti-na-tive (ă-gloo'tĭ-nā-tĭv; 243), *a.* **1.** Of, pertaining to, or tending to cause, agglutination; adhesive.

2. *Philol.* Formed or characterized by agglutination, as a language or a compound.

agglutinative languages, languages in which the root or its derivative is modified by the joining to it of secondary roots which gradually lose their original independence and resolve into mere prefixes, suffixes, infixes, etc. The words often become very long, taking into themselves the various relations otherwise expressed by noun and pronoun, adjective, adverb, etc. In agglutination, as in inflection, pronouns are united to verbs to form the conjugation, prepositions to substantives to form the declension; but agglutination is distinguished from inflection in that conjugations and declensions are still naturally analyzed into their component parts, the pronominal and prepositional adjuncts being felt as distinct from the root. The true test of agglutination is thus the power of the particles which serve as prefixes, suffixes, etc., to shift their position and transfer their significance. In different languages agglutination varies from such simple types of formation as the English man-*ly*, man-*li*-ness, man-ful-*ly*, to the complexity of Turkish and Santali. In the latter language, for example, on the root *dal*, "strike," is formed *dal-ocho-akan-lahen-tae-inñ-a-e*, "he, who belongs to him who belongs to me, will continue letting himself be struck," while if the infix *pa* is inserted in the root, forming *dapal*, the sense is made reciprocal, the person who is struck, striking back. (Cf. INFLECTIONAL LANGUAGES.) The chief families of this type are: the URAL-ALTAIC, DRAVIDO-MUNDA, MALAYO-POLYNESIAN, BANTU, most, or possibly all, of the HAMITIC LANGUAGES (see the terms). Other agglutinative tongues include: Ainu; Japanese and Korean, with Riu Kiu, or Liukiu; languages of the Caucasus such as Circassian, Georgian, Lezghian; Basque with the extinct Iberian, and possibly such extinct tongues as Etruscan and Pictish, the languages of the Soudanese Negroes; Hottentot and Bushman; Negrito languages, Andamanese, Papuan, etc.; native Australian dialects and Tasmanian. Some of the languages of these groups have either reached the inflectional stage or show characteristics of inflection. Such are the Hamitic, possibly allied to the Semitic languages; Japanese; and Finnish, "as good a type as any of a fully developed inflectional language" (*H. Sweet*). The **polysynthetic** division of the agglutinative languages is characterized by syncope, or ellipsis of syllables in phrasing, and by the incorporation of nouns and pronouns to the verb so that one word frequently forms a whole proposition. "**Polysynthesism** or **incapsulation** may be defined as the fusion of the several parts of a sentence into a single word, the single words composing it being reduced to their simplest elements" (*Sayce*). Thus, in Cherokee, *nad-hol-i-nun* means "bring us the boat," from *naïen*, "to bring," *amokhol*, "boat," and *nun*, "us." The polysynthetic languages comprise the Eskimauan and most of the American Indian languages. They are also called **incorporating** languages by many writers, but by others these two types are carefully distinguished. "Incorporation is purely formal; polysynthesism is phonetic. Incorporation joins to the radical a greater or less number of formal derivative elements; polysynthesism is a simple contraction, an abbreviation, a demi-fusion of already formal words accidentally juxtaposed" (*Julien Vinson*, trans.). Other writers, again, make polysynthesism the broader term. "The important distinctions between **polysynthetic** on the one hand and oligo- or **mono-synthetic** on the other runs through all agglutinative and inflectional languages" (*H. Sweet*). Some writers prefer the term **holophrastic** in the above sense to *polysynthetic*. "All American languages are agglutinative, or *holophrastic*, but they should not be called polysynthetic or incorporative or inflectional" (*Encyc. Brit.*).

ag-glu'ti-nin (ă-gloo'tĭ-nĭn), *n.* *Physiol. Chem.* Any of a class of substances, apparently proteids, occurring in animal organisms, and producing agglutination (which see, def. 5).

ag'gra-da'tion (ăg'rā-dā'shŭn), *n.* [*ag-* = *ad-* to + *gradation*.] *Phys. Geog.* A modification of, or the process of modifying, the earth's surface in the direction of uniformity of grade, or slope, by deposition.

ag-grade' (ă-grād'), *v. t.*; AG-GRAD'ED (-grād'ĕd); AG-GRAD'ING (-ĭng). *Phys. Geog.* To bring, or tend to bring, to a uniform grade, or slope, by addition of material; as, streams *aggrade* their beds by depositing sediment.

ag'gran-dize (ăg'răn-dīz), *v. t.*; AG'GRAN-DIZED (-dīzd); AG'GRAN-DIZ'ING (-dīz'ĭng). [F. *agrandir*; *à* (L. *ad*) + *grandir* to increase, L. *grandare*, fr. *grandis* great. See GRAND; cf. FINISH.] **1.** To make great; to enlarge; increase; as, to *aggrandize* conceptions, authority, distress.

ag-gran'dize-ment (ă-grăn'dĭz-mĕnt; 277), *n.* [Cf. F. *agrandissement*.] Act or result of aggrandizing; state of being aggrandized; exaltation; enlargement; as, the emperor seeks only the *aggrandizement* of his own family.

Syn. — Augmentation, promotion, preferment.

ag'gra-vate (ăg'rā-vāt), *v. t.*; AG'GRA-VAT'ED (-vāt'ĕd); AG'GRA-VAT'ING (-ĭng). [L. *aggravatus*, p. p. of *aggravare*; *ad* + *gravare* to burden, akin to *gravis* heavy. Cf. AGGRIEVE.]

1. To make heavy or heavier; to add to; to increase, also, to load; burden. *Obs.* "To *aggravate* thy store." *Shak.*

A great grief *aggravateth* the heart that suffers it. *Young.*

2. To make worse, or more severe; to render less tolerable or less excusable; to make more offensive; to enhance; intensify. "To *aggravate* my woes." *Pope.*

To *aggravate* the horrors of the scene *Prescott*

The defense made by the prisoner's counsel did rather *aggravate* than extenuate his crime *Addison.*

3. *Law.* To bring as a charge or accusation. *Obs.*

4. To give coloring to in description; to exaggerate; as, to *aggravate* circumstances. *Paley.*

5. To exasperate; provoke: irritate. *Colloq.*

If both were to *aggravate* her parents, as my brother and sister do mine *Richardson.*

Syn. — Heighten, increase, magnify. See INTENSIFY.

aggravated assault, *Law*, an assault regarded as more heinous than a common assault; such as: **a** An assault combining an intent to commit a crime other than that involved in the mere assault itself, as in an assault with intent to kill. **b** Any of various assaults defined to be *aggravated assaults* by statute, as one committed with a deadly weapon, one intended to inflict bodily injury without provocation, one the commission of which inflicts disgrace upon the person assaulted, as when made with a whip or accompanied by indecent conduct, etc.

ag'gra-vat'ing (-vāt'ĭng), *p. a.* That aggravates; specif.: **a** Making worse or more heinous; as, *aggravating* circumstances. **b** Exasperating; provoking; irritating. *Colloq.*

A thing at once ridiculous and *aggravating*. *J. Ingelow*

Its grievances had become so numerous and *aggravating*, that it was preferable to repel than endure them. *Irving*

ag'gra-va'tion (-vā'shŭn), *n.* [LL. *aggravatio*: cf. F. *aggravation*.] **1.** Act of aggravating, or state of being aggravated; specif., act of making worse; — used of evils, natural or moral; act of increasing in severity or heinousness.

2. *R. C. Canon Law.* A censure threatening excommunication after three admonitions.

3. Exaggerated representation.

By a little *aggravation* of the features changed it into the Saracen's head. *Addison.*

4. An extrinsic circumstance or accident which increases the guilt of a crime or the misery of a calamity.

5. Provocation; irritation. *Colloq.* *Dickens.*

ag'gra-va-tive (ăg'rā-vā-tĭv), *a.* Tending to aggravate. — *n.* That which aggravates.

ag'gre-gant (ăg'rē-gănt), *n.* [L. *aggregans*, p. pr.] *Logic.* A term or proposition entering into an aggregate.

ag'gre-gate (-gāt), *v. t.*; AG'GRE-GAT'ED (-gāt'ĕd); AG'GRE-GAT'ING. [L. *aggregatus*, p. p. of *aggregare* to lead to a flock or herd; *ad* + *gregare* to collect into a flock, *grex* flock, herd. See GREGARIOUS.] **1.** To bring together; to collect or unite into a mass or sum. "The *aggregated* soil." *Milton.*

2. To add or unite, as a person *to* an association.

It is many times hard to discern, to which of the two sorts, the good or the bad, a man ought to be *aggregated*. *Wollaston*

3. To amount in the aggregate to; as, ten loads, *aggregating* five hundred bushels. *Colloq.*

Syn. — Heap up, accumulate, pile, collect.

ag'gre-gate (ăg'rē-gāt), *a.* [L. *aggregatus*, p. p.] **1.** Formed by collection of particulars into a mass or sum; collective.

The *aggregate* testimony of many hundreds *Sir T. Browne.*

2. Hence **a** *Anat.* Formed into clusters or groups of lobules; as, *aggregate* glands. **b** *Bot.* Collected or clustered together in a dense mass or head; as, *aggregate* flowers. **c** *Geol.* Composed of a mixture of substances separable by mechanical means. **d** *Zoöl.* United in a more or less solid mass; — said of certain compound animals.

aggregate corporation. See CORPORATION. — **a. fruit**, *Bot.*, a fruit consisting of a mass of achenes, drupelets, etc., as that of the buttercup or raspberry. It differs from a *collective fruit* (which see) in being developed from the apocarpous gynœcium of a single flower. — **a. path**, *Kinematics* the path that is followed by a given point in a mechanism, considered as the resultant of the movement of all the parts in the aggregate; thus, the straight line that is traced by a point in one of the links of a parallel motion is an *aggregate path*. — **a. whole.** See WHOLE.

Aggregate Fruit of Raspberry

ag'gre-gate, *n.* **1.** A mass, assemblage, or sum of particulars; as, a house is an *aggregate* of stone, brick, timber, etc. In an *aggregate* the particulars are less intimately mixed than in a *compound*.

2. *Geol.* An aggregate rock.

3. Any hard material for mixing in small fragments with mortar to form concrete.

4. *Logic.* A term or proposition formed by aggregation.

5. *Math.* The totality of all points or numbers that satisfy a given condition; as, the *aggregate* of rational numbers; — called also *class*, *collection*, *manifold*, *mass*, *set*. A *limiting point* of an aggregate is a point such that within any distance from it, however small, are found infinitely many points of the aggregate. If all points of the aggregate are limiting points, it is *dense*. If, in addition, all limiting points are points of the aggregate, it is *perfect*. Two aggregates have the same *power* when they can be brought into one-to-one correspondence. An aggregate is *enumerable* when it has the same power as that of the aggregate of natural numbers.

Syn. — AGGREGATE, AGGREGATION, COMBINATION, COMPOSITE, COMPOUND agree in denoting a union of parts or individuals. In AGGREGATE the component parts are usually thought of as brought together more or less loosely (see SUM); so also AGGREGATION, which suggests the process of gathering, as well as the result. COMBINATION (see COMBINATION) implies a closer association than *aggregate*, but not so close as COMPOSITE, which in turn expresses a union of parts less intimate and organic than *compound* (cf. COMPLEX, MINGLE). In a COMPOUND the constituent elements are more or less completely merged. See COLLECTION, COMPOSITE, AGGLOMERATE.

An empire is the *aggregate* of many states under one common head *Burke.*

Early *aggregations* of men before yet social observances existed. *H. Spencer.*

He was at once bold and sleek, eager and cold as ice — an odd *combination* *M. Hewlett.*

F. *agnat.* Cf ADNATE.] A relative whose relationship is exclusively through males (called *agnatus,* pl. *agnati,* in Civil law); also, as in Eng. and Scots law, a relative on the father's side, whether exclusively through males or not. See AGNATION; cf. COGNATE.
[In Roman law] in default of heredes, the *agnati* — that is, those who would, if the male ancestor had been living, have been under the same potestas — succeeded Brothers, brothers' sons, paternal uncles, and nephews — in all cases by male descent — were *agnati.* *Guy C. Lee*
We [in Scotland] understand by *agnates* all those related by the father, even though females intervene; and by cognates those who are related by the mother. *Erskine's Prin*

ag'nate, *a.* [L. *agnatus,* p. p.] **1.** Having the character of an agnate; related or akin by the father's side, also, sprung from the same male ancestor.
2. Allied; akin. "*Agnate* words." *Pownall.*

Ag'na-tha (ăg'nă-thă), *n. pl.* [NL. See AGNATHIC.] *Zoöl.* **a** A class of vertebrates in which the cyclostomes and ostracoderms have been grouped by some writers, on account of their absence of jaws and arches supporting paired fins. **b** A group of pulmonate gastropods remarkable for their carnivorous habits; — equiv. to *Testicellidæ.*

ag-nath'ic (ăg-năth'ĭk) } *a.* [*a-* not + Gr. γνάθος jaw.]
ag'na-thous (ăg'nă-thŭs) } Having no jaws.

ag'nat'ic (ăg-năt'ĭk), *a.* [Cf. F. *agnatique.*] Of or pertaining to agnates; related through males.

ag-na'tion (ăg-nā'shŭn), *n.* [L. *agnatio:* cf. F. *agnation.*] The relationship of agnates; hence, kinship; alliance.
In *agnation* too is to be sought the explanation of that extraordinary rule of English Law, only recently repealed, which prohibited brothers of the half blood from succeeding to one another's lands. In the Customs of Normandy the rule applies to uterine brothers only, that is, to brothers by the same mother but not by the same father; and, limited in this way, it is a strict deduction from the system of *agnation,* under which uterine brothers are no relation at all to one another When it was transplanted to England, the English judges, who had no clew to its principle, interpreted it as a general prohibition against the succession of the half blood. *Sir H. Maine.*
The plausible *agnation,* the perverted ingenuity. *R. F. Burton.*

Ag'ni (ăg'nē), *n.* [Skr. *Agni,* the god of fire, *agni* fire.] The most important of the Vedic gods. Primarily the god of the altar fire, he yet represents a trinity in which to earthly fire are joined the lightning and the sun. As the altar fire, consuming the sacrifice, he is the mediator between the gods and men among whom he dwells. He is represented as red and with two faces.

Agni.

ag-ni'tion (ăg-nĭsh'ŭn), *n.* [L. *agnitio.*] Acknowledgment. *Obs.*

2. To learn.

Ag'no-ē'tæ (ăg'nō-ē'tē), *n. pl.* [LL, fr. Gr 'Αγνοηταί, fr. ἀγνοεῖν to be ignorant; *a-* not + γνῶναι to know.] *Eccl. Hist.* **a** A sect of Arians of the 4th century who denied the entire omniscience of God; — called also *Theophronians,* after their leader, Theophronius of Cappadocia. **b** A sect of Monophysites lasting from the 6th century to the 8th, who affirmed that the human soul of Christ was like ours, and that he was not omniscient; — called also *Themistians,* after their leader, Themistius, deacon of Alexandria. —

Ag'no-ē'te (ăg'nō-ēt), *n.* — **Ag'no-ē'tism** (-ē'tĭz'm), *n.*

ag-no'men (ăg-nō'mĕn), *n.; L. pl.* AG-NOM'I-NA (ăg-nŏm'ĭ-nă). [L.; *ad* + *nomen* name. Cf ADNOUN.] An additional or fourth name sometimes given, or assumed, among the Romans, as on account of some exploit; as, Publius Cæus Scipio *Africanus;* hence, an additional name or an epithet; as, Aristides *the Just.* — **ag-nom'i-nal** (ăg-nŏm'ĭ-năl), *a.*

ag-nos'tic (ăg-nŏs'tĭk) } *n.* [*a-* not + Gr. γνωστικός know-
ag-nos'ti-cal (-tĭ-kăl) } ing. See GNOSTIC.] One who professes agnosticism, esp., as orig., one who professes ignorance of the existence of God, an unseen world, etc.
I . . . invented . . . the title of *agnostic.* It came into my head as suggestively antithetic to the "gnostic" of Church history, who professed to know so very much. *Huxley.*

Syn. — See INFIDEL.

ag-nos'tic (ăg-nŏs'tĭk) } *a.* Professing ignorance; involv-
ag-nos'ti-cal (-tĭ-kăl) } ing no dogmatic assertion; pert. to or involving agnosticism. — **ag-nos'ti-cal-ly,** *adv.*

ag-nos'ti-cism (-tĭ-sĭz'm), *n.* **1** The doctrine that neither the nature nor the existence of God, nor the ultimate character of the universe (that is, whether it is material or ideal), is knowable. This doctrine was formulated by Huxley to distinguish his position especially from atheism, which positively rejects belief in God's existence.
2. Any doctrine which, while professing belief in God's existence, denies to a greater or less extent the knowableness of his nature. Thus, Mansel held that man is compelled to believe in God's infinite being though he is unable to comprehend it. Spencer's agnosticism is of this type, affirming, as it does, the existence of an Unknowable.
3. Any doctrine which affirms the impossibility of any true knowledge from the fact that all knowledge is relative and uncertain. It may arise from belief in the relativity of knowledge either as revealed in perception of sensible phenomena, or as shown in the element of error in abstract conceptions. See RELATIVITY OF KNOWLEDGE.

ag'nus (ăg'nŭs), *n.; pl.* E. AGNUSES (-ĕz; -ĭz); L. AGNI (-nī). [L., a lamb.] *Eccl.* A lamb used as a symbol, as of Saint Agnes; esp., the Agnus Dei.

ag'nus cas'tus (kăs'tŭs). [Gr. ἄγνος a willowlike tree, used at a religious festival, confused with ἁγνός holy, chaste; *castus* is L., chaste.] An ornamental blue- or white-flowered verbenaceous shrub (*Vitex agnus-castus*); — called also *chaste tree.*
And wreaths of *agnus castus* others bore. *Dryden.*

Ag'nus Dei (ăg'nŭs dē'ī). [L., Lamb of God; — applied by John the Baptist to Christ (*John* i. 29).] **1.** An image or representation of a lamb as an emblem of Christ, esp. one bearing a cross or a banner, the latter often charged with a cross.
2. *R. C. Ch.* **a** A cake of wax stamped with such a figure. It is made from remains of the paschal candles and blessed by the Pope. **b** A triple prayer in the sacrifice of the Mass, beginning with the words "*Agnus Dei;*" also, the accompanying music.

Agnus Dei, 1.

air (ār), *n.* [ME. *air, eir*, F. *air*, L. *aër*, fr. Gr. ἀήρ, air, mist, for ἀ-ϝήρ, perh. akin to E. *wind.* In sense 10 the French has taken a meaning fr. It. *aria* atmosphere, air, fr. the same Lat. word through the fem. adj. *aeria, aerea.* Cf. MALARIA.]
1. The invisible, odorless, and tasteless mixture of gases which surrounds the earth; the atmosphere. It consists chiefly of nitrogen and oxygen, nearly in the ratio of four volumes to one, together with 0.9 per cent (by volume) of argon, about 0.03 per cent of carbon dioxide, varying amounts of water vapor, and minute quantities of helium, krypton, neon, and xenon. It contains also varying small amounts of other substances, as ammonia, nitrous and nitric acids, sulphurous and sulphuric acids, as well as suspended particles of dust, bacteria, yeast spores, etc. Of the principal constituents the oxygen supports combustion and renders the air respirable for animals, the carbon dioxide is the source of carbon for growing plants, the nitrogen and argon are inert diluents. One liter of air at 0° C. and 760 mm. pressure weighs 1.293 grams, or $\frac{1}{773}$ of the weight of an equal volume of water. Like other gases, it is compressible and elastic; it transmits sound, and is used, as *compressed air*, to transmit mechanical power. It is liquefiable. (See LIQUID AIR.) The atmosphere extends perhaps a hundred miles above the earth, but with rapidly decreasing density; half its mass is within four miles of the earth's surface. Its pressure at sea level is about 14.7 pounds to the square inch (1.033 kg. per sq. cm.).
2. Symbolically: Something unsubstantial, light, or volatile. "Charm ache with *air.*" *Shak.*
He was still all *air* and fire *Macaulay* [*Air* and *fire* being the finer and quicker elements as opposed to *earth* and *water*]
3. A particular state of the atmosphere, as respects heat, cold, moisture, etc., or as affecting the sensations, as, a smoky *air*, a damp *air*, the morning *air*, etc.
4. Fig.: That which surrounds and influences.

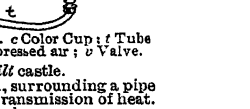
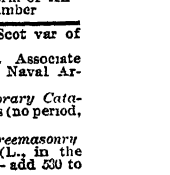
air bell. A bell, or bubble of air, as one formed on a photographic plate during developing, or in glass while molten.
air belt. *Metal.* An annular air space around a cupola furnace, from which air is forced into the furnace.
air bladder. **1.** *Zool.* A sac containing air or gas, present in most fishes, situated dorsal to the alimentary canal; — called also the *swimming bladder.* It arises as an outgrowth of the alimentary canal, with which it remains in communication in some fishes, but becomes permanently closed in others. In all elasmobranchs it is wanting. Its usual function is probably to adjust the specific gravity of the fish, while in some cases it is connected with the organ of hearing. The air bladder is undoubtedly homologous with the lungs of the higher vertebrates, though usually growing from the dorsal instead of the ventral wall of the alimentary canal. See LUNG.
2. A sac or bladder full of air in an animal or plant.
3. An air hole in a casting.
air'bound' (ār'bound'), *a.* Prevented from action by an accumulation of air; — said of a water or drain pipe.
air box. A box for holding or directing air, as an air chamber in a lifeboat, a flue for conducting air to a furnace, etc.
air brake. *Mach.* A brake operated by a piston which is driven either by compressed air or by the "suction" of a partial vacuum. (See VACUUM BRAKE.) In the railway *air brake*, air is commonly pumped into cylinders, under each car, and operates pistons which move the brake levers. See WESTINGHOUSE BRAKE. — **air'-braked'** (-brākt'), *a.*
air brick. A hollowed or perforated brick, or a metal box of brick size with grated sides, used for ventilation, as in building fireproof walls.
air brush. A kind of atomizer for applying liquid coloring matter in a spray by compressed air.



Air Brush. *c* Color Cup; *t* Tube for compressed air; *v* Valve.

air'-built', *a.* Erected in the air; having no solid foundation; chimerical; as, an *air-built* castle.
air casing. A casing, as of sheet iron, surrounding a pipe with an air space between to prevent transmission of heat.
air castle A castle in the air. See under CASTLE.
air cell. **1.** *Bot.* = AIR SPACE.
2. *Anat.* A cavity or receptacle for air in any part of the body; as one of the small cavities in the walls of the infundibula of the lungs, an air sac of a bird, a dilatation of a trachea of an insect, etc.
air chamber. **1.** Any chamber or cavity filled with air.
2. Specif.: cavity containing air to act by its elasticity as a spring for equalizing the flow of a liquid in a pump or other hydraulic machine.



a One Form of Air Chamber

air cock. A faucet to allow escape of air.
air compressor A machine for compressing air.
air condenser. **1.** *Steam Engine.* A surface condenser cooled by the contact of air instead of water.
2. *Mach.* An air compressor.

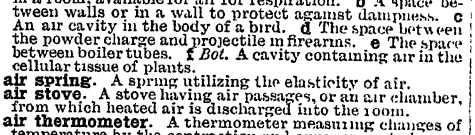
A One form of Air Pump. *a* Cylinder; *b* Piston Rod; *c* Manometer; *d* Receiver or Bell Glass. *B* Diagram of Cylinder. 1 Piston; 2 Hollow Piston Rod for escape of air with descending piston; 3, 3, 3 Valves; 4 Tube to Receiver

forcing it through other apparatus. Air pumps are of many varieties. Some operate by means of a cylinder and piston (see *Illust.*) or some equivalent device, while others depend on the suction of a flowing liquid, as mercury or water. See SPRENGEL PUMP, MERCURY PUMP, GEISSLER PUMP.
2. *Steam Engines.* A pump used to exhaust from a condenser the condensed steam, the water used for condensing, and any commingled air.
3 [*cap.*] *Astron.* The constellation Antlia.

air sac. *Zool.* One of the spaces, in different parts of the bodies of birds, which are filled with air and connected with the air passages of the lungs. Usually they also communicate with cavities in the bones. They materially reduce the specific gravity of the body, and assist respiration by the great increase of surface thus exposed to the air, as well as by providing a space for the residual air (see RESIDUAL AIR), so that the lungs may be completely filled with fresh air at each respiration.

air shaft. A passage, usually vertical, for air, as into a mine, tunnel, or building.

air'ship (ãr'shĭp), *n.* Any machine of considerable proportions for navigating the air; now, often, a dirigible balloon, as distinguished from the simple balloon or the aëroplane.



Lebaudy Airship.

air'-slaked' (-slākt'), **air'-slacked'** (-slăkt'), *a.* Slaked by exposure to the air, as, *air-slaked* lime. See LIME.

air space. Space for or containing air; as: **a** The space, as in a room, available for air for respiration. **b** A space between walls or in a wall to protect against dampness. **c** An air cavity in the body of a bird. **d** The space between the powder charge and projectile in firearms. **e** The space between boiler tubes. **f** *Bot.* A cavity containing air in the cellular tissue of plants.

air spring. A spring utilizing the elasticity of air.

air stove. A stove having air passages, or an air chamber, from which heated air is discharged into the room.

air thermometer. A thermometer measuring changes of temperature by the contraction and expansion of air.

air thread. A thread of silk, floating in the air, spun by a ballooning spider; a thread of gossamer.

air'-tight', *a.* So tight as to be impermeable to air; as, an *air-tight* cylinder. — **air'-tight'ness**, *n.*

air-tight stove, a sheet iron stove the draft of which can be almost entirely shut off. *Colloq., U. S.*

air trap. A trap for shutting off or carrying off foul air or gas from drains, sewers, etc.; a steuch trap.

air trunk. A large pipe or shaft for conducting air, as for ventilation or to a furnace.

air tube. A pneumatic tube.

air valve. A valve to regulate the admission or egress of air; esp., a valve which opens inwardly in a steam boiler and allows air to enter and relieve the external pressure during the condensation of the steam when the boiler cools.

air vesicle. *Bot.* A greatly inflated air space, often occurring in aquatic plants, and serving as an aid in floating.

air volcano. *Phys. Geog* An eruptive opening from which large volumes of gas are discharged, accompanied by mud and stones. It is not properly volcanic.

air'way' (-wā'), *n.* A passage for a current of air.

air'y (ãr'ĭ), *a.* **1.** Relating or belonging to air, atmospheric; high in air, aerial, as, an *airy* flight. "The *airy* region." *Milton.*
2. Consisting of air; as, an *airy* substance.
3. Open to a free current of air, exposed to the air, breezy; as, an *airy* situation.

albumen process. *Photog.* A process in which albumen is used as a vehicle for the sensitive salts.

al-bu'min (-mĭn), *n. Physiol. Chem.* Any of a class of proteids, forming the most important constituent of the serum of the blood, and found also in milk, muscle, and other animal substances, and in many vegetable tissues and fluids. They are rich in sulphur (of which they contain on the average nearly two per cent) and, like all the proteids, are exceedingly complex in structure. The albumins are soluble in water, but are precipitated by excess of mineral acids and salts. Owing to their property of coagulating on heating and carrying down with them coloring matters and impurities, the albumins (including the so-called egg albumin) are used extensively for clarifying liquids, as in cookery, sugar refining, and wine making. They are also used in photography, calico printing, etc. See also ALBUMINATE.

☞ The *albumins* were formerly regarded as different occurrences of a single substance, called at first *albumen* because supposed to exist nearly pure in white of egg. The so-called *egg albumin*, which until recently has been regarded as a typical albumin, is now recognized to be a mixture of glucoproteids. See OVALBUMIN.

albumin-, albumini-. Combining forms for *albumen*, *albumin*. See ALBUMINO-.

al-bu'mi-nate (ăl-bū'mĭ-nāt\), *n.* **a** A member of either of two classes of nearly insoluble proteids obtained by the action of acids and alkalies on the albumins, and called respectively acid albuminates (or *acid albumins*) and alkali albuminates (or *alkali albumins*). Specif., an alkali albuminate. **b** A compound formed by the union of an albumin with another substance.

al-bu'mi-nif'er-ous (-nĭf'ĕr-ŭs), *a.* [*albumini-* + *-ferous.*] Producing albumin

al-bu'mi-nim'e-ter (-nĭm'ē-tĕr), *n.* [*albumini-* + *-meter.*] An instrument for ascertaining the quantity of albumin in a liquid. — **al-bu'mi-nim'e-try** (-trĭ), *n.*

al-bu'mi-no- (ăl-bū'mĭ-nō), **al-bu'mi-ni-** (-nĭ-). Combining forms for *albumen* or *albumin*.

al-bu'mi-noid (-noid), *a.* [*albumin-* + *-oid.*] *Chem.* Resembling albumin. — *n. Physiol. Chem.* **a** = PROTEID (in its broad sense). **b** Any of a number of substances resembling the true proteids in many respects, and including collagen keratin, elastin, etc. They are, as a rule, insoluble and resistant to chemical reagents. See PROTEID. — **al-bu'mi-noi'dal** (-noi'dăl), *a.*

al-bu'mi-no'sis (-nō'sĭs), *n.* [NL.; *albumin-* + *-osis.*] *Med.* A morbid condition due to excessive increase of albuminous elements in the blood.

al-bu'mi-nous (-nŭs), *a.* [Cf. F. *albumineux.*] Pertaining to, or containing, albumen; having the properties of, or like, albumen or albumin. — **al-bu'mi-nous-ness,** *n.*

al-bu'mi-nu'ri-a (-nū'rĭ-a), *n.* [NL.; *albumin-* + *-uria*] *Med.* Presence of albumin in the urine, — generally a symptom of disease of the kidneys. — **al-bu'mi-nu'ric** (-rĭk), *a.*

al'bu-moid (ăl'bū-moid), *n.* [*albumin-* + *-oid.*] *Physiol. Chem.* **a** = ALBUMINOID **b.** **b** Specif., an albuminoid present in the cartilage of adult animals.

al'bu-mose (-mōs), *n.* [From ALBUMIN.] *Physiol. Chem.* Any of a class of proteoses formed from the albumins and from fibrin; also, by extension, any proteose. The albumoses are sometimes classed as *amidalbumoses* and *hemialbumoses*, the former being the more resistant to the action of acids and enzymes. See also PROTEOSE.

al'bu-mo-su'ri-a (-mō-sū'rĭ-ă), *n.* [NL.; *albumose* + *-uria.*] *Med.* Presence of albumoses in the urine.

al-bur'num (ăl-bûr'nŭm), *n.* [L., fr. *albus* white.] *Bot.* The young, soft wood of a dicotyledonous tree, consisting of living tissues near the cambium layer and outside of the heartwood, or duramen, — called also *sapwood* or *splintwood*. See DURAMEN. — **al-bur'nous** (-nŭs), *a.*

Al-ca'ic (ăl-kā'ĭk), *a.* [L. *Alcaicus*, Gr. Ἀλκαϊκός.] Pertaining to Alcæus, a lyric poet of Mitylene, about 600 B. C., or to the meter which he invented. — *n.* An Alcaic verse, either: the *greater Alcaic*, ⏑ ¯ ⏑ ¯ | ¯ ⏑ ¯ ⏑ | ¯ ⏑ ⏑ | ¯ ⏑ ¯ ⏑ | ¯ ⏑ ¯ ⏑ ¯; the *lesser Alcaic*, ¯ ⏑ ⏑ | ¯ ⏑ ¯ | ¯ ⏑ ¯ ⏑ | ¯ ⏑; or the *nine-syllabled Alcaic*, ⏑ ¯ ⏑ | ¯ ⏑ | ¯ ⏑ ⏑ | ¯ ⏑. See PROSODY. The *Alcaic strophe* consists of two lines of the greater Alcaic, one of the nine-syllabled, and one of the lesser. Thus:

Vī:des ut | alta | stet nive | candi:dum
Sō:racte, | nec jam | sustine|ant o|nus
Sil:væ la|boran|tes, ge|luque
Flumina | constite|rint a|cuto

The older prosody scanned the Alcaics of Horace as containing two greater Alcaics, each of which had two iambic feet with an additional long syllable followed by two dactyls. The third line was scanned as four iambic feet with an additional short syllable, and the fourth line of the strophe contained two dactyls followed by two trochees, the same forming a logaœdic verse.

‖ **al-cal'de** (ăl-kal'dā), *n.* [Sp., fr. Ar. *al-qādī* judge, fr. *qada* to decide, judge. Hence, the *cadi* of the Turks. Cf. CADI.] An administrative official (usually mayor) or judge, in Spain and Spanish colonies; hence, in New Mexico, a justice of the peace. — **al-cal'de-ship',** *n.*

‖ **al'cal-dí'a** (al'kal-dē'a), *n.* [Sp.] The jurisdiction or office of an alcalde; also, the building or chamber in which he conducts the business of his office.

al'che-my (ăl'kĕ-mĭ), *n.* [OF *alkemie, arquemie*, F. *alchimie*, Ar. *al-kīmīā*, fr. late Gr. *χημεία*, prob. for *χυμεία* a mingling, infusion, *χυμός* juice, liquid, especially as extracted from plants, fr. *χέειν* to pour; for chemistry was originally the art of extracting the juices from plants for medicinal purposes. Cf. Sp. *alquimia*, It. *alchimia.* Gr. *χέειν* is prob. akin to L. *fundere* to pour, Goth. *giutan*, AS. *géotan*, and so to E *fuse.* See FUSE; cf. CHEMISTRY.]

1. The medieval chemical science, whose great objects were the transmutation of the baser metals into gold and the discovery of the universal cure for diseases and means of indefinitely prolonging life; also, the pseudo art practiced by those who professed to have accomplished one of these objects, or a modern pseudo science professing similar aims. The progress of alchemy as a science was impeded by the nature of its aims and by much mystification, but important discoveries were made incidentally, which led the way to modern chemistry.

Gilding pale streams with heavenly *alchemy* *Shak.*

2 An alloy of golden color, a variety of brass; hence, a trumpet. *Obs.*

Al-chor'ne-a (ăl-kôr'nē-ă), *n.* [NL., of uncertain origin; but cf. ALCORNOQUE.] *Bot.* A genus of dicœcious euphorbiaceous trees and shrubs, found in the warmer parts of both hemispheres. They are remarkable for their parthenogenetic reproduction by the development of adventitious embryos from the tissue of the nucellus. *A. latifolia*, of the West Indies and Mexico, yields alcornoque. Also [*l. c.*], a plant of this genus.

Al'ci-dæ (ăl'sĭ-dē), *n. pl.* [NL. See AUK.] *Zoöl.* A family of diving birds having short wings and tail, webbed feet, a large head and heavy body, and thick, compact plumage. It is confined to the northern parts of the Northern Hemisphere. It includes the auks, puffins, guillemots, etc. — **al'ci-dine** (-dĭn, -dīn), *a.*

Al-ci'des (ăl-sī'dēz), *n.* [L., fr. Gr. Ἀλκείδης.] Hercules, — a patronymic given to him from Alcæus, the father of his mother's husband.

Al-ci'na (ăl-chē'nă), *n.* [It.] A fairy in Boiardo's "Orlando Innamorato" and Ariosto's "Orlando Furioso." In the latter, like Circe, she metamorphoses her lovers. She keeps Ruggiero from Bradamante.

Al-cin'o-us (ăl-sĭn'ō-ŭs), *n.* [L, fr. Gr. Ἀλκίνοος.] In the Odyssey, the king of the Phæacians and father of Nausicaa. He is celebrated for his beautiful gardens in Scheria.

Al'ci-phron (ăl'sĭ-frŏn), *n.* [Gr. Ἀλκίφρων Alciphron, a Greek epistolographer; *ἀλκή* strength + *φρήν* heart, mind.] **1.** A freethinking interlocutor in Bishop Berkeley's work of the same name, — otherwise called the "Minute Philosopher."

2. The hero of Thomas Moore's romance "The Epicurean."

Alc-mæ'on (ălk-mē'ŏn), *n.* [L., fr. Gr. Ἀλκμαίων.] *Gr. Myth.* A son of Amphiaraüs and leader of the Epigoni against Thebes. He was driven mad by the Erinyes for killing his mother, Eriphyle (which see), and was cured only by settling in an island which came into existence after his mother's death. He was slain by a son of Phegeus whom he had deceived for the sake of procuring the jewels of Harmonia for his wife, Callirrhoë.

Alc-mæ'o-nid (ălk-mē'ō-nĭd), *n.* One of the Alcmæonidæ.

Alc'mæ-on'i-dæ (ălk'mē-ŏn'ĭ-dē), *n. pl.* [Gr. Ἀλκμαιονίδαι.] A powerful Athenian clan, opponents of the Pisistratidæ. While in exile from Athens, they gained popular favor by rebuilding the temple of Delphi with great magnificence, and were restored to power 510 B.C. Cleisthenes of the clan completed the reforms begun by Solon.

Alc-ma'ni-an (ălk-mā'nĭ-ăn), *a.* [L. *Alcmanius.*] Of or pertaining to Alcman, a celebrated Dorian lyric poet, who flourished at Sparta in the latter half of the 7th century B.C., or to the verse called after him. — *n.* An Alcmanian verse, consisting of four dactyls (– ⏑ ⏑ | – ⏑ ⏑ | – ⏑ ⏑ | – ⏑ ⏑), chiefly used in combination. An **Alcmanian distich** is composed of a dactylic hexameter followed by an Alcmanian, and two such distichs form an **Alcmanian strophe.**

al'co-hol (ăl'kō-hŏl), *n.* [Cf. F. *alcool*, formerly written *alcohol*, Sp. *alcohol* alcohol, antimony, galena, OSp. *alcofol*; all fr. Ar. *al-kohl* a powder of antimony or galena, to paint the eyebrows with. The name was afterwards applied, on account of the fineness of this powder, to highly rectified spirits, a signification unknown in Arabia. The Sp. word has both meanings. Cf. ALQUIFOU.] **1.** An impalpable powder; kohl. *Obs.*

2. The essence or pure spirit obtained by distillation. *Obs.*

3. A colorless, volatile, inflammable liquid, C_2H_5OH, one of the products of vinous fermentation and contained in wine (hence called *spirit of wine*), beer, whisky, and the other fermented and distilled liquors, of which it is the intoxicating principle; also, loosely, any liquor containing it. Alcohol is obtained chiefly from potatoes and various grains, esp. maize, by a process of brewing followed by fractional distillation. Even when repeatedly rectified it still contains water, which can be removed only by continued treatment with some dehydrating agent, such as quicklime. The *absolute alcohol* so obtained boils at 78.3° C, and it has a specific gravity of 0.763. Its odor is very penetrating. Commercial absolute alcohol contains about one per cent of water. It is used only for special purposes. As used in the U. S. "Pharmacopœia," *alcohol* means a solution of 91 per cent by weight of ethyl alcohol and 9 per cent of water; and *diluted alcohol* (proof spirit), 45.5 per cent by weight of alcohol and 54 5 per cent of water. In addition to its use in beverages, alcohol is extensively used as a medicine, as a solvent for fats, oils, and resins, in the manufacture of ether, etc, and for producing heat, light, and motive power. See DENATURE

4. *Chem.* Any one of a class of compounds analogous to common alcohol in constitution. All are hydroxides of organic radicals; as, common or *ethyl alcohol*, C_2H_5OH (see def. 3, above); *methyl alcohol* or *wood alcohol*, CH_3OH, largely used in the arts, *amyl alcohol*, $C_5H_{11}OH$, the principal constituent of fusel oil, etc.

☞ The alcohols are said to be *monatomic* or *monohydric*, *diatomic* or *dihydric*, etc., according to the number of hydroxyl groups which they contain, and *primary*, *secondary*, or *tertiary* according to structure. See PRIMARY ALCOHOL

al'co-hol-ate (-hŏl-āt), *n.* **1.** *Chem* **a** A crystallizable compound of a salt with alcohol, in which the latter plays a part analogous to that of water of crystallization. *Obs. or It.* **b** A compound formed by the replacement of the hydroxyl hydrogen of an alcohol by a metal, as, sodium (ethyl) *alcoholate*, or sodium *ethylate*, C_2H_5ONa.

2 A preparation containing alcohol; an alcoholic solution.

al'co-hol'ic (-hŏl'ĭk), *a.* [Cf. F. *alcoolique.*] Of or pertaining to alcohol, or partaking of its qualities; derived from, or caused by, alcohol; containing alcohol; as, *alcoholic* mixtures; *alcoholic* gastritis; *alcoholic* odor.

alcoholic fermentation. See FERMENTATION.

al'co-hol'ic, *n* **1.** A person given to the use of alcoholic liquors.

2. *pl.* Alcoholic liquors.

al'co-hol-ism (ăl'kŏ-hŏl-ĭz'm), *n. Med.* A diseased condition of the system, brought about by the excessive use of alcoholic liquors.

al'co-hol'i-za'tion (ăl'kŏ-hŏl'ĭ-zā'shŭn; -ī-zā'-), *n.* Act of alcoholizing, or state of being alcoholized.

al'co-hol-ize (ăl'kŏ-hŏl-īz), *v. t.*; AL'CO-HOL-IZED (-īzd); AL'CO-HOL-IZ'ING (-īz'ĭng). **1.** To reduce to a fine powder. *Obs.*

2. To refine to an essence; to rectify.

3. To saturate with alcohol; hence, to put under the influence of alcoholic liquor.

al'co-hol-om'e-ter (ăl'kŏ-hŏl-ŏm'ĕ-tĕr), *n.* [*alcohol* + *-meter.*] *Chem.* An instrument for determining the strength of spirits, with a scale graduated so as to indicate the percentage of pure alcohol. It is usually a form of hydrometer. — **al'co-hol'o-met'ric** (-hŏl'ō-mĕt'rĭk), **-met'ri-cal** (-rĭ-kăl), *a.*

al'co-hol-om'e-try (-hŏl-ŏm'ĕ-trĭ), *n.* The process or method of finding the amount of pure alcohol in spirits.

Al'co-ran' (ăl'kŏ-răn'; ăl'kō-răn; 277), *n.* [F. *alcoran*, fr. Ar. *al-qorān*, orig. the reading, the book, fr. *qara'a* to read. Cf. KORAN.] The Mohammedan Scriptures. See KORAN.

al'cor-no'que (ăl'kôr-nō'kā), *n* [Sp., cork tree.] The bark of several trees, esp of *Bowdichia virgilioides* of Brazil, used as a remedy for consumption; of *Byrsonima crassifolia*, used in tanning; of *Alchornea latifolia*, used medicinally; and of *Quercus ilex*, the cork tree.

al'cove (ăl'kōv; ăl-kōv'; 277), *n.* [F. *alcôve*, Sp. or Pg. *alcoba*, from Ar *al-qobbah* arch, vault, tent.] **1.** *Arch.* A recessed portion of a room, or a small room opening into a larger one; esp., a recess to contain a bed; a lateral recess in a library.

2. A small ornamental building with seats, or an arched seat, in a pleasure ground; a garden bower. *Cowper.*

3. Any natural recess suggestive of an alcove room.

The youthful wanderers found a wild *alcove.* *Falconer.*

Al'cy-o-na'ri-a (ăl'sĭ-ō-nā'rĭ-ă), *n. pl.* [NL.] *Zoöl.* A subclass or order of Actinozoa characterized by polyps with eight branched tentacles and eight septa. It includes the Alcyonacea, Pennatulacea, and Gorgonacea. — **al'cy-o-na'ri-an** (-ăn), *a. & n.* — **al'cy-on'ic** (-ŏn'ĭk), *a.* — **al'cy-on'i-form** (-ĭ-fôrm), *a.* — **al'cy-o-noid** (-ō-noid), *a. & n.*

An Alcyonarian (*Anthomastus grandiflorus*). Reduced

Al-cy'o-ne (ăl-sī'ō-nē), *n.* [L., fr Gr. Ἀλκυόνη. Cf. HALCYON.] **1** *Myth.* **a** Var. of HALCYONE. **b** See PLEIADES, 1.

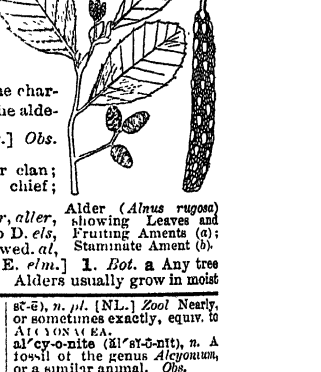
2. *Astron.* The brightest star in the Pleiades. See STAR.

Al-deb'a-ran (ăl-dĕb'a-răn), *n.* [Ar. *al-debarān*, fr. *dabar* to follow; because this star follows upon the Pleiades.] *Astron.* A red star of the first magnitude, in the eye of Taurus; the Bull's Eye, Alpha (*α*) Tauri. It is the brightest star in the *Hyades.*

Al'de-ba'ri-an (ăl'dē-bā'rĭ-ăn), *a. Astron.* In the chemical classification of the stars, denoting likeness of spectrum to that of Aldebaran, and indicating protocalcium, iron, calcium, manganese, protostrontium, and hydrogen.

al'de-hyd'ase (ăl'dē hīd'ās), *n.* [*aldehyde* + *-ase.*] *Chem.* An enzyme found in the liver and other organs, capable of oxidizing various aldehydes to their corresponding acids.

al'de-hyde (ăl'dĕ-hīd), *n.* [Abbrev. fr. alcohol *dehydrogenatum*, alcohol deprived of its hydrogen.] *Chem.* **a** A colorless, mobile, and very volatile liquid, CH_3CHO, obtained from alcohol by moderate oxidation. **b** Any one of a class of compounds, of which common, or *acetic*, aldehyde is the type. The *aldehydes* are intermediate between the alcohols and acids, and differ from the alcohols in having two less hydrogen atoms in the molecule. They are usually named from the acids which they yield on oxidation; thus, *formaldehyde*, $HCHO$, yields formic acid, HCO_2H.



aldehyde ammonia. *Chem.* A compound, $CH_3CHOHNH_2$, formed by the union of aldehyde with ammonia

aldehyde group. *Chem.* The characteristic radical, $-C\overset{O}{\underset{H}{<}}$, of the aldehydes.

al'der, *n.* [AS. *aldor, ealdor.*] *Obs.*

1. Elder, forefather.

2 The head of a family or clan; patriarch; hence, ruler; chief; prince.

al'ien, *n.* **1.** A person of another family, race, or nation; a foreigner; stranger.

> Mourning his age left childless, and his wealth
> Heapt for an *alien.* *Southey*

2. One owing allegiance to another state; a foreign-born resident of a country in which he does not possess the privileges of a citizen; in England, one born out of the allegiance of the king. Originally at the common law of England a person born in any territory subject to the king of England was a natural-born subject of the king, and not an alien; and every child born elsewhere was an alien irrespective of the nationality of his parents, with few exceptions, such as that of the children born to ambassadors and diplomatic ministers abroad. Important exceptions have now been made to this rule both for Great Britain and the United States, the general principle of which is to recognize as subjects the children born abroad of subjects still claiming their citizenship, as in the case of seamen, travelers, etc. The minor upon coming of age may renounce his citizenship. A woman becomes by marriage a citizen of her husband's country; but the converse is not true. Cf. CITIZEN, ALLEGIANCE, NATURALIZATION.

3. One excluded from certain privileges; one alienated or estranged; as, *aliens* from God's mercies.

> *Aliens* from the commonwealth of Israel *Ephes.* II. 12.

Syn. — See STRANGER.

> O *alienate* from God. *Milton.*

al'ien-ate (-āt), *v. t.*; AL'IEN-AT'ED (-āt'ĕd); AL'IEN-AT'ING (-āt'ĭng). **1.** To convey or transfer to another, as title, property, or right; to part voluntarily with ownership of; to alien. In its widest sense property is *alienated* when the title is transferred from one person to another in any way; but generally the sense of alienating is restricted to the transfer of the title to property by the act of the owner, as distinguished from a transfer effected entirely by operation of law, as in the case of descent. In this restricted sense alienation includes transfer of title by judicial sale, foreclosure, etc., where the law gives effect to a prior act of the party. Strictly an alienation involves a complete transfer of the title to property, and a mortgage or any other incumbrance or disposition falling short of that does not constitute an alienation; but the context may require that alienation should be made to include an act which contemplates, or might result in, such a complete transfer, or an act by which the title inures more or less to the benefit of another, as in homestead and other laws restricting the alienation of property. Cf. ALIENATION, **1 a**, *cit.*

2. To withdraw, as the affections; to make indifferent or averse, where love or friendship before subsisted; to alien; to estrange; to wean; — usually with *from.*

> The errors which . . . *alienated* a loyal gentry and priesthood from the House of Stuart. *Macaulay.*
>
> The recollection of his former life is a dream that only the more *alienates* him from the realities of the present. *I. Taylor.*

al'ien-a'tion (-ā'shŭn), *n.* [F. *aliénation*, L. *alienatio*, fr. *alienare.* See ALIENATE.] **1.** Act of alienating; specif.: **a** A transfer of ownership or title; a legal conveyance of property to another. See ALIENATE, *v. t.*, **1.**

> In English law, the gift of a chattel, unless it be by deed, must be accompanied by delivery of possession, and "livery of seisin" was essential to pass a freehold estate in land. As a general rule, however, in English, and it seems also in modern French law, the *alienation* of specific property is effected as soon as the *alienation* contract is completed. *T. E. Holland.*

b A withdrawing, diverting, or estrangement, as of the affections.

> The *alienation* of his heart from the king *Bacon.*

2. State or quality of being alienated; specif., mental alienation; derangement of the mental faculties; insanity (which see); as, *alienation* of mind.

Syn. — See INSANITY.

A larval stage of certain stomatopod Crustacea.

al'i-ment (ăl'ĭ-mĕnt), *n.* [L. *alimentum*, fr. *alere* to nourish ; akin to Goth. *alan* to grow, Icel. *ala* to nourish : cf. F. *aliment.* See OLD.] **1.** That which nourishes ; food ; nutriment ; anything which feeds or adds to a substance in natural growth. Hence : The necessaries of life generally ; sustenance ; means of support.

Aliments of their sloth and weakness. *Bacon.*

2. An allowance for maintenance. *Scot.*

Syn. — See FABULUM.

al'i-ment, *v. t.* ; -MENT'ED ; -MENT'ING. To give aliment to. They would have *alimented* the honest man decently among them. *Scott.*

al'i-men'tal (ăl'ĭ-mĕn'tăl), *a.* Supplying food ; having the quality of nourishing ; furnishing the materials for natural growth ; as, *alimental* sap. — **al'i-men'tal-ly**, *adv.*

al'i-men'ta-ry (-tă-rĭ), *a.* [L. *alimentarius.*] **1.** Of, of the nature of, or pertaining to, aliment or the function of nutrition ; nutritious ; alimental ; as, *alimentary* substances.

2. Supplying sustenance ; as, an *alimentary* endowment.

alimentary canal. *Anat.*, the canal or tube extending from the mouth to the anus, whose function is the digestion and absorption of the nourishment for the whole body. In man it is about thirty feet long. Its chief sections are the mouth, pharynx, esophagus, stomach, small and large intestines, and rectum. See DIGESTIVE, *Illust.*

al'i-men-ta'tion (-mĕn-tā'shăn), *n.* [Cf. F. *alimentation*, LL. *alimentatio.*] Act or process of alimenting, or affording nutriment ; nutrition ; state or mode of being nourished.

al'i-men'tive-ness (-mĕn'tĭv-nĕs ; -nĭs), *n.* The instinct or faculty of appetite for food. *Chiefly in phrenology.*

al'i-mo-ny (ăl'ĭ-mō-nĭ), *n.* [L. *alimonia*, *alimonium*, nourishment, sustenance, fr. *alere* to nourish.] **1.** Maintenance ; means of living ; aliment.

2. *Law.* An allowance made to a woman for her support out of the estate or income of her husband, or of him who was her husband, upon her legal separation or divorce from him, or during a suit for the same. Alimony granted pending a suit, called **alimony pendente lite**, is made to include a reasonable allowance for prosecution of the suit as well as for support ; alimony granted after the termination of a suit, esp. for the joint lives of the two upon an absolute divorce (see DIVORCE), is called **permanent alimony**. Alimony is not a debt which the wife can assign or anticipate, or which can be levied upon or reached in execution for a debt prior to the divorce. Nor is it a debt which can be proved in bankruptcy by the husband.

al'i-na'sal (ăl'ĭ-nā'zăl), *a.* [L. *ala* wing + *nasal.*] *Anat.* Pertaining to the lateral portions of the nose.

a-line' (ă-līn'), *v. t. & i.* [See ALIGN.] To place in a line ; to bring or fall into line. = ALIGN. — **a-lin'er** (-ẽr), *n.*

a-line'ment (-mĕnt), *n.* An aligning, etc. = ALIGNMENT.

The Eng. form *alinement* is preferable to *alignment*, a bad spelling of the Fr[ench]. *O. & E. D.*

al'i-nit (ăl'ĭ-nĭt) } *n.* [Perh. fr. L. *alere* to nourish + E.
al'i-nite (-nīt) } *nitrogen.*] *Agric.* A nearly pure culture of one of the nitrogen-fixing bacteria (*Bacillus ellenbachiensis*) prepared and sold as a fertilizer for cereals.

al'i-phat'ic (ăl'ĭ-făt'ĭk), *a.* [Gr. ἀλειφαρ, ἀλείφατος, oil, fat.] *Org. Chem.* Of, pertaining to, or derived from, fat ; fatty ; — applied to compounds having an open-chain structure. The *aliphatic* compounds thus include not only the *fatty* acids and other derivatives of the paraffin hydrocarbons, but also unsaturated compounds, as the ethylene and acetylene series.

al'i-quant (ăl'ĭ-kwănt), *a.* [L. *aliquantus* some, moderate ; *alius* other + *quantus* how great : cf. F. *aliquante*] *Math.* Designating a part of a number or quantity that does not divide the number or quantity without leaving a remainder ; thus, 5 is an *aliquant* part of 16. Opposed to *aliquot.*

al'i-quot (-kwŏt), *a.* [L. *aliquot* some, several ; *alius* other + *quot* how many : cf. F. *aliquote.*] *Math.* Designating a part of a number or quantity which will divide the number or quantity without a remainder ; submultiple ; thus, 5 is an *aliquot* part of 15. Opposed to *aliquant.*

A-lis'ma (ă-lĭz'ma), *n.* [NL., fr. Gr. ἄλισμα the water plantain.] *Bot.* A small genus of aquatic or semiaquatic herbs, type of the family Alismaceæ, with long-petioled, elliptical, often floating leaves, and umbellate-paniculate white flowers. *A. plantago* is the common water plantain. Also [*l. c.*], a plant of this genus.

Al'is-ma'ce-æ (ăl'ĭz-mā'sĕ-ē), *n. pl.* [NL.] *Bot.* A family of chiefly aquatic or marsh plants (order Naiadales), the water-plantain family, having regular perfect monœcious or dicœcious flowers. There are about 13 genera and 70 species, of wide distribution in temperate regions, the principal genera being *Alisma* and *Sagittaria.* — **al'is-ma'ceous** (-shŭs), *a.*

al'i-sphe'noid (ăl'ĭ-sfē'noid) } *a.* [L. *ala* wing + *sphe-*
al'i-sphe-noi'dal (-sfē-noi'dăl) } *noid.* *-noidal.*] *Anat.* Pertaining to or designating the wings of the sphenoid, or the pair of bones which, becoming fused with other cranial bones, form in adult man the greater wings of the sphenoid. — *n.* An alisphenoid bone.

al'i-trunk (ăl'ĭ-trŭnk), *n.* [L. *ala* wing + *truncus* trunk.] *Zool.* In insects, the thorax, or the last two thoracic segments, which bear the wings. In Hymenoptera it includes also the first abdominal segment, which is united with the thoracic segments.

a-live' (ă-līv'), *a* [ME. *on live*, AS. *on life* in life ; *life* being dat. of *līf* life See LIFE ; cf. LIVE, *a*] **1.** Having life, in opposition to *dead* ; living ; being in a state in which the organs perform their functions ; as, an animal or a plant which is *alive.*

2. In a state of action ; in force or operation ; unextinguished ; unexpired ; existent ; as, to keep the fire *alive* ; to keep the affections *alive* ; specif., in games, being in play, not dead, as a jack in bowls.

3. Exhibiting the activity and motion of many living beings ; swarming ; thronged.

The Boyne, for a quarter of a mile, was *alive* with muskets and green boughs. *Macaulay.*

4. Sprightly ; lively ; brisk. *Richardson.*

5. Having susceptibility ; easily impressed ; having lively feelings, as opposed to apathy, sensitive.

Tremblingly *alive* to nature's laws. *Falconer.*

6. Of all living (by way of emphasis).

Northumberland was the proudest man *alive*. *Clarendon.*

Used colloquially as an intensive ; as, *man alive!*

☞ *Alive* always follows the noun which it qualifies.

a-liz'a-rate (ă-lĭz'ă-rāt), *n.* [*alizarin* + *-ate.*] *Chem.* A salt formed by alizarin with a base.

al'i-za'rĭ (ăl'ĭ-zä'rĭ), *n.* [Prob. fr. Ar. *'açārah* juice extracted from a plant, fr. *'açara* to press : cf. F. & Sp. *alizari.*] *Com.* The madder of the Levant.

a-liz'a-rin (ă-lĭz'ă-rĭn), *n.* Also **a-liz'a-rine**. [F. *alizarine*, fr. *alizari.*] **1.** *Chem.* A dyestuff, $C_{14}H_6O_2(OH)_2$, formerly prepared from madder, and now produced artificially from anthracene, and forming when pure a reddish yellow powder or orange-red crystals. It produces the Turkey reds, shades of orange, violet, etc., with different mordants. Chemically, it is a dihydroxy derivative of anthraquinone.

2. a Either of the closely related dyestuffs anthrapurpurin and flavopurpurin, a mixture of which with a little true alizarin is called *yellow-shade alizarin*, the true alizarin being known as *blue-shade alizarin.* **b** Any of a large group of dyes derived, like alizarin proper, from anthracene, and producing various hues. They are called also **alizarin colors** or **alizarin dyes.**

alizarin yellow. Any of several artificial yellow dyestuffs related to alizarin in their mode of application, and distinguished by different letters. *Alizarin yellow C* is gallacetophenone.

al'ka-hest (ăl'kă-hĕst), *n.* [LL. *alchahest* or F. *alcahest* ; the word was perhaps arbitrarily formed by Paracelsus.] The fabled "universal solvent" of the alchemists ; a menstruum capable of dissolving all bodies. — **al'ka-hes'tic** (-hĕs'tĭk), **al'ka-hes'ti-cal**, *a.*

al'ka-les'cent (ăl'kă-lĕs'ĕnt), *a.* Tending to the properties of an alkali ; slightly alkaline. — **al'ka-les'cence** (-ĕns), **al'ka-les'cen-cy** (-ĕn-sĭ), *n.*

al'ka-li (ăl'kă-lī ; -lĭ ; 277), *n. ; pl.* -LIES or -LIS (-lĭz ; -lĭz). [F. *alcali*, ultimately fr. Ar. *al-galī* ashes of the plant saltwort, fr. *galay* to roast in a pan, fry.] **1.** The soluble part of the ash of certain plants ; soda ash.

2. *Chem.* Any substance having marked basic properties ; specif., the hydroxide of ammonium or of any of the alkali metals. See BASE. Alkalies are characterized by their peculiar taste, their action on test papers (red litmus, e.g., being changed to blue), and their power of forming salts with acids. The stronger ones are caustic, and easily react with oils and fats to form soaps. In a wider sense *alkali* includes lime, magnesia, sodium carbonate, etc.

3. Soluble mineral matter, other than common salt, contained in soils or natural waters. *Western U. S.*

4. *Bot.* The saltwort (*Salsola kali*).

alkali flat. A sterile plain, containing an excess of alkali, at the bottom of an undrained basin in an arid region ; a playa. Cf. ALKALI SOIL.

alkali grass. **a** A common melanthaceous plant (*Zygadenus elegans*) of the western United States ; — so named from its grasslike leaves. See ZYGADENUS. **b** = SALT GRASS.

alkali metal. *Chem.* Any metal of the **alkali group**, lithium, sodium, potassium, rubidium, and cæsium.

al'ka-lim'e-ter (ăl'kă-lĭm'ē-tẽr), *n.* [*alkali* + *-meter*] An instrument to ascertain the strength of alkalies, or the quantity of alkali in a mixture.

al'ka-lim'e-try (-lĭm'ē-trĭ), *n.* *Chem.* The art or process of ascertaining the strength of alkalies, or the quantity present in alkaline mixtures. — **al'ka-li-met'ric** (-lĭ-mĕt'rĭk), **-met'ri-cal**, *a.* — **al'ka-li-met'ri-cal-ly**, *adv.*

al'ka-line (ăl'kă-lĭn ; -līn ; 277), *a.* [Cf. F. *alcalin.*] Of, pert. to, or having the properties of, an alkali or alkalies.

alkaline earths, *Chem.*, the oxides of barium, calcium, and strontium (the *metals of the alkaline earths*). Some also include magnesium oxide. All are in their properties intermediate between the true *alkalies* and the *earths* proper. See EARTH, *n.*, 9. — **a. metal** = ALKALI METAL. — **a. reaction**, a reaction indicating alkalinity, as by the action on litmus, turmeric, etc. — **a. tide**, *Physiol.*, increased alkalinity of the urine, observed during digestion, due to the secretion of acid gastric juice.

al'ka-lin'i-ty (-lĭn'ĭ-tĭ), *n.* The quality which constitutes an alkali ; alkaline property.

alkali soil. Any one of various soils found in arid and semiarid regions, containing an unusual amount of soluble mineral salts which effloresce in the form of a powder or crust (usually white) in dry weather following rains or irrigation. The basis of these salts is mainly soda with a smaller amount of potash, and usually a little lime and magnesia. Two main classes of alkali are commonly distinguished : *black alkali*, which may be any alkaline carbonate, but which practically consists of sodium carbonate (sal soda), which is highly corrosive and destructive to vegetation ; and *white alkali*, characterized by the presence of sodium sulphate (Glauber's salt), which is less injurious to vegetation. Black alkali is so called because water containing it dissolves humus, forming a dark-colored solution which, when it collects in puddles and evaporates, produces characteristic black spots.

alkali waste. Waste material from the manufacture of alkali ; specif., soda waste. See LEBLANC PROCESS.

al'ka-lize (ăl'kȧ-līz), *v. t.*; AL'KA-LIZED (-līzd); AL'KA-LIZ'ING (-līz'ĭng). [Cf. F. *alcaliser.*] To render alkaline. — **al'ka-li-za'tion** (-lĭ-zā'shŭn; -lī-zā'shŭn), *n.*

al'ka-loid (ăl'kȧ-loid), *n.* [Cf. F. *alcaloïde.*] *Chem.* An organic substance having alkaline, or basic, properties; — now usually restricted to such as occur naturally in plants and animals. Specif., a vegetable base, as distinguished from *leucomaine* and *ptomaine.* The alkaloids usually occur combined with some common organic acid, as tannic, malic, or citric. All contain nitrogen, carbon, and hydrogen, some being amino derivatives of aliphatic hydrocarbons; and others, derivatives of pyridine, quinoline, pyrrol, etc. Most alkaloids also contain oxygen, and, as a rule, are solid and nonvolatile. The others, as nicotine, are liquid and volatile. The alkaloids as a class have a bitter taste and in many cases are very poisonous. Some are important drugs, as morphine, quinine, cocaine, etc.
☞ The termination *-ia*, formerly used in naming the alkaloids, has yielded to *-ine.* See -INE.

al'ka-loid (ăl'kȧ-loid) } *a.* [*alkali* + *-oid*] **1.** Pert. to,
al'ka-loi'dal (-loi'dăl) } resembling, or containing, alkali.
2. Of or pert. to alkaloids; of the nature of an alkaloid.

al'kane (ăl'kān), *n.* [*alcohol* + *-ane.*] *Chem.* Any member of the methane series.

al'ka-net (ăl'kȧ-nĕt), *n.* [Dim. of Sp. *alcana*, in which *al* is the Ar. article. See HENNA; cf. ORCHANET.] **1. a** A European boraginaceous plant (*Alkanna tinctoria*), or its root. **b** Bugloss. **c** The American puccoon.
2 Anchusin (which see).

Al-kan'na (ăl-kăn'ȧ), *n.* [NL., fr. Sp. *alcana*, fr. Ar. *al-hinnā.* See HENNA; cf. ALKANET.] *Bot.* **a** A genus of boraginaceous plants, natives of South Europe, distinguished from *Anchusa* chiefly by the absence of scales on the corolla. *A. tinctoria* is the alkanet. **b** [*l. c.*] = HENNA.

al-kap'ton } (ăl-kăp'tŏn), *n.* *Physiol. Chem.* A reducing
al-kap'tone } substance present in the urine in certain diseases, causing the fluid, on standing, to assume a dark color by oxidation. It is probably identical in most cases with homogentisic acid or with uroleucic acid.

al-kar'sin (ăl-kär'sĭn) } *n.* [*alcohol* + *arsenic* + *-in.*]
al-kar'sine (-sĭn; -sēn) } *Chem.* Cacodyl oxide.

al'ke-ken'gi (ăl'kĕ-kĕn'jĭ), *n.* [Cf. F. *alkékenge*, Sp. *alquequenje;* ult. fr. Ar. *al-kākanj* a resin from Herat.] A solanaceous herb (*Physalis alkekengi*); also, its fruit, which is a well-flavored berry, loosely inclosed in a leafy calyx.

al-ker'mes (ăl-kûr'mēz), *n.* [F. *alkermès*, Ar. *al-qirmiz* kermes. See KERMES.] **1.** The kermes insect, formerly supposed to be a berry. *Obs.*
2. *Old Pharm.* A compound cordial, in the form of a confection or juice, deriving its name from the kermes insect, its principal ingredient.

al'kide (ăl'kīd; -kĭd; 184), *n.* Also **-id.** [*alkyl* + *-ide.*] *Chem.* A binary compound of an alkyl, especially with a metal; as, the *alkides* of zinc (zinc methyl, zinc ethyl, etc.).

al'kyl (ăl'kĭl), *n.* [*alcohol* + *-yl.*] *Chem.* Any radical of the methane series, such as methyl, ethyl, propyl, etc. Also adjectively; as, *alkyl* salts; *alkyl* sulphide.

al'kyl-am'ine (ăl'kĭl-ăm'ĭn; *-a-mēn'*, 184), *n.* *Org. Chem.* Any amine formed by the replacement of hydrogen in ammonia by an *alkyl*, as methylamine, ethylamine, etc.

al'kyl-ene (ăl'kĭl-ēn), *n.* [*alkyl* + *-ene*] *Org. Chem.* Any member of the ethylene series; an olefine.

al-kyl'ic (ăl-kĭl'ĭk), *a.* Of or pertaining to an alkyl.

al'kyl-ize (ăl'kĭl-līz), *v. t.* *Chem.* To combine with alkyl; to introduce one or more alkyl groups into by substitution.

all (ôl), *a.* [ME. *al*, pl. *alle*, AS. *eal*, pl. *ealle*, Northumbrian *alle*, akin to D. & OHG. *al*, G. *all*, Icel. *allr*, Dan. *al*, Sw. *all*, Goth. *alls;* and perh. to Ir. and Gael. *uile*, W. *oll.*] **1.** The whole quantity, extent, duration, amount, quality, or degree of; the whole; the whole number of, taken either collectively or distributively, any whatever; every; as, *all* the wheat, *all* the year; *all* the strength; *all* happiness, *all* abundance; beyond *all* doubt; you will see us *all* (or *all* of us). In logic the use of *all* generically and distributively is discriminated from its use collectively, or as expressing an aggregate. In the first sense, it means that what is stated is true of *every* individual or case considered; as, *all* triangles have their sum equal to the sum of two right angles. In the second sense, it means that what is stated is true of *the sum of* the individuals or cases considered; as, *all* the angles of a triangle are equal to two right angles.
Prove *all* things; hold fast that which is good 1 *Thess* v. 21.
2. Any. *Obs.* "Without *all* remedy." *Shak.*
☞ When the definite article "the," or a possessive or a demonstrative pronoun, is joined to the noun that *all* qualifies, *all* precedes the article or the pronoun; as, *all* the cattle; *all* my labor; *all* his wealth; *all* our families; *all* your citizens; *all* their property; *all* other joys.
This word, not only in popular language, but in the Scriptures, often signifies, indefinitely, a large portion or number, or a great part. Thus, *all* the cattle in Egypt died, *all* Judea and *all* the region round about Jordan, *all* men held John as a prophet, are to be understood only as including a large part, or very great numbers.
3. Only; alone; nothing but.
I was born to speak *all* mirth and no matter. *Shak.*
4. In lawn tennis (which see) and other games, denoting that each player or each side has the same score (indicated by the preceding word); as, love *all*, two *all*, etc.
☞ *All* is much used in composition to enlarge the meaning, or add force to a word. In some instances it is completely incorporated into words, and its final consonant is dropped, as in *a*lmighty, *a*lready, *a*lways, *a*lgate; but in most instances it is an adverb or adjective prefixed to adjectives, participles, or nouns, but usually with a hyphen, as *all*-bountiful, *all*-glorious, *all*-important, *all*-surrounding, *all*-praised, *all*-power, *all*-giver, *all*-rail, etc. Anciently many words, as *a*bout, *a*laground, etc., were compounded with *all*, which are now written separately.
Syn. — ALL, EVERY, EACH agree in inclusiveness, but differ in stress. *All* collects, *every* divides, *each* distributes. ALL refers rather to the aggregate under which the individuals are subsumed than to the individuals themselves; as, *all* men are mortal. EVERY refers to the individuals, but never denotes the separate individual; as, *every* man must die. EACH refers to the separate individual, but never denotes this or that one in particular; as, *each* must meet death alone (see EACH). *All* followed by the article differs from *whole* in that *all* suggests rather more the component elements or parts involved; as, *all* the city, the *whole* city, was in an uproar. See WHOLE, SUM.
all and some, all and each, individually and collectively; one and all. *Obs.* "Displeased *all and some.*" *Fairfax.* — **a. and sundry,** all collectively, and each separately. — **a. and whole,** entire; entirely. *Obs.* — **a. but. a** Scarcely; barely. *Obs. Shak.* **b** Almost; nearly. "The fine arts were *all but* proscribed." *Macaulay.* — **a comers,** all who come, or offer, or choose, to take part, especially in a contest or controversy. "To prove it against *all comers.*" *Bp. Stillingfleet.* — **a. fives,** *and* **a. fours.** See in the Vocabulary. — **a. hail.** See in the Vocabulary. — **a. hands,** an entire ship's company; *Colloq.*, all engaged in the same task, game, etc. — **a. other,** all (things or objects) other (than those mentioned); everything besides. The words *all other* are judicially construed as intended to include only all such other things as are ejusdem generis, when such a construction is calculated to carry out the intention of the user. Cf. EJUSDEM GENERIS. — **a. rail,** *Com.*, entirely by rail: — used of contracts of carriage where the intention of the agreement is that carriage shall be by rail as far as practicable. — **a. said and done,** everything to the purpose completely discussed, decided, and executed. *Colloq.*
When *all is said and done* . . Mr Browning and his great poetical achievement remain behind to be dealt with *A. Birrell* — **to be all squares,** to be all settled. *Colloq. Dickens.* — **a. that,** everything of that kind; all that sort.
With singing, laughing, ogling, and *all that.* *Pope.*
The rank is but the guinea's stamp,
The man 's the gowd [gold] for *a' that.* *Burns.*
— **a. the whole,** the whole (emphatically). *Obs.* "*All the whole* army." *Shak.* — **a. told,** all counted; in all; altogether. — **a. two,** all of two; both. *Obs. or Dial. Amer.* — **at all points,** in every particular; completely; perfectly. *Shak.* — **for all the world. a** Precisely; exactly. **b** For any consideration. — **on all hands,** on all sides. — **over all. a** Everywhere. *Obs.* **b** *Her.* Placed over or upon other bearings, and therefore hiding them in part; — said of a charge.

all (ôl), *adv.* **1.** Wholly, completely; altogether; entirely; quite; very; as, *all* bedewed; my friend is *all* for amusement. "And cheeks *all* pale." *Byron.*
☞ In the ancient phrases, *all* too dear, *all* too much, *all* so long, etc., this word retains its appropriate sense or becomes intensive.
2. Even; just. (Often merely intensive.) *Obs. or Poet.*
All as his straying flock he fed. *Spenser*
A damsel lay deploring
All on a rock reclined. *Gay.*
all abroad. a Wide of the mark; at fault.
The first deals successfully with nearly the whole of life, while the second is *all abroad* in it. *M. Arnold.*
b At a loss; nonplused. — **a. a case,** a matter of indifference. *Obs.* "'T is *all a case* to me." *L'Estrange.* — **a. along.** All through the course or length of; during the whole time; throughout. "I have *all along* declared this to be a neutral paper." *Addison.* **b** *Bookbinding.* So that the thread goes direct from one extreme to the other; as, to sew a section *all along.* — **a. hollow,** entirely, completely; as, to beat any one *all hollow. Colloq. or Vulgar.* — **a. if,** even if. *Obs.* — **a. in,** exhausted; spent; "all out." *Slang.* — **a. in the wind. a** *Naut.* With the head to the wind and all the sails flapping or shivering. **b** In a flurry; confused and uncertain as to what to do. *Colloq.* — **a. of a sudden,** very suddenly. *Colloq.* — **a. one,** of the same or equal nature, or consequence; as, he says that it is *all one* what course you take. *Shak.* — **a. out. a** Completely. *Obs. or Amer.* **b** Exhausted; spent; "all in." *Slang.* **c** Greatly mistaken; all abroad. *Colloq.* — **a. over. a** Over the whole extent; thoroughly; wholly; as, she is her mother *all over. Colloq.* **b** Wholly over; ended; done for.
As soon as you once come up with a man's limitations, it is *all over* with him *Emerson.*
— **a. right,** satisfactory or satisfactorily; correct or correctly; — often used by way of mere assent. *Colloq.* — **a. round,** over the whole place; in every direction. — **a. there.** Erroneous var. of *allher*, gen. pl. of ALL. *Obs.* — **a. the same,** nevertheless. "There they [certain phenomena] remain rooted *all the same*, whether we recognize them or not." *J. C. Shairp.* "But Rugby is a very nice place *all the same.*" *T. Arnold.* — **a. to,** *or* **all-to.** In such phrases as "*all to* rent," "*all to* break," "*all-to* frozen," etc., which are of frequent occurrence in our old authors, the *all* and the *to* have commonly been regarded as forming a compound adverb, equivalent in meaning to *entirely, completely, altogether.* But the sense of entireness lies wholly in the word *all* (as it does in "*all* forlorn," and similar expressions), and the *to* properly belongs to the following word, being a kind of intensive prefix (orig. meaning *asunder* and answering to the LG. *ter-*, HG. *zer-*). It is frequently to be met with in old books, used without the *all.* Thus Wycliffe says, "The vail of the temple was *to rent*"; and of Judas, "He was hanged and *to-burst* the middle"; i. e., burst in two, or asunder. See TO-. — **a. up,** irretrievably at an end; completely done for. *Colloq.*

all (ôl), *conj.* [Orig. *all*, adv., wholly: used with *though* or *y*, which when not expressed before the subjunctive left *all* as if in the sense *although.*] Although; albeit. *Obs.*
All they were wondrous loth. *Spenser.*

Al'lan-toi'de-a (-dē-ȧ), *n. pl.* [NL.] *Zoöl.* The division of Vertebrata in which the embryo develops a complete allantois. It is equiv. to Amniota, since its members also develop an amnion. It includes reptiles, birds, and mammals. — **al'lan-toi'de-an** (-dē-ăn), **al'lan-toi'di-an** (-dĭ-ăn), *a. & n.*

al-lan'to-in (ă-lăn'tō-ĭn), *n.* *Chem.* A crystalline oxidation product, $C_4H_6O_3N_4$, of uric acid. It is found in the allantoic liquid of cows, in beet juice, etc.

al-lan'to-is (-ĭs), *n.* [NL.] *Anat.* An organ developed by the embryos of all amniota (but wanting or very rudimentary in the lower vertebrates), arising as a hollow bud from the posterior part of the alimentary canal, and projecting from the body at the umbilicus. In most mammals it forms the most important part of the umbilical cord, its blood vessels becoming the umbilical arteries and vein, and its expanded extremity, uniting with the chorion, forming the placenta (see PLACENTA). In birds and reptiles, where the yolk of the egg nourishes the embryo, the function of the allantois is respiratory, the blood in its vessels being aërated by the air which penetrates the porous egg shell, while its cavity, the *allantoic vesicle*, receives the excretions. The proximal part forms the urinary bladder of the adult in both cases.

al'lan-tu'ric (ăl'ăn-tū'rĭk), *a.* [*allantoin* + *uric.*] *Chem.* Pertaining to or designating an acid, $C_8H_4O_5N_2$, obtained as a deliquescent mass by the oxidation of allantoin and in other ways; — called also *glyoxyl urea.*

[ME. *aleggen* to bring forward as evidence, OF *esligier* to buy, prop. to free from legal difficulties, prob. fr. an assumed LL. *exlitigare;* L. *ex* + *litigare* to quarrel, sue (see LITIGATE). The word was confused with L. *allegare* (see ALLEGATION), and *lex* law.] **1.** To state under oath; to plead in court. *Obs.*

2. To bring forward with positiveness; to declare; to affirm; to assert; as, to *allege* a fact.

3. To cite or quote; as, to *allege* an authority. *Archaic.*

4. To produce or urge as a reason, plea, or excuse; as, he refused to lend, *alleging* a resolution against lending.

Syn. — Affirm, aver, assert, declare, maintain, plead; cite, quote; ascribe, attribute; offer, propose, present. — ALLEGE, ADDUCE, ASSIGN, ADVANCE. To ALLEGE is to assert without proof, but with the implication of readiness or ability to prove; as, "Opening and *alleging,* that Christ must needs have suffered" (*Acts* xvii. 3). To speak of something as *alleged* implies a measure of doubt of its truth, or at least a disclaimer of responsibility for the assertion; as, "Some of the *alleged* reasons for changing our coinage" (*Bagehot*). To ADDUCE (see CITE) is to bring forward as evidence for what has been alleged; as, "I might have *adduced* other examples, but I should have proven no more" (*Poe*). To ASSIGN is to ascribe or attribute (as a cause or reason); as, "Whatever reason of discontent the farmers may *assign,* the true cause is this" (*Coleridge*). To ADVANCE is to put forward or propose for acceptance; as, "I do not feel at liberty to say that South Carolina, as a State, has ever *advanced* these sentiments" (*D. Webster*). See AFFIRM, DECLARE, ASSERT.

al-le'giance (ă-lē'jăns), *n.* [ME. *alegeaunce; a-* + OF. *lige, liege.* The meaning was influenced by L. *ligare* to bind, and even by *lex, legis,* law. See LIEGE, LIGEANCE.] **1.** Relation of a liege lord; lordship. *Obs. Oxf. E. D.*

2. The relation of a feudal vassal, or liegeman, to his superior, or liege lord; the tie or obligation of a subject to his sovereign or government; the duty of fidelity to one's king, government, or sovereign state. (Cf. CITIZEN, ALIEN.)

Originally allegiance was a feudal relation or obligation and therefore *personal;* but in comparatively modern times this conception has given place in civilized nations to the political conception of it as a relation or obligation of a citizen to his sovereign, or of an alien to the government under which he resides. Allegiance is variously considered, with respect to the manner in which it arises, etc., as: natural or implied, when it arises by operation of law, as in the case of native-born subjects; express, when it arises from an express promise or oath of allegiance, acquired, when a person owes it as a result of receiving the rights of citizenship, as by naturalization or denization, this being distinguished from *natural;* local, when it arises merely from the fact of residing in, and receiving the protection of, a country, as in the case of resident aliens. The strictly feudal allegiance was a voluntary relation and obligation; but at the common law a person could not divest himself of his natural allegiance, the general maxim being, "once a citizen always a citizen." The right of self-expatriation has always been held to exist in the United States, and was granted in Great Britain by the Naturalization Act of 1870, and it has been recognized more or less by most of the European states.

In the ancient civilization the principle of common blood or a common faith, in the medieval that of personal *allegiance,* and in the modern that of territorial citizenship, have chiefly determined the political divisions of the world. *J. W. Burgess.*

3. Devotion or loyalty to that which is entitled to obedience or service and respect; as, *allegiance* to science.

Syn. — See LOYALTY.

4. Loosely, a treaty or compact by which nations, etc., become allied.

5. *Bot.* In Lindley's system of plant classification, a subdivision of the vegetable kingdom intermediate between a class and an order.

Syn.—Combination, association, compact, covenant, fusion, union.—ALLIANCE, LEAGUE, COALITION, CONFEDERACY, CONFEDERATION, FEDERATION agree in the idea of combination, chiefly political, for a common object. ALLIANCE applies particularly to a joining of interests on the part of families (by marriage) or of states (by compact or treaty); it is also less formally used of a connection, for mutual benefit, between other bodies, organized or unorganized; as, an *alliance* between two royal houses, an offensive and defensive *alliance*, the Anglo-Japanese *alliance*, an *alliance* between producers and consumers. LEAGUE, often used without distinction from *alliance*, commonly suggests a more formal compact or more definite object, and may frequently (unlike *alliance*) be taken in a bad sense; as, the Solemn *League* and Covenant, the Primrose *League*, to be in *league* with the powers of darkness. COALITION refers to a temporary alliance of otherwise opposing interests, parties, or factions; as, "Mr. Fox, and his famous *coalition* with Lord North" (*Gibbon*); a *coalition* ministry. CONFEDERACY and CONFEDERATION, in their political sense, apply specifically to a union by treaty or compact of independent states under a government to which powers are delegated for dealing with common external relations; of the two, *confederation*, perhaps, now implies the closer or more permanent association; as, the Southern *Confederacy*, the Articles of *Confederation*, the Germanic *Confederation*. FEDERATION in its broad sense includes any union under the terms of a league or covenant; but specifically it designates a sovereign state, esp. one formed by the union of other states, with a central general government and several local governments; as, the *Federation* of Labor, the *Federation* of the British Empire; in the strictest sense, the United States of America constitutes a *federation*. See COMBINATION, ASSOCIATION, REPUBLIC.

al-lit'er-ate (ă-lĭt'ĕr-āt), *v. i.*; AL-LIT'ER-AT'ED (-āt'ĕd); AL-LIT'ER-AT'ING (-āt'ĭng). To make or constitute alliteration.

al-lit'er-ate, *v. t.* To employ or place so as to make alliteration. *Skeat.*

al-lit'er-a'tion (-ā'shŭn), *n.* [LL. *alliteratio.* See AD-; LETTER.] **1.** Repetition of the same letter or sound at the beginning of two or more words immediately succeeding each other, or at short intervals; as in:—

Behemoth, biggest born of earth, upheaved
His vastness. *Milton*

Fly o'er waste *fens* and windy *fields.* *Tennyson.*

2. Specif.: Recurrence of the same consonant sound or of vowel sounds initially in accented syllables of verse, as in:—

In a somer seson whan soft was the sonne,
I *shope* me in *sh*roudes as I a *shep*e were *P. Plowman.*

Alliteration appears sporadically in the verse of all literary languages, but it is a structural characteristic of early Teutonic verse, nearly all Anglo-Saxon poetry being alliterative. This verse falls regularly into two half lines, the first having usually two alliterating syllables; the second, one.

al-lit'er-a-tive (ă-lĭt'ĕr-ă-tĭv), *a.* Pertaining to, or characterized by, alliteration; as, *alliterative* poetry. — **al-lit'er-a-tive-ly,** *adv.* — **al-lit'er-a-tive-ness,** *n.*

al-lit'er-a'tor (-ā'tĕr), *n.* One who alliterates.

Al'lium (ăl'ĭ-ŭm), *n.* [L. *alium* or *allium*, garlic.] **1.** *Bot.* A very large genus of bulbous liliaceous plants distinguished by the characteristic odor, sheathing, mostly basal leaves, and umbellate white, yellow, or red flowers, with the perianth segments all similar. The species are widely distributed; they include the onion (*A. cepa*), garlic (*A. sativum*), chives (*A. schœnoprasum*), leek (*A porrum*), and shallot (*A. ascalonicum*); also several species ornamental in cultivation, as *A. moly*, *A. neapolitanum*, etc.

2. [*l. c.*] A plant, bulb, or flower of this genus.

all'mouth' (ôl'mouth'), *n.* *Zoöl.* The angler.

all'ness (ôl'nĕs; -nĭs), *n.* Totality; completeness.

The *allness* of God, including his absolute spirituality, supremacy, and eternity *R. Turnbull.*

al'lo- (ăl'ō-). **1.** A combining form from Greek ἄλλος *other* (akin to Lat. *alius*); as in *allo*morphic, *allo*pelagic, etc.

2. *Organic Chem.* A prefix sometimes used to distinguish one of two isomers, esp. the more stable of two isomers whose isomerism is the result of a double bond; thus, *allo*crotonic acid, *allo*cinnamic acid, and *allo*maleic (fumaric) acid are more stable forms into which crotonic, cinnamic, and maleic acids are changed by heating.

al'lo-cate (ăl'ō-kāt), *v. t.*; AL'LO-CAT'ED (-kāt'ĕd); AL'LO-CAT'ING (-ĭng). [LL. *allocatus*, p. p. of *allocare*, fr. L. *ad* + *locare* to place. See ALLOW.] **1.** To distribute or assign, to allot. *Burke.*

2. To localize. *Rare.*

al'lo-ca'tion (ăl'ō-kā'shŭn), *n.* [LL. *allocatio*: cf. F. *allocation.*] **1.** Act of putting one thing to another; a placing; disposition; arrangement. *Hallam.*

[NL.; *allo-* + Gr. χείρ hand.] *Med.* A confusion or transference of sides in the localization of sensation, as when patients suffering from certain central nervous lesions refer irritation of a given point on the skin to some other point on the skin, usually the corresponding point on the other side of the body; also, the disease occasioning it.

al'lo-chro'ic (-krō'ĭk), *a.* Changeable in color.

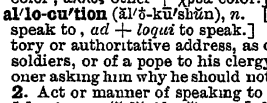
al-loch'ro-ous (ă-lŏk'rō-ŭs), *a.* [Gr. ἀλλόχροος changed in color; ἄλλος other + χροά color.] Changing color.

al'lo-cu'tion (ăl'ō-kū'shŭn), *n.* [L. *allocutio*, fr. *alloqui* to speak to, *ad* + *loqui* to speak.] **1** An address; a hortatory or authoritative address, as of a Roman general to his soldiers, or of a pope to his clergy, or of a judge to a prisoner asking him why he should not be sentenced. *Addison.*

2. Act or manner of speaking to or addressing.

al-log'a-my (ă-lŏg'ă-mĭ), *n.* [*allo-* + *-gamy.*] *Bot.* Fertilization of the pistil of a plant by pollen from another of the same species; cross-fertilization; — opposed to *autogamy.* — **al-log'a-mous** (-mŭs), *a.*

al'lo-i-som'er-ism (ăl'ō-ĭ-sŏm'ĕr-ĭz'm), *n.* [*allo-* + *isomerism.*] *Chem.* Isomerism not explainable by ordinary structural formulas; — applied by Michael esp. to a kind of which the case of fumaric and maleic acids is typical. These two acids are, on account of their reactions, represented by the two accompanying formulas, which differ only in spatial arrangement. Compounds which, like maleic acid, are supposed to have similar groups on the same side, are called *cis-* or *maleinoid* forms; those with similar groups on opposite sides are called *trans-, cis-trans-*, or *fumaroid* forms.



al-lom'er-ism (ă-lŏm'ĕr-ĭz'm), *n.* [*allo-* + Gr. *μέρος* part.] *Chem. & Min.* Variability in chemical constitution without variation in crystalline form. — **al-lom'er-ous** (-ŭs), *a.*

al'lo-morph (ăl'ō-môrf), *n.* [*allo-* + *-morph.*] *Min.* **a** Any of two or more distinct crystalline forms of the same substance, or the substance having such forms; as, carbonate of lime occurs in the *allomorphs* calcite and aragonite. **b** A variety of pseudomorph which has undergone partial or complete change or substitution of material; thus limonite is frequently an *allomorph* after pyrite. — **al'lo-mor'phic** (-môr'fĭk), *a.* — **al'lo-mor'phism** (-fĭz'm), *n.*

al-longe' (ă-lŭnj'), *n.* [F. *allonge*, earlier *alonge*, a lengthening. See ALLONGE, *v.*; cf. LUNGE.] **1.** *Fencing.* A thrust or pass; a lunge. *Obs.*

2. (ȧ/lôNzh') A slip attached to a bill of exchange or the like, to receive additional indorsements with the same effect as if on the instrument itself, a rider. *A French usage.*

al'lo-nym (ăl'ō-nĭm), *n.* [F. *allonyme*, fr. Gr. ἄλλος other + ὄνυμα, ὀνομα name.] The name of another person assumed by the author of a work; also, the work published under such a name. — **al-lon'y-mous** (ă-lŏn'ĭ-mŭs), *a.*

al'lo-path (ăl'ō-păth), *n.* [Cf. F. *allopathe.*] An allopathist.

al'lo-path'ic (-păth'ĭk), *a.* [Cf. F. *allopathique.*] *Med.* Of or pertaining to allopathy. — **al'lo-path'i-cal-ly,** *adv.*

al-lop'a-thist (ă-lŏp'ă-thĭst), *n.* One who practices allopathy; one who professes allopathy

al-lop'a-thy (-thĭ), *n.* [*allo-* + *-pathy*: cf. G. *allopathie*, F. *allopathie.* See ELSE, PATHOS.] That system of medical practice which aims to combat disease by the use of remedies producing effects different from those produced by the special disease treated; — a name invented by Hahnemann for the ordinary practice, as opposed to *homeopathy.*

al-lot' (ă-lŏt'), *v. t.*; AL-LOT'TED; AL-LOT'TING. [OF. *aloter*, F. *allotir*; *a* (L. *ad*) + *lot* lot. See LOT.] **1.** To distribute by lot.

2. To distribute, or parcel out in parts or portions; to distribute to each individual concerned; to assign as a share or lot; to set apart as one's share; to bestow on, to grant; to appoint; as, let every man be contented with that which Providence *allots* him.

Ten years I will *allot* to the attainment of knowledge *Johnson.*

3. To assign (to some one) as determined or selected; specif., to attribute.

Nothing can be more justly *allotted* to be the saying of fools than this — "There is no God." *Bacon.*

Syn. — Set apart, grant, distribute, portion out, fix, specify, prescribe; design, intend, ordain. — ALLOT, APPORTION, ASSIGN, APPOINT, DESTINE agree in the idea of appropriation to a special purpose. To ALLOT is to set apart a specific portion or share for a particular person or end, without implied reference to any other; as, "Every seat within the space *allotted*" (*Motley*); "The doctors *allot* her but two years longer at most" (*E. Fitzgerald*). APPORTION adds the implication of other similarly allotted shares; as, the time *apportioned* to one of several tasks. ASSIGN and (more definitely) APPOINT imply an authoritative designation or determination of persons and parts; as, to *assign* the parts in a play, to *appoint* a time for the rehearsal. DESTINE (now chiefly in the passive), when not referring specifically to fixed fate or to divine foreordination, usually implies merely predetermination in or through the established order of things, and frequently suggests little more than intention; as, an actor *destined* to eclipse his rivals, a youth *destined* for the law; "She put a paper of pearl buttons . . . in its *destined* place" (*Hawthorne*).

al-lot' (ă-lŏt'), *v. i.* To count; reckon; — often used with *on* or *upon*. *Colloq., Local American.*

Al'lo-the'ri-a (ăl'ō-thē'rĭ-ă), *n. pl.* [NL.; *allo-* + Gr. θηρίον beast.] *Paleon.* A group of Mesozoic mammals known only from imperfect remains, but supposed to be related to the monotremes; — called also *Multituberculata.*

al'lo-tho-gen'ic (ăl'ō-thō-jĕn'ĭk, ă-lŏth'ō-) } *a.* [Gr. ἄλλο-
al'lo-thog'e-nous (ăl'ō-thŏj'ē-nŭs) } θι elsewhere + *-genic*, *-genous.*] *Geol.* Formed elsewhere; — said of those mineral particles of clastic or metamorphic rocks which have been formed in another place and transported to their present position; — opposed to *authigenic*, *authigenous.*

al-lot'ment (ă-lŏt'mĕnt), *n.* [Cf. OF. *alotement*, F. *allotement.*] **1.** An allotting; specif., appointment of a thing to a particular person or use; assignment; apportionment.

2. That which is allotted; a part or portion granted or distributed; that which is assigned by lot, or by the act of God; anything set apart for a special use or to a distinct party.

The *allotments* of God and nature. *L'Estrange.*

A vineyard and an *allotment* for olives and herbs. *Broome.*

3. Specif.: *Eng. Land Law.* A small piece of land let or sold to a laborer or artisan for cultivation, esp. one let or sold under the provisions of the Allotments and Small Holdings Acts for cultivation as a subsidiary source of income by a laborer.

allotment and regret, *Finance*, short for, "letter of allotment and regret," that is, a letter sent to each subscriber in cases of oversubscription for a stock issue, notifying him of the shares allotted to him and expressing regret that the full subscription cannot be allotted. *Stockbrokers' Cant.*

al'lo-trope (ăl'ō-trōp), *n. Chem.* An allotropic form.

al'lo-troph'ic (ăl'ō-trŏf'ĭk), *a.* [*allo-* + *trophic.*] **a** *Physiol.* Changed or modified in nutritive power by the process of digestion. **b** *Plant Physiol.* Dependent upon other organisms for nutrition; heterotrophic; — said of plants unable to perform photosynthesis, as all saprophytes; — opposed to *autotrophic.*

al'lo-trop'ic (-trŏp'ĭk) } *a.* [Cf. F. *allotropique.*] Of, per-
al'lo-trop'i-cal (-ĭ-kăl) } taining to, or exhibiting, allotropism. — **al'lo-trop'i-cal-ly**, *adv.* — **al'lo-tro-pic'i-ty** (-trō-pĭs'ĭ-tĭ), *n.*

al-lot'ro-pism (ă-lŏt'rō-pĭz'm) } *n.* [Gr. ἀλλοτροπία vari-
al-lot'ro-py (ă-lŏt'rō-pĭ) } ety, fr. ἄλλος other + τρόπος direction, way, τρέπειν to turn.] *Chem.* The capability of existing in two or more conditions which are distinguished by differences in properties. Thus carbon occurs crystallized in octahedrons and other related forms, in a state of extreme hardness, in the diamond; it occurs in hexagonal forms, and of little hardness, in black lead; and again occurs in a soft state, as in lampblack and charcoal. Ozone is an allotropic form of oxygen. Calcium carbonate is found both as calcite (rhombohedral) and as aragonite (orthorhombic). No sharp line can be drawn between *allotropy* and *isomerism*, but the former term is usually applied to the elements and to those modifications of inorganic compounds that differ principally in *physical* properties (as calcite and aragonite). Cf. ISOMERIC

all'-o'ver-ish (ôl'ō'vẽr-ĭsh), *a.* Having or being a vague general sensation, as of uneasiness, illness, apprehension, etc. *Dial. Eng. or Colloq.* — **all'-o'ver-ish-ness**, *n.*

al-low' (ă-lou'), *v. t.*; AL-LOWED' (-loud'); AL-LOW'ING. [ME. *alouen*, OF. *alouer*, *aloer*, to place, use, put to service, assign, F. *allouer*, fr. LL. *allocare*; confused with OF. *aloer* to approve, fr. L. *allaudare* to extol; *ad* + *laudare* to praise. See LOCAL, LAUD, cf. ALLOCATE.] **1.** To praise; to approve of; hence, to sanction.

Ye *allow* the deeds of your fathers. *Luke* xi. 48

We commend his pains, condemn his pride, *allow* his life, approve his learning *Fuller.*

How *allow* you the model of these clothes? *Massinger.*

2. To invest; to intrust. *Obs.*

Thou shalt be *allowed* with absolute power. *Shak.*

3. To grant, give, admit, accord, afford, or yield; to let one have; as, to *allow* a servant his liberty, to *allow* a free passage; to *allow* one day for rest.

He was *allowed* about three hundred pounds a year. *Macaulay.*

4. To own or acknowledge; to accept as true; to concede; to accede to; as, to *allow* a right; to *allow* a claim; to *allow* the truth of a proposition.

I *allow*, with Mrs. Grundy and most moralists, that Miss Newcome's conduct . . . was highly reprehensible. *Thackeray.*

5. To grant (something) as a deduction or an addition, esp., to abate or deduct; as, to *allow* a sum for leakage.

6 To grant license to; to permit; to consent to; as, to *allow* a son to be absent.

7. To have or declare as one's opinion or intention. *Dial.*

Syn. — Let, grant, consent to, authorize, endure, bear. — ALLOW, PERMIT, SUFFER, TOLERATE. ALLOW and PERMIT are frequently used as convertible terms. But *allow* is less formal than *permit*, and may imply little more than forbearance of prohibition (see *allowable*, under ADMISSIBLE); as, that may be tacitly *allowed* which is not expressly *permitted*. To CONSENT (*to*) is to acquiesce in what is desired or proposed by another (see ASSENT); as, to *consent* to a daughter's marriage, to *consent* to an operation. To SUFFER (now somewhat bookish in this sense) is often a mere synonym for *allow* (as, "*Suffer* little children to come unto me"); but it may imply indifference or reluctance; as, "The eagle *suffers* little birds to sing, and is not careful what they mean thereby" (*Shak.*); "Why do ye not rather *suffer* yourselves to be defrauded?" (1 *Cor.* vi. 7). TOLERATE (see TOLERANCE) implies endurance of what is contrary to one's will or desire; as, barely to *tolerate* his presence. See GRANT, RATIFY, BEAR, PERMISSION.

9. *Founding.* = CLEARANCE.

al-low'ance, *v. t.*; AL-LOW'ANCED (-ănst); AL-LOW'ANC-ING (-ăn-sĭng). To put upon a fixed allowance (esp. of provisions and drink); to supply in a fixed and limited quantity; as, the captain was obliged to *allowance* his crew.

al-low'ed-ly (-ĕd-lĭ), *adv.* By allowance; admittedly.

al-lox'an (ă-lŏk'săn), *n.* [*allan*toin + *oxal*ic.] *Chem.* A crystalline oxidation product, $C_4H_4O_5N_2$ (or, dehydrated, $C_4H_2O_4N_2$), of uric acid. It is a ureide of mesoxalic acid.

al'lox-u'ric (ăl'ŏk-sū'rĭk), *a.* *Physiol. Chem.* Related to, or containing the radicals of, alloxan and urea; as, the *alloxuric* bases, that is, xanthine, hypoxanthine, adenine, guanine, etc. All the alloxuric substances are regarded as derivatives of purine, and are hence called also *purine bodies.*

al-loy' (ă-loi'), *n.* [F. *aloi*, fr. OF. *aleier*, *aloier*, *alei*, to combine. ME. *alai* is fr. OF. *alei*, the earlier form of *aloi.* See ALLOY, *v. t.*] **1.** Quality as to being mixed with base metals; comparative purity, as of gold or silver; fineness.

2. A substance composed of two or more metals intimately united, usually by fusing the components together, also, the state of union of the components; as, brass is an *alloy* of copper and zinc. By extension, a similar substance formed by the union of a metal and a nonmetal; as, steel is an *alloy* of iron and carbon. Alloys have metallic properties. They are in general harder and more fusible, but less malleable and poorer conductors, than the simple metals composing them. Most alloys are now regarded as solid solutions, either of the simple constituents in each other or, more commonly, of one or more chemical compounds of the constituents in an excess of one of the simple constituents. Alloys of mercury are specifically called *amalgams.*

3. A baser metal mixed with a finer one, esp. with a precious metal.

4. Admixture of anything which lessens the value or detracts from quality; an alien or impairing element or part; as, no happiness is without *alloy.* "Pure English without Latin *alloy*" *F. Harrison.*

al-loy', *v. t.*; AL-LOYED' (-loid'), AL-LOY'ING. [F. *aloyer*, OF. *aloier*, *aleier*, earlier *aleyer*, to combine, fr. L. *alligare.* See ALLY, *v. t.*; of ALLAY to alloy, the earlier form.] **1.** To reduce the purity of by mixing with a less valuable metal; as, to *alloy* gold with silver or copper, or silver with copper.

2. To mix so as to form an alloy.

3. To abate, impair, or debase by mixture; to allay; moderate; as, to *alloy* pleasure with misfortunes.

al-loy', *v. i* To mix so as to form an alloy.

alloy balance. A balance used for weighing out metals for an alloy. It is so constructed that the ratio of the lengths of the two arms can be made equal to the desired ratio of the two metals in the alloy. Weights of the two metals corresponding to the ratio will then balance.

alloy cast iron. Cast iron alloyed with some other metal.

alloy steel. Any steel containing a notable quantity of some other metal alloyed with the iron, usually chromium, nickel, manganese, or tungsten. See IRON, CHROME STEEL, NICKEL STEEL, etc.

all'-round', *a.* Extending all round; hence, having general capability or excellence; as, an *all-round* man; an *all-round* scholar. *Colloq.*

all-round price, *Com.*, a price that covers all charges, including those usually made as extras.

al-lure' (ă-lūr'), *v. t.*; AL-LURED' (-lūrd'); AL-LUR'ING. [OF. *aleurrer, alurer*, fr. *a* (L. *ad*) + *leurre* lure. See LURE.] To tempt or draw by a lure or bait, that is, by the offer of some good, real or apparent; to invite by something flattering or acceptable; to entice; to attract.

With promised joys *allured* them on. *Falconer.*

The golden sun in splendor likest Heaven
Allured his eye. *Milton.*

Syn. — Attract, tempt, coax, persuade, prevail on, insnare, entrap, lead astray. — ALLURE, LURE, ENTICE, INVEIGLE, DECOY, SEDUCE agree in the suggestion of an attracting influence, usually evil or deceptive. TO ALLURE is to draw by the prospect or offer (not necessarily deceptive) of some future good; as, "*allurements* and baits of superstition" (*Sir T. Browne*); "Young children should rather be *allured* to learning by gentleness and love, than compelled to learning by beating and fear" (*Ascham*). LURE implies a stronger, usually a baleful, attraction; as, *lured* to his ruin, "Good wine *lures* back the winebibber" (*M. Arnold*). TO ENTICE is to allure artfully and adroitly; to INVEIGLE (see etym.) is to entice by beguiling and cajoling; as, "To every thirsty wanderer by sly *enticement* gives his baneful cup" (*Milton*); "Yet have they many baits and guileful spells to *inveigle* and invite the unwary sense" (*Milton*). TO DECOY is to entrap or lead into danger by artifice, especially by false appearances; as, to kidnap a child by *decoying* him from his nurse. TO SEDUCE is to lead astray, usually by overcoming scruples, from rectitude, propriety, or duty; as, "The hideous beast whose craft had *seduced* me into murder" (*Poe*); "That quaintness, into which your admiration of Tacitus sometimes *seduced* you" (*Gibbon*). See COAX, CAPTIVATE, INVITE, SNARE.

AMYGDALATE.] **1** A small amygdalaceous tree (*Amygdalus communis*) closely resembling the peach in flowers and foliage. It is thought to be native to southern Europe.

2. The drupaceous fruit of this tree, esp. its nutlike stone or kernel. The almond differs from the peach in having a dry instead of pulpy exocarp, so that the nut or kernel is really the stone of the fruit. The various kinds, as bitter, sweet, thin-shelled, thick-shelled, and Jordan almonds, have developed from the single species. Bitter almonds, which are grown mostly in the Mediterranean region, are used in the manufacture of flavoring extracts. See AMYGDALIN. Sweet or edible almonds are cultivated in various parts of southern Europe and in California: they are eaten as nuts, and are used extensively in cookery and confectionery; they also yield an oil, and are frequently ground to a paste or powder. See ALMOND MEAL.

3. The fruit of any one of several other trees, in shape or flavor somewhat resembling the above; also, the plant producing it; — usually with a descriptive attributive, as Mexican *almond*, Java *almond*, etc. See MEXICAN, JAVA, etc.

OHG. *al* all, and *ôt* (AS. *éad*) possession, property It means, therefore, entirely one's property.] **1.** *AS. Law.* A form of estate or class of property existing among the Anglo-Saxons at the time of the Norman Conquest, and persisting apparently for some time afterward. The *alodium*, or *alod*, seems to have been the inheritable property, sometimes at least both real and personal, held by a family and descending in the family according to local custom. It seems to have corresponded more or less closely to the folkland, but in the Norman age came to be used as the Latin word to translate *bookland.* Cf. ALOD, ALODIAL.

2. *Law.* Land which is the absolute property of the owner; real estate held in absolute independence, without being subject to any rent, service, or acknowledgment to a superior; — opposed to *feud. Alodium* in this unhistorical sense has been commonly used among law writers on the supposition that land was held by such a tenure among the Anglo-Saxons. Now, *alodium* and, more often, *alodial* are applied to the land tenure in subordination to the paramount title of the state which now commonly prevails in England and the United States, which, though not entirely free and absolute, is free from all the burdensome incidents characteristic of feudal tenure.

al'oe (ăl'ō), *n.*; *pl.* ALOES (-ōz). [L. *aloë*, Gr. *ἀλόη*, aloe: cf. OF. *aloë*, F. *aloès.*] **1.** *pl.* Agalloch wood. *Obs.*

Table showing descent of English Alphabet 1 Present English. 2. Early Latin. 3 Western Greek. 4. Phœnician. 5 Egyptian hieratic. 6. Egyptian hieroglyphic. 7. Probable phonetic value of the hieroglyphics: "a" standing for a weak breathing; the 1st 'k," for a sort of k or g; the "4," for a guttural aspirate; and the last "t," for a sort of t or z

The letters in the English alphabet are derived from the corresponding forms in the Latin alphabet, the early forms of which in turn came from the Western Greek alphabet, and the Greek letters from the Phœnician. The origin of the Phœnician letters is not certainly known, though it is not improbable that they were suggested by signs used in Egypt. Although, as appears from the table, some of the Egyptian hieroglyphics had come to be used as letters, yet Egyptian writing was not strictly alphabetic (see HIEROGLYPHIC). The use of an alphabet on a strictly phonetic basis is due to the Semitic race, and probably to the Phœnicians; and the Egyptian hieroglyphics and hieratic signs, given above, have been supposed by some to be the originals of the Phœnician letters in the same horizontal lines. But these identifications are at the best uncertain, and the Egyptian signs are here given merely as illustrations of an original system of picture writing, with more or less modified forms. The Western Greek and Phœnician alphabets are not here given entire, those letters being omitted which were not adopted in writing Latin. The ordinary Greek alphabet, afterward generally adopted, is an Eastern Greek alphabet, differing slightly in its forms from those of the Western Greek one. The parent of the Latin alphabet was a form of the Western Greek alphabet which was brought by Greek colonists in early times into Italy. One of the differences between the Eastern and the Western alphabets of Greek was in the sign for *x;* the latter using X for it, the former having Ξ for *x*, and the sign X for *kh* (*ch*). In the Phœnician, as in other Semitic alphabets, the letters all represented consonants, vowels not being written. Thus, the first letter of the alphabet represented a weak breathing (see ALEPH); the Phœnician form of E represented the sound *h*, that of I meant the consonant *y*, and O meant a peculiar guttural consonant. In Greek itself, H, at first equivalent to our *h*, and taken with that value into the Latin alphabet, afterward came to represent long *e*. The Phœnician value was that of a strong guttural aspirate. The earlier value of C was *g*, as in *go, get;* and in Latin, K being but little used, C for a time signified both *g* and *k*. Later, when separate signs for these two sounds were desired, the new letter G was formed from C, and C received the value of *k* only. J is a late modification of I, which latter sign in Latin served as both vowel (*i*) and consonant (our *y*). Similarly, V and U were differentiated, the Latin V serving as vowel (*u*) and consonant (our *w*). W, as its name indicates, is a doubling of (V = *u*). The letters Y and Z were not at first in the Latin alphabet, but were afterward added at the end for words borrowed from the Greek and containing those sounds. The Latin, using its letter V as both vowel and consonant, utilized the letter F to express the sound of our *f*, which was wanting in Greek and was common in Latin.

alternation of generations, *Biol.*, a method of reproduction in which the immediate descendants are unlike the parent, and organisms of a given type are produced only with every second generation, or after the lapse of several generations. Examples of such reproduction occur in members of many groups of invertebrates, notably in certain of the Protozoa, Cœlenterata, worms, and insects; and, in plants, among the Spermatophyta, Bryophyta, Pteridophyta, and certain of the Thallophyta. In the commonest modification of the process among invertebrates, a generation reproducing sexually is followed by a generation, or a series of generations, reproducing asexually by budding or simple fission. Cf. HETEROGENESIS, METAGENESIS. In plants the sexual generation (gametophyte) usually differs materially in structure from the so-called asexual generation (sporophyte), which is often, as in all seed plants and ferns, the only visible and conspicuous form of the plant.

‖ **alter ego.** [L., lit., other I.] A second self; specif., a confidential or bosom friend

al'ter-er, *n* One that alters.

‖ **al'ter i'dem** (ăl'tẽr ĭ'dĕm). [L.] A self-same other one; a second self; alter ego

al'ter-i-ty (ăl-tẽr'ĭ-tĭ), *n.* [F. *altérité.*] State or quality of being other; otherness. *Rare.*

altern. *v. t.* [Cf. F *alterner.*] To alternate *Obs*

al-ter'na-cy (ăl-tûr'nȧ-sĭ; ôl-), *n.* Alternateness; alternation. *R.*

al-ter'nal, *a.* [L. *alternus.*] Alternate. *Obs.* & *R.*—**al-ter'nal-ly,** *adv. Obs.* & *R.*

al'ter-nan'do (ăl'tẽr-năn'dō), *adv.* [L., by alternating.] *Math.* By alternation; that is, by interchanging the means (of a proportion of four terms).

al-ter'nate-leaved', *a. Bot.* Having leaves arranged alternately. [*Sp.*]

al-ter'na-tiv Alternative. *Ref.*

alternative standard. *Money.* = ALTERNATING STANDARD. — a. writ *or* order, *Law*, a writ or order in the nature of an order to show cause commanding the person to whom it is addressed to perform some duty, or show cause why a peremptory or final writ or order should not issue. It determines nothing in favor of or against the respondent, and therefore affects no substantial right.

al-ter'na-tive (ăl-tûr'nă-tĭv ; ôl-), *n.* [Cf. F. *alternative*, LL. *alternativa*.] **1.** An offer or statement of two things, one of which may be chosen, but not both, a proposition to choose between two things, so that if one is taken the other must be left.

There is something else than the mere *alternative* of absolute destruction or unreformed existence. *Burke.*

2. Either of two things, courses, or propositions offered to one's choice, choice of either one excluding choice of the other ; — called *the alternatives* in any given case. Also, an expressed case whose counter case or proposition is implied, or is implicitly recognized as unreal or hypothetical.

Having to choose between two *alternatives*, safety and war, you obstinately prefer the worse *Jowett (Thucyd.).*

3. A choice or offer of choice between more than two things or courses ; hence, one of the several things so offered.

My decided preference is for the fourth and last of these *alternatives.* *Gladstone*

4. Alternation. *Obs.*

Syn. — ALTERNATIVE, CHOICE, OPTION, ELECTION, PREFERENCE come into comparison in the sense of opportunity to choose. An ALTERNATIVE offers two things, of which one must be chosen ; as, the *alternative* of peace with disgrace or war with honor. A CHOICE offers the opportunity, without compulsion, of choosing between two or more things ; as, the *choice* of rooms in an inn. OPTION stresses still further the liberty of choice ; as, to go or stay at one's *option*. ELECTION emphasizes the selective element in making a choice ; PREFERENCE, the desire or predilection that accompanies the act of choosing ; as, an *election* among several courses of study, to take one's *preference*.

al'ter-na'tor (ăl'tẽr-nā'tẽr ; ôl'-), *n.* *Elec.* An electric generator or dynamo for producing alternating currents.

al-ter'ni- (ăl-tûr'nĭ- ; ôl-). Combining form for *alternate*, as in : al-ter'ni-fo'li-ate (-fō'lĭ-āt), *Bot.*, alternate-leaved ; al-ter'ni-pet'al-ous (-pĕt'ăl-ŭs), *Bot.*, having stamens alternating with the petals, al-ter'ni-pin'nate (-pĭn'āt), *Bot.*, in a pinnate leaf, having the leaflets alternate ; al-ter'ni-sep'al-ous (-sĕp'ăl-ŭs), *Bot.*, having stamens alternating with the sepals

Al-thæ'a (ăl-thē'a), *n.* [L., fr. Gr. Ἀλθαία.] **1.** *Gr. Myth.* Wife of Œneus, mother of Meleager. See MELEAGER.

2. The lady (supposed to be Lucy Sacheverell, also celebrated under the name of Lucasta) addressed in the poem "To Althæa from Prison," by Richard Lovelace (1618–58).

Al-thæ'a, *n.* [L., fr. Gr. ἀλθαία, marsh mallow.] **1.** *Bot.* A genus of Old World malvaceous herbs distinguished by their perfect flowers, the involucels composed of many bracts *A. rosea*, the hollyhock, and *A. officinalis*, the marsh mallow, are well-known species.

2. [*l. c.*] *Hort.* An ornamental malvaceous shrub (*Hibiscus syriacus*) ; — in this sense written also **al-the'a**.

alt'horn' (ălt'hôrn'), *n.* [*alt* + *horn.*] *Music.* An instrument of the saxhorn family, with the compass of about A–e‴ (see PITCH). It is used exclusively in military music, often replacing the French horn.

al-though', **al-tho'** (ôl-thō'), *conj.* [*all* + *though* ; ME. *al thagh.*] Grant all this ; be it that ; supposing that ; notwithstanding ; though.

Although all shall be offended, yet will not I. *Mark* xiv. 29.

Syn. — ALTHOUGH, THOUGH. *Although*, originally more emphatic than *though*, is now interchangeable with it in the above sense. Euphonic considerations determine the choice.

al'ti-lik' (ăl'tē-lēk'), *n.* A Turkish silver coin that was formerly issued at 6 piasters and is still in circulation at various values.

al-tim'e-ter (ăl-tĭm'ē-tẽr), *n.* [LL. *altimeter* ; *altus* high + *metrum*, Gr. μέτρον measure.] An instrument for taking altitudes, as a quadrant, sextant, etc.

al-tim'e-try (-trĭ), *n.* The art of measuring altitudes, or heights. *Gower.* — **al'ti-met'ri-cal** (ăl'tĭ-mĕt'rĭ-kăl), *a.*

Al'tis (ăl'tĭs), *n.* [Gr. Ἄλτις.] *Gr. Antiq.* The sacred inclosure or grove in which the Olympic games were held.

al'ti-scope (ăl'tĭ-skōp), *n.* [L *altus* high + *-scope.*] An extensible telescopic tube with elbows having reflectors so arranged that when one end is raised or extended an image is reflected by one reflector to another reflector, and thence to the eye of an observer, thus enabling him to see over or around obstacles. Cf. PERISCOPE.

al-tis'o-nant (ăl-tĭs'ō-nănt), *a.* [L. *altus* high + *sonant.*] High-sounding ; lofty or pompous. *Skelton.*

al'ti-tude (ăl'tĭ-tūd), *n.* [L. *altitudo*, fr. *altus* high. Cf. ALTAR, HAUGHTY, ENHANCE, OLD.] **1.** Extent upward ; vertical, or perpendicular, elevation of an object above a given level, as its foundation, the ground, another object, etc. Also used fig., as of degree, rank, etc.

He is [proud] even to the *altitude* of his virtue. *Shak.*

2. *Astron.* The elevation of a point, or star, or other celestial object, above the horizon, measured by the arc of a vertical circle intercepted between such point and the horizon. It is either *apparent* (the observed altitude) or *true* (the apparent altitude corrected for dip, refraction, etc.).

3. *Geom.* The perpendicular distance from the base of a figure to the summit, or to the side or face parallel to the base ; as, the *altitude* of a triangle, pyramid, parallelogram, etc.

4. *pl.* Elevation of spirits ; heroics, haughty airs. *Colloq.*

The man of law began to get into his *altitudes.* *Scott.*

Syn. — See HEIGHT.

altitude and azimuth instrument, an altazimuth.

al'ti-tu'di-nal (ăl'tĭ-tū'dĭ-năl), *a.* Of or pert. to altitude.

al'ti-tu'di-na'ri-an (-tū'dĭ-nā'rĭ-ăn), *a.* Lofty in doctrine, aims, etc. — **al'ti-tu'di-na'ri-an**, *n.*

al'to (ăl'tō), *n.* ; *pl.* ALTOS (-tōz). [It. *alto* high, fr. L. *altus*. See ALTITUDE ; cf. ALT.] *Music.* **a** Formerly, the part sung by the highest male, or counter-tenor, voices ; now, the part sung by the lowest female, or contralto, voices, between the tenor and soprano. **b** An alto voice or singer. **c** Alt (in the scale). **d** A tenor violin or viola (which see).

alto clef. *Music.* The C clef, placed so that the two strokes include the middle line of the staff ; the counter-tenor clef.

al'to-cu'mu-lus (ăl'tō-kū'mū-lŭs), *n.* [L. *altus* high + L. & E. *cumulus.*] *Meteor.* A fleecy cloud formation consisting of large whitish or grayish globular cloudlets with shaded portions, often grouped in flocks or rows.

al'to-geth'er (ôl'tōō-gĕth'ẽr), *adv.* [ME. *altogedere ; al* all + *togedere.* See TOGETHER.] **1.** All together. *Obs.*

Altogether they went at once *Chaucer*

2. Without exception, wholly ; completely.

Every man at his best state is *altogether* vanity. *Ps.* xxxix. 5.

al'to-geth'er, *n.* A whole ; tout ensemble.

al'to-re-lie'vo (ăl'tō-rē-lē'vō) } *n ; pl.* E -vos (-vōz) ; || **al'to-ri-lie'vo** (ăl'tō-rē-lyā'vō) } It. -vi (-vē). [It. *alto-rilievo.*] *Sculp.* High relief ; also, sculpture in high relief, as that in which the limbs and head, in part, are entirely detached from the background. See RELIEF, *n.*

al'to-stra'tus (ăl'tō-strā'tŭs), *n.* [L. *altus* high + L. & E. *stratus.*] *Meteor.* A cloud formation similar to cirro-stratus, but heavier and at a lower level.

al-tri'ces (ăl-trī'sēz), *n. pl.* [L., nourishers, pl. of *altrix.*] *Zool.* Nourishers, — a term applied to those birds whose young are hatched in a very immature and helpless condition, so as to require the care of their parents for some time. Opposed to *præcoces.* — **al-tri'cial** (ăl-trĭsh'ăl), *a.*

al'tru-ism (ăl'trōō-ĭz'm), *n.* [F. *altruisme* (a word of Comte's), It. *altrui* of or to others, fr. L. *alter* another.] Regard for, and devotion to, the interests of others ; — opposed to *egoism* or *selfishness.*

He teaches that self-love and benevolence, or *altruism*, to use the phrase now in vogue, are native, constitutional principles. *G. P. Fisher.*

Altruism is an ethical term which is often used in economic discussions on socialism, laissez-faire, the functions of government, generally questions of distribution. *Altruism* is the opposite of individualism or egoism, and embraces those moral motives which induce a man to regard the interests of others *Dict of Pol. Econ.*

al'tru-ist, *n.* One who believes in or practices altruism.

al'tru-is'tic (-ĭs'tĭk), *a.* [Cf. F. *altruiste*, a.] Regardful of others ; beneficent ; unselfish ; — opposed to *egoistic* or *selfish.* — **al'tru-is'ti-cal-ly**, *adv.*

al'u-del (ăl'ū-dĕl), *n.* [F., fr. Ar. *al-uthāl* : cf. Sp. *aludel.*] *Chem.* One of the pear-shaped or bottle-shaped pots, open at both ends so that the neck can be fitted into the bottom of another like pot in succession, used to form a condenser in sublimation processes.

al'u-la (ăl'ū-lă), *n. ; L. pl.* -LÆ (-lē). [NL., dim. of L. *ala* a wing.] *Zoöl.* **a** The bastard wing of birds. See under BASTARD. **b** A small scalelike structure at the base of the wings of Diptera, above the halteres ; also, a similar organ found in certain water beetles. **c** A posterior lobe of the wing of certain Diptera. — **al'u-lar** (-lăr), *a.*

al'um (ăl'ŭm), *n.* [ME. *alum*, *alom*, OF. *alum*, F. *alun*, fr. L. *alumen* alum.] **1.** Sulphate of potassium and aluminium, $KAl(SO_4)_2{\cdot}12H_2O$, crystallizing ordinarily in beautiful colorless octahedrons ; — called specif. *potash alum*, or *potassium alum*. It has an astringent taste. Alum has various uses in the arts, and is employed in medicine especially as a styptic and astringent. See ALUMINIUM SULPHATE

2. *Chem.* Any of a series of double sulphates isomorphous with common alum, in which the potassium may be replaced by sodium, ammonium, etc., and the aluminium by iron, chromium, or some other trivalent metal. Ammonium aluminium sulphate, or *ammonia alum*, very closely resembles potassium alum, and is often sold as *alum.*

al'um, *v. t.* To steep in, impregnate, adulterate, or treat with, a solution of alum or some other aluminium compound.

alum cake. A product of the action of sulphuric acid on clay, consisting chiefly of silica and aluminium sulphate.

alum flower. Powdered burnt alum.

alum glass. Crystallized alum.

a-lu'mi-na (ă-lū'mĭ-nă), *n.* [L. *alumen*, *aluminis.* See ALUM.] *Chem.* The oxide of aluminium, Al_2O_3. *Alumina* is the most widely distributed earth, and all that is said of the occurrence of the metal aluminium in nature (except as to cryolite) might be equally applied to the oxide. (See ALUMINIUM.) Prepared artificially, it is a white, tasteless, amorphous powder. Corundum, including the sapphire and ruby, is native crystallized alumina.

a-lu'mi-nate (-mĭ-nāt), *n.* *Chem.* A salt of aluminium hydroxide, formed when the latter acts as a weak acid.

a-lu'mi-nate (-nāt), *v. t.* [L. *aluminatus* tinctured with alum, fr. *alumen*, *-minis*, alum.] To treat or combine with alum or alumina.

al'u-min'ic (ăl'ū-mĭn'ĭk), *a.* Of or containing aluminium ; as, *aluminic* phosphate.

a-lu'mi-nif'er-ous (ă-lū'mĭ-nĭf'ẽr-ŭs), *a.* [L. *alumen* alum + *-ferous.*] Containing alum or aluminium.

al'u-min'i-form (ăl'ū-mĭn'ĭ-fôrm ; *a-lū'mĭ-nĭ'-*), *a.* [L. *alumen* + *-form.*] Having the form of an alum.

a-lu'mi-nite (ă-lū'mĭ-nīt), *n.* [*aluminium* + *-ite.*] *Min.* A hydrous sulphate of aluminium, usually occurring in white compact reniform masses.

al'u-min'i-um (ăl'ū-mĭn'ĭ-ŭm), *or* **a-lu'mi-num** (ă-lū'mĭ-nŭm), *n.* [NL. See ALUMINA.] A bluish silver-white metal, very malleable, ductile, and sonorous, and noted for its lightness (sp. gr., about 2 6) and resistance to oxidation. Symbol, *Al* ; at. wt., 27.1. It is the most abundant metallic element, constituting, as is computed, 7.3 per cent of the earth's crust, but always occurring in combination. Its principal minerals are cryolite, corundum, bauxite, diaspore, gibbsite, alunogen, alummite, alunite, turquoise, wavellite, lazulite, and many silicates, as kaolin, feldspar, and mica. The metal was first separated by Wohler in 1828. It is chiefly manufactured from *aluminium ore* (a pure form of bauxite) by converting it into alumina and electrolyzing this in a fused bath of sodium aluminium fluoride. Aluminium melts at 657° C. (1215° F.). Weight per cu. ft., 159–169.5 lbs. It is used as a material for electric conductors, cooking utensils, and various small articles, and in the construction of boats, etc., where lightness combined with strength is a requisite. It is also employed in the process of aluminography, in reducing and welding metals (see THERMITE), and in the preparation of alloys. Chemically, it is trivalent, forming the compounds Al_2O_3, $Al_2(SO_4)_3$, etc.

☞ The word was first proposed by Davy in the form *alumium*, and changed by him to *aluminum*, but was finally made *aluminium* to conform to the analogy of *sodium*, *potassium*, etc. The form *aluminum* is in common use in mining, manufacturing, and the trade in the United States ; the form *aluminium* is used with practical uniformity in Great Britain and generally by chemists in the United States

aluminium, *or* **aluminum, bronze.** Sometimes **aluminium**, *or* **aluminum, gold.** A pale gold-colored alloy composed of copper and aluminium. It usually contains five to ten per cent of aluminium, the latter being the standard proportion. It is used for guns, journal bearings, bells, etc., and also for ornamental articles. It is made commercially by means of the electric arc.

[10 per cent] *aluminium bronze* . . is hard and stiff and very homogeneous Its specific gravity is 7.7 It is so ductile and malleable that it can be drawn down under the hammer to the fineness of a cambric needle. It works well, casts well, holds a fine surface under the tool, and when exposed to the weather ; and it is, in every respect, considered the best bronze yet known. Its high cost alone prevents its extensive use in the arts *R. H Thurston*

aluminium chloride. *Chem.* A compound, $AlCl_3$, obtained as a white deliquescent crystalline mass by heating a mixture of alumina and carbon in chlorine, and used as a catalytic agent in organic chemistry. It dissolves in water with evolution of heat.

aluminium hydroxide. *Chem.* A compound, $Al(OH)_3$, obtained, as a gelatinous white precipitate, by treating solutions of aluminium salts with alkalies. It occurs native as gibbsite and (in dehydrated form) as bauxite and diaspore.

aluminium sulphate. *Chem.* A salt, $Al_2(SO_4)_3$, forming colorless monoclinic crystals which contain 18 molecules of water ; — called also *concentrated alum.* It occurs native as alunogen and is prepared artificially, by treating the hydroxide with sulphuric acid. It is used in dyeing as a mordant, in purifying water, in tawing skins, etc., having largely replaced alum for these purposes.

a-lu'mi-no-fer'ric (ă-lū'mĭ-nō-fĕr'ĭk), *a.* [*aluminium* + *ferric.*] Containing aluminium and iron ; as, *aluminoferric* cake, made by decomposing bauxite with sulphuric acid, and used for precipitating sewage, waste liquors, etc.

a-lu'mi-nog'ra-phy (-nŏg'rā-fĭ), *n.* [*aluminium* + *-graphy.*] The art or process of producing, and printing from, aluminium plates, after the manner of ordinary lithography. — **a-lu'mi-no-graph'ic** (-nō-grăf'ĭk), *a.*

a-lu'mi-no-ther'my (ă-lū'mĭ-nō-thûr'mĭ), *n.* [*aluminium* + Gr. θέρμη heat.] The production of heat by the chemical combination of the metal aluminium. See THERMITE. — **a-lu'mi-no-ther'mic** (-thûr'mĭk), *a.* — **a-lu'mi-no-ther'mics** (-mĭks), *n.*

a-lu'mi-nous (ă-lū'mĭ-nŭs), *a.* [L. *aluminosus*, fr. *alumen* alum : cf. F. *alumineux.*] Pertaining to or containing alum or aluminium ; as, *aluminous* minerals.

aluminous cake, alum cake.

a-lu'mi-num (ă-lū'mĭ-nŭm), *n.* [NL. See ALUMINA.] The metal more generally called *aluminium* by chemists. See ALUMINIUM.

a-lum'na (ă-lŭm'nă), *n. fem. ; pl.* ALUMNÆ (-nē). [L. See ALUMNUS.] **1.** *Class. Antiq* A foster daughter ; a female ward or pupil.

2. Hence, a pupil ; esp., a graduate of a school, college, etc.

a-lum'nus (-nŭs), *n. masc. ; pl.* -NI (-nī). [L., fr. *alere* to nourish.] **1.** *Class. Antiq.* A foster son ; male ward or pupil.

2. Hence, a pupil ; esp., a graduate of a college, or other institution of learning.

al'um-root', *n.* *Bot.* **a** A North American saxifragaceous herb (*Heuchera americana*), whose root has astringent properties ; also, any of several other species of *Heuchera*,

am-bi'tion (ăm-bĭsh'ŭn), *n.* [F. *ambition*, L. *ambitio* a going around, esp. of candidates for office in Rome, to solicit votes (hence, desire for office or honor), fr. *ambire* to go about. See AMBIENT, ISSUE.] **1.** A going about to solicit or obtain an office, or other object of desire; canvassing. *Obs.*

[I] used no *ambition* to commend my deeds. *Milton*

2. An eager, or an inordinate, desire for preferment, honor, superiority, power, or the attainment of some thing.

Cromwell, I charge thee, fling away *ambition*.
By that sin fell the angels *Shak.*

The pitiful *ambition* of possessing five or six thousand more acres *Burke.*

3. An object of ambitious desire.

My crown, mine own *ambition*, and my queen *Shak.*

Syn. — AMBITION, ASPIRATION agree in the idea of strong desire for advancement. AMBITION has personal advancement or preferment as its end; it may be praiseworthy; it is sometimes inordinate, as, *ambition* for fame, *ambition* to hold office, to acquire wealth, "Vaulting *ambition* which o'erleaps itself" (*Shak.*). ASPIRATION implies as its object something felt to be above one, the striving after which is uplifting or ennobling, as, *aspiration* after knowledge, excellence, holiness; "That spirit of his in *aspiration* lifts him from the earth" (*Shak.*). *Aspiration*, however, is sometimes used (esp. in the pl.) in a derogatory sense of ambition which is felt to be unwarranted or presumptuous, as, his *aspirations* must be nipped in the bud.

am-bi'tion (ăm-bĭsh'ŭn), *v. t.* [Cf. F. *ambitionner.*] **1.** To make ambitious. *Obs.*

2. To seek after ambitiously or eagerly; to covet. *Rare.*

‖ **a/mende'** (ȧ/mänd'; *E.* ȧ-mĕnd', *formerly the usual pron.*), *n.* [F. Cf. AMENDS.] A fine, penalty, or reparation; specif., the amende honorable or amende profitable.

amende honorable (ō/nō/rȧ'bl'), a form of reparation for a crime or injury consisting in such a formal and humiliating acknowledgment of offense and apology as will restore the injured or offended honor of the one wronged. This punishment was used in the early church, and for various legal offenders under the French, Roman Dutch, and other legal systems. In the more infamous form of the punishment the offender was compelled to make his apology in the church or court, with bare feet and head, dressed in a white chemise, and with a torch in his hand. It was abolished in France in 1791, restored in 1825, abolished again in 1830; but survived under the name *reparation* until abolished in 1894. In South Africa it has been replaced by pecuniary damages. The **amende profitable** (prŏ'fē'tȧ'bl') of the Roman Dutch law was amends made by the payment of a sum named under oath by the plaintiff as less than satisfaction for his defamation. It was usually awarded to the poor by the court. Damages are now recoverable instead.

a-mend'ment (ȧ-mĕnd'mĕnt), *n.* [F. *amendement*, LL. *amendamentum*.] **1.** An alteration or change for the better; correction of a fault or of faults; reformation of life by quitting vices.

a-merce' (ā-mûrs'), *v. t.*; A-MERCED' (ā-mûrst'); A-MERC'ING (-mûr'sĭng). [ME. *amercy*, AF. *amercier*, fr. *a merci* at the mercy of, liable to a punishment. See MERCY.] **1.** To punish by a pecuniary penalty the amount of which is not fixed by law but is left to the discretion of the court, as, the court *amerced* the criminal in the sum of one hundred dollars. The penalty or fine may be expressed without a preposition, or it may be introduced by *in*, *with*, or *of*.

2. To punish, in general, to mulct.

> Millions of spirits for his fault *amerced*
> Of Heaven. *Milton.*
> Shall by him be *amerced* with penance due *Spenser.*

a-merce'ment (-mĕnt), *n.* [AF. *amerciement.*] The infliction of a penalty at the discretion of the court; also, a mulct or penalty thus imposed. It differs from a *fine*, in that the latter is, or was orig., a fixed and certain sum prescribed by statute for an offense, but an amercement is discretional. Hence, act or practice of affeering. Cf. AFFEER.

A-mer'i-ca (ā-mĕr'ĭ-kā), *n.* A schooner yacht, built (1851) by George Steers of New York for Commodore J. C. Stevens of the New York Yacht Club. In 1851 it won the **America cup**, valued at £500, in a race open to all nations over a course around the Isle of Wight. In 1857 the cup was given to the New York Yacht Club, and made a prize perpetually open to challengers of all nations.

A-mer'i-can (ā-mĕr'ĭ-kăn), *a.* [After *Americus* Vespucius.] **1.** Of or pertaining to America; as, the *American* continent; *American* Indians.

2. Of or pertaining to the United States. "A young officer of the *American* navy." *Lyell.*

3. *Ethnol.* Designating that division of mankind which comprises the Indians of North and South America. A distinct American race was first expressly recognized by Linnæus; many ethnologists regard this race as merely an offshoot of the Mongolian.

It must be borne in mind that there exists but a single character common to these *American* races, that is, the color of the skin, the ground of which is yellow. This appears to conflict with the current opinion that the Americans are a red race, and yet it is the statement of a fact. None of the tribes of the New World have a red-colored skin, unless they are painted, which often is the case. *J. Denker*

☞ Many animals and plants have the adjective *American* prefixed merely to distinguish them from allied forms of other countries, esp. Europe; as in *American* avocet, *American* badger, *American* bittern, *American* linden, *American* elder, etc. These are generally treated under the nouns, as *avocet*, *badger*, etc.

A'mi-da (ä'mē-dä), *n.* [Jap.] *Japanese Buddhism.* Amitabha. He is the sole Buddha of the Jodo Shinshu sect, one of the most progressive in Japan.

am'ide (ăm'ĭd, -īd, 184), *n.* Also **am'id.** [*ammonia* + *-ide.*] *Chem.* **a** A compound resulting from replacement of an atom of hydrogen in ammonia by an element; as, sodium *amide*, $NaNH_2$. **b** A compound resulting from replacement of one or more atoms of hydrogen in ammonia by univalent acid radicals; as, *acetamide*, $CH_3CO·NH_2$. It is called a *primary*, *secondary*, or *tertiary amide* according as one, two, or three hydrogen atoms are replaced.

a-mid'ic (*a*-mĭd'ĭk), *a.* Of or pert. to an amide.

amide powder. An explosive of the gunpowder type, composed of ammonium nitrate and, usually, potassium nitrate mixed with charcoal.

am'i-din (ăm'ĭ-dĭn), *n.* [Cf. F. *amidine*, fr. *amidon* starch, fr. L. *amylum*. See 2d AMYL.] *Chem.* Starch modified by heat so as to become a transparent mass, like horn. It is soluble in cold water.

am'i-dine (ăm'ĭ-dĭn; -dēn; 184), *n.* Also **-din.** [*amide* + *-ine.*] *Org. Chem.* A compound of the general formula $R·C(NH)NH_2$, that is, one in which the same carbon atom is in union with amidogen and an imido group. The *amidines* are strong monacid bases.

am'i-do (ăm'ĭ-dō, -dŏ, -mē'dō; *the latter pron. is contrary to English analogy, but is used by many chemists*), **am'i-do-**, *a. & pref.* [From AMIDE.] *Chem.* **a** Pertaining to or containing amidogen (NH_2) united to a radical of acid character; — distinguished from *amino*. **b** Less correctly, but very commonly, = AMINO.

amido-formic acid, *Chem.*, carbamic acid.

a-mid'o-gen (*a*-mĭd'ō-jĕn; *a*-mē'dŏ-), *n.* [*amido-* + *-gen.*] *Chem.* The radical NH_2, which is known only in combination, and may be regarded as ammonia from the molecule of which one hydrogen atom has been removed.

am'i-dol (ăm'ĭ-dōl, -dŏl), *n.* [*amide* + 1st *-ol.*] *Photog. & Chem.* A salt of a diamino phenol, $C_6H_3(OH)(NH_2)_2$, used as a developer.

am'i-dox'ime (ăm'ĭ-dŏk'sĭm; -sēm), *n.* *Chem.* The oxime of an amide, having the general formula $R·C(N·OH)NH_2$.

a-mid'ships (*a*-mĭd'shĭps), *adv.* *Naut.* In or towards the middle of a ship, esp. with regard to her length.

a-midst' (*a*-mĭdst'), **a-mid'** (*a*-mĭdˊ), *prep.* [ME. *amidde*, *amiddes*, *on midden*, AS. *on middan*, in the middle, fr. *midde* the middle. The *s* is an adverbial ending, originally marking the genitive; the *t* is a later addition, as in *whilst*, *amongst*, *against*. See MID.] In or into the midst or middle of; surrounded or encompassed by, among.

Syn. — See AMONG.

‖ **a-mi'go** (ä-mē'gō), *n.*; *pl.* AMIGOS (-gōs). [Sp., L. *amicus*.] A friend, — a Spanish term specif. applied in the Philippine Islands to friendly natives. Cf. FRIENDLY.

a-mim'i-a (*ā*-mĭm'ĭ-*a*), *n.* [NL. See A- not, MIME.] *Med.* Loss or impairment of the power of communicating thought by signs, due to cerebral disease.

am'ine (ăm'ĭn; *a*-mēn'; 184), *n.* Also **-in.** [*ammonia* + *-ine.*] *Chem.* One of a class of strongly basic substances derived from ammonia by replacement of hydrogen by one or more univalent hydrocarbon radicals. *Amines* are classed as *primary*, *secondary*, and *tertiary* according as one, two, or three atoms of ammoniacal hydrogen have been replaced.

Am'i-ne (ăm'ĭ-nē; *ā*-mēn'), *n.* In the "Arabian Nights:" **a** A sorceress who ate at table only a few grains of rice which she took up with a silver bodkin, and who was found by her husband, Sidi Nouman, feasting with a female ghoul. **b** Also **Am'i-na** (ăm'ĭ-nə). Zobeide's half sister, who, ignorant of his rank, marries Amin, the caliph's son. She was long estranged from her husband for giving him a wrong explanation of a bite on her cheek.

am'i-no (ăm'ĭ-nō; *ā*-mē'nō; see AMIDO), **am'i-no-**, *a. & pref.* [From *amine*.] *Org. Chem.* Pertaining to or containing the group NH_2 united to a radical other than an acid radical; — distinguished from *amido*.

amino acid, an acid in which a portion of the nonacid hydrogen has been replaced by the amino group. The amino acids are both basic and acid. Many of them are important cleavage products of proteids.

am'i-no-az'o- (-ăz'ō-). *Org. Chem.* A combining form (also used adjectively) denoting the presence both of the amino group and of the azo group; — also *amidoazo-*.

am'i-no-az'o-ben'zene (-bĕn'zēn, -bĕn-zēn'), *n.* *Org. Chem.* An amino derivative of azobenzene, $C_6H_5N:NC_6H_4NH_2$; specif., the para variety, a yellow crystalline compound usually obtained indirectly from aniline. Its hydrochloride (*aniline yellow*) forms steel-blue crystals which dissolve into a yellow solution. As a dye aniline yellow is too fugitive, but it is used extensively in manufacturing other dyes, as the indulines.

am'i-nol (ăm'ĭ-nōl; -nŏl), *n.* [*amine* + 3d *-ol.*] *Pharm.* A colorless liquid prepared from herring brine and containing amines, used as a local antiseptic.

A-min'tor (*ā*-mĭn'tŏr), *n.* In Beaumont and Fletcher's "The Maid's Tragedy," a character who sacrifices his loyalty to his betrothed, Aspatia, for a fantastic loyalty to his king, at whose command he marries Evadne.

Am'ish (ăm'ĭsh), *a.* Of or pert. to, or named from, Jacob *Ammann*, or *Amen*, a strict Mennonite of the 17th century; pertaining to or designating his followers. — *n. pl. Eccl. Hist.* The Amish Mennonites.

Amish Mennonite Church. See MENNONITE, *n.*

a-miss' (*ā*-mĭs'), *adv.* [*a-* + *miss.*] Astray; faultily, improperly; wrongly; ill.

What error drives our eyes and ears *amiss*? *Shak.*

Ye ask and receive not, because ye ask *amiss* *Jas.* IV. 3

a-miss', *a.* Wrong; faulty, out of order, improper; as, it is not *amiss* to ask advice. *Used only in the predicate.*

a-mis'si-ble (*ā*-mĭs'ĭ-b'l), *a.* [L. *amissibilis*: cf. F. *amissible*.] Liable to be lost. *Rare.* — **a-mis'si-bil'i-ty** (*ā*-mĭs'ĭ-bĭl'ĭ-tĭ), *n.* *Rare.*

A'mi-stad' case (ä'mē-stäth'; 146). A case in which the United States court decided that certain negroes who had been kidnaped as slaves and had seized the Spanish schooner L'Amistad, in which they were then (1839) being transported, were free men because international law prohibited the slave trade, and the seizure was therefore not piracy. The schooner had been captured off Long Island by the United States brig Washington.

Am'i-ta'bha (ăm'ĭ-tä'bä; 134), *n.* [Skr. *Amitābha*.] A Buddha of the Great Vehicle who vowed to create a pure land, to be glorified as the Buddha of Boundless Light, and to save all having faith in his vows.

am'i-to'sis (ăm'ĭ-tō'sĭs), *n.* [NL; *a-* not + *mitosis*.] *Biol.* Cell division in which there is first a simple cleavage of the nucleus without change in its structure (such as the formation of chromosomes), followed by the division of the cytoplasm, direct cell division; — opposed to *mitosis*. It is not the usual mode of division, and is believed by many to occur chiefly in highly specialized cells which are incapable of long-continued multiplication, in transitory structures, and in those in early stages of degeneration.

am'i-tot'ic (ăm'ĭ-tŏt'ĭk), *a.* *Biol.* Pert to, of the nature of, or exhibiting, amitosis. — **am'i-tot'i-cal-ly** (-ĭ-kăl-ĭ), *adv.*

am'i-ty (ăm'ĭ-tĭ), *n.*; *pl.* AMITIES (-tĭz). [F. *amitié*, OF. *amistié*, *amisté*, fr. an assumed LL. *amicitas*, fr. L. *amicus* friendly. See AMIABLE.] Friendship, in a general sense, between individuals, societies, or nations; friendly relations; good understanding; as, a treaty of *amity* and commerce; the *amity* of the Whigs and Tories.

To live on terms of *amity* with vice *Cowper*

The doctor had returned to his old tasks and *amities* *Stevenson.*

His lofty brows in folds do figure death,
And in their smoothness *amity* and life *Marlowe*

Syn. — Harmony, friendliness, good will, peace.

am'me-ter (-mē-tĕr), *n.* [*ampere* + *-meter.*] *Elec.* An instrument for measuring the amperage of a current.

Am'mi (ăm'ĭ), *n.* [L., a plant of this genus, Gr. *ἄμμι.*] *Bot.* A small genus of apiaceous plants of the Mediterranean region and North Atlantic islands. *A. visnaga* is the bishop's-weed.

Am-mo'bi-um (ă-mō'bĭ-ŭm), *n.* [NL.; Gr. *ἄμμος* sand + *βίος* life.] *Bot.* A genus of Australian asteraceous plants having heads with yellow florets, a silvery scarious involucre, and a pappus of 2 teeth and 2 bristles. Several species are cultivated as garden everlastings or immortelles. Also [*l. c.*], a plant of this genus.

Am'mon (ăm'ŏn), *n.* [L, fr. Gr. Ἄμμων, fr. Egypt. *ámen*. See AMON.] **1.** *Egypt. Myth.* = AMON.

2. [*l. c.*] [Prob. fr. the representations of Jupiter *Ammon* with horns.] The argal, a wild sheep of Asia.

Am'mon, *n. sing. & pl.* [Heb. *'Ammōn.*] *Bib.* A people (usually called the *children of Ammon*) east of the Jordan, between the Jabbok and the Arnon, belonging to the Aramæan branch of the Semites.

am'mo-nal' (ăm'ō-năl'), *n.* [*ammonium* + *aluminium.*] An explosive consisting of a mixture of powdered aluminium and nitrate of ammonium.

am-mo'ni-a (ă-mō'nĭ-*ā*), *n.* [From sal *ammoniac*, which was first obtained near the temple of Jupiter *Ammon*. See AMMONIAC.] **1.** *Chem.* A colorless gaseous compound of hydrogen and nitrogen, NH_3, with extremely pungent smell and taste. Sp. gr., as compared with air, 0 589. *Ammonia* can easily be liquefied by cold and pressure, and for this reason it is much used in making artificial ice by the absorption of heat which takes place when the liquid ammonia evaporates. Ammonia is soluble in water to the extent of 600 volumes of the gas to one of water. Its aqueous solutions are known as *ammonia water*; also, as *spirits of hartshorn*, because ammonia was formerly obtained by the destructive distillation of hartshorn. It is still made from nitrogenous organic matter, such as horn, hoofs, etc., but it is mainly produced as a by-product of the gas and coke industry. Ammonia is alkaline (whence its name *volatile alkali*) and readily combines with acids to form ammonium salts. See AMMONIUM. Ammonia, both free and combined, is much used in medicine and the arts.

2. Popularly, ammonia water.

am-mo'ni-ac (-ăk), *a.* [L. *ammoniacus.*] **1.** Of or pertaining to Ammon or his shrine; — only in the phrases *gum ammoniac* and *sal ammoniac* (which see).

2. Ammoniacal.

am-mo'ni-ac, *n.*, *or* **gum ammoniac.** [L. *ammoniacum*, Gr. *ἀμμωνιακόν* a resinous gum, said to distill from a tree near the temple of Jupiter *Ammon*; cf. F. *ammoniac*. See AMMONITE.] **a** The aromatic gum resin of the ammoniac plant. It occurs in commerce in the form of yellowish tears or lumps, and has a bitter-sweet, somewhat nauseous and acrid taste. It is used as an expectorant and stimulant, and in the formation of certain plasters. Called specif. *Persian ammoniac*. **b** A dark-colored gum resin derived from the related North African plant *Ferula tingitana*, and called specif. *African ammoniac*.

am'mo-ni'a-cal (ăm'ō-nī'*ā*-kăl), *a.* Of or pert. to ammonia; containing, or having the properties of, ammonia; as, an *ammoniacal* salt; *ammoniacal* gas.

ammoniacal engine, an engine in which the vapor of ammonia, expanding by heat, is used to supply the motive force. — **a. fermentation**, any fermentation process by which ammonia is formed, as that by which urea is converted into ammonium carbonate when urine is exposed to the air.

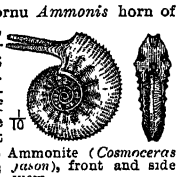
2. A nitrogenous animal product of rendering works, consisting largely of dried meat, used as a fertilizer.

Am'mon-ite (ăm'ŏn-īt), *n.* [From AMMON.] *Bib.* One of the people called Ammon.

am'mon-ite (ăm'ŏn-īt), *n.* [L. cornu *Ammonis* horn of Ammon; L. *Ammon*, Gr. Ἄμμων, an appellation of Jupiter, as represented with the horns of a ram; orig. the name of an Egyptian god. See AMON.] *Paleon.* Any of numerous fossil shells of cephalopods of the group Ammonoidea having the form of a flat spiral similar to that of the nautilus, especially abundant in the Mesozoic age. Some species were three feet or more in diameter. See AMMONOIDEA. — **am'mon-it'ic** (-ĭt'ĭk), *a.*



Ammonite (*Cosmoceras jason*), front and side view

Am'mo-ni'tes (ăm'ō-nī'tēz), *n.* [NL.] *Paleon.* The typical genus of Ammonoidea. In it were formerly placed the majority of forms with the shell coiled in a flat spiral, and having intricately folded sutures, but it is now restricted to a few species, mostly of the Lias.

am'mo-ni'ti-cone (ăm'ō-nī'tĭ-kōn), *n.* [See AMMONITE; CONE.] *Paleon.* Any shell of the order Ammonoidea coiled in a flat spiral like that of the genus *Ammonites*.

Am'mon-it'ish (ăm'ŏn-ĭt'ĭsh), *a.* Of or pertaining to the Ammonites. — *n.* The language of the Ammonites, supposed to have been closely related to Hebrew.

am-mo'ni-um (ă-mō'nĭ-ŭm), *n.* [See AMMONIA.] *Chem.* A strongly basic radical, NH_4, whose compounds resemble those of the alkali metals. *Ammonium* has not been isolated, but is believed to be in combination with mercury in the so-called ammonium amalgam. Its salts are formed when ammonia reacts with acids; thus, ammonia combines with hydrochloric acid to form *ammonium chloride*, NH_4Cl (sal ammoniac).

ammonium amalgam. *Chem.* A substance obtained as a bulky silvery mass when sodium amalgam is treated with a solution of ammonium chloride. It decomposes readily into hydrogen, ammonia, and mercury. See AMMONIUM.

ammonium base. *Chem.* A compound formed by the partial or entire replacement by hydrocarbon radicals of the hydrogen of the ammonium group in ammonium hydroxide. The *quaternary ammonium bases*, such as tetramethyl ammonium hydroxide, $N(CH_3)_4OH$, resemble the caustic alkalies in strength.

ammonium carbonate. *Com.* A variable mixture, forming white translucent masses, of ammonium bicarbonate, NH_4HCO_3, and ammonium carbamate, $NH_4NH_2CO_2$. It is used in medicine, and is the base of common smelling salts.

ammonium cyanate. *Chem.* A remarkable white crystalline substance, $NH_4{\cdot}CNO$, which passes, on standing, to the organic compound, urea, $CO(NH_2)_2$.

ammonium hydroxide. *Chem.* A compound, NH_4OH, formed when ammonia dissolves in water, and existing only in solution. Compared with the caustic alkalies it is a weak base. See AMMONIUM BASE.

ammonium molybdate. *Chem.* A crystalline salt, $(NH_4)_2MoO_4$ or NH_4HMoO_4, used in analytical chemistry as a precipitant of phosphoric acid, with which it forms a yellow precipitate of ammonium phosphomolybdate.

ammonium nitrate. *Chem.* A colorless crystalline salt, NH_4NO_3, formed by the union of ammonia and nitric acid, and in other ways. It is an ingredient of many explosives.

ammonium persulphate. *Chem.* A colorless crystalline salt, $(NH_4)_2S_2O_8$, used in general as an oxidizing agent and, in photography, for improving dense negatives.

ammonium sulphate. *Chem.* A colorless crystalline salt, $(NH_4)_2SO_4$, formed by the union of ammonia and sulphuric acid, and occurring in nature as mascagnite. It is made on a large scale from the ammoniacal liquor of gas works and is used as a fertilizer.

ammonium sulphide. *Chem.* An unstable compound, $(NH_4)_2S$, obtained in colorless crystals by direct union of ammonia and hydrogen sulphide gases. A solution believed to contain it is made by half saturating aqueous ammonia with hydrogen sulphide, and is used as a reagent.

am-mo'no- (ă-mō'nō-). *Chem.* Combining form of *ammonia;* — used specif. in the words **ammono-acid, ammono-base,** and **ammono-salt** to denote compounds bearing to ammonia relations analogous to those which acids, bases, and salts in the ordinary sense bear to water. Thus, sodium amide, $NaNH_2$, is the *ammono*-base corresponding to the *hydro*-base sodium hydroxide, NaOH

am-mo'no-bas'ic (-bās'ĭk), *a. Chem.* Basic with respect to ammonia. See AMMONO-.

Am'mo-noi'de-a (ăm'ō-noi'dē-ă), *n. pl.* [NL. See 3d AMMONITE, -OID.] *Paleon.* An order of extinct cephalopods having an external chambered shell, either straight or variously curved or coiled. They are distinguished from the Nautiloidea by the more or less intricately plicated margins of the septa between the chambers, and by the (generally) marginally placed siphuncle. The group lived from the Silurian till the end of the Cretaceous or beginning of the Tertiary era, reaching its greatest development in the Mesozoic, and in its increase in numbers and complexity and variety of forms, and subsequent decline, it is one of the best examples of the process of evolution. See AMMONITE. — **am'mo-noid** (ăm'ō-noid), *a. & n.* — **am'mo-noi'de-an** (-noi'dē-ăn), *a. & n.*

am'mo-noi'dy-sis (ăm'ō-nŏi'ĭ-sĭs), *n.* [NL.; *ammono-* + *-lysis.*] *Chem.* Decomposition in which ammonia plays a rôle analogous to that of water in hydrolysis. See HYDROLYSIS. — **am-mo'no-lyt'ic** (ă-mō'nō-lĭt'ĭk), *a.*

Am-moph'i-la (ă-mŏf'ĭ-la), *n.* [NL See AMMOPHILOUS.] *Bot.* A genus of coarse grasses growing on sandy shores and dunes of the North American and northern European coasts. The only species, *A. arenaria*, is the beach grass.

am-moph'i-lous (-lŭs), *a.* [Gr. ἄμμος sand + *-philous.*] *Bot. & Zoöl.* Sand-loving; living or growing in the sand, or in dry sandy places; as, *ammophilous* grasses.

am'mu-ni'tion (ăm'ŭ-nĭsh'ŭn), *n.* [F. *amunition*, formerly used for *munition*, prob. caused by taking *la munition* as *l'amunition*. See MUNITION.] **1.** Military stores, or provisions of all kinds for attack or defense. *Obs.*

2. Articles used in charging firearms and ordnance of all kinds, as powder, projectiles, rockets, etc.

Ammunition consists of projectiles, powder charges, primers, fuses, bursting charges. It is fixed *ammunition* when all of these are made up in the form of one cartridge. It is separate when the charge and primer are in a case separate from the projectile. It is ordinary B. L. R. *ammunition* when the primer, charge, and projectile are all separate. *Bluejacket's Manual, U. S. N.*

3. Any stock of missiles; — lit. or fig.

ammunition bread, shoes, (artificial) **legs,** etc. Such as are supplied by the government to soldiers. *Eng.*

am'mu-ni'tion (ăm'ŭ-nĭsh'ŭn), *v. t.;* AM'MU-NI'TIONED (-ŭnd); AM'MU-NI'TION-ING. To provide with ammunition.

am-ne'si-a (ăm-nē'zĭ-ă; -zĭ-ă), *n.* [NL., fr. Gr. ἀμνησία forgetfulness.] *Med.* Defect or loss of memory, esp. marked inability to remember particular words. — **am-ne'sic** (-sĭk; -zĭk), **am-nes'tic** (ăm-nĕs'tĭk), *a.*

am'nes-ty (ăm'nĕs-tĭ), *n.; pl.* -TIES. [L. *amnestia*, Gr. ἀμνηστία, a forgetting, fr. ἀμνήστος forgotten; ἀ- not + μνᾶσθαι to remember. cf. F. *amnistie*, earlier *amnestie*. See MEAN, *v.*] **1.** Forgetfulness; oblivion; an overlooking.

2. An act of the sovereign power granting oblivion, or a general pardon, for a past offense.

Some distinction has been made, or attempted to be made, between pardon and *amnesty*. It is sometimes said that the latter operates as an extinction of the offense of which it is the object, causing it to be forgotten, so far as the public interests are concerned, whilst the former only operates to remove the penalties of the offense. This distinction is not, however, recognized in our law. The Constitution does not use the word "*amnesty*", and, except that the term is generally employed where pardon is extended to whole classes or communities, instead of individuals, the distinction between them is one rather of philological interest than of legal importance. *95 U. S.* 152, 153

The Constitution confers upon the President [of France] the power to pardon any person sentenced by any criminal or police court in France. He is not, however, empowered by the Constitution to issue an *amnesty*, i. e., a relief against all the civil and political results of the conviction. *J. W. Burgess.*

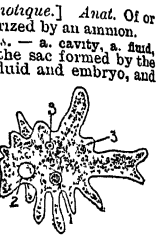
am'ni-on (ăm'nĭ-ŭn), *n.; pl.* E. -NIONS (-ŏnz), L. -NIA (-nĭ-ă). [Gr. ἀμνίον the membrane round the fetus, dim. of ἀμνός lamb.] **1.** *Anat. & Zoöl.* **a** A thin membrane forming a closed sac surrounding the embryos of reptiles, birds, and mammals. It contains a serous fluid, the **amniotic fluid,** in which the embryo is immersed, and is usually formed by folds (the **amniotic folds**) arising from the ectoderm and outer layer of the mesoderm of the extra-embryonic part of the blastoderm. The folds unite over the back of the embryo, completing the sac, and inclosing the embryo in its cavity, called the **amniotic cavity.** Only that layer of the folds next to the embryo forms the true amnion; the outer layer is called the **false amnion** and forms part of the chorion. In parturition the amnion is ruptured and the amniotic fluid escapes. **b** A similar membrane inclosing the embryos of many insects and other Arthropoda.

2. *Bot.* The fluid contained in the young embryo sac. *Obs.*

Am'ni-o'ta (ăm'nĭ-ō'tă), *n. pl.* [NL.] *Zoöl.* That group of vertebrates which develops an amnion in embryonic life. It comprises the reptiles, the birds, and the mammals. The well-developed allantois and the presence of twelve pairs of cranial nerves also distinguish them from other vertebrates. — **am'ni-ote** (ăm'nĭ-ōt), *a. & n.*

am'ni-ot'ic (-ŏt'ĭk), *a.* [Cf. F. *amniotique.*] *Anat.* Of or pertaining to the amnion, characterized by an amnion. amniotic acid, *Chem.*, allantoin. *Obs.* — **a.** cavity, **a.** fluid, **a.** folds. See AMNION, 1 **a.** — **a. sac,** the sac formed by the amnion, containing the amniotic fluid and embryo, and invested by the chorion.

a-mœ'ba (ă-mē'bă), *n.; pl.* E. -BAS (-baz), L. -BÆ (-bē). [NL, fr. Gr. ἀμοιβή change.] *Zoöl.* **1.** Any of several species of microscopic rhizopods of the genus *Amœba*, of which the best known is *A. proteus*, widely distributed in stagnant fresh water. An amœba is one of the simplest known animals, consisting of a nucleated mass of protoplasm densest on the outside but without a distinct cell wall. It changes its shape by protruding portions of its body (called *pseudopods*). These also serve as organs of locomotion, the semi-fluid protoplasm composing the body gradually streaming into them, thus slowly changing the position of the animal. It has no definite mouth, but feeds by enveloping minute organisms or fragments of food in its substance, retaining them until the nutriment they contain is dissolved and assimilated. Respiration and excretion are carried on chiefly by means of contractile vacuoles (see under CONTRACTILE); reproduction, usually at least, is by division of the animal into two distinct individuals.



Amœba (*A. proteus*). 1 Nucleus, 2 Contractile Vacuole; 3 Food Vacuoles

2. Any amœbalike cell or corpuscle of the blood or other part of an animal.

am'œ-bæ'an (ăm'ē-bē'ăn), *a.* Also **am'œ be'an** Of or pertaining to an amœbæum; hence, alternately answering, responsive.

The dactylic monody, "the latest development of the dactylic measure," in Sophocles is a [illegible] *amœbæan* passage of lyrics — to a change of taste at Athens. *J. S. Phillimore.*

am'œ-bæ'um (ăm'ē-bē'ŭm), *n.; L. pl.* -BÆA (-ă). [L. *amœbæus*, Gr. ἀμοιβαῖος, alternate; L. *amœbæum* carmen, Gr. ᾄσμα ἀμοιβαῖον, a responsive song, fr. ἀμοιβή change.] **1.** A poem composed of strophe and antistrophe, in which persons are represented as speaking alternately, as the third and seventh eclogues of Vergil.

2. *pl.* Verses composing such a poem.

a-mœ'bic (ă-mē'bĭk), *a.* Like or pertaining to an amœba; caused by amœbas or amœbalike organisms.

amœbic *or* **tropical dysentery,** dysentery caused by the presence of amœbas in the intestinal canal.

a-mœ'boid (-boid), *a.* [*amœba* + *-oid.*] *Biol.* Like an amœba, esp. in its movements or changes of shape; amœbic; as, the *amœboid* movements exhibited by the white corpuscles of the blood.

a-mœ'bu-la (-bŭ-la), *n.* [NL., dim. of *amœba.*] *Zoöl.* A small amœba. **b** The amœboid stage of many of the lower organisms, as of the Gregarinæ and the malaria parasites, in which the form is like a small amœba.

a-mok' (*a*-mŏk'), *n.* [See AMUCK.] A nervous malady or seizure peculiar to the Malays, characterized by a frenzied desire to kill every one encountered. See AMUCK.

The *amok* . . . a sort of furious and imitative madness perhaps provoked at the same time by suggestion. *J. Deniker*

a-mo'le (a-mō'lā), *n* [Mex Sp.] **1.** Any part of a plant possessing detergent properties, and used as a substitute for soap.

2. Any of a number of plants so utilized; as: **a** In California, the melanthaceous herb *Chlorogalum pomeridianum*. **b** In Mexico, any of various species of *Manfreda*, as *M. brachystachys*, and of *Agave*, as *A. heteracantha*, and *Prochnyanthes*, as *P. viridescens*, all three genera belonging to the Amaryllidaceæ. The rootstock is pounded to a pulp, and readily produces a lather when moistened.

a-mo'mum (*a*-mō'mŭm), *n.* [L., fr. Gr. ἄμωμον an Indian spice plant.] **1.** Any of various aromatic plants mentioned by the ancients, but not certainly identified. *Obs*

2. [*cap.*] *Bot.* A large genus of zingiberaceous plants of Asia, Africa, and Australia, several of which yield aromatic seeds, the cardamoms and grains of paradise of commerce.

A'mon (ā'mŏn), **A'men** (ā'mĕn), *n.* [Egypt. *ámen*, prop., the hidden.] *Egypt. Myth.* Originally the local deity of Thebes, and during Theban supremacy one of the chief deities of the Egyptian pantheon. Amon was probably at first a deity of reproductive forces; later under the form Amon-Ra (-rā) he was united with the sun god and was called "the father of the gods, the fashioner of men, the creator of cattle, the lord of all being," etc., eventually being conceived as a supreme deity, with the other gods as his members or parts. In his primitive function as god of life or reproduction he was represented as a ram-headed deity, and had a famous oracle in the Libyan oasis of Ammon. It was this form that the classic peoples identified with Jupiter in *Jupiter-Ammon* (represented with ram's horns). As *Amon-Ra* he is represented as a man wearing on his head a disk surmounted by two tall ostrich plumes. At Thebes he was the

[They] from his presence hid themselves *among*
The thickest trees *Milton.*

2. Conjoined, or associated with, or making part of the number of; in the number or class of.

Blessed art thou *among* women. *Luke* i. 28.

3. During; in the course of. *Obs.*

4. Expressing a relation of dispersion, distribution, etc.; also, a relation of reciprocal action. When *among* or *amongst* is used of the distribution of property among certain persons named it properly implies that no one of those mentioned shall be excluded, but that each and all shall share in the distribution, and equally, unless there be something in the context showing a contrary intention.

What news *among* the merchants? *Shak.*
Human sacrifices were practiced *among* them. *Hume.*
Divide that gold *amongst* you. *Marlowe.*
Whether they quarreled *among* themselves, or with their neighbors *Addison*

Syn. — AMONG, AMIDST. AMONG denotes a mingling or intermixture with distinct or separable objects; as, "A certain man . . . fell *among* thieves" (*Luke* x. 30); *among* the people. Hence it is regularly followed by a plural or a collective noun. AMIDST denotes literally in the *midst* or middle of, hence surrounded by; and that which surrounds may or may not consist of distinct or separable objects; as, "to the lonely inn '*mid* the rocks" (*M. Arnold*); "She stood in tears *amid* the alien corn" (*Keats*); "*amidst* his frolic play" (*Collins*). When both *among* and *amidst* are applicable to the same objects, *among* regards them in their individual, *amidst* in their collective aspect. Thus Milton describes the seraph Abdiel as "*among* the faithless, faithful only he," having in mind the other angels as individual rebels; but when he adds, "From *amidst* them forth he passed," he is thinking of the angels rather as a collective body. See BETWEEN.

am'o-ret (*ăm'ō-rĕt*), *n.* [OF. *amorette.* See AMOURETTE.] **1.** An amorous girl or woman, a wanton. *Obs. J. Warton.*

3. A petty love affair or amour. *Obs.*

Am'o-reux'i-a (*ăm'ō-rōōk'sĭ-ȧ*; *-rōō'zĭ-ȧ*), *n.* [NL., after Pierre-Joseph *Amoreux* (1741–1824), French botanist.] *Bot.* A small genus of cochlospermaceous shrubs or undershrubs of the southwestern United States and Mexico. They have palmate leaves and large handsome flowers.

‖ **a'mo-ri'no** (*ä'mō-rē'nō*), *n.*; *It. pl.* **-NI** (*-nē*). [It., dim. of *amore* cupid.] An infant cupid or love, such as is common in Italian painting and sculpture of the 16th century.

am'o-rist (*ăm'ō-rĭst*), *n.* [L. *amor* love. See AMOROUS.] A professed lover; an amateur of love; a gallant. *Milton.*

It was the custom for an *amorist* to impress the name of his mistress in the dust, or upon the damp earth, with letters fixed upon his shoe. *Southey*

Am'o-rite (*ăm'ō-rīt*), *n.* [Heb. *ha-Emrī* the Amorite; cf. Assyrian *Amurrā.*] Any of an ancient Palestinian people dwelling chiefly in the northern and eastern mountainous regions. They are mentioned as the *Amurru* in the cuneiform inscriptions of Sargon, as early as the 12th century B. C., and were early depicted on Egyptian monuments with light skin, blue eyes, and light or, sometimes, dark hair. Some regard them as of Libyan race, some as of Semitic.

am'o-rous (*ăm'ō-rŭs*), *a* [OF. *amoros*, F. *amoureux*, LL. *amorosus*, fr. L. *amor* love, *amare* to love.] **1.** Inclined to love; having a propensity to love, or sexual enjoyment; loving; fond; affectionate; as, an *amorous* disposition.

2. Affected with love; in love, enamored; — usually with *of*, formerly with *on.*

Thy roses *amorous* of the moon. *Keats.*
Sure my brother is *amorous* on Hero. *Shak.*

3. Of or relating to, or produced by, love. "*Amorous* delight." *Milton.*

am'phi-gen (ăm'fĭ-jĕn), *n.* [*amphi-* + *-gen:* cf. F. *amphigène.*] **1.** *Old Chem.* An element that unites with different elements to form acids and bases, — applied by Berzelius to oxygen, sulphur, selenium, and tellurium. *Obs.*

2. *Bot.* A thallogen.

am-phig'e-nous (ăm-fĭj'ē-nŭs), *a.* Pertaining to, or of the nature of, an amphigen.

am'phi-go-ry (ăm'fĭ-gō-rĭ), *n.*; *pl.* -RIES (-rĭz), **am'phi-gou'ri** (-gōō'rē), *n.*; *pl.* -RIS (-rēz). [F. *amphigouri*, of uncertain derivation] A nonsense verse or composition; a rigmarole with apparent meaning, which proves to be meaningless. — **am'phi-gor'ic** (-gŏr'ĭk), *a.*

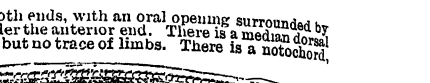
am-phim'a-cer (ăm-fĭm'ȧ-sẽr), *n.* [L. *amphimacrus*, Gr ἀμφίμακρος; ἀμφί + μακρός long.] *Gr. & Lat. Pros.* A foot of three syllables, the middle one short and the others long, as in *cāstĭtās.*

am'phi-mix'is (-mĭk'sĭs), *n.* [NL.; *amphi-* + Gr. μῖξις a mingling.] *Biol.* **a** The union of the germ plasm of two individuals in sexual reproduction. **b** Interbreeding.

Am'phi-neu'ra (-nū'rȧ), *n. pl* [NL.; *amphi-* + Gr. νεῦρον sinew.] *Zoöl.* A class of marine mollusks (often considered an order of Gastropoda) comprising the chitons and their allies; — equiv. to *Isopleura.* The class is divided into: the *Placophora*, which have a large foot and bilaterally symmetrical body protected by a shell of eight arched segments, placed one behind the other, partly overlapping, and bound together by a muscular girdle encircling them all; and the *Aplacophora*, which consist of a few wormlike shell-less forms.

Am-phi'on (ăm-fī'ŏn), *n.* [L., fr. Gr. 'Αμφίων.] *Gr. Myth.* Son of Zeus and Antiope, twin of Zethus, and husband of Niobe. With Zethus, Amphion captured Thebes, and fortified the city with a wall built by charming the stones into place with a lyre given to him by Hermes. See ANTIOPE. — **Am'phi-on'ic** (ăm'fĭ-ŏn'ĭk), *a.*

Am'phi-ox'us (-ŏk'sŭs), *n.* [NL.; *amphi-* + Gr. ὀξύς sharp] *Zoöl.* Synonym of BRANCHIOSTOMA, the genus to which the common European lancelet (*B. lanceolatum*) and other species having paired gonads and symmetrical metapleura belong. (Cf. ASYMMETRON.) Also, in common use, any lancelet (see LANCELET). *Branchiostoma lanceolatum* is a small transparent marine animal about two inches long, pointed at both ends, with an oral opening surrounded by cirri just under the anterior end. There is a median dorsal and anal fin, but no trace of limbs. There is a notochord,

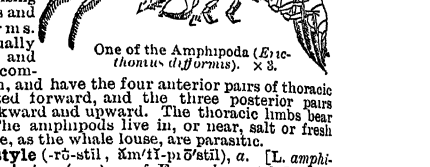


Amphioxus. *b* Notochord; *c* Oral Cirri and Mouth; *e* Branchial Sac; *f* Liver; *i* Intestine, *l* Abdominal Pore, *oo* Ovary; *v* Aorta. Natural size.

a dorsally situated neural tube, and a system of blood vessels containing colorless blood, but no well-marked brain or heart. The eyes are represented by a median pigment spot without a lens or other accessories, and an olfactory organ is present, but auditory organs are wanting. The pharynx is long, with numerous gill clefts, which open into an exterior chamber, or atrium. The egg is holoblastic and forms a typical blastula and gastrula. Species of this group are found in many parts of the world. They burrow in the sand near shore, and are very active in their movements.

am'phi-pod (ăm'fĭ-pŏd), *n.* *Zoöl.* One of the Amphipoda. — *a.* Of or belonging to the Amphipoda.

Am-phip'o-da (ăm-fĭp'ō-dȧ), *n. pl.* [NL.; *amphi-* + *-poda.*] *Zool* A large suborder of Crustacea of the order Arthrostraca, comprising the sand fleas and allied forms. They are usually of small size and laterally compressed form, and have the four anterior pairs of thoracic limbs directed forward, and the three posterior pairs directed backward and upward. The thoracic limbs bear the gills. The amphipods live in, or near, salt or fresh water. Some, as the whale louse, are parasitic.



One of the Amphipoda (*Ectheronus diformis*). × 3.

am-phip'ro-style (-rō-stīl, ăm'fĭ-prō'stīl), *a.* [L. *amphiprostylos*, Gr. ἀμφιπρόστυλος. cf. F. *amphiprostyle.*] *Arch.* Designating a kind of columniation. See COLUMNIATION a & d. — *n.* An amphiprostyle building. — **am-phip'ro-sty'lar** (-stī'lar), *a.*

am'phi-sar'ca (ăm'fĭ-sär'kȧ), *n* [NL.; *amphi-* + Gr. σάρξ, σαρκός, flesh.] *Bot.* A many-celled and many-seeded indehiscent fruit having a hard or woody exocarp and pulpy endocarp, as that of the calabash tree (*Crescentia cujete*).

am'phis-bæ'na (ăm'fĭs-bē'nȧ), *n.* [L., fr. Gr. ἀμφίσβαινα; ἀμφίς on both ends + βαίνειν to go.] **1.** A fabled serpent with a head at each end, moving either way. *Milton.*

2. [*cap.*] *Zool.* A genus of lizards, the type of a family, **Am'phis-bæ'ni-dæ** (-nĭ-dē), which includes numerous limbless lizards with concealed eyes and short blunt tail. They are wormlike in appearance and movements, and are said to move either forward or backward. They are found in warm or tropical countries, and burrow in the ground, feeding on worms and insects. Though often considered poisonous, they are perfectly harmless. — **am'phis-bæ'ni-an** (-nĭ-ăn), *a. & n.* — **am'phis-bæ'nic** (-nĭk), *a.* — **am'phis-bæ'noid** (-noid), *a.* — **am'phis-bæ'nous** (-nŭs), *a*

am-phis'ci-i (ăm-fĭsh'ĭ-ī) } *n. pl.* [Gr. ἀμφίσκιος
am-phis'ci-ans (ăm-fĭsh'ĭ-ănz) } throwing a shadow both ways; ἀμφί + σκιά shadow.] The inhabitants of the tropics, whose shadows vary from north to south with the shifting of the sun to the south or north of their zenith.

am'phi-spore' (ăm'fĭ-spōr'), *n.* [*amphi-* + *spore.*] *Bot.* In mycology, a uredospore which, by morphological adaptation, functions as a resting spore.

am'phi-sty'lar (-stī'lar), *a.* [*amphi-* + Gr. στῦλος pillar.] *Arch.* Having columns at both ends, or, more rarely, on both sides. See COLUMNIATION.

am'phi-sty'lic (-lĭk), *a.* [See AMPHISTYLAR.] *Zoöl.* Designating or having an arrangement of the mandibular and hyoid arches intermediate between *autostylic* and *hyostylic.* It occurs in a few sharks, as in the cestracionts.

am'phi-the'a-ter } (ăm'fĭ-thē'ȧ-tẽr), *n.* [L. *amphitheatrum*; ἀμφί + θέατρον theater: cf. F. *amphithéâtre.* See THEATER.] **1.** An oval or circular building with rising tiers of seats about an open space called the arena. The Romans first constructed amphitheaters for combats, as of gladiators.

am'phi-the'at'ri-cal (-rĭ-kăl) } Of, like, or exhibited in, an amphitheater. — **am'phi-the'at'ri-cal-ly**, *adv.*

am-phit'o-cous (ăm-fĭt'ō-kŭs), *a.* [*amphi-* + Gr. τόκος birth.] *Zoöl.* Having the young born in a larval condition, as certain amphibians.

am'phi-to'ky (ăm'fĭ-tō'kĭ), *n.* [*amphi-* + Gr. τόκος birth.] *Biol.* Reproduction by both parthenogenesis and fertilization.

am'phi-trich'ous (ăm'fĭ-trĭk'ŭs), *a.* [*amphi-* + Gr. θρίξ, τριχός, hair.] *Biol.* Having a flagellum at each end.

am'phi-tri'te (ăm'fĭ-trī'tē), *n.* [NL., fr. Gr. 'Αμφιτρίτη.] *Zoöl.* A genus of tubicolous annelids, typical of the family Amphitritidæ. The body is divided into thorax and abdomen, and the gills are arranged in a crown on the head. The tube is composed of sand and other foreign matter.

am'phi-tri'tid (-trī'tĭd), *n.* [NL. *Amphitritidæ*] *Zoöl.* Any annelid of the family Amphitritidæ, which includes the genus *Amphitrite* and many allied genera.

am'phi-tro'pal (ăm'fĭ-trō'pal), *a.* [*amphi-* + Gr. τρόπος turning.] *Bot.* Having the ovule curved so that the micropyle is near the hilum, as in the bean.

am'phi-tro'pous (-pŭs), *a.* [*amphi-* + Gr. τρόπος turning.] *Bot.* Having the ovule curved so that the micropyle is near the hilum, as in the bean.

am'phi-ty'pal (ăm'fĭ-tī'pal), *a.* [*amphi-* + Gr. τύπος type.] *Cryst.* Having similar planes in opposite positions.

am'phi-ty'py (-tī'pĭ), *n.* [*amphi-* + Gr. τύπος type.] *Cryst.* Similarity of planes in opposite positions.

am'phi-um (ăm'fĭ-ŭm), *n.*; *pl.* -A (-ȧ). [NL.] *Bot.* A kind of fruit in which the ovary is surrounded by a fleshy receptacle, as in the fig.

am'phi-ur'a (ăm'fĭ-ūr'ȧ), *n.* [NL.; *amphi-* + Gr. οὐρά tail.] *Zoöl.* A genus of ophiurans having the arms simple and the disk covered with small scales.

am'phi-ure'sis (-ū-rē'sĭs), *n.* [NL.; *amphi-* + Gr. οὐρεῖν to make water.] *Med.* Involuntary discharge of urine.

am'phi-ve'nous (-vē'nŭs), *a.* [*amphi-* + *venous.*] *Zoöl.* Having the centrum biconcave, as the vertebræ of fishes.

am'phi-zo'ic (-zō'ĭk), *a.* [*amphi-* + Gr. ζῷον animal.] *Zoöl.* Having the power of living both in water and on land.

am'phi-zo'ite (-zō'īt), *n.* [*amphi-* + Gr. ζῷον animal.] *Zoöl.* A sponge of the genus *Amphizoa*, having the skeleton composed of both calcareous and siliceous spicules.

am'phi-zo'ous (-zō'ŭs), *a.* [*amphi-* + Gr. ζῷον animal.] *Zoöl.* Having the power of living both in water and on land.

am'phi-zo'ul (-zō'ŭl), *n.* [*amphi-* + Gr. ζωή life.] *Zoöl.* A sponge of the genus *Amphizoa*, having the skeleton composed of both calcareous and siliceous spicules

Am'phi-tri'te (ăm'fĭ-trī'tē), *n.* [L., fr. Gr. 'Αμφιτρίτη.] **1** *Gr. Myth.* The daughter of Nereus and Doris, wife of Poseidon and goddess of the sea.
2. *Zool.* A genus of tubicolous polychætous annelids with branching gills and numerous prostomial tentacles.

am-phit'ro-pous (ăm-fĭt'rō-pŭs), *a* [*amphi-* + *-tropous.*] *Bot.* Having the ovule inverted, but with the attachment near the middle of one side; half anatropous.

Amphitropous Ovule. 1 Raphe; 2 Chalaza; 3 Micropyle

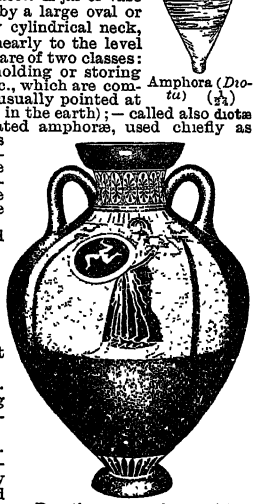
Am-phit'ry-on (ăm-fĭt'rĭ-ŏn), **Am-phit'ru-o** (-rōō-ō), *n.* [L. *Amphitryo, -uo, -yon, -uon,* Gr. 'Αμφιτρυων.] *Class. Myth.* The husband of Alcmene, in whose guise Zeus visits her, entertains her with a feast, and becomes the father of Hercules. The name has hence been applied to a host, esp. when his identity is in doubt. See LE VERITABLE AMPHITRYON EST L'AMPHITRYON OÙ L'ON DINE.

Am'phi-u'ma (ăm'fĭ-ū'mȧ), *n.* [NL., irreg. fr. *amphi-* + Gr. πνεῦμα breath] *Zoöl.* A genus of Amphibia represented only by the Congo snake (which see).

am'pho-pep'tone (ăm'fō-pĕp'tōn). *n.* [Gr. ἀμφί + *peptone.*] *Physiol. Chem.* A product of peptic digestion, regarded as a mixture of hemipeptone and antipeptone.

am'pho-ra (ăm'fō-rȧ), *n.*; *L pl.* **-RÆ** (-rē). [L., fr. Gr. ἀμφορεύς, ἀμφιφορεύς, a jar with two handles, ἀμφί + φορεύς bearer, φέρειν to bear.] **1.** *Class. Archæol.* A jar or vase of a type characterized by a large oval or egg-shaped body, narrow cylindrical neck, and two handles rising nearly to the level of the orifice. Amphoræ are of two classes: (1) Those designed for holding or storing wine, oil, honey, corn, etc., which are commonly undecorated and usually pointed at the bottom (for fastening in the earth); — called also **diotæ** (sing. *diota*). (2) Decorated amphoræ, used chiefly as ornaments or given as prizes, as in the Panathenaic festival, where the victors in the games received painted amphoræ (filled with oil from the sacred olives) of a characteristic style. Decorated amphoræ were provided with disk-shaped bases. The amphora appeared in Greece in the period of geometrical decoration.

Amphora (*Diotia*) ($\frac{1}{24}$)



Panathenaic Amphora ($\frac{1}{6}$)

2. Hence, a measure of capacity. See MEASURE.

am'pli-tude (ăm'plĭ-tūd), *n.* [L. *amplitudo:* cf. F. *amplitude.* See AMPLE.] **1.** State or quality of being ample, extent of surface or space; largeness of dimensions; size.

The cathedral of Lincoln . . is a magnificent structure, proportionable to the *amplitude* of the diocese *Fuller*

2. Largeness, in a figurative sense; breadth; abundance; fullness; as of: **a** Extent of capacity or intellectual powers. "*Amplitude* of mind." *Milton.* "*Amplitude* of comprehension." *Macaulay.* **b** Extent of means, resources, dignity, splendor, etc. "*Amplitude* of reward." *Bacon.*
3. a *Astrol.* The arc of the horizon between the true east or west point and the center of the sun, or a star, at its rising or setting. At the rising, the amplitude is eastern or ortive: at the setting, it is western, occiduous, or occasive. It is also northern or southern, when north or south of the equator. **b** *Astron.* (1) The arc of the horizon between the true east or west point and the foot of the vertical circle passing through any star or object; the complement of azimuth. (2) The arc of the horizon between the magnetic east or west point and a heavenly body; — called *magnetic amplitude.* The difference between this and the true or astronomical amplitude corresponds to the variation of the compass.
4. *Gun.* The horizontal line which measures the distance to which a projectile is thrown; the range. *Rare.*
5. *Physics.* The extent of a vibratory movement, as of a pendulum, measured from the mean position to an extreme, or measured, as used by some, from one extreme to the opposite, a quantity double the preceding.
6. *Math.* An angle upon which the value of some function depends; — used esp. in connection with elliptic functions.

amplitude compass. *Astron.* An azimuth compass for observing amplitudes, having its zeros at the east and west points.

am-pul'la (ăm-pŭl'ȧ), *n.*; *L. pl.* **-LÆ** (-ē). [L.] **1.** *Rom. Antiq* A flask of glass or earthenware, having two handles (rarely one) and a more or less globular body, used for carrying ointments, perfumes, etc., and for serving wine or beer at table.

am'yl (*ăm'ĭl*), *n.* [L. *amylum* starch + *-yl.* Cf. 2d AMYL.] *Org. Chem.* A univalent hydrocarbon radical, C_5H_{11}, existing in several isomeric modifications. Its compounds occur in fusel oil, in the essences of various fruits, etc.

am'yl (*ăm'ĭl*), *n.* [L. *amylum*, fr. Gr. *ἄμυλον* fine meal, neut. of *ἄμυλος* not ground at the mill, — hence, of the finest meal; *ἀ-* not + *μύλος, μυλη*, mill.] Starch; also, very fine meal or flour. *Obs.*

am'y-la'ceous (*ăm'ĭ-lā'shŭs*), *a.* [See AMYL starch.] Pertaining to, or of the nature of, starch; starchy.

amyl acetate. *Chem.* A colorless, liquid ester, $CH_3CO_2C_5H_{11}$, of agreeable odor, like that of pears. It is used in the manufacture of artificial fruit essences.

amyl acetate lamp, *Photom.*, a lamp in which amyl acetate is burned, used as a standard of light. Cf. HEFNER UNIT.

amyl alcohol. *Org. Chem.* Any of eight isomeric liquid compounds, $C_5H_{11}OH$; ordinarily, a mixture of two of these forming a colorless liquid with a peculiar cough-exciting odor and burning taste, the chief constituent of fusel oil. It is used as a source of amyl compounds, such as amyl acetate, amyl nitrite, etc.

am'yl-am'ine (*ăm'ĭl-ăm'ĭn*; *-ə-mēn'*; 184), *n. Chem.* A colorless liquid, $C_5H_{11}NH_2$, having a peculiar odor. It is formed on decomposition of many nitrogenous substances, and is sometimes classed as a ptomaine.

am'y-lene (*ăm'ĭ-lēn*), *n. Chem.* Any of a group of isomeric hydrocarbons, C_5H_{10}, of the ethylene series. The colorless, volatile, mobile liquid commonly called amylene is a mixture of different members of the group.

a-myl'ic (*ə-mĭl'ĭk*), *a. Chem.* Of, pertaining to, or containing, the radical amyl. — **amylic fermentation**, fermentation by which amyl alcohol is formed from sugar.

am'yl-lif'er-ous (*ăm'ĭ-lĭf'ẽr-ŭs*), *a.* [L *amylum* starch + *-ferous.*] *Bot.* Bearing or producing starch.

amyl nitrite. A yellowish oily volatile liquid, $C_5H_{11}NO_2$, used in medicine as a heart stimulant and a vasodilator. The inhalation of its vapor instantly produces flushing of the face.

am'y-lo- (*ăm'ĭ-lō-*). Combining form: **a** Of *amylum*, starch; as, *amylo*dextrin, *amylo*genesis. **b** Of *amyl*, the radical.

a-myl'o-gen (*ə-mĭl'ō-jĕn*), *n.* [*amylo-* + *-gen.*] *Chem.* That part of the starch granule or granulose which is soluble in water.

am'y-lo-gen'e-sis (*ăm'ĭ-lō-jĕn'ĕ-sĭs*), *n.* [*amylo-* + *-genesis.*] The formation of starch.

am'y-lo-gen'ic (*-jĕn'ĭk*), *a.* **1.** Of or pert. to amylogen.
2. Forming starch; — applied specif to leucoplasts.

am'y-loid (*ăm'ĭ-loid*) } *a.* [L. *amylum* starch + *-oid.*]
am'y-loi'dal (*-loi'dăl*) } Like or containing amylum, or starch; starchlike. — **amyloid degeneration**, *Med.*, a retrogressive process produced by the deposit of amyloid in various organs of the body. See AMYLOID, *n.*, 2 **b**.

am'y-loid (*ăm'ĭ-loid*), *n.* **1.** A nonnitrogenous starchy food; a starchlike substance
2. *Org. Chem.* **a** A starchlike substance produced by the action of concentrated sulphuric acid on cellulose. **b** An amorphous, white, insoluble substance containing nitrogen and phosphorus, and occurring as an abnormal infiltration in the spleen, liver, kidneys, etc. Alkali decomposes it into chondroitin-sulphuric acid and a proteid.

am'y-lol'y-sis (*-lŏl'ĭ-sĭs*), *n.* [*amylo-* + *-lysis.*] *Chem.* The conversion of starch into soluble products, as dextrins and sugar, esp. by the action of enzymes. — **am'y-lo-lyt'ic** (*-lĭt'ĭk*), *a.*

am'y-lom'e-ter (*-lŏm'ĕ-tẽr*), *n.* [*amylo* + *-meter.*] Instrument for determining the amount of starch in a substance.

am'y-lo-plas'tic (*-lō-plăs'tĭk*), *a.* [*amylo-* + *-plastic.*] Starch-forming; amylogenic.

am'y-lop'sin (*-lŏp'sĭn*), *n.* [*amylo-* + Gr. *ὄψις* appearance.] *Physiol. Chem.* The diastase of the pancreatic juice. See DIASTASE

am'y-lose (*ăm'ĭ-lōs*), *n. Chem.* Any of the starch group, $(C_6H_{10}O_5)_x$, of the carbohydrates; as, starch, arabin, dextrin, cellulose, etc. See POLYSACCHARIDE.

am'y-lum (*-lŭm*), *n.* [L. See AMYL starch.] Starch.

amylum grain, amylum granule. *Bot.* One of the laminated starch bodies formed by the leucoplasts.

A-myn'o-don (*ə-mĭn'ō-dŏn*), *n.* [NL.; Gr. *ἀμυνα* defense + *ὀδούς, ὀδόντος*, tooth.] *Paleon.* A genus of extinct European perissodactyls related to the rhinoceros. They were hornless, but had the canines developed into curved tusks. — **a-myn'o-dont** (*-dŏnt*), *a. & n.*

am'y-ot'ro-phy (*ăm'ĭ-ŏt'rō-fĭ*), *n.* [*a-* not + *myo-* + *-trophy.*] *Med.* Atrophy of a muscle or the muscles. — **a-my'o-troph'ic** (*ə-mī'ō-trŏf'ĭk*; *ăm'ĭ-*), *a.*

Am'y-ral'dism (*ăm'ĭ-răl'dĭz'm*), *n.* A liberal form of Calvinism taught by Amyraldus (Moise Amyraut, 1596-1664) at Saumur, France. — **Am'y-ral'dist**, *n.*

Am'y-ris (*ăm'ĭ-rĭs*), *n.* [NL.; *a-* not + Gr. *μύρον* balsam.] *Bot.* A genus of rutaceous trees and shrubs of tropical America. Many species yield aromatic resins and ethereal oils. *A. balsamifera* is the Jamaica rosewood.

an (*ăn*), *or* **a**, *a.*, usually called the *indefinite article*. [AS. *ān* one, the same word as the numeral. See ONE; cf. A.] One or any, — without special emphasis on the number.
☞ It is used before nouns of the singular number denoting an individual object, or a quality individualized, before collective nouns, and also before plural nouns when the adjective *few* or the phrase *great many* or *good many* is interposed; as, *a* dog, *an* owl, *a* house, *a* man; *a* color; *an* elegance, *a* sweetness; *a* hundred, *a* fleet, *an* army, *a* regiment; *a* few persons, *a* great many days. In such expressions as "twice *an* hour," "once *an* age," "a shilling *an* ounce," "a dollar *a* pound" (see A, *adj.*, 2), it has a distributive force, and is equivalent to *each, every.*
☞ In present usage *an* is invariably used before words beginning with a vowel sound, as *an* enemy, *an* hour, *an* oak, and *a* is invariably used, except as noted below, before words beginning with a consonant sound, as *a* table, *a* woman, *a* year, *a* unit, *a* eulogy, *a* oneness, such *a* one, *a* history, *a* historian, *a* hypothesis, *a* hyena. Some writers, however, use *an* before words beginning with *h* in an unaccented syllable, as *an* historian, *an* hypothesis, *an* hotel; and British writers not uncommonly use *an* before such words as *union, eve, euphony, eudometer, euphonic*, etc., beginning with the sound of y (ū = yōō). Formerly *an* was used before both consonant and vowel sounds. "*An* enough." *Milman.* "*An* universal." *Lockhart.* "*An* union." *Poll. & Mall.*

an, *or*, *later*, **an'** (*ăn*), *conj.* [Shortened fr. *and*, ME. *an, and*, sometimes *and if*, in introducing conditional clauses, like Icel *enda* if, the same word as *and.*] **1.** And. *Obs. or Dial.*
2. If. *Archaic.*
Nay, *an* thou dalliest, then I am thy foe *B Jonson*
☞ In the sense of "and" the word is now chiefly used in the form *an'*, to represent dialectic or illiterate speech; but in the sense of "if" it is still in good usage in both forms, either as an archaism or as a literary word.

an-. A prefix denoting *not, without*, etc. See A-, not.

an-. A prefix denoting *up, again*, etc. See ANA-.

an-. Assimilated form of AD-.

-an (*-ăn*). [L *-anus*, ct. F *-ain.*] A suffix having the general sense of *belonging* or *pertaining to*, primarily forming adjectives, of which many are also used substantively, some chiefly so; as in Anglican, human, metropolitan, sylvan, etc. It is often used in zoology to form singulars for the plural group names in *-a, -æ*, etc.; as in crustacean, meropidan, saprophagan, etc.

-an. Also **-ane** *Org. Chem.* A suffix used in naming certain substances which yield sugar by hydrolysis; as, pentosan, xylan. Cf. -ANE.

an'a- (*ăn'ə-*). [Gr. *ἀνά* on, *in comp.*, on, up See ON.]

An'a-bæ'na (*ăn'ə-bē'nə*), *n.* [NL., fr. Gr. *ἀναβαίνειν* to go up.] *Bot.* A small but widely distributed genus of minute unicellular fresh-water algæ of the family Nostocaceæ. They often contaminate reservoirs, causing a pronounced fishy taste and odor, and sometimes causing a cloudy appearance. Also [*l. c.*], an individual or a mass of individuals of this genus.

An'a-bap'tism (*ăn'ə-băp'tĭz'm*), *n* [L. *anabaptismus*, Gr. *ἀναβαπτισμός*: cf. F. *anabaptisme.*] **1.** The doctrine, practices, or the like, of the Anabaptists.
2. [*l. c.*] Rebaptism, as of those baptized by heretics.

An'a-bap'tist (*-tĭst*), *n.* [LL. *anabaptista*: cf. F. *anabaptiste.*] *Eccl. Hist.* One of the party which in 1523 arose in Zurich among the followers of Zwingli, the Reformer of Switzerland, advocating the ideas: (1) that infant baptism had no Scripture warrant and was inefficacious; (2) that the church was composed only of the saints, that is, of those who were true Christians and had been baptized on confession of faith; (3) that there should be no union of church and state and no interference of the civil power with ecclesiastical affairs. The party was everywhere persecuted, and, largely owing to this persecution, became divided, one part turning towards mysticism and the other towards fanaticism. The fanatics figured largely in the Peasant War in Germany in 1525. They gathered in Münster in Westphalia, and established there in 1534 what they called the *Kingdom of Zion*, practicing community of goods and, it is said, gross licentiousness, until the city was reduced in 1535 by the Roman Catholic bishop. Among the earliest Anabaptists pouring and sprinkling as well as immersion were employed, but soon immersion became the only mode, as it is among their descendants, the modern Baptists.

An'a-bap-tis'tic (*-băp-tĭs'tĭk*) } *a.* Pertaining or attributed to the Anabaptists or their doctrines. — **An'a-bap-tis'ti-cal**, *adv.*

an'a-log Analogue. *Ref. Sp.*

2. *Logic.* A form of inference in which it is reasoned that if two (or more) things agree with one another in one or more respects, they will (probably) agree in yet other respects. The degree of probability will depend upon the number and importance of their known agreements

Analogy, as the name of a mode of reasoning, is generally taken for some kind of argument supposed to be of an inductive nature, but not amounting to a complete induction *J S Mill.*

3. *Geom.* Proportion; equality of ratios.

4. *Philol.* Similarity in the form or sense of words as forming a basis for their division into new word groups or categories, hence, in the history of language, the principle or process in accordance with which existing words are modified or new words created in conformity with established and familiar word groups or categories. Thus *princedom, popedom*, are modeled after *kingdom*, etc., the verb *glide*, pret. & p. p. *glided*, is now classed with regular or weak verbs like *guide*, *v. t.*, though it was originally an irregular or strong verb inflected like *ride*; *egotism* perhaps has its *i* from such words as *despotism, patriotism*, etc. *Analogy* is commonly limited to those cases in which only the forms of words are influenced (*formal* or *morphological* analogy). The process was formerly often called *false analogy.*

5. *Biol.* Correspondence in function between organs or parts of different structure and origin; — distinguished from *homology* (which see).

6. An analogue. *Rare.*

Syn. — See RESEMBLANCE.

analogies of experience, *Kantianism*, the a priori principles of substantiality, reciprocity, and causality.

an-al'pha-bet (ăn-ăl'fă-bĕt) } *n.* [Gr. *ἀναλφάβητος*, *ἀν-* not

a-nal'y-sis (*ä*-năl'ĭ-sĭs), *n.*; *pl.* -SES (-sēz). [Gr. *ἀνάλυσις*, fr. *ἀναλύειν* to unloose, to dissolve, to resolve into its elements, *ἀνά* up + *λυειν* to loose. See LOOSE.] **1.** A resolution of anything, whether an object of the senses or of the intellect, into constituent parts or elements; an examination of component parts, separately, or in their relation to the whole, as the words which compose a sentence, the tones of a tune, or the simple propositions which enter into an argument See SYNTHESIS.

The *analysis* of presentations must consist in distinguishing within a total presentation the partial presentations which enter into its composition *G F Stout*

2. *Chem.* **a** The separation of compound substances, by chemical processes, into their constituents **b** The determination, which may or may not involve actual separation, of one or more ingredients of a substance either as to kind or amount; also, the tabulated result of such a determination. Determination of the nature of the ingredients is called **qualitative analysis**; of their quantity, **quantitative analysis.** The latter, according to the methods employed, is said to be **gravimetric** or **volumetric.** The ingredient to be determined may be an element, as iron in an ore; a compound, as water of crystallization, a radical, as hydroxyl in an alcohol; or a mixture, as the volatile acids in butter. The determination of the elementary composition of a substance is called **ultimate analysis**, of radicals in a compound, or compounds in a mixture, **proximate analysis.**

3. **a** A syllabus, or table of the principal heads of a discourse, disposed in their natural order. **b** A brief, methodical illustration of the principles of a science, — nearly synonymous with *synopsis.*

4. *Biol.* The process of ascertaining the name of a species, or its place in a system of classification, by means of an analytical table or key. *Obsolete*

5. *Math.* **a** A method of proving propositions by assuming the result and reasoning back to the data or to already established principles (Euclid's use of the term). **b** The investigation of problems by the methods of algebra. **c** Generically, any of those methods that are based on considerations of number, as opposed to geometric intuition. **d** Often, the differential and integral calculus.

a-nal'y-sis si'tus (sī'tŭs). [NL., lit., analysis of situation.] *Math.* That branch of mathematics which investigates the properties of a geometrical configuration that are independent of its form and size. Euler's theorem as to the number of vertices, edges, and faces of a polyhedron is a proposition of *analysis situs.*

an'a-lyst (ăn'ă-lĭst), *n.* [F. *analyste.*] One who analyzes; one who is skilled or specially occupied in making analyses, as in the sciences of chemistry or mathematics

an'a-lyt'ic (ăn'ă-lĭt'ĭk) } *a* [Gr. *ἀναλυτικός*: cf. F. *analy-*
an'a-lyt'i-cal (-ĭ-kăl) } *tique.*] **1.** Of or pertaining to analysis; resolving into elements or constituent parts; as, an *analytical* experiment, *analytic* reasoning or *analytical* method of reasoning; — often contrasted with *synthetic.*

2. Hence, designating or pertaining to a language characterized by analysis; as, the *analytical* mode of comparing adjectives by means of *more* and *most* is distinguished from the *synthetic* or flexional mode by means of the suffixes *-er* and *-est.* See INFLECTIONAL LANGUAGES.

analytical balance, a sensitive form of balance used in quantitative chemical analysis. — **analytic coefficients** *and* **solutions** (of differential equations), such as are analytic functions. — **a. function.** *Math.* See MONOGENIC. — **a. geometry**, *Math.*, geometry subjected to analytic treatment by means of the convention of coördinates; hence, the same as *algebraic* or *coördinate* geometry. — **a. judgment**, *Kantianism*, a judgment in which what is predicated is already implied in the subject of the predication; — contrasted with the *synthetic judgment*, in which the predicate adds something not contained in the subject. — **a. language.** See INFLECTIONAL

an'arch-ism (ăn'ăr-kĭz'm), *n.* [Cf. F. *anarchisme.*] **1.** The principles underlying anarchy ; now usually specif., the political and social theory that all government is an evil. As an avowed social ideal and propaganda the origin of anarchism belongs to the 19th century. A French workman, Pierre Joseph Proudhon (1809-65), is frequently styled the "father of anarchism," anarchy being, according to his theory, an economic and social system where each person produces what he pleases and consumes as he pleases what he produces, free from any interference or regulation. Other anarchists have developed the theory in various directions, so that in its broadest form it demands absolute emancipation from all law, moral as well as economic and political, outside the individual, — the philosophical foundation of this broad theory resting upon an interpretation of the Hegelian doctrine of self-determination. In its more practical forms, anarchism is a variety of communalism, having for its ideal the formation of small autonomous communes the members of which respect one another's individual independence while they unite to resist outer aggression. At its best, it stands for a society made orderly by good manners rather than by law, in which each person produces according to his powers and receives according to his needs. At its worst, it stands for a terroristic resistance of all present government and social order, — a phase which originated with the Russian revolutionist Michael Bakunin (1814-96). See COMMUNALISM, COMMUNISM, SOCIALISM.

2. Advocacy or practice of anarchistic principles ; esp., anarchistic revolution ; nihilism ; terrorism.

an'arch-ist (ăn'ăr-kĭst), *n.* [Cf. F. *anarchiste*] One who advocates anarchy or believes in anarchism ; one who attempts to establish anarchy ; esp., one who believes in or practices terroristic anarchism ; a terrorist ; a nihilist. — **an'ar-chis'tic** (-kĭs'tĭk), *a.*

an'arch-y (ăn'ăr-kĭ), *n.* [Gr. *ἀναρχία* : cf. F. *anarchie.* See ANARCH.] **1.** Absence of government ; the state of society where there is no law or supreme power ; hence, a state of lawlessness or political disorder ; specif., the social state that is advocated by modern anarchists. See ANARCHISM.

A polity without an head . would not be a polity, but *anarchy* *II. More.*

Anarchy is the absence of government ; it is a state of society where there is no law or supreme power 122 *Ill* 6

Anarchy as generally understood, is avowed hostility to all governments, and open antagonism to all political parties, every one of which professes to support some form of government. 81 *Mct* 474

2. Hence, absence of regulating power in any sphere ; confusion or disorder, in general.

There being then . . . an *anarchy*, as I may term it, in authors and their reckoning of years *Fuller*

If the spiritual institutions of society are in *anarchy*, Bernard is expected to reduce them to order *F Harrison.*

Syn. — ANARCHY, CHAOS, LAWLESSNESS. ANARCHY implies the total absence or suspension of government ; CHAOS, the utter negation of order. LAWLESSNESS is less definite than *anarchy*, and signifies rather a prevalent or habitual disregard of law and order than their absence or suspension. See CONFUSION, REBELLION.

an-as'tig-mat'ic (ăn-ăs'tĭg-măt'ĭk), *a.* [*an-* not + *astigmatic.*] *Optics.* Not astigmatic; — said esp. of a compound lens or a lens system consisting of a converging lens and a diverging lens of equal and opposite astigmatism but different focal lengths, and sensibly free from astigmatism.

a-nas'to-mose (ă-năs'tō-mōz), *v. i.*; A-NAS'TO-MOSED (-mōzd); A-NAS'TO-MOS'ING (-mōz'ĭng). [Cf. F. *anastomoser*, fr. *anastomose*. See ANASTOMOSIS.] **1.** *Anat. & Biol.* To inosculate; to intercommunicate by anastomosis; to join or unite like the parts of a network. See ANASTOMOSIS.

2. Of any channels or lines, as rivers, to meet and unite or run into each other; to coalesce; interjoin.

a-nas'to-mo'sis (-mō'sĭs), *n.*; *pl.* -SES (-sēz). [NL, fr. Gr. *ἀναστόμωσις* opening, fr. *ἀναστομοῦν* to furnish with a mouth or opening, to open; *ἀνά* + *στόμα* mouth.] **1.** *Anat. & Biol.* **a** The union of one vessel with another belonging to a different system, or the rejoining of different branches which have arisen from a common trunk, so as to form a network; inosculation, intercommunication. **b** A similar joining of the parts of other branched systems, as of the veins of leaves or of insects' wings. It is through the anastomoses of the blood vessels that the blood supply of a limb or an organ is maintained when the usual channel of supply is obstructed, as when an artery is ligatured. See COLLATERAL CIRCULATION.

2. Union or intercommunication of any system or network of lines, branches, streams, or the like.

a-nas'to-mot'ic (-mŏt'ĭk), *a.* Pertaining to or exhibiting anastomosis.

a-nas'tro-phe (ă-năs'trō-fē), *n.* [Gr. *ἀναστροφή*, fr. *ἀναστρέφειν* to turn up or back; *ἀνά* + *στρέφειν* to turn.] *Rhet. & Gram.* Inversion of the natural order of words, as, *echoed the hills*, for, *the hills echoed.*

an'a-the'ma (ăn'ă-thē'mă), *n.*; *pl.* -THEMATA (-thĕm'ă-tă). [L. *anathēma*, Gr. *ἀνάθημα*. See 2d ANATHEMA.] A thing set aside or consecrated for a deity; an offering devoted to a divinity or to sacred purposes.

a-nath'e-ma (ă-năth'ē-mă), *n.*; *pl.* -MAS (-măz). [L. *anathĕma*, fr. Gr. *ἀνάθεμα* anything devoted, esp. to evil, a curse; cf. L. *anathēma*, a votive offering, Gr. *ἀνάθημα*; all fr. *ἀνατιθέναι* to set up as a votive gift, dedicate; *ἀνά* up + *τιθέναι* to set. See THESIS.] **1.** A ban or curse pronounced with religious solemnity by ecclesiastical authority, and accompanied by excommunication. Hence: Denunciation of anything as accursed.

[They] denounce *anathemas* against unbelievers. *Priestley.*

2. An imprecation; curse; malediction.

Finally she fled to London followed by the *anathemas* of both [families]. *Thackeray.*

3. Any person or thing anathematized, or cursed by ecclesiastical authority.

The Jewish nation were an *anathema* destined to destruction. St. Paul . . . says he could wish, to save them from it, to become an *anathema*, and be destroyed himself. *Locke.*

Syn.— See CURSE.

a-nath'e-ma mar'a-nath'a (măr'ă-năth'ă). [Gr. *ἀνάθεμα Μαρὰν ἀθά.*] An expression occurring in 1 Cor. xvi. 22, formerly thought to be a double curse, or a curse intensified by a prayer. *Maranatha* is now considered to be two Aramaic words used by way of supplication or invocation, and meaning literally "Our Lord cometh," or more probably, "O (or Our) Lord, come!"

a-nath'e-ma-ta'za'tion (ă-năth'ĕ-mă-tĭ-zā'shŭn; -tī-), *n.* [LL. *anathematisatio.*] An anathematizing; imprecation.

a-nath'e-ma-tize (ă-năth'ĕ-ma-tīz), *v. t. & i.*; A-NATH'E-MA-TIZED (-tīzd); A-NATH'E-MA-TIZ'ING (-tīz'ĭng). [L. *anathematizare*, Gr. *ἀναθεματίζειν* to devote, make accursed: cf. F. *anathématiser.*] To pronounce an anathema against; to curse. — **a-nath'e-ma-tiz'er** (-tīz'ĕr), *n.*

A-nat'i-dæ (ă-năt'ĭ-dē), *n. pl.* [NL., fr. L. *anas, anatis*, duck.] *Zoöl.* A large family of birds, including several subfamilies: the true ducks (*Anatinæ* and *Fuligulinæ*); the geese (*Anserinæ*), the swans (*Cygninæ*), and the mergansers (*Merginæ*). They have heavy bodies, short legs, webbed feet, a leathery bill with a hard horny nail at the tip, and transverse toothlike ridges or lamellæ on the biting edges; and they are more or less aquatic in their habits.

An'a-ti'næ (ăn'ă-tī'nē), *n. pl.* [NL., fr. L. *anatinus* pert. to a duck.] *Zoöl.* A subfamily of Anatidæ, including all the ducks or limited to the fresh-water or river ducks, as the mallard, widgeon, wood duck, etc., which frequent shallow, mostly fresh water, where they can obtain their food without diving. Their hind toe is not lobed as in the Fuligulinæ. Their flesh is good eating. — **an'a-tine** (ăn'ă-tīn; -tĭn), *a.*

a-nat'o-cism (ă-năt'ō-sĭz'm), *n.* [L. *anatocismus*, Gr. *ἀνατοκισμός*; *ἀνά* again + *τοκιζειν* to lend on interest.] *Law.* Compound interest, or the taking of it.

An'a-to'li-an (ăn'ă-tō'lĭ-ăn), *a.* **a** Of or pertaining to *Anatolia*, a name first given in the days of the Byzantine empire to the country east of the Bosphorus, roughly coincident with Asia Minor. **b** Designating or relating to the inhabitants of Anatolia, esp. its ancient peoples, probably of the Mediterranean race, but early influenced in culture by neighboring Semitic peoples.

The characteristic which specially distinguishes the *Anatolian* religion is its conception of the Divine Being as the mother, not the father, of mankind. This feature runs through the social system and the history of the land. *Dict of Bible (Hastings).*

Anatolian pottery, a coarse white glazed pottery with bright-colored decorations, said to come from Kutaia.

An'a-tol'ic (-tŏl'ĭk), *a.* **1.** Anatolian.

2. Designating or pert. to a division of the Indo-European languages spoken mainly in Anatolia. See INDO-EUROPEAN.

an'a-tom'ic (ăn'ă-tŏm'ĭk) } *a.* [L *anatomicus*, Gr. *ἀνα-*
an'a-tom'i-cal (-ĭ-kăl) } *τομικός*: cf. F. *anatomique.* See ANATOMY.] Of or relating to anatomy or dissection; as, the *anatomic* art. — **an'a-tom'i-cal-ly**, *adv.*

anatomical neck (of the humerus). See HUMERUS. — **a. theater**, *or* **theatre**, a theater, such as that for anatomical demonstrations in medical schools, having the seats arranged on a very steep slope.

a-nat'o-mism (*a*-năt'ŏ-mĭz'm), *n.* [Cf. F. *anatomisme.*] The application of the principles of anatomy, as in art.

The stretched and vivid *anatomism* of their [i. e., the French] great figure painters. *London Spectator*

a-nat'o-mist (-mĭst), *n.* [Cf. F. *anatomiste.*] A person skilled in anatomy.

a-nat'o-mi-za'tion (-mĭ-zā'shŭn; -mī-), *n.* Act or process of anatomizing; also, *Obs.*, anatomical structure.

a-nat'o-mize (ă-năt'ŏ-mīz), *v. t.*; A-NAT'O-MIZED (-mīzd); -MIZ'ING (-mīz'ĭng). [Cf. F. *anatomiser.*] **1.** To dissect; to cut in pieces, as an animal or vegetable body, in order to display or examine the structure and use of the several parts.

2. To discriminate minutely or carefully; to analyze.

If we *anatomize* all other reasonings of this nature, we shall find that they are founded on the relation of cause and effect. *Hume.*

a-nat'o-my (-mĭ), *n.*; *pl.* -MIES (-mĭz). [F. *anatomie*, L. *anatomia*, Gr. *ἀνατομή* dissection, fr. *ἀνατέμνειν* to cut up; *ἀνά* + *τέμνειν* to cut. See TOME.] **1.** The art of dissecting, or artificially separating the different parts of any animal or plant, to discover their situation, structure, and economy; dissection.

2. The science which treats of the structure of animals or plants. Anatomy is divided into *osteology, arthrology, myology, neurology, splanchnology*, etc., according to the structures or parts of the body with which it deals. *General anatomy* deals with the tissues and their properties, regardless of the organs into which they are formed. Since their characters are mostly to be made out only with the microscope, *general anatomy* is practically synonymous with *histology*. *Gross anatomy* deals only with structures and characters discernible with the naked eye. *Human anatomy* is divided into: *descriptive anatomy*, treating of the character, form, size, and position of organs and parts; *surgical anatomy*, treating esp. of their situation and relative position as affecting their liability to injury and accessibility for surgical operations; and *topographical anatomy*, the anatomy of particular regions of the body with especial reference to medical diagnosis as well as surgery. *Comparative anatomy* treats of the structure of animals, esp. as exhibiting their relations to each other and to man.

3. A treatise on anatomic science or art.

4. The structure or organization of an animal or plant.

5. Act of dividing anything, corporeal or intellectual, to examine its parts; analysis; as, the "*Anatomy* of Wit."

6. A skeleton; anything anatomized or dissected, or which has the appearance of being so.

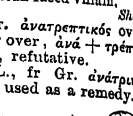
The *anatomy* of a little child, representing all parts thereof, is accounted a greater rarity than the skeleton of a man. *Fuller.*

They brought one Pinch, a hungry, lean-faced villain,
A mere *anatomy*. *Shak.*

an'a-trep'tic (ăn'ă-trĕp'tĭk), *a.* [Gr. *ἀνατρεπτικός* overturning, fr. *ἀνατρεπειν* to turn up or over, *ἀνά* + *τρέπειν* to turn.] Overthrowing; defeating, refutative.

an'a-trip'sis (ăn'ă-tri'p'sĭs), *n.* [NL., fr Gr. *ἀνάτριψις* friction.] *Med.* Friction or rubbing used as a remedy.—**an'a-trip'tic** (-tĭk), *a.*

a-nat'ro-pous (*a*-năt'rō-pŭs), *a.* [*ana-* up + *-tropous.*] *Bot.* Having the ovule inverted at an early period in its development, so that the micropyle is bent down to the funicle, to which the body of the ovule is united.



Anatropous Ovule.
1 Raphe, 2 Chalaza; 3 Micropyle; 4 Hilum.

an'bur-y (ăn'bĕr-ĭ), **am'bur-y** (ăm'-), *n.* [Cf. AS. *ampe, ompe*, a crooked swelling vein, E dial. *amper* a tumor with inflammation, or *ag-* in *agnail*, and *berry* a fruit.] **1.** *Far.* A soft tumor or bloody wart on a horse or ox. **2.** = CLUBROOT.

-ance, -ancy, -ence, -ency. [F. *-ance, -ence*, fr. L. *-antia, -entia.*] Suffixes of nouns derived or formed in general as follows: **a** From Old French nouns (1) surviving from Latin abstract nouns (chiefly of quality or state) in *-antia, -entia*, fr. pr. p. stems in *-nt-*; or (2) formed by analogy from the pr. p. in *-ant* with the general sense of *action* or *process*; as in assist*ance*, complais*ance*, parl*ance*, etc. In these the forms from L. *-antia* and *-entia* were leveled to *-ance*. **b** From nouns adopted into French from Latin nouns in *-ăntia, -entia*, following the L. in the vowel of *-ance* or *-ence*, and generally denoting *quality* or *state*; as in diligence, temperance. **c** In some cases from native words, and denoting in general *action* or *process*; as in forbear*ance*, ridd*ance*. The words derived as in **a** and **b** were adopted in ME. and generally retained the OF. spelling; but since about 1500 some words of the **a** group originally spelled *-ance*, but derived fr. L. *-entia*, have changed the vowel to *e* after the L.; and those since then taken or formed directly from the L. follow its forms with *-ance* or *-ence*. These words are therefore inconsistently spelled in English; cf. resist*ance*, subsist*ence*, attend*ance*, superintend*ence* (see *Introd.*, Rules for Spelling, § 30); and in meaning are partly nouns of *action* as in OF., partly nouns of *state* or *quality* as in L. These latter senses are now more distinctly specified by the Eng. variants, *-ancy, -ency* (formed perh. on analogy of words in *-cy*, reflecting L. *-cia, -tia*); cf. compl*iance*, compl*ancy*; confl*uence*, fl*uency*. The meanings of nouns formed with these suffixes may be classified as follows.

1 From the verb senses. *Act* or *fact* of doing what the verbal root denotes, as, assist*ance* (act of assisting), sometimes implying some modification as of *continuance, manner*, etc; as in, resist*ance* to pressure; emergen*ce* from obscurity; his first sudden appear*ance* among them was followed by repeated appear*ances*

2. From participle adj. senses: *State, condition*, or *quality of being*, pl., *instances of being*, what the root word denotes; as in violen*ce* (condition or quality of being violent), sometimes also with special implication of *continuance, manner*, etc., as in, eleg*ance* of dress, sufficien*cy* of time, unexcused absen*ces*.

3. *Concrete fact* or *thing* (transferred use, as by metonymy); as in, standing on an eminen*ce*, Ceylon is a dependen*cy*

an'ces-tor (ăn'sĕs-tẽr), *n* [ME *ancestre, auncestre*, also *ancessour*; the first forms fr OF *ancestre*, F. *ancêtre*, fr. the L nom. *antecessor* one who goes before; the last form fr. OF. *ancessor*, fr. L. acc. *antecessorem*, fr *anteceder* to go before; *ante* before + *cedere* to go. See CEDE; cf. ANTECESSOR.] **1.** One from whom a person is descended, whether on the father's or mother's side, at any distance of time, a progenitor; a forefather.

2. *Biol.* A progenitor (living in an earlier geological period) of a more recent or existing species or group.

3. *Law.* One from whom an estate has descended; — the correlative of *heir*. At the common law *ancestor* applies only to a person in the line of ascent, or later also of descent; but under the statutes the term has a wider meaning, including any person of lineal or collateral relationship from whom the property has been derived by descent. In the case of a corporation *predecessor* and *successor* are used instead of *ancestor* and *heir*. See DESCENT.

an'ces-to'ri-al (ăn'sĕs-tō'rĭ-ăl), *a.* Ancestral. "In his *ancestorial* district." *Lockhart.* — **an'ces-to'ri-al-ly**, *adv.*

ancestor worship. Worship of ancestors, a form of worship met with in almost every society as it emerges from savagery and frequently persisting, as with the ancient Romans and the Chinese and Japanese, into civilization. It is not usually the sole worship of the people who profess it.

an-ces'tral (ăn-sĕs'trăl; *formerly also* ăn'sĕs-trăl), *a.* Of, pertaining to, derived from, or possessed by, an ancestor or ancestors; as, an *ancestral* estate. — **an-ces'tral-ly**, *adv.*

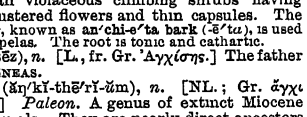
an'chor, *n.* [ME *anker*, AS. *ancor*, *oncer*, L. *ancora*, sometimes spelt *anchora*, fr. Gr. ἄγκυρα, prob. akin to E. *angle*· cf. F. *ancre.* See ANGLE, *n.*] **1.** An instrument which is attached to a ship or other vessel by a cable, and which, being cast overboard, lays hold of the earth by a fluke or hook and thus holds the vessel in a particular place; also, anything used for a similar purpose, as a heavy weight, a float, etc. Anchors were formerly made of iron, but are now usually of forged or cast steel The old, but probably still the most common, form is that with two branching arms and a transverse stock (see *Illust.*). The modern stock is a removable iron beam running through the shank. There are various patent anchors, most of which are stockless and have their arms pivoted and their flukes side by side, so that both enter the ground. These are widely used on account of their convenience, esp. in stowing, but they are hardly superior to the old anchor in holding power. Formerly the largest and strongest anchor was the *sheet anchor* (hence, fig., best hope or last refuge), called also *waist anchor*, because carried in the ship's waist. Then came the *best bower* and the *small bower*, so called from being carried on the bows. At present the sheet anchor and bowers are usually all of the same weight, the former being practically a spare bower, carried, like the other two, on the bows. The *stream anchor* is about one fourth the weight of the bower anchor. *Kedges*, or *kedge anchors*, are small anchors for light work, as in warping. A bower anchor for a modern battle-ship weighs as much as 18,000 pounds; kedges vary from 100 to 900 pounds. See also MUSHROOM ANCHOR, SCREW ANCHOR.



Anchor. 1 Common Anchor; *a a* Stock; *b* Shank; *c c* Flukes; *d d* Arms. 2, 3 Two views of a Patent Anchor. 4 Screw Anchor. 5 Mushroom Anchor.

2. Ancyrene canons, twenty-five canons passed at a council of the church at Ancyra, 314 A. D. — **A. inscription**, *Rom. Hist.*, the copy, and Greek translation, of the *Index rerum a se gestarum* (or "list of acts done by himself") of Augustus, engraved on marble in his temple at Ancyra (now Angora). The original, which is lost, was on bronze tablets in front of his mausoleum at Rome.

and (ănd; 270), *conj.* [AS. *and*; akin to OS. *endi*, Icel. *enda*, OHG. *anti*, *enti*, *inti*, *unti*, G *und*, D. *en*, OD. *ende*; cf. Skr. *atha* then, also. Cf. AN if.] **1.** A particle expressing the general relation of connection or addition, and used to conjoin word with word, clause with clause, or sentence with sentence, sometimes with an implication of: **a** Repetition; as, they rode two *and* two, hundreds *and* hundreds. **b** Variation or difference, as, "there are women *and* women," that is, women of different sorts. **c** The modification of one of the connected ideas by the other; as, "the tediousness *and* process of my travel," that is, "the tedious process," etc.; "thy fair *and* outward character," that is, "outwardly fair character." **d** A consequence or sequel; as, I said go, *and* he went. *And* is very frequently used where accurate and proper expression requires the word *or*; but, in the legal construction of language, either word will be treated as if it were the other whenever this construction is plainly required to give effect to the intention of the person using it; thus, in a bequest to "a person *and* her bodily issue" *and* may be read as *or*; in a law providing that certain cities may tax property "taxable for State *and* county purposes," *and* may be construed as *or*. Such use of the word *and*, although common, is improper; and the words *and* and *or* are not properly in any sense interchangeable.

2. In order to; — used instead of the infinitival *to* after *try*, *come*, *go*, *send*, and colloquially or dialectically after various other verbs.

> At least to try *and* teach the erring soul *Milton.*

3. Sometimes merely expletive or intensive. *Obs. or Dial.*

> When that I was *and* a little tiny boy *Shak.*

"Dig away, boys," said Silver, with the coolest insolence; "you'll find some pignuts, *and* I should n't wonder" *Stevenson.*

4. If; though. See AN, *conj.* *Obs.*

> As they will set an house on fire, *and* it were but to roast their eggs *Bacon.*

and so forth, and others or more of the same or of similar kind; further in the same or similar manner; and the rest; and other things or ingredients. The abbreviation, *etc.* (*et cetera*), or *&c.*, is usually read *and so forth*.

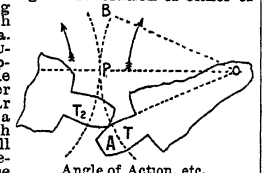
The arc corresponding to either of these angles is called the *arc of approach.* —**a. of commutation,** *Astron.,* the difference between the heliocentric longitudes of the earth and a planet. *Rare.* —**a. of contingence,** *Math.,* the infinitesimal angle between two consecutive tangent lines to a curve. —**a. of curvature,** *Geom.,* one that measures the amount of curvature of a curve; the angle between two consecutive normals to the curve. In the case of a twisted curve these normals must be taken in the osculating plane. —**a. of declination,** the angle made by a descending line, or plane, with a horizontal plane. —**a. of defense,** *Fort.,* the angle between the line of defense and the line of the flank. See BASTIONED FRONT, *Illust.* —**a. of departure,** *Gun.,* the angle which the line of departure of a projectile makes with the plane of the horizon. —**a. of depression.** **a** *Geodesy.* The angle which a descending line makes with the horizon. **b** *Gun.* See ANGLE OF ELEVATION **b** (2). —**a. of descent.** = ANGLE OF FALL. —**a. of dip.** See *dip of the needle,* under DIP. —**a. of divergence,** *Bot.,* in phyllotaxis, the angle between successive members of the same spiral or whorl, measured on the circumference of the stem. —**a. of draft,** the angle between the line of pulling force and the surface over which the load is drawn. —**a. of eccentricity,** *Math.,* the antisine of the eccentricity of an ellipse. —**a. of elevation.** **a** *Geodesy.* The angle made by an ascending line with a horizontal plane. **b** *Gun.* (1) The angle between the axis of a gun and the line of sight, called specif. *sight elevation.* (2) The angle between the axis of a gun and the plane of the horizon, called specif. *quadrant elevation,* because measured by the quadrant. When the gun is pointed downward the angle is negative, and is then also called *angle of depression.* —**a. of fall,** *Gun.,* the angle, at the point of impact, between the tangent to the trajectory at that point and the plane of the horizon; —called also *angle of descent.* —**a. of friction** (between two bodies), *Mech.,* the angle which the plane of contact between two bodies makes with the horizontal when the upper body is just on the point of sliding; the angle whose tangent is the coefficient of friction between the two bodies. See also *angle of repose,* below. The angle of friction varies for different pairs of bodies; thus, for steel on steel, it is about 8°; brass on cast iron, 12½°, etc. —**a. of impact,** *Gun.,* the angle made, at the point of striking, by the path of the projectile with the surface struck. —**a. of incidence,** the angle which any line, as of a ray of light falling on a surface, makes with a perpendicular to that surface; also, formerly, the complement of this angle. —**a. of keying,** *Mech.,* the angle between the crank and the eccentric radius in a simple valve gear. It is equal to the angular advance plus a right angle. *Unwin.* —**a. of lag,** *Elec.,* the angle of deviation of the magnetic axis of the armature of a dynamo, due to hysteresis. —**a. of lead** (lēd), *Elec.,* the angle through which the brushes of a commutator must be shifted on account of the magnetic lag and of the effect of the magnetization of the armature current. —**a. of obliquity** *or* **pressure,** *Mech.,* the angle which the line of pressure of two gear teeth in contact makes with the tangent at the point of contact of the two pitch circles. Where this angle is constant for every position of contact of the same pair of teeth it is commonly 15½°. —**angle of ordination,** *Geom.,* the angle between the axes of coördinates. —**a. of polarization,** *Opt.* See POLARIZATION. —**a. of position.** **a** *Astron.* The angle which any line (as that joining two stars) makes with another fixed line, specifically with an hour circle, —usually counted from the north counterclockwise, through 360°. **b** *Gun.* The angle between the horizontal plane and a line passing through the gun and the target. —**a. of presentment,** *Nav.,* the direction of the enemy from a ship, usually measured from the beam; also, the angle between the path of a projectile and a perpendicular or normal to the surface hit. —**a. of pressure.** = A. OF OBLIQUITY. —**a. of recess,** *Mech.,* the angle turned through by either of a pair of wheels in gear from the coincidence of the pitch points of a pair of teeth until the last point of contact of the teeth. The arc corresponding to either of these angles is called the *arc of recess.* —**a. of reflection,** the angle which anything, as a ray of light, on leaving a reflecting surface, makes with the perpendicular to the surface. See *angle of incidence,* above. —**a. of refraction.** See REFRACTION. —**a. of relief,** *Mech.,* the angle between the end face of a cutting tool and the work. In a circular revolving tool it is the angle made by a cutting edge with a tangential plane to the circle including it, as in a twist drill. The larger the angle of relief the more easily will the cuttings come away from the work, but the weaker will be the tool. —**a. of repose.** **a** = ANGLE OF FRICTION. Specif., in *Arch.,* the maximum angle of the bed joints at which the stones of an arch will remain supported by friction. Its value is about 32°. **b** *Civ. Engin.* The maximum angle of slope which the side of a heap or embankment of sand, earth, etc., can have without sliding. Approximate values of this angle are: for wet clay earth, 17°; for fine sand, 31°; for dry earth, 39°; for gravel, 39° to 48°. —**a. of sight.** *Gun.* = ANGLE OF ELEVATION **b** (1). —**a. of skew,** *Arch.,* the angle between the axis of a skew arch or vault and the axis of the wall, embankment, or the like, which it crosses. It should not exceed 70°. —**a. of stability.** = ANGLE OF FRICTION. —**a. of the jaw,** *Human Anat.,* the angle formed by the junction of the rami and the body of the lower jaw bone. At birth this angle is obtuse (about 175°), becoming less and approaching a right angle in the adult. In old age, owing to the loss of the teeth, it may again become obtuse. —**a. of torsion.** **a** *Math.* The infinitesimal angle between two consecutive planes of osculation to a curve. **b** *Mech.* The angle through which a radial section of a body, as a wire or a shaft, deflects from its normal position when the body is subjected to torque. —**a. of total reflection.** *Optics.* = CRITICAL ANGLE. —**a. of traction.** *Mech.* = ANGLE OF DRAFT.



Angle of Action, etc.
P = Pitch Point; *A* and *B* First and Last Engagements of Tooth *T* with *T*₂; *AOB* Angle of Approach; *POB* Angle of Recess; *AOB* Angle of Action; *AP* Arc of Approach; *PB* Arc of Recess

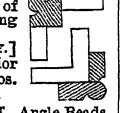
an'gle (ăŋ'g'l), *v. i.* [From ANGLE corner.] To run or retreat into an angle or corner. *Obs.*

an'gle, *v. t.* **1.** To turn, bend, or move at an angle or in angles.

Animals will jump or "*angle*" themselves around a short triangular panel or A-fence. *W. M. Camp.*

2. To drive into an angle; to corner; usually, specif., *Eng. Billiards,* to drive or get (the cue ball) into the jaws of a pocket so that the object ball cannot be directly played.

angle bead. *Arch.* A bead, having a quirk on each side, worked on or fixed to the angle of any architectural work, esp. for protecting an angle of a wall.



Angle Beads.

an'gle-ber'ry (ăŋ'g'l-bĕr'ĭ), *n.* [Cf. ANBURY.] *Vet.* **a** Tuberculosis as it appears in the interior of the thorax near the angle of the ribs. *Local.* **b** = ANBURY, 1. *Scot. & Dial. Eng.*

angle brace. **1.** A brace across an interior angle.

2. A kind of drilling brace for use where the ordinary brace is not convenient, as in corners. See BRACE, *Illust.*

angle brick. A brick of oblique shape, as for use at a salient angle.

angle bulb. An angle bar having a bulb on the edge of a flange.

angle capital. *Arch.* The capital of a corner column, esp. one modified from the ordinary form so as to face on both sides of the corner, as in the Ionic order.

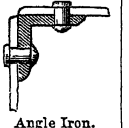
angle clip. A short piece of angle iron for connecting plates at angles.

an'gled (ăŋ'g'ld), *a.* Having an angle or angles; specif., *Her.,* of a dividing line on a shield, broken by a section at right angles to the rest.

angled draft *or* **draught,** a method of drawing cloth in which it is twilled alternately to the left and right, producing an angled stripe or herringbone.

angle gauge. A goniometer.

angle iron. *Mech.* A bent piece used for joining two or more parts of a composite structure at an angle; specif., a rolled iron or steel bar of L section, largely used in structural ironwork.



Angle Iron.

an'gle-me'ter (ăŋ'g'l-mē'tẽr), *n.* [*angle* + *-meter.*] **1.** An instrument to measure angles; esp., a clinometer.

2. *Mach.* An apparatus for indicating the variations in angular velocity of an engine crank shaft during a revolution.

angle plate. *Mach.* A plate having an L-shaped or angular section.

an'gle-pod' (-pŏd'), *n.* Any of several species of *Vincetoxicum,* esp. *V. gonocarpos* of the southern United States, which has an angled pod.

an'gler (ăŋ'glẽr), *n.* **1.** One who angles.

2. A pediculate fish (*Lophius piscatorius*), of Europe and America, having a large broad and depressed head, with the mouth very large. It reaches a length of from three to five feet, and is said to lie partly buried on the bottom and to entice other fishes within its reach by movements of fleshy appendages on the head. The name is extended to allied fishes.

Angler (*Lophius piscatorius*).

3. A thief who steals articles through windows by using a pole with a hook. *Slang, Eng.*

angle rafter. *Arch.* Any rafter at the angle of a roof; specif.: **a** The hip rafter. **b** The principal rafter under the hip rafter.

angle rib. *Arch.* **a** In Gothic vaulting, one of the great diagonal ribs which divide each rectangle of the vaulting, and form the main part of the structure. **b** In decorative work, a group of moldings ornamenting an angle.

An'gles (ăŋ'g'lz), *n. pl.* [L. *Angli.* Cf. AS. *Angle, Engle,* Angles.] A Germanic people first known as located in a part of the modern Schleswig-Holstein (now included in Germany), who with Saxons and Jutes came to England in the 5th century of our era and conquered the country. From their name come the words *England* and *English.* Their settlements extended along the eastern coast north of Essex (East-Saxon territory) and westward to the territory held by the Britons, and included the kingdoms of East Anglia, Northumbria, and Mercia. Cf. ANGLO-SAXON.

angle shaft. *Arch.* An enriched angle bead, often having a capital or base, or both.

an'gle-site (ăŋ'glẽ-sīt), *n.* [From the Isle of *Anglesea.*] *Min.* Lead sulphate, $PbSO_4$, occurring massive or in white or slightly colored orthorhombic crystals. It is an ore of lead. H., 2.75–3. Sp. gr., 6.3–6.4.

angle steel. *Mech.* Steel in rolled bars of L section. Cf. ANGLE IRON.

angle valve. *Mech.* A pipe fitting consisting of a chamber containing a valve and having its inlet at an angle, usually a right angle, with its outlet.

an'gle-wing' (ăŋ'g'l-wĭng'), *n. Zoöl.* One of a group of butterflies, including the genera *Vanessa, Grapta,* and their allies, having the outer edge of the fore wings more or less notched or angular.

an'gle-worm' (-wûrm'), *n.* An earthworm (which see); —so called because used by anglers for bait.

An'gli-an (ăŋ'glĭ-ăn), *a.* Of or pertaining to the Angles. —*n.* One of the Angles, or the dialect of the Angles.

An'gli-can (-kăn), *a.* [LL. *Anglicus* English, fr. L. *Angli* the Angles. Cf. ENGLISH.] **1.** English; of or pertaining to England or the English nation; esp., pertaining to, or connected with, the Church of England and churches in communion with it; as, the *Anglican* Church, Communion, doctrine, orders, ritual, etc.

An'glo-phile (ăŋ'glō-fīl; -fĭl) } *a.* [*Anglo-* + *-phile, -phil.*]
An'glo-phil (ăŋ'glō-fĭl) } Approving or favoring English policy or manner. — *n.* One who upholds English policy or manner.

An'glo-phobe (-fōb), *a.* [*Anglo-* + *-phobe.*] Hating the English, or opposed to England. — *n.* A person having Anglophobia.

An'glo-pho'bi-a (-fō'bĭ-*a*), *n.* [*Anglo-* + *-phobia.*] Intense dread of, or aversion to, England or the English. — **An'glo-pho'bic** (-fō'bĭk, -fōb'ĭk), *a.*

An'glo-Sax'on, *n.* [L. *Angli-Saxones* English Saxons.] **1.** *a pl.* The Low German tribes which invaded and occupied southern and eastern England and southern Scotland in the 5th and 6th centuries. **b** A member of the Anglo-Saxon nation which in England was created by the consolidation of these tribes, together with native and Danish elements, and which continued as the ruling power of England until the Norman Conquest. The immigrant tribes came from the shores of the North Sea, chiefly from what is now Schleswig-Holstein, and consisted of Angles, settling in the north of England, Saxons in the center and south, and Jutes in the southeast. Ethnologically and linguistically they were closely allied to the Frisians and the Dutch, and to the Danes, who later effected a settlement on the eastern coast and for a time held supreme power, as also to the occasional Norwegian invaders. From the native British (represented by the modern Welsh and Cornishmen) they differed widely in language and race, and only gradually effected a partial amalgamation.

2. A person belonging to the mixed race which forms the English nation; primarily, a person descended from the early Anglo-Saxons; broadly, a member of, or a person descended from, any of the races of the British Isles. While in the opinion of ethnologists the people of Great Britain represent a commingling of at least three great races, the Iberian or Mediterranean, the Celtic, and the Teutonic, they present to-day a fairly uniform type characterized by tall stature, pronounced dolichocephaly, and an intermediate distribution of blond and brunet traits.

3. The language of the Anglo-Saxon invaders of England. Two main dialects of Anglo-Saxon are recognized, a northern, including Northumbrian and Mercian, or Midland, and a southern, including Kentish and West Saxon. The latter was the chief literary language previous to the Conquest, but modern English is derived more from the Midland dialect, which was the direct ancestor of the language of Gower, Wycliffe, and Chaucer. Many modern scholars employ the term *Old English* in place of *Anglo-Saxon.* See INDO-EUROPEAN, and ENGLISH, *n.*, 2.

An'glo-Sax'on, *a.* Of or pertaining to the Anglo-Saxons or their language. The **Anglo-Saxon**, or **Old English**, alphabet, dating from about 600 A. D. (previous to which time the runes were used), consists of the Latin alphabet as modified by early English scribes. The letters *f, g, r,* and *s* were those most changed in form, while three new characters were added, namely, *ð* (edh), *þ* (thorn), and *p* (wyn), the two latter being runes and the first a simple *d* crossed. See EDH, THORN, WYN.

An'glo-Sax'on-dom (-săk's'n-dŭm), *n.* The Anglo-Saxon domain (i. e., Great Britain and the United States, etc.), the Anglo-Saxon race.

An'glo-Sax'on-ism (-ĭz'm), *n.* **1.** A characteristic of the Anglo-Saxon race; esp., a word or an idiom of the Anglo-Saxon tongue. *M. Arnold.*

2. The quality or sentiment of being Anglo-Saxon, in its ethnological sense.

An-go'la (ăŋ-gō'lȧ), *n.* A country in Africa. (See *Gaz.*)
Angola pea. = PIGEON PEA. — **A. weed.** See ARCHIL, 20.

An-go'la, *n.* A corrupt. of ANGORA.
Angola cashmere, an imitation cashmere made of Angora wool. — **A. cat.** = ANGORA CAT. — **A. cloth.** = ANGORA CLOTH. — **A. mellowing,** *Weaving,* a mellowing, or mixture, of wool and cotton blended by teasing. — **A. mendings,** a darning yarn composed of a mixture of wool and cotton. — **A. seed,** the jequirity bean.

an'gor (ăŋ'gôr), *n.* [L. See ANGER.] *Med.* Great anxiety accompanied by painful constriction at the upper part of the belly, often with palpitation and oppression.

An-go'ra (ăŋ-gō'rȧ), *n.* **1.** A city of Asia Minor or Anatolia. (See *Gaz.*)

2. A cloth, fringe, shawl, or the like, made of real Angora wool, or an imitation of it.
Angora cat. A variety of the domestic cat with very long and silky hair. — **A. cloth,** a cloth made of Angora wool, or mohair, notable for its luster and great durableness; also, any of various cloths made in imitation of this, esp. one of mixed wool and cotton. (See MOHAIR.) — **Angora goat,** a variety of the domestic goat, reared for its long silky hair, which is the true mohair of commerce and differs from the wool of the sheep in not felting. — **A. rabbit,** a variety of the domesticated rabbit having long fleecy hair. — **A. wool,** the wool of the Angora goat; mohair.

an'gos-tu'ra bark (ăŋ'gŏs-tōō'rȧ bark). [From *Angostura,* former name of Ciudad Bolívar in Venezuela.] An aromatic bitter bark used as a tonic and febrifuge, now less than formerly, obtained from a South American rutaceous tree (*Cusparia angostura*). It contains the following crystalline alkaloids: *cusparine* ($C_{20}H_{19}O_3N$), *cusparidine* ($C_{19}H_{17}O_2N$), *galipine* ($C_{20}H_{21}O_3N$), and *galipidine* ($C_{19}H_{19}O_3N$). Called also *cusparia bark.*

An'gou'mois' moth (aŋ'gōō'mwä'). [From *Angoumois,* old province of France.] A small tineid moth (*Sitotroga cerealella*) very destructive to wheat and other grain. The larva eats out the entire interior of the grain.

Angoumois Moth. (× 2)

an'gri-ly (ăŋ'grĭ-lĭ), *adv.* In an angry manner; under the influence of anger.

an'gri-ness, *n.* Quality or state of being angry.
Such an *angriness* of humor that we take fire at everything. *Whole Duty of Man.*

an'gry (ăŋ'grĭ), *a.*; AN'GRI-ER (-grĭ-ẽr); AN'GRI-EST. [See ANGER.] **1.** Full of trouble or vexation; troublesome or troubled; vexatious or vexed; rigorous. *Obs.*
God had provided a severe and *angry* education to chastise the forwardness of a young spirit. *Jer. Taylor*

2. Inflamed and painful, as a sore.

3. Touched with anger; subject to, or stirred by, the emotion of anger, feeling vexation or resentment, enraged; — followed generally by *with* before a person, and *at* before a thing
Be not grieved, nor *angry* with yourselves. *Gen.* xlv. 5.
Wherefore should God be *angry* at thy voice? *Eccles.* v. 6

4. Showing anger; proceeding from anger; acting as if moved by anger; wearing the marks of anger; as, *angry* words; an *angry* sky; an *angry* countenance.

5. Red. *Rare.*
Sweet rose, whose hue, *angry* and brave. *Herbert*

6. Sharp; keen; stimulated. *Rare.*
I never ate with *angrier* appetite. *Tennyson.*

Syn. — ANGRY, PASSIONATE, IRASCIBLE. ANGRY comes into comparison with but one sense of PASSIONATE (see PASSIONATE). One is *angry* who is actually manifesting anger; one is *passionate* who is quickly or easily moved to an outburst of wrath. One is IRASCIBLE who is by temperament prone to anger, but not necessarily to violent wrath. As applied to speech, *passionate* implies vehemence, but not necessarily anger (cf. *impassioned,* under PASSIONATE). See ANGER, IRASCIBLE, IMPATIENT.
An *angry* man stirreth up strife *Prov.* xxix 22.
I wonder how Anne will bear this affliction? She is *passionate,* but stout-hearted and courageous in important matters, though irritable in trifles. *Scott.*

Ång'strom unit (ông'strŭm; ŏng'-) [After A. J. *Ångström* (1814–74), Swedish physicist.] *Physics.* A minute unit of length equal to one ten-thousandth of a micron or one hundred-millionth of a centimeter, used in expressing wave lengths of light.

An'gui-dæ (ăŋ'gwĭ-dē), *n. pl.* [NL., fr. L. *anguis* snake.] *Zoöl.* A family of lizards, some of which are limbless, as the glass-snakes and blindworm. All are entirely harmless, and are useful as destroyers of worms and insects. — **an'guid** (ăŋ'gwĭd), *n.*

an'gui-form (ăŋ'gwĭ-fôrm), *a.* [L. *anguis* snake + *-form.*] Snake-shaped.

An-guil'la (ăn-gwĭl'ȧ), *n.* [NL., fr. L. *anguilla* eel.] *Zoöl.* The genus of fishes to which the common eel belongs. See EEL.

An'guil-la'ri-a (ăŋ'gwĭ-lā'rĭ-*a*), *n.* [NL., after Luigi *Anguillara* (d. 1570), an Italian botanist.] *Bot.* A genus of melanthaceous plants, similar to *Ornithogalum,* natives of Western Australia and Tasmania. The two species have small, sessile, lilylike flowers. Also [*l. c.*], a plant of this genus.

an-guil'li-form (ăn-gwĭl'lĭ-fôrm), *a.* [L. *anguilla* eel + *-form.*] Eel-shaped.

An-guil'lu-la (-ū-lȧ), *n.* [NL., dim. of *anguilla.*] *Zoöl.* A genus of minute nematode worms of which the vinegar eel (*Anguillula aceti*) is the best known. See VINEGAR EEL.

an'guine (ăŋ'gwĭn), *a.* [L *anguinus,* fr. *anguis* snake.] Of, pertaining to, or like, a snake or serpent; as, eyebrows with an *anguine* curve.

an-guin'e-al (ăn-gwĭn'ē-ăl), *a.* Anguineous.
anguineal hyperbola, *Math.,* one of third degree, with one asymptote and three inflections. *Newton.*

an-guin'e-ous (-ŭs), *a.* [L. *anguineus.*] Snakelike; serpentine; winding.

an'gui-ped (ăŋ'gwĭ-pĕd), *a.* [L. *anguipes; anguis* serpent + *pes, pedis,* foot.] Having legs in the form of serpentlike bodies or tails; — a form in which the Giants of Greek mythology are often represented.

An'guis (ăŋ'gwĭs), *n.* [NL., fr. L. *anguis* a snake.] *Zoöl.* A genus of limbless lizards including only the blindworm.

an'guish (ăŋ'gwĭsh), *n.* [ME. *anguishe, anguise, angoise,* F. *angoisse,* fr. L. *angustia* narrowness, difficulty, distress, fr. *angustus* narrow, difficult, fr. *angere* to press together. See ANGER.] Extreme pain, either of body or mind; excruciating distress. Rarely used in *pl.*
But they hearkened not unto Moses for *anguish* of spirit, and for cruel bondage. *Ex.* vi. 9
Anguish as of her that bringeth forth her first child. *Jer.* iv. 31.

Syn. — Agony, pang, torture, torment. See DISTRESS.

an'guish (ăŋ'gwĭsh), *v. t. & i.* [OF. *angoissier,* F. *angoisser.*] To distress, affect, or suffer with anguish.
The dead hornet which had caused him a moment of *anguish* dance such as a dervish might have envied. *S. Weir Mitchell*

an'gu-lar (ăŋ'gū-lar), *a* [L *angularis,* fr. *angulus* angle, corner.] **1.** Relating to an angle or to angles, having an angle or angles; forming an angle or corner; sharp-cornered; pointed; as, an *angular* figure.

2. Measured by an angle, as, *angular* distance.

3. Fig.: Lean; lank; raw-boned, ungraceful; sharp and stiff in character, as, remarkably *angular* in his habits and appearance; an *angular* female
angular acceleration, *Physics,* rate of change of angular velocity. — **a. advance,** *Steam Engine,* the excess over a right angle of the angle made by the virtual crank radius of the eccentric with the crank, being the angle the eccentric is in advance of the position it would occupy if the valve had no lap and lead. — **a. aperture.** See APERTURE, 3. — **a. artery,** *Anat.,* the terminal part of the facial artery, which passes up along the side of the nose to the inner angle of the orbit. — **a. belt,** *Mach.,* a belt of nearly triangular section, used esp. for connecting shafts at an angle with each other. It runs on grooved pulleys. — **a. capital.** *Arch.* Less proper equiv. of ANGLE CAPITAL. — **a convolution,** *Anat.,* one of the convolutions of the posterior part of the external surface of the parietal lobe of the cerebrum. — **a. distance,** the amount of the angle made at the eye by lines drawn from the eye to two objects. — **a divergence** *Bot* = ANGLE OF DIVERGENCE. — **a. gyrus** = ANGULAR CONVOLUTION. — **a. headdress,** the diamond headdress. — **a momentum** = MOMENT OF MOMENTUM. — **a motion,** the motion of a body about a fixed point or fixed axis, as of a planet or pendulum. It is measured by the angle passed over at the point or axis by a line drawn to the body. — **a perspective.** See PERSPECTIVE. — **a. point,** the point at which the sides of an angle meet; the vertex. — **a. processes,** *Anat.,* the processes terminating the supraorbital arches of the frontal bone. — **a sections,** *Math.,* a branch of analysis which treats of the relations of sines, tangents, etc., of arcs to the sines, tangents, etc., of their multiples or of their parts. *Rare.* — **a. vein,** *Anat.,* a vein which runs obliquely down at the side of the upper part of the nose and is continued across the cheek as the facial vein. — **a. velocity,** *Mech.,* the rate of angular motion, expressed, e. g., in degrees per second. — **a. wrench,** *Mach.,* a wrench adapted for use in corners or at inconvenient angles.

an'gu-la're (-lā'rē) } *angulare.*] *Anat.* A membrane bone in the lower posterior part of the lower jaw of most vertebrates except mammals.

an'gu-lar'i-ty (-lăr'ĭ-tĭ), *n.* Quality of being angular.

an'gu-late (ăŋ'gū-lāt), *v. t.* To make angular.

an'gu-late (ăŋ'gū-lāt) } *a.* [L. *angulatus,* p. p. of *angulare*
an'gu-lat'ed (-lāt'ĕd) } to make angular.] Having angles; angled; as, *angulate* leaves. — **an'gu-late-ly,** *adv.*

an'gu-la'tion (-lā'shŭn), *n.* Act of making angular; angular formation or shape.

an'gu-lo- (ăŋ'gū-lō-), **an'gu-li-** (-lĭ-). Combining forms from Latin *angulus,* angle.

an'gu-lom'e-ter (-lŏm'ē-tẽr), *n.* [*angulo-* + *-meter.*] An instrument for measuring external angles.

an'gu-lous (ăŋ'gū-lŭs), *a.* [L. *angulosus* cf F. *anguleux.*] Angular; having corners; hooked. *Rare.* *Glanvill.*

An'gus (ăŋ'gŭs; ăn'gŭs), *n. Celt. Myth.* A Gaelic god of love and amorous dalliance. He was a son of Dagda, whom he cheated of his underground palace. His harp was of so sweet a tone that whoever heard must follow. His kisses became invisible love-whispering birds

an-gust' (ăn-gŭst'), *a.* [L. *angustus.* See ANGUISH.] Narrow; strait. *Obs*

an-gus'tate (ăŋ-gŭs'tāt), *v. t.* [L. *angustatus,* p. p. of *angustare* to narrow.] To make angust, or narrow. *Obs.*

an-gus'tate, *a.* Narrowed.

an-gus'ti- (ăŋ-gŭs'tĭ-). Combining form of Latin *angustus,* narrow; as in *angustirostrate, angustifoliate.*

an-gus'ti-clave (-klāv), *n.* [*angusti-* + L *clavus* a nail, a stripe.] *Rom. Antiq.* A narrow stripe of purple worn by the equites on each side of the tunic as a sign of rank. Cf. LATICLAVE.

Angwantibo. (⅛)

an'gwan-ti'bo (ăŋ'gwăn-tē'bō), *n.* A small lemur (*Arctocebus calabarensis*) of West Africa. It has only a rudimentary tail.

an'har-mon'ic (ăn'hăr-mŏn'ĭk), *a.* [F. *anharmonique,* fr. Gr. ἀν- not + ἁρμονικός harmonic.] *Math.* Not harmonic.
anharmonic function *or* **ratio** (of four points *abcd* on a straight line), *Math.,* the quantity $\frac{ac}{ad} : \frac{bc}{bd}$, where the segments are to be regarded as plus or minus, according to the order of the letters. — **a. ratio** (of four points in a plane, $z_1\ z_2\ z_3\ z_4$), *Math.,* the quantity $\frac{z_1 - z_2}{z_2 - z_3} : \frac{z_1 - z_4}{z_4 - z_3}$, in which the *z*'s are vectors

an'il, *n.* [From *aniline.*] *Chem.* A compound, with a bivalent radical, of the group C_6H_5N:, or (by extension) of the group RN·, R standing for any univalent aromatic radical.

an'ile (ăn'ĭl; -īl), *a.* [L. *anilis*, fr. *anus* an old woman.] Old-womanish; imbecile. "*Anile* ideas." *Walpole*

an'i-lide (ăn'ĭ-līd; -lĭd; 184), *n.* Also **-lid.** *Chem.* Any of a class of compounds which may be regarded as amides in which half or all of the hydrogen of the amido group has been replaced by phenyl.

anilido-. *Chem.* Combining form for *anilide.*

an'i-line (ăn'ĭ-lĭn; -lēn; 184), *n.* Also **-lin.** [See 1st ANIL.] *Org. Chem.* An oily poisonous basic liquid, $C_6H_5NH_2$, colorless when pure, obtainable by the distillation of indigo, of coal, etc., but now chiefly made by the reduction of nitrobenzene and used in the manufacture of various dyes. It may be regarded as ammonia in which one hydrogen atom has been replaced by the radical phenyl. In commercial language, aniline, or aniline oil, for blue, signifies pure aniline; aniline for red, a mixture of aniline and *o-* and *p-*toluidine, and aniline for safranine, aniline containing *o-*toluidine.

aniline black. A very fast dye produced on the fiber by the oxidation of aniline. The ordinary product of this oxidation is *nigraniline*, which tends to turn green (formation of emeraldine), but it can be further oxidized to another substance called *ungreenable black.*

aniline blue. Any of several blue dyestuffs derived from rosaniline, specif., spirit blue.

aniline dyes. A class of artificial dyes derived from triphenylmethane or related compounds; — so called because aniline is used in preparing some of them. The aniline dyes include malachite green, fuchsine or magenta, aniline blue, etc.

aniline salt. *Com.* Aniline hydrochloride, $C_6H_5NH_2{\cdot}HCl$.

aniline violet. Any violet aniline color; esp.: **a** Mauveine. **b** Methyl violet.

an'i-lin-ism (ăn'ĭ-lĭn-ĭz'm), *n.* [*aniline* + *-ism.*] *Med.* A disease due to inhaling the poisonous fumes present in the manufacture of aniline.

an'i-li-py'rin (ăn'ĭ-lĭ-pī'rĭn), *n.* [acet*anilide* + antipy*rine.*] *Pharm.* An antipyretic prepared by melting together one part of acetanilide with two parts of antipyrine

a-nil'i-ty (*ā*-nĭl'ĭ-tĭ), *n.* [L. *anilitas.* See ANILE.] State or quality of one who is an old woman; old-womanishness; dotage. "Marks of *anility.*" *Sterne.*

‖ **a'ni-ma** (ăn'ĭ-*ma*), *n.* [L.] Soul; life.

a'nu-ma bru'ta (brōō'*ta*) [L.], the brute soul; the vital principle of the lower animals. — **a. hu-ma'na** (hū-mā'*nă*) [L.], the human soul, the vital principle of a human being. — **a. mun'di** (mŭn'dī) [L.], *Philos*, the soul, life, or vital or natural force of the world, the organizing essence, principle, or activity of the physical universe, — conceived as a pantheistic deity or as a subtle spirit or vital essence of physical nature. Cf. WORLD SOUL, ARCHEUS.

an/i-mad-ver/sion (-măd-vûr/shŭn), *n.* [L. *animadversio*. cf F. *animadversion.* See ANIMADVERT.] **1.** Act or power of perceiving; direct or simple perception. *Obs.*

The soul is the sole percipient which hath *animadversion* and sense, properly so called. *Glanvill.*

2. Monition, warning. *Obs.*

3. Remarks by way of criticism and usually of censure; adverse criticism; reproof, blame.

He dismissed their commissioners with severe and sharp *animadversions.* *Clarendon.*

4. Judicial cognizance of an offense; chastisement; punishment. *Archaic.* "Divine *animadversions.*" *Wesley.*

Syn. — Censure, blame, reproach, aspersion, condemnation. — ANIMADVERSION, CRITICISM, STRICTURE, REFLECTION. An ANIMADVERSION is a critical observation or remark, usually adverse, sometimes carping; as, "Maty's *animadversions* hurt me more. In part they appeared to me unjust, and in part ill-natured" (*Cowper*). A CRITICISM is a more explicit expression of judgment, implying previous scrutiny; as here compared (cf. REVIEW) it is commonly unfavorable; as, "This is not written with the least atom of purpose to forestall *criticisms*" (*Keats*). STRICTURE always implies censure, which may be either ill-natured or judicious; as, "foreign *strictures* on the dress, looks, and behavior of the English abroad" (*M. Arnold*); "The lash of the merciless Person, . . . [whose] *strictures* are founded in argument, enriched with learning, and enlivened with wit" (*Gibbon*). REFLECTION implies some imputation or aspersion which is cast (often indirectly) upon its object; as, a *reflection* on one's scholarship or honesty; "I cannot . . . imagine how these three lines can be called a *reflection* on his person" (*Pope*). See CENSURE, REPROVE.

an/i-mad-ver/sive (-sĭv), *a.* Able to perceive; percipient *Archaic.* — **an/i-mad-ver/sive-ness,** *n.*

I do not mean there is a certain number of ideas glaring and shining to the *animadversive* faculty. *Coleridge*

an/i-mad-vert' (-vûrt'), *v. i.*; AN/I-MAD-VERT'ED; AN/I-MAD-VERT'ING. [L. *animadvertere; animus* mind + *advertere* to turn to. See ADVERT.] **1** To take notice; to observe; — commonly followed by *that.* *Dr. H. More.*

2. To consider or remark by way of criticism or censure; to express censure; — with *on* or *upon.*

I should not *animadvert* on him, . . if he had not used extreme severity in his judgment of . . Shakespeare *Dryden*

3. To take cognizance judicially; to take action to the end of punishment or censure. *Archaic.*

Syn. — Remark, comment, criticize, censure.

an'i-mal (ăn'ĭ-măl), *n.* [L, fr. *anima* breath, soul: cf. F. *animal.* See ANIMATE.] **1.** Any member of the group of living beings typically endowed with sensation and voluntary motion, as distinguished from a *plant.* Technically, an *animal* is an organized living being distinguished by possessing in greater or less degree the characters or attributes of sensation, of voluntary movement, of receiving and digesting solid food in an internal cavity previous to its absorption into the tissues (which food must, at least in part, be proteid matter derived from the bodies of other animals or from plants), and of having the katabolic processes of the cells paramount to the anabolic processes, so that oxygen is absorbed and carbon dioxide evolved during the life of the organism.

As one or more of these characters may be wanting or replaced by some plantlike attribute, all the characters of an organism must be taken into account in deciding whether it is an animal or a plant. The following ADDITIONAL CHARACTERS distinguish *most* animals from the ordinary forms of plants: They have, at least at some period of life, the power of voluntary locomotion; they exhibit a higher degree of irritability by changes of shape or by movements in response to external stimuli; if composed of many cells they have a more or less distinct nervous system, and manifest a greater or less degree of consciousness; their cells are not inclosed in walls composed of cellulose, neither do they contain chlorophyll or possess the power of building up proteid compounds from simple inorganic substances, and the limits to their growth in form and size are more definite than in most plants. The most highly organized group of animals is the Mammalia, to which man belongs; the birds are undoubtedly the next highest. (See CELL, COMPOUND ANIMAL, ORGANISM, and PLANT.)

In the classification of animals the attempt has usually been made to group them according to their natural relationships.

The schemes of CLASSIFICATION adopted by the early writers arranged animals in a linear series beginning with man and descending to the lowest type. Cuvier (d. 1832) made a great advance by recognizing the existence of distinct *branches* independent of each other, having radically different plans of organization.

CUVIER'S CLASSIFICATION.

Branch I. VERTEBRATA. — Classes: Mammalia, Aves, Reptilia, Pisces.

Branch II. MOLLUSCA. — Classes: Cephalopoda, Pteropoda, Gastropoda, Brachiopoda, Cirripedia

Branch III. ARTICULATA. — Classes: Annelides, Crustacea, Arachnida, Insecta.

Branch IV. RADIATA. — Classes: Echinodermata, Helminthes, Acalephæ, Infusoria.

Modern zoologists have increased the number of branches (now usually termed *phyla*) and classes; and, since the acceptance of the theory of evolution, consider the groups as having the same relations to each other as the branches of a tree, and the simpler and lower groups are enumerated first.

A MODERN CLASSIFICATION

Phylum III. CŒLENTERATA. Polyps and jellyfishes. — Classes: Hydrozoa, Scyphozoa, Actinozoa, Ctenophora.

Phylum IV. PLATYHELMINTHES. Flatworms. — Classes: Turbellaria, Trematoda, Cestoda, Nemertinea.

Phylum V. NEMATHELMINTHES. Roundworms. — Classes: Nematoda, Acanthocephala, Chætognatha

Phylum VI. TROCHELMINTHES. Wheel animalcules. — Classes: Rotifera, Dinophilea, Gastrotricha.

Phylum VII. MOLLUSCOIDA. Brachiopods, polyzoans. — Classes: Polyzoa, Phoronida, Brachiopoda.

Phylum VIII. ECHINODERMATA. Echinoderms. — Classes: Asteroidea, Ophiuroidea, Echinoidea, Holothuroidea, Crinoidea, Cystoidea, Blastoidea.

Phylum IX. ANNULATA. Annulated worms. — Classes: Chætopoda, Myzostomida, Gephyrea, Archiannelida, Hirudinea

Phylum X. ARTHROPODA. Insects, crustaceans, etc. — Classes: Crustacea, Trilobita, Onychophora, Myriapoda, Insecta, Arachnida, Pycnogonida, Linguatulida, Tardigrada.

Phylum XI. MOLLUSCA. Mollusks. — Classes: Pelecypoda, Amphineura, Gastropoda, Scaphopoda, Cephalopoda

Phylum XII. CHORDATA. Animals with a notochord. — Classes: Adelochorda, Urochorda, Acrania, Cyclostomata, Pisces, Amphibia, Reptilia, Aves, Mammalia. The last seven classes constitute the subphylum VERTEBRATA, or *vertebrates.*

All animals except the vertebrates are often grouped together as INVERTEBRATA, or *Invertebrates.* Phylum I. differs from the remaining phyla in consisting of animals composed of a single cell. The remaining eleven phyla are therefore often grouped as METAZOA, or *multicellular animals.*

2. One of the lower animals; a brute or beast, as distinguished from man; any creature except a human being (this latter being the sense which it has in statutes for the prevention of cruelty to animals, etc); as, men and *animals.* At common law animals are classified as **domestic,** or **domitæ naturæ,** and **wild,** or **feræ naturæ;** or of a third class, **base animals,** composed out of the two former, and consisting of those too worthless to be the subject of ownership. See FERÆ NATURÆ, DOMESTIC ANIMAL.

Syn. — ANIMAL, BRUTE, BEAST. In their ordinary literal use, ANIMAL refers to sentient beings, as distinguished from plants and inanimate objects; BRUTE, to animals regarded as irrational or savage; BEAST, usually to four-footed animals; as, cruelty to *animals*, the instincts of the *brutes*, the *beasts* of the field. Fig., as applied to human beings, ANIMAL stresses the ascendancy of the animal over the intellectual or spiritual nature; BRUTE, dulness of the sensibilities, or unrestrained passion; BEAST, surrender to appetite or sensual indulgence; as, one may speak of a prize fighter as a superb *animal*, of a cruel husband as a *brute*, of a drunkard as making a *beast* of himself.

His intellect is not replenished; he is only an *animal*, only sensible in the duller parts. *Shak.*

Inferior creatures mute,
Irrational and *brute.* *Milton.*

What is a man,
If his chief good and market of his time
Be but to sleep and feed? A *beast*, no more. *Shak.*

an'i-mal (ăn'ĭ-măl), *a.* [Cf. F. *animal*, L. *animalis* animate.] **1.** [From *animalis* as if derived fr. *animus* mind.] Pertaining to the soul or will; as, the *animal* activities of judgment, memory, sensation, and movement; — opposed to *natural* and *vital.* See SPIRIT, 1. *Obs.*

2. Of, relating to, resembling, or derived from, animals or their characteristics; as, *animal* functions, *animal* courage.

3. Pertaining to the merely sentient part of a creature, as distinguished from the intellectual, rational, or spiritual part; as, the *animal* passions or appetites.

animal cellulose, a cellulose like substance occurring in the test of certain tunicates. — **a. black, a. charcoal.** = BONE BLACK. — **a. cracker.** A small sweetened cracker in the shape of an animal. — **a. electricity,** the electricity developed in an animal's body, esp. that developed in certain fishes (see ELECTRIC FISH). Electrical phenomena accompany many of the functions of the organs of the body of animals and man, such as muscular contraction. Animal electricity does not differ in nature from that produced artificially. — **a. flower,** any animal resembling a flower, as a sea anemone or a hydroid. — **a. force,** *Physiol.*, muscular force or energy. — **a. heat,** *Physiol.*, the heat generated in the body of a living animal by the processes of oxidation that go on within the cells composing the body. In the lower animals the temperature of the body varies more or less with, and does not generally greatly exceed, that of the surrounding air or water; in the birds and mammals, which are termed *warm-blooded* or *homoiothermal*, it is maintained at a nearly constant point. This is accomplished by control of the loss of heat (largely through regulation by the vasomotor nerves of the blood supply to peripheral parts, thus increasing or diminishing radiation, conduction, excretion and evaporation of sweat, etc.) and of the oxidation in the tissues. Excessive temperature is called *fever.* In man the normal temperature is about 98.6° F.; but in some small mammals, and esp. in small birds, it is several degrees higher. See FEVER. — **a. kingdom,** all animals collectively; in the classification of living organisms, the primary group which consists of all the animals. Opposed to the *vegetable kingdom*, and also to the *mineral kingdom.* See ANIMAL. — **a. magnetism,** mesmerism; hypnotism. *Obsolete.* — **a. mechanics,** *Physiol.*, that portion of physiology which has for its object the investigation of the laws of equilibrium and motion in the animal body. The most important mechanical principle is that of the lever, the bones forming the arms of the levers, the contractile muscles the power, the joints the fulcra or points of support, while the weight of the body or of the individual limbs constitutes the weight or resistance. — **a. muscle.** *Anat.* = STRIATED MUSCLE. — **a. oat, a. oats.** See ANIMATED OAT. — **a. oil,** a complex oil obtained by the distillation of animal substances, as bones. See BONE OIL. — **a. pole,** *Zoöl.*, the point on the surface of an egg that marks the center of the most active part of the protoplasm, or the part which contains the least yolk; — opposed to *vegetative*

pole. In most animals whose embryology has been studied it is the point where the polar bodies are segmented off, and the protoplasm about it forms the ectoderm. — **animal psychology.** See PSYCHOLOGY. — **a. soul.** **a** The soul which is characteristic of an animal; — distinguished by Aristotle from the *vegetable* soul, which is nutritive only, by having also sensitive, appetitive, and locomotive faculties. The animal soul is also distinguished, in human beings, from the *rational* soul (νοῦς), which alone has existence apart from the body. **b** *Theosophy.* The center of animal passions. — **a. spirits.** **a** (Orig. in the *sing.*, **animal spirit.**) A supposed nervous fluid or principle. See SPIRIT, 1. *Obs.* **b** Vivacity arising from physical health and energy; natural frolicsomeness.

an'i-mal'cu-lar (ăn'ĭ-măl'kū-lar), *a.* Of, pertaining to, or resembling, animalcules.

an'i-mal'cule (-kūl), *n.* [As if fr. a L. *animalculum*, dim. of *animal.*] **1.** A small animal, as a fly, spider, etc. *Obs.* **2.** A minute animal, invisible, or nearly so, to the naked eye. (See INFUSORIA.) Many of the so-called *animalcules* have been shown to be motile plants. Among these are the desmids and diatoms.

an'i-mal'cul-ism (-kū-lĭz'm), *n. Biol.* **a** A former theory which sought to explain certain physiological and pathological phenomena by means of animalcules. **b** The former theory that the spermatozoön contains the whole of the embryo. Cf. OVISM.

an'i-mal'cul-ist (-lĭst), *n.* **1.** One versed in the knowledge of animalcules.
2. A believer in the theory of animalculism.

an'i-mal'cu-lum (-lŭm), *n.; pl.* -LA (-lă). [NL.] An animalcule.

An'i-ma'li-a (-mā'lĭ-ă), *n. pl.* [L.] *Zoöl.* Animals collectively; the animal kingdom. See ANIMAL.

an'i-mal-ism (ăn'ĭ-măl-Iz'm), *n.* [Cf. F. *animalisme.*] **1.** State, activity, or enjoyment of animals; mere animal life without intellectual or moral qualities; sensuality.
2. The doctrine that men are mere animals, or nonspiritual living beings.

an'i-mal-ist, *n.* **1.** A believer in or advocate of animalism.
2. An animalculist.
3. An artist representing chiefly animals.

an'i-mal-is'tic (-Is'tĭk), *a.* Pertaining to, or characteristic of, animalism or animalists.

an'i-mal'i-ty (-măl'ĭ-tĭ), *n.* [Cf. F. *animalité.*] Animal existence or nature; animal life. *Locke.*

an'i-mal-i-za'tion (-măl-ĭ-zā'shŭn; -ī-zā'-), *n.* [Cf. F. *animalisation.*] **1.** Act of animalizing; the giving of animal life, or endowing with animal properties.
2. Conversion into animal matter by assimilation. *Rare.*

an'i-mal-ize (ăn'ĭ-măl-īz), *v. t.*; -IZED (-īzd); -IZING (-īz'ĭng). [Cf. F. *animaliser.*] **1.** To endow with the properties of an animal; to represent in animal form. *Warburton.*
2. To convert into animal matter by assimilation. *Rare.*
3. To render animal or sentient; to reduce to the state of a lower animal; to sensualize.
The unconscious irony of the Epicurean poet on the *animalizing* tendency of his own philosophy *Coleridge*
4. *Dyeing.* To impart the properties of an animal substance to; — said of vegetable fibers, which by proper treatment, as impregnation with albumen or casein, may be made to resemble wool in their behavior toward dyes.

an'i-mal-ly, *adv.* **1.** With respect to the animal soul or animal spirits. *Obs. or Hist.*
2. With respect to physiological or bodily qualities; physically, as opposed to *intellectually.*

an'i-mate (ăn'ĭ-māt), *v. t.*; AN'I-MAT'ED (-māt'ĕd); AN'I-MAT'ING (-ĭng). Cf. ANIMAL.] **1.** To give natural life to; to make alive; to quicken; as, the soul *animates* the body.
2. To give powers to, or to heighten the powers or effect of, as, to *animate* a lyre. *Dryden.*
3. To give spirit or vigor to; to stimulate or incite; to inspirit; rouse; enliven.
The more to *animate* the people, he stood on high, . . and cried unto them with a loud voice. *Knolles.*
Syn. — Enliven, inspirit, stimulate, exhilarate, inspire, instigate, rouse, urge, cheer; prompt, incite, quicken.

an'i-mate (-mĕt), *a.* [L. *animatus*, p. p.] **1.** Endowed with life; alive; living; animated; lively.
The admirable structure of *animate* bodies. *Bentley.*
2. Of or pertaining to animals, as, *animate* diseases. *Rare.*

an'i-mat'ed (-māt'ĕd), *p. a.* Endowed with life; full of life or spirit; indicating animation; lively; vigorous. "*Animated* sounds." *Pope.* "*Animated* bust." *T. Gray.* "*Animated* descriptions." *Lewis.* — **an'i-mat'ed-ly,** *adv.*
Syn. — See LIVELY.
animated oat *or* **oats,** an oat grass (*Avena sterilis*) cultivated on account of the curious movements of the spikelets, caused by the twisting of the awns under the influence of moisture or dryness. — **a. picture,** a picture obtained by presenting with great rapidity successive instantaneous views of a moving scene, so as to produce the illusion of motion in the objects represented, as in the kinetoscope.

an'i-mat'ing (ăn'ĭ-māt'ĭng), *p. a.* Causing animation; life-giving; inspiriting; rousing. — **an'i-mat'ing-ly,** *adv.*

an'i-ma'tion (-mā'shŭn), *n.* [L. *animatio.*] **1.** Act of animating, or state of being animate.
The *animation* of the same soul quickening the whole frame. *Bp. Hall.*
Perhaps an inanimate thing supplies me, while I am speaking, with whatever I possess of *animation.* *Landor*
2. State of being lively, brisk, or full of spirit and vigor; vivacity; spiritedness; as, a story told with *animation.*
Syn. — Liveliness, vivacity, spirit, buoyancy, airiness, sprightliness, enthusiasm, ardor, earnestness, energy.

an'i-ma-tive (ăn'ĭ-mā-tĭv), *a.* **1.** Animating, life-giving.
2. = ANIMISTIC. *Tylor.*

an'i-ma'tor (-mā'tẽr), *n.* [L.] One that animates.

an'i-mé (ăn'ĭ-mā; -mĕ), *n.* [F. *animé*; cf. Sp. & Pg. *anime*; of uncertain origin.] Any of various resins or oleoresins; as: **a** Copal, esp a soft variety. **b** Elemi. **c** An oleoresin resembling elemi, now little used.

An'i-mi-kie' (ăn'ĭ-mĭ-kē'), **An'i-mi-ke'an** (-kē'ăn), *a. Geol.* Pertaining to or designating a subdivision of the Proterozoic or Algonkian period or era. See GEOLOGY, *Chart.*

an'i-mism (ăn'ĭ-mĭz'm), *n.* [L. *anima* soul: cf F. *animisme.* See ANIMATE.] **1.** The doctrine that the soul is the vital principle and is responsible for every organic development; — taught by Georg Ernst Stahl.
2. The belief that all objects possess a natural life or vitality or that they are endowed with indwelling souls. The term is usually employed to denote the most primitive and superstitious forms of religion. It was first popularized by E. B. Tylor, — as "the doctrine of souls and other spiritual beings in general," — but has come to have at least three distinct meanings: **a** Belief ascribing conscious life to all natural objects, or to nature in general, without assuming the existence of separable souls. This includes a variety of superstitions, of which fetishism is typical. Sometimes this *animism* is given a philosophical form in the ascription of life to nature as a whole. **b** Belief that bodies are inhabited by souls, either material or immaterial, which may exist in a separate disembodied state. Such souls are ascribed not only to men, but to animals, plants, stones, tools, etc. **c** Belief in the activity of the spirits of the recently deceased, in possession by ghosts, etc.

an'i-mist (-mĭst), *n.* [Cf. F. *animiste.*] One who maintains a doctrine of animism; a believer in animism.
What the *animist* worships and seeks by all means to influence and conciliate is the shifting and shadowy company of unknown powers or influences . . . which resides in the primeval forest, in the crumbling hills, in the rushing river, in the spreading tree, which gives its spring to the tiger, its venom to the snake, which generates jungle fever, and walks abroad in the terrible guise of cholera, smallpox, or murrain. *Census of India*, 1901

an'i-mis'tic (-mĭs'tĭk), *a.* Of or pertaining to animism, resembling, or characteristic of, animism.

an'i-mose' (ăn'ĭ-mōs') } *a.* [L. *animosus*, fr. *animus* soul,
an'i-mous (ăn'ĭ-mŭs) } spirit.] Full of spirit; hot; vehement; resolute. *Obs.* — **an'i-mose'ness,** *n. Obs.*

an'i-mos'i-ty (-mŏs'ĭ-tĭ), *n.; pl.* -TIES (-tĭz). [F. *animosité*, fr. L. *animositas.* See ANIMOSE, ANIMATE, *v. t.*] **1.** Mere spiritedness or courage. *Obs.*
2. Violent hatred leading to active opposition; active enmity; energetic dislike. *Macaulay.*
Syn. — Enmity, hatred, opposition. See HOSTILITY.

an'i-mus (ăn'ĭ-mŭs), *n.; L. pl.* -MI (-mī). [L, mind.] Mind; will; intention; animating spirit; also, inclination; disposition; temper, specif., bad or malicious intention or disposition. *Animus* occurs in various Latin law phrases, as: **animus cancellandi** (kăn'sĕ-lăn'dī), intention of canceling. — **a. capiendi** (kăp'ĭ-ĕn'dī), intention of taking. — **a. derelinquendi** (dĕr'ĕ-lĭn-kwĕn'dī), intention of abandoning; the will to abandon. — **a. domini** (dŏm'ĭ-nī) = *a. possidendi*, below — **a. furandi** (fū-răn'dī), the intention of stealing.
By the term *animus furandi* is to be understood the intention not to take a partial or temporary, but the entire dominion over the chattels without a color of right.
Parke, Baron (1 *Denison's C. C.* 396)
— **a. hominis est anima scripti** (hŏm'ĭ-nĭs, ăn'ĭ-mă skrĭp'tī), the party's intention constitutes the soul (effect) of the instrument. — **a. injuriandi** (ĭn-jū'rĭ-ăn'dī), intention of injuring. — **a. lucrandi** (lū-krăn'dī), intention of gaining. — **a. manendi** (mă-nĕn'dī), the intent of remaining, which is essential to the acquisition of a domicile. — **a. possidendi** (pŏs'ĭ-dĕn'dī), the intent of keeping possession
"Possessio" exists, when the holder believes himself to be the rightful owner of the object, or, having merely found it, means to keep it subject to the possibility of the owner making his appearance, or having stolen it, means to keep it against all comers. The intention of such a possessor has been described by modern civilians as the "animus domini," but more recently as "*animus possidendi.*" *T. E. Holland.*
— **a. recipiendi** (rē-sĭp'ĭ-ĕn'dī), intention of receiving. — **a. remanendi** (rĕm'ă-nĕn'dī). = *a. manendi*, above. — **a. revertendi** (rĕv'ẽr-tĕn'dī), intention of returning, as where one has left something with the intent to come and get it later; as, where there is an *animus revertendi* there can be no abandonment. — **a. revocandi** (rĕv'ō-kăn'dī), intention of revoking. — **a. testandi** (tĕs-tăn'dī), intention of making a will.

an'i-on (ăn'ĭ-ŏn), *n.* [Gr. ἀνιόν, neut. ἀνιόν, p. pr. of ἀνιέναι to go up; ἀνά up + ἰέναι to go.] *Chem.* **a** The product evolved at the anode in the electrolysis of a liquid. It is regarded as electro-negative with regard to the *cation.* **b** In general, a negative ion. See ION.

anis-. A form of ANISO-, meaning *unequal.*

an'is- (ăn'Is-). *Chem.* Combining form indicating *derivation from anise or anisic acid*; as: **an'is-am'ide,** the amide of anisic acid; **an'is-an'i-lide,** the anilide of anisic acid, etc.

an'i-sate (ăn'ĭ-sāt), *n. Chem.* A salt or ester of anisic acid.

an'i-sat'ed (-sāt'ĕd), *a.* Flavored or mixed with aniseed or oil of anise.

an'ise (ăn'Is), *n.* [ME. *anys*, F *anis*, L *anisum*, *anethum*, fr. Gr. ἄνισον, ἄνηθον. Cf ANET.] **a** An apiaceous plant (*Pimpinella anisum*) growing naturally in Egypt, and cultivated in Spain, Malta, etc., for its carminative and aromatic seeds. **b** The fruit or seeds of this plant.

an'i-seed (ăn'ĭ-sēd), *n.* The seed of the anise; also, a cordial prepared from it.

aniseed star. The fruit of the star anise.

anise hyssop. The American menthaceous herb *Agastache anethiodora.*

anise plant In Australia, an apiaceous plant (*Seseli harveyanum*) with an aniselike aroma.

an'ise-root' (ăn'Is-rōōt'), *n.* **a** The plant *Collinsonia anisata*, of the southern United States. **b** The sweet cicely.

an'i-sette' (ăn'ĭ-sĕt'; -zĕt'), *n.* [F.] A kind of liqueur flavored with anise, made chiefly in the south of France.

a-nis'ic (ă-nĭs'Ik), *a.* Of or derived from anise
anisic acid, *Chem.*, a crystalline acid, $C_6H_4(OCH_3)CO_2H$, easily obtained by oxidizing anethol or anisic aldehyde. — **a. aldehyde,** *Chem.*, a liquid, $C_6H_4(OCH_3)CHO$, obtained by gentle oxidation of anethol. It has a characteristic hawthorn odor and is used in making artificial perfumes.

a-nis'i-dine (-ĭ-dĭn; -dēn), *n.* Also **-din.** *Chem.* Any one of three isomeric bases, $C_6H_4(NH_2)OCH_3$, from anisol.

an'i-sil (ăn'ĭ-sĭl), *n. Org. Chem.* A yellow crystalline compound, $C_{16}H_{14}O_3$, formed by the action of nitric acid on anisoin, as benzil is from benzoin. — **an'i-sil'ic** (-sĭl'Ik), *a.*

an-i'so- (ăn-ĭ'sō-), **anis-.** [Gr. ἄνισος unequal; ἀν- not + ἴσος equal] A combining form denoting *unequal, dissimilar*, as in *anisopetalous, anisodont, anisotropy.*

an-i'so-car'pic (-kär'pĭk) } *a.* [*aniso-* + *-carpic, -car-*
an-i'so-car'pous (-kär'pŭs) } *pous.*] *Bot.* Having fewer carpels than other floral organs.

an-i'so-co'ri-a (-kō'rĭ-ă), *n.* [NL.; *aniso-* + Gr. κόρη pupil.] *Med.* Inequality of the pupils of the eye.

an-i'so-dac'tyl-ous (-dăk'tĭl-ŭs), *a.* [*aniso-* + Gr. δάκτυλος toe.] *Zoöl.* Having unequal toes; — designating esp. certain passerine and picarian birds with three toes turned forward and one backward, which formed the group **An-i'so-dac'ty-li** (-tĭ-lī) of certain old classifications.

a-nis'o-in (*a*-nĭs'ō-ĭn), *n. Chem.* A crystalline ketonic alcohol, $C_{14}H_{12}O_4$, formed by condensation of two molecules of anisic aldehyde, as benzoin is from benzoic aldehyde.

an'i-sol (ăn'ĭ-sōl; -sŏl), *n.* [*anisic* + 1st *-ol.*] *Chem.* Methyl phenyl ether, $C_6H_5OCH_3$, obtained by distilling anisic acid or by the action of methyl iodide on potassium phenolate.

an-i'so-mer'ic (ăn-ĭ'sō-mĕr'Ik), *a.* [*aniso-* + *-meric.*] *Chem.* Not isomeric.

an'i-som'er-ous (ăn'ĭ-sŏm'ẽr-ŭs), *a* [*an-* not + *isomerous.*] *Bot.* Having the number of floral organs in each whorl unequal, as four petals and six stamens.

an-i'so-met'ric (ăn-ĭ'sō-mĕt'rĭk), *a.* [*an-* not + *isometric.*] Not isometric; having unsymmetrical parts; — said of crystals with three unequal axes.

an-i'so-me-tro'pi-a (-mē-trō'pĭ-ă), *n.* [NL.; *aniso-* + *metro-* + *-opia.*] Unequal refractive power in the two eyes. — **an-i'so-me-trop'ic** (-trŏp'Ik), *a.*

an-i'so-phyl'lous (-fĭl'ŭs), *a.* [*an-* not + *isophyllous.*] *Bot.* Exhibiting anisophylly.

an-i'so-phyl'ly (ăn-ĭ'sō-fĭl'ĭ), *n. Bot.* Inequality of leaves (in plants whose leaves differ in form and size on two sides of a horizontal shoot).

An-i'so-pleu'ra (-plōō'rā), *n pl.* [NL.; *aniso-* + Gr. πλευρά side.] *Zoöl.* A subclass of Gastropoda including the unsymmetrical forms; — distinguished from *Isopleura.* As the Isopleura are now often considered a distinct class, *Anisopleura* is nearly or exactly equivalent to *Gastropoda* in its narrower sense.

An'i-sop'o-da (ăn'ĭ-sŏp'ō-dă), *n. pl.* [NL.; *aniso-* + *-poda.*] *Zoöl.* One of the Anisopoda (*Leptochelia algicola*). an-nu'i-ty (-tĭ), *n.*; *pl.* -TIES (-tĭz). [F. *annuité*, LL. *annuitas*, fr. L. *annus* year.] **1.** An amount, esp. of money, payable yearly for a certain or uncertain period, as for years, for life, or forever; an annual allowance or income; also, the right to receive such yearly amount. At common law an annuity payable for a term of years or in perpetuity is an incorporeal hereditament, and is distinct from a *rent* in not being payable out of land, though it may by express agreement be charged upon land.
2. *Finance.* The totality or aggregation of a single series of equal payments to be made annually (or, by extension, at more frequent intervals) for a certain, or uncertain, period of years, or, as technically expressed, for an assigned status; also, the right to receive such a series of payments, or the investment which it represents. From a theoretical economic standpoint the annuity represents a given principal and its interest, except in the case of perpetual annuities, where it includes interest only. The simple word *annuity* commonly means a *life annuity*. An annuity is called, according to the time of the first payment, or the period of its continuance: an **annuity due**, when the first payment is at the beginning instead of at the end of the first year; a **complete annuity**, when the payment is to be continued up to the day of the annuitant's death; **deferred annuity**, if the first payment is to be made at some date later than the end of the first year, or on the happening of some event of uncertain date; **annuity certain**, when payable in any event for a term of years, **contingent annuity**, if terminable upon the happening of a future event uncertain either as to the date or the possibility of occurrence, **perpetual annuity**, or **perpetuity**, if payable forever; **terminable annuity**, when payable principal and interest by a series of payments lasting for a limited period; **temporary annuity**, if payable for a limited time only, or, more usually, for a life or lives not extending in any event beyond a specified date (this latter being called in full **temporary life annuity**), **life annuity**, when terminable upon the death of the annuitant or annuitants; **joint annuity**, if payable during the joint lives of two or more designated persons; **annuity on the last survivor**, if payable so long as either or any of two or more designated persons are alive; **survivorship annuity**, when payable to a designated person (the nominee) in the event of his surviving a designated insured person; **reversionary annuity**, properly, when payable to some person upon another becoming for any reason unable to receive it; but usually equivalent to *survivorship annuity*; **curtate annuity**, one that ceases with the last payment prior to death of any specified life.

an'o-dyne (ăn'ŏ-dīn), *a.* [L. *anodynus*, Gr. *ἀνώδυνος* free from pain, stilling pain; *ἀν-* not + *ὀδύνη* pain: cf. F. *anodin*] Serving to assuage pain; soothing.
The *anodyne* draught of oblivion. *Burke.*

an'o-dyne, *n.* [L. *anodynon.* See ANODYNE, *a.*] Any medicine which allays pain, as an opiate or narcotic; anything that soothes disturbed feelings.

an'o-et'ic (ăn'ŏ-ĕt'ĭk), *a.* [Gr *ἀνόητος* unthinkable; *ἀ-* not + *νοητός* perceptible, thinkable.] **1.** Unthinkable. *Rare.*
2. *Psychol.* Not subject to conscious attention; having an indefinite, relatively passive, conscious being; characteristic of the "fringe" or "margin" of consciousness.
Presentation considered as having an existence relatively independent of thought, may be called sentience, or *anoetic* consciousness. Thought and sentience are fundamentally distinct mental functions. *G. F. Stout.*

a-noint' (*ă*-noint'), *v. t.*; A-NOINT'ED; A-NOINT'ING. [OF. *enoint*, p. p. of *enoindre*, fr. L *innungere*, *in* + *ungere*, *unguere*, to smear, anoint. See OINTMENT, UNGUENT.] **1.** To smear or rub over with oil or an unctuous substance; also, to spread over, as oil.
And fragrant oils the stiffened limbs *anoint.* *Dryden.*
He *anointed* the eyes of the blind man with the clay. *John* ix. 6.
2. To apply oil to or to pour oil upon, etc., as a sacred rite, esp. for consecration.
Then shalt thou take the *anointing* oil, and pour it upon his [Aaron's] head and *anoint* him. *Ex.* xxix. 7.
3. To beat, thrash, chastise. *Humorous.*
I'll . . *anoint* him with a cat-and-nine-tails. *Smollett*

a-noint'er, *n.* One that anoints; specif. [*cap.*], one of an obscure 16th or 17th century sect in which anointment was practiced as a form of initiation.

a-noint'ment (-mĕnt), *n.* Act of anointing, or state of being anointed; also, an ointment.

a-no'li (*ă*-nō'lĭ, ăn'ō-), *n.* [In the Antilles, *anoli*, *anoalli*, a lizard.] A lizard of the genus *Anolis.*

A-no'lis (-lĭs), *n.* [NL. See ANOLI.] *Zoöl.* A genus of small American pleurodont lizards of the family Iguanidæ, often called *chameleons*, on account of their power of changing color like the true chameleons of the Old World. —

a-no'li-an (*ă*-nō'lĭ-ăn), *a.* & *n.*

a-nom'a-li- (*ă*-nŏm'*ă*-lĭ-). A prefix denoting *anomalous, irregular.* See ANOMALO-.

a-nom'a-lism (-lĭz'm), *n.* Anomalousness; an anomaly.

a-nom'a-list (-lĭst), *n.* [See ANOMALOUS.] An adherent of the view held by Chrysippus, Crates of Mallos, and Pergamese grammarians, that language is not based on general rules of any kind, except so far as they are made by custom, and that there is no necessary analogy between the word and the thing. See ANALOGIST, 2.

a-nom'a-lis'tic (*ă*-nŏm'*ă*-lĭs'tĭk) } *a.* [Cf. F. *anomalis-*
a-nom'a-lis'ti-cal (-tĭ-kăl) } *tique.*] **1.** Of or pertaining to an anomaly, or to the anomalists; irregular.
2. *Astron.* Pertaining to the anomaly, or angular distance of a planet from perihelion
anomalistic month. See under MONTH. — a. revolution, the period in which a planet or satellite goes through the complete cycle of changes of anomaly, or from any point in its elliptic orbit to the same again. — a. year, the time of the earth's revolution from perihelion to perihelion again, which is 365 days, 6 hours, 13 minutes, and 48.09 seconds.

a-nom'a-lo- (*ă*-nŏm'*ă*-lŏ-), **a-nom'a-li-** (-lĭ-). [L. *anomalus*, Gr. *ἀνώμαλος*, anomalous, irregular. See ANOMALOUS.] A combining form denoting *anomalous, irregular, unusual.*

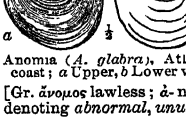
A-nom'a-lo-gon'a-tæ (-gŏn'*ă*-tē), *n. pl.* [NL., *anomalo-* + Gr. *γόνυ, γόνατος*, knee.] *Zool.* A division of birds containing those having no ambiens muscle. — **a-nom'a-lo-gon'a-tous** (-tŭs), *a.*

A-nom'a-lop'ter-yx (-lŏp'tẽr-ĭks), *n.* [NL.; *anomalo-* + Gr. *πτέρυξ* wing.] *Paleon* A genus of moas (see MOA) comprising comparatively small species (sometimes only three or four feet high) of slender build.

a-nom'a-lous (*ă*-nŏm'*ă*-lŭs), *a.* [L *anomalus*, Gr. *ἀνώμαλος* uneven, irregular; *ἀν-* not + *ὁμαλός* even, *ὁμός* same. See SAME; cf. ABNORMAL.] **1.** Unconformable; dissimilar (to). *Archaic.*
2. Deviating from a general rule, method, or analogy; abnormal, irregular, as, an *anomalous* proceeding.
Syn. — Irregular, exceptional, unusual, singular, peculiar. ANOMALOUS, ABNORMAL agree in the idea of deviation from regular order. ANOMALOUS connotes lack of conformity, as of something which refuses to submit to classification or explanation; ABNORMAL (cf. REGULAR) frequently suggests positive irregularity, with the further implication of strangeness or excess, as, *abnormal* obesity is not ordinarily *anomalous*, but to be *abnormally* fat when all one's family is thin might well seem *anomalous.* See STRANGE, ECCENTRICITY.
anomalous dispersion. *Physics.* See DISPERSION. — a. plea, *Law*, a plea partly affirmative and partly negative, the one part being used to show that the other does not defeat the rights of the pleader.
— **a-nom'a-lous-ly,** *adv.* — **a-nom'a-lous-ness,** *n.*

a-nom'a-ly (*ă*-nŏm'*ă*-lĭ), *n.*; *pl.* -LIES (-lĭz). [L. *anomalia*, Gr. *ἀνωμαλία.* See ANOMALOUS.] Deviation from the common rule; irregularity; anything anomalous.
We are enabled to unite into a consistent whole the various *anomalies* and contending principles that are found in the minds and affairs of men. *Burke*
As Professor Owen has remarked, there is no greater *anomaly* in nature than a bird that cannot fly. *Darwin.*
Specif.: a *Astron.* (1) The angular distance of a planet from its perihelion, as seen from the sun. This is the *true* anomaly. The *eccentric* anomaly is a corresponding angle at the center of the elliptic orbit of the planet. The *mean* anomaly is what the anomaly would be if the planet's angular motion were uniform. (2) The angle measuring apparent irregularities in the motion of a planet. **b** *Nat. Hist.* Any deviation from the essential characteristics of a type. **c** *Music.* A deviation of pitch from the perfect interval in the tuning of a tempered instrument.

An'o-ma-the'ca (ăn'ŏ-mă-thē'kă), *n.* [NL.; Gr. *ἄνομος* without law + *θήκη* box, in allusion to the irregularly dehiscent capsules.] **a** *Bot.* A subgenus of *Lapeyrousia*, sometimes regarded as a genus. See LAPEYROUSIA. **b** [*l. c.*] *Hort.* A plant of the above subgenus, esp. the red-flowered *Lapeyrousia cruenta*, a delicate bulbous plant adapted for house culture.



Anomia (*A. glabra*), Atlantic coast; *a* Upper, *b* Lower valve.

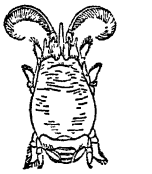
a-no'mi-a (*ă*-nō'mĭ-*ă*), *n.* [NL. See ANOMO-.] *Zoöl.* A genus of bivalve mollusks of the order Filibranchiata, type of a family, **An'o-mi'i-dæ** (ăn'ŏ-mĭ'ĭ-dē). The right valve is deeply notched for the passage of the byssus.

an'o-mo- (ăn'ŏ-mŏ-), **anom-.** [Gr. *ἄνομος* lawless; *ἀ-* not + *νόμος* law.] Combining forms denoting *abnormal, unusual, irregular.*

An'o-mo-don'ti-a (-dŏn'shĭ-*ă*), *n. pl.* [NL. See ANOMO-; -ODONT.] *Paleon.* a Syn. of THEROMORPHA. **b** A suborder of Theromorpha, and syn. of DICYNODONTIA. — **an'o-mo-dont** (ăn'ŏ-mŏ-dŏnt), *a.* & *n.*

An'o-mœ'an (-mē'ăn), *n.* [Gr. *ἀνόμοιος* unlike.] *Eccl. Hist.* A member of a strictly Arian heretical sect of the 4th century; — called also *Eunomian.* — **An'o-mœ'an,** *a.*
— **An'o-mœ'an-ism** (-ĭz'm), *n.*
Two of the Anti-Nicene leaders, Aetius of Antioch and Eunomius of Cyzicus in Mysia, denied the Homœousion, that is, asserted that the Son is not like God. There sprung up thus the new faction of *Anomœans.* *G. P. Fisher*

An'o-mu'ra (-mū'ră), *n. pl.* [NL.; *anomo-* + Gr. *οὐρά* tail.] *Zoöl.* A group of macruran Crustacea, including certain forms having the abdomen reduced and permanently flexed, as the hermit crabs. Sometimes it is considered a suborder intermediate between Macrura and Brachyura. — **an'o-mu'ral** (ăn'ŏ-mū'răl), *a.* — **an'o-mu'ran** (-răn), *a.* & *n.* — **an'o-mu'rous** (-rŭs), *a.*



One of the Anomura (*Hippa talpoidea*), Atlantic coast. (½)
Karl Pearson.

an'o-my (ăn'ŏ-mĭ), *n.*; *pl.* ANOMIES (-mĭz). [Gr. *ἀνομία* lawlessness.] The state of being without law or order, esp. natural law or uniformity; also, an act or phenomenon which can be ascribed to the operation of no known law; a miracle.
Laplace has even enabled us to take account of possible "miracles," *anomies*, or breaches of routine in the sequence of perceptions. *Karl Pearson.*

a-non' (*a*-nŏn'), *adv.* [ME. *anoon*, *anon*, *anan*, lit., in one (moment), fr. AS. *on* in + *ān* one. See ON; ONE.] **1.** In one body, state, or direction. *Obs.*
2. Straightway; at once. *Archaic.*
The same is he that heareth the word, and *anon* with joy receiveth it. *Matt.* xxiii. 20.
3. Soon; in a little while.
As it shall better appear *anon.* *Stow*
4. At another time; then, again.
Sometimes he trots, *anon* he rears upright. *Shak*

a-non', *interj.* **1.** Immediately; hence, at your service.
2. Hence: I am listening; Sir? What did you say? — implying a failure to hear or understand. *Eng.*

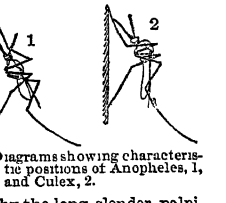
an'o-nym (ăn'ŏ-nĭm), *n.* [F. *anonyme.* See ANONYMOUS.] One that is anonymous; specif.: **a** A notion with no name, or not expressible by a single English word. **b** A book not bearing its author's name; sometimes, a pseudonym.

an'o-nym'i-ty (nĭm'ĭ-tĭ), *n.* Quality or state of being anonymous; anonymousness; also, that which is anonymous. "The *anonymity* of this novel." *Spectator.*
He rigorously insisted upon the rights of *anonymity Carlyle.*

a-non'y-mous (*ă*-nŏn'ĭ-mŭs), *a.* [Gr. *ἀνώνυμος* without name; *ἀν* not + *ὄνυμα*, Æol. for *ὄνομα*, name. See NAME.] Nameless; of unknown name; also, of unknown or unavowed authorship; as, an *anonymous* benefactor.
Strictly, a book is not *anonymous* if the author's name appears anywhere in it, but it is safest to treat it as *anonymous* if the author's name does not appear in the title *C. A. Cutter.*
— **a-non'y-mous-ly,** *adv.* — **a-non'y-mous-ness,** *n.*

an'o-phele (ăn'ŏ-fēl), *n.* *Zoöl.* Any species of the genus Anopheles.

A-noph'e-les (*ă*-nŏf'ĕ-lēz), *n.* [NL., fr. Gr. *ἀνωφελής* useless, hurtful.] *Zoöl* A genus of mosquitoes which are secondary hosts of the malaria parasites, and whose bite is the usual, if not the only, means of infecting human beings with malaria. Several species are found in the United States. They may be distinguished from the ordinary mosquitoes of the genus *Culex* by the long slender palpi, nearly equaling the beak in length, while those of the female *Culex* are very short. They also assume different positions when resting, *Culex* usually holding the body parallel to the surface on which it rests and keeping the head and beak bent at an angle, while *Anopheles* holds the body at an angle with the surface and the head and beak in line with it. Unless they become themselves infected by previously biting a subject affected with malaria, the insects cannot transmit the disease. See MALARIA, MALARIA PARASITE.



Diagrams showing characteristic positions of Anopheles, 1, and Culex, 2.

An-op'lo-the'ri-um (ăn-ŏp'lō-thē'rĭ-ŭm), *n* [NL.; Gr. *ἀνοπλος* unarmed + *-therium*] *Paleon.* A genus of hornless artiodactyl Ungulata, with a long tail and weak canine teeth. It is the type of a family, **An-op'lo-the-ri'i-dæ** (-thē-rĭ'ĭ-dē), of the Eocene formations of Europe. — **an-op'lo-there** (ăn-ŏp'lō-thēr), *n.* — **an-op'lo-the'ri-oid** (-thē'rĭ-oid), **an-op'lo-the'roid** (-roid), *a.* & *n.*

An'o-plu'ra (ăn'ŏ-plōō'*ră*, 243), *n. pl.* [NL.; Gr. *ἄνοπλος* unarmed + *οὐρά* tail.] *Zoöl.* A suborder of wingless parasitic Hemiptera, consisting of the true lice, having the mouth produced into a sucking proboscis armed with hooks. — **an'o-plu'ri-form** (-rĭ-fôrm), *a.*

an-op'si-a (ăn-ŏp'sĭ-*ă*), *n.* [NL.; *an-* not + *-opsia*] *Med.* a Want or defect of sight; blindness. **b** = ANOÖPSIA.

an'ser-ous (-ŭs), *a.* [L. *anser* goose.] Goose-like; silly; simple; anserine. *Sydney Smith.*

An'shar (ăn'shär), *n. Babylon. Cosmology.* One of a pair of ancient gods, conceived as ancestors of the later great gods of the pantheon Anshar is represented as a father of the gods whom he sends to combat Tiamat, or Chaos. According to some scholars Anshar is the older form of Ashur, the chief god of the Assyrian pantheon; but it is more likely that Anshar, signifying "the totality of what is above," and his consort, **Kishar**, "the totality of what is below," are artificial symbols of the entire universe, introduced by the Babylonian theologians.

an'su-late (ăn'sū-lāt), *a.* [L. *ansula*, dim. of *ansa* handle.] *Bot.* Having the apex coiled and bent in a loop, as the growing extremity of the shoot in some Cucurbitaceæ.

ant (ănt), *n.* [ME. *ante*, *amete*, *emete*, AS *æmete*, akin to G. *ameise*, of uncertain origin. Cf. EMMET.] Any of the hymenopterous insects constituting the family Formicidæ or superfamily Formicoidea, an emmet; a pismire. The ants are all social, living in communities, usually burrowing in the ground or in wood, and making chambers and passages in which they store their food and raise their young. The males usually have wings and are short-lived, the females, or queens, also generally have wings, but afterwards lose them. In addition there are workers, often of more than one kind, and sometimes also soldiers, which are all forms of undeveloped females. Many of them have remarkable habits, such as making slaves of other species, cultivating fungi for food, and caring for aphids which yield honeydew, of which they are very fond. Some species have stings, others can eject a fluid containing formic acid. Though in the perfect organization of their communities they are exceeded only by man, and equaled only by the termites, the individuals do not show remarkable intelligence. The so-called *white ants*, or *termites*, belong to a different order (see TERMITE). See AGRICULTURAL ANT, CARPENTER ANT, SLAVE ANT, HOUSE ANT, etc.

an'te- (ăn'tē-). A prefix from the Latin preposition and adverb *ante* (akin to Gr *ἀντί*, Skr. *anti*, Goth. *and-*, *anda-*, AS. *and-*, *ond-* (cf. ANSWER, ALONG), G. *ant-*, *ent-*) denoting *before*, in regard to position, order, or time. *Ante-* may stand **a** In a prepositional relation to the subjoined word, forming a compound which denotes something *preceding*, *in front of*, or *prior to* (what is denoted by its latter part); *pre-*, as in *antepenult*, the syllable before the penult; *ante-*Babylonish, prior to Babylon, or to that which is Babylonish; *antenatal*, before birth. **b** In an adjectival relation, indicating that what follows is something *preceding*, *prior*, or *anterior* (to some time or place indicated by the context); *fore-*: as in *ante*taste, a prior taste, a foretaste; *ante-*port, an outer or entrance port, *ante*date, a prior date, etc.

☞ The reference "See ANTE-" is sometimes given as the only definition of a word beginning with *ante-*, if its meaning can be readily gathered from the definitions of the prefix and the root word.

an'te-. Formerly often used for ANTI-.

ant'eat'er (ănt'ēt'ĕr), *n.* **1.** Any of several mammals which feed largely or entirely on ants, esp: **a** Any of certain edentates with the mouth modified for this purpose, having a long narrow snout, a long tongue with which they lick up the insects, and enormously developed salivary glands, as the ant bear or great anteater, the tamandu, the aardvark, and the pangolins. **b** The echidna, which has similar habits and modifications. **c** The banded anteater (*Myrmecobius fasciatus*), a small Australian marsupial.

an'te-ced'ent (-ĕnt), *a.* [L. *antecedens*, *-entis*, p. pr. of *antecedere*: cf. F. *antécédent.*] **1.** Going before in time; prior; anterior; preceding; as, an event *antecedent* to the Deluge; an *antecedent* cause.

2. Presumptive; as, an *antecedent* improbability.

Syn. — ANTECEDENT, PRECEDING, PRECEDENT, FOREGOING, PREVIOUS, PRIOR, FORMER, ANTERIOR agree (except in one sense of *anterior*) in implying temporal succession. ANTECEDENT (opposed to *subsequent*, *consequent*) and PRECEDING (opposed to *succeeding*, *following*) differ in that *preceding* usually applies to that which goes immediately before (as, the *preceding* day, the *preceding* clause), whereas *antecedent* frequently suggests an indefinite interval; as, a period *antecedent* to the Conquest. *Antecedent*, unlike *preceding*, frequently involves logical, as well as temporal, connection or dependence; as, an *antecedent* cause, probability, the *antecedent* of a proposition, of a pronoun; cf. "the events *preceding* the opening of the story" with "the events *antecedent* to the opening of the story." PRECEDENT often applies to that on whose going before the validity or effectiveness of something else depends; as, condition *precedent*, a *precedent* assumption. FOREGOING (opposed to *following*) applies almost exclusively to statements; as, the *foregoing* citations, the *foregoing* argument. PREVIOUS and PRIOR (opposed to *subsequent*) are often used convertibly, esp. with *to*; as, *previous* to, *prior* to, a given date. But *prior* sometimes implies a closer relation than *previous*; thus, a *previous* obligation suggests merely an obligation entered into earlier in point of time, whereas a *prior* obligation is one which takes precedence over others. FORMER (opposed to *latter*), even more definitely than *prior*, implies comparison; as, there can be a *former* engagement only in virtue of a later one; a *previous* or *prior* engagement may *ipso facto* preclude a second. ANTERIOR (opposed to *posterior*), also comparative in force, applies to position, usually in space, sometimes in order or time; as, the *anterior* lobe of the brain; "Organization must presuppose life as *anterior* to it" (*Coleridge*). See PRIORITY; cf. POSTERIOR, PREFACE, PRELUDE.

antecedent drainage, *Phys. Geog.*, a system of watercourses established before the deformation of the surface which it drains, and persisting after the deformation has taken place and in spite of it; — contrasted with *consequent drainage.* — **antecedent right.** *Law.* See RIGHT, *n.* — **a. valley,** *Geol.*, a valley of an antecedent drainage system.

of the family Bovidæ, sometimes regarded as constituting a subfamily (*Antilopinæ*), but distinguishable from the true oxen chiefly by their lighter and more graceful build, and by their upward and backwardly directed horns. They are also closely allied to the goats. The true antelopes, of which there are many genera and species, are confined to the Old World. Their nearest American ally is the mountain goat. They are especially abundant in Africa, where they compensate for the absence of deer. Some of the species which were until recently found in immense herds on the plains of South Africa have been nearly or quite exterminated by man. Antelopes vary in size from the eland, which is as large as a cow, down to species hardly a foot high. The so-called *pronghorn antelope* of North America is not a true antelope. See PRONGHORN; see also ADDAX, GAZELLE, ELAND, SASIN.

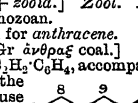
an'thra-cene (ăn'thra-sēn), *n.* [Gr *ἀνθραξ* coal.] *Chem.* A crystalline hydrocarbon, $C_6H_4{\cdot}C_2H_2{\cdot}C_6H_4$, accompanying naphthalene in the last stages of the distillation of coal tar. Its chief use is in the production of alizarin. In naming the derivatives of anthracene the carbon atoms are numbered as in the cut. Positions 1, 4, 5, 8 are equivalent, so also are 2, 3, 6, 7, and 9, 10. These three classes are sometimes referred to respectively as *α*, *β*, and *γ*. Derivatives having the substituting groups attached to the true benzene nuclei (positions 1-8) sometimes have *benz-* prefixed to their names to distinguish them from the *γ* or *meso-* derivatives.



Anthracene.

anthracene oil. A heavy green oil (partially solidifying on cooling), which distills over from coal tar at a temperature above 270° C. It is the principal source of anthracene.

an-thrac'ic (ăn-thrăs'ĭk), *a. Med.* Of or relating to anthrax; as, *anthracic* blood.

an'thra-cif'er-ous (ăn'thrə-sĭf'ẽr-ŭs), *a.* [Gr. *ἄνθραξ* coal + *-ferous.*] *Geol.* Yielding anthracite.

an'thra-cite (ăn'thrə-sīt), *n.* [L. *anthracites* a kind of bloodstone; fr. Gr. *ἀνθρακιτης* like coals, fr. *ἄνθραξ, -ακος*, coal or charcoal. Cf. ANTHRAX.] A hard, compact variety of natural coal, of high luster, differing from bituminous coal in containing only a small amount of volatile matter, in consequence of which it burns with a nearly nonluminous flame. Between bituminous coal and anthracite intermediate grades, as *semibituminous coal* and *semianthracite*, are often recognized. Pennsylvania anthracites contain 85-93 per cent of carbon; those of S. Wales, 88-95. In the United States anthracite containing less than 92 per cent of *fixed* carbon (nonvolatile matter minus ash) is subject to the same duty as bituminous coal. (See COAL.)

an'thra-cit'ic (ăn'thrə-sĭt'ĭk), *a.* Of, pertaining to, or like, anthracite.

an'thra-cit'i-za'tion (-sĭt'ĭ-zā'shŭn; -ī-zā'-), *n. Geol.* Conversion into anthracite; — said of the natural production of anthracite by the metamorphism of bituminous coal.

an-thrac'nose (ăn-thrăk'nōs), *n.* [Gr. *ἄνθραξ, -ακος*, carbuncle + *νόσος* disease.] *Bot.* A common plant disease caused by several species of melanconiaceous fungi.

an'thra-coid (ăn'thrə-koid), *a.* [*anthrax* + *-oid.*] **1.** Resembling anthrax in action; of the nature of anthrax, as, an *anthracoid* microbe.

2. Resembling the carbuncle (the stone); also, resembling charcoal or carbon.

an-thrac'o-nite (ăn-thrăk'ō-nīt), *n.* [See ANTHRACITE.] *Min.* A coal-black, bituminous marble or limestone, usually emitting a fetid smell when rubbed; — called also *stinkstone* and *swinestone.*

an'thra-co'sis (ăn'thrə-kō'sĭs), *n.* [NL. See ANTHRAX.] *Med.* **a** A chronic lung disease, common among coal miners, due to the inhalation of coal dust; — also called *collier's lung* and *miner's phthisis.* **b** A carbuncle.

An'thra-co-the'ri-um (-kō-thē'rĭ-ŭm), *n.* [NL.; Gr. *ἄνθραξ, -ακος*, coal + *-therium.*] *Paleon.* A genus of Tertiary artiodactyl mammals of America, Asia, and Europe, type of a family **An'thra-co-the-ri'i-dæ** (-thē-rĭ'ĭ-dē). They were related to the pigs, and some became as large as a rhinoceros. — **an'thra-co-there'** (ăn'thrə-kō-thēr'), *n.*

an'thra-gal'lol (-găl'ōl, -ŏl), *n.* [*anthra*quinone + *gallic* + 1st *-ol.*] *Org. Chem.* A hydroxy derivative of anthraquinone, isomeric with purpurin. It is used as a mordant dye in the form of a dark brown powder or paste, and is then called also *alizarin brown* or *anthracene brown.*

an'thra-nil'ic (-nĭl'ĭk), *a.* [*anthra-* + *anilic.*] *Chem.* Pert. to or designating a crystalline acid, $C_6H_4(NH_2)CO_2H$, originally obtained by the action of caustic potash on indigo, and later in other ways. It is the ortho amino derivative of benzoic acid. It is one of the intermediate products in the artificial preparation of indigo.

an'thra-pur'pu-rin (-pûr'pŭ-rĭn), *n.* [*anthra-* + *purpurin.*] *Chem.* A dyestuff found in commercial artificial alizarin, and closely allied to it.

an'thra-qui-none' (-kwĭ-nōn', -kwĭn'ōn), *n.* [*anthra-* + *quinone.*] *Chem.* A yellow crystalline compound, $C_6H_4{\cdot}C_2O_2{\cdot}C_6H_4$, obtained by oxidation of anthracene. It is used in the manufacture of alizarin.

an'thra-ro'bin (-rō'bĭn), *n.* [See ANTHRA-; CHRYSAROBIN.] A yellowish powder, $C_{14}H_{10}O_3$, derived from alizarin. It is useful in the treatment of various skin diseases.

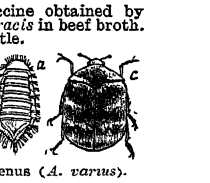
an'thra-ru'fin (-rōō'fĭn), *n.* [*anthra*quinone + L. *rufus* reddish + *-in.*] *Org. Chem.* A yellow crystalline substance, $C_{14}H_6O_2(OH)_2$, a dihydroxy derivative of anthraquinone and an isomer of alizarin.

an'thrax (ăn'thrăks), *n.* [L., fr. Gr. *ἄνθραξ* coal, carbuncle.] **1.** *Med.* **a** A carbuncle. **b** A malignant pustule, a characteristic lesion of the disease anthrax. **c** An infectious, and usually fatal, bacterial disease of animals, esp. cattle and sheep, and occasionally of man, to whom it may be transmitted by inoculation. It is characterized by ulcerations of the skin, enlargement of the spleen, and general collapse. Also called *splenic fever, woolsorter's disease, malzbrand, charbon*, and, from its lesion, *malignant pustule.*

2. *Bacteriol.* The microorganism (*Bacterium anthracis*) causing this disease.

anthrax vaccine. *Veter.* A fluid vaccine obtained by growing the attenuated *Bacterium anthracis* in beef broth. It is used to immunize animals, esp. cattle.

An-thre'nus (ăn-thrĭ'nŭs), *n.* [NL., fr. Gr. *ἀνθρήνη* a hornet.] *Zool.* A genus of small dermestid beetles having hairy larvæ very destructive to woolen goods, fur, etc. It includes the small gray and brown museum pests (*A. varius* and *A. musæorum*) which destroy botanical and zoological specimens, and the *carpet beetle* or *buffalo bug.* See CARPET BEETLE.



Anthrenus (*A. varius*).
a Larva; *b* Pupa; *c* Adult Beetle (× 6)

An-thris'cus (ăn-thrĭs'kŭs), *n.* [L., a kind of plant, Gr. *ἀνθρίσκος*.] *Bot.* A European genus of apiaceous plants having finely dissected leaves, and fruit without ribs or oil tubes. One or two species are adventive in the United States. *A. cerefolium* is the chervil.

an'throl (ăn'thrōl; -thrŏl), *n.* [*anthra-* + 1st *-ol.*] *Org. Chem.* Any monohydroxy derivative of anthracene.

an-throp'ic (ăn-thrŏp'ĭk) } *a.* [Gr. *ἀνθρωπικός*.] Like or
an-throp'i-cal (-ĭ-kăl) } related to man; also, pertaining to the science of man; anthropological.

an'thro-po- (ăn'thrŏ-pŏ-; ăn-thrŏ'-). A combining form fr. Greek *ἄνθρωπος, human being, man;* as in *anthropology.*

an'thro-po-cen'tric (-sĕn'trĭk), *a.* [*anthropo-* + *centric.*] **1.** Assuming man as the center or ultimate end; — applied to philosophical or theological interpretations of the universe, or to philosophical methods, such as the Socratic, whose sole aim is to analyze human interests

2. Assuming man, or the human mind, as an analogue for interpreting natural processes, as when the instincts of animals are interpreted on the analogy of human instincts. Cf. ANTHROPOMORPHIC.

an'thro-po-cen'trism (-trĭz'm), *n.* The assumption that man is the center of all things; also, anthropocentric methods of interpretation.

an'thro-po-gen'e-sis (-jĕn'ĕ-sĭs) } *n.* [*anthropo-* + *-gen-*
an'thro-pog'e-ny (ăn'thrŏ-pŏj'ĕ-nĭ) } *esis, -geny.*] The science or study of human generation, or the origin and development of man. — **an'thro-po-ge-net'ic** (-jĕ-nĕt'ĭk), **an'thro-po-gen'ic** (-jĕn'ĭk), **an'thro-pog'e-nous** (-pŏj'ĕ-nŭs), *a.* — **an'thro-pog'e-nist,** *n.*

an'thro-po-ge-og'ra-phy (-jĕ-ŏg'rə-fĭ), *n.* [*anthropo-* + *geography.*] The science of the human species as to geographical distribution and environment. Broadly, it includes industrial, commercial, and political geography, and that part of ethnology which deals with distribution and physical environment. — **an'thro-po-ge-og'ra-pher** (-fẽr), *n.* — **an'thro-po-ge'o-graph'i-cal** (-jē'ŏ-grăf'ĭ-kăl), *a.*

an'thro-pog'ra-phy (ăn'thrŏ-pŏg'rə-fĭ), *n.* [*anthropo-* + *-graphy.*] That branch of anthropology treating of the distribution of the human race in its different divisions, as distinguished by physical character, language, institutions, and customs, in contradistinction to *ethnography*, which treats historically of the origin and filiation of races and nations.

an'thro-poid (ăn'thrŏ-poid; 277), *a.* [*anthropo-* + *-oid.*] Resembling man; — applied esp. to the apes most nearly related to man, which constitute the family Simiidæ, including the gibbons, chimpanzees, orang-utan, and gorilla.

an'thro-poid, *n. Zoöl.* **a** An anthropoid ape. **b** One of the Anthropoidea.

An'thro-poi'de-a (-poi'dē-*ă*), *n. pl.* [NL.] *Zoöl.* The suborder of Primates including the monkeys, apes, and man. They are distinguished from the Lemuroidea by the larger cerebrum, the more nearly inclosed orbit with the lachrymal gland opening within it, the undivided uterus, and mammæ always pectoral. — **an'thro-poi'de-an** (-ăn), *a.*

an'thro-po-log'ic (-pŏ-lŏj'ĭk, ăn-thrŏ'-) } *a.* Of or pertain-
an'thro-po-log'i-cal (-lŏj'ĭ-kăl) } ing to anthropology; belonging to the nature of man. "*Anthropologic* wisdom." *Kingsley.* — **an'thro-po-log'i-cal-ly,** *adv.*

an'thro-pol'o-gist (ăn'thrŏ-pŏl'ŏ-jĭst), *n.* One versed in anthropology.

an'thro-pol'o-gy (-jĭ), *n.* [*anthropo-* + *-logy.*] **1.** The science of man; specif.: **a** The science of the human organism; in older usage, the science of the psychophysical organism, or of body and mind in mutual relations; in a restricted usage, anatomy and physiology; also, esp. under

---

An'thes-te'ri-on (ăn'thĕs-tē'rĭ-ŏn), *n.* [Gr. *Ἀνθεστηριών.*] *Gr. Antiq.* The eighth Attic month. See GREEK CALENDAR

ant hillock An ant hill.

an-thol'o-gize (ăn-thŏl'ŏ-jīz), *v. i.* [*antho-* + Gr. *βιος* life.] *Zool* A beetle which feeds on flowers.

An'thou-bran'chi-a (ăn'thŏ-brăŋ'kĭ-*a*), *n. pl.* [NL. See ANTHO-; BRANCHIA.] *Zool* A supertamily of nudibranchiate gastropods, having the gills in a cluster upon the posterior part of the back. See DORIS, *Illust.* — **an'thou-bran'chi-ate** (-āt), *a. & n.*

an'thou-car'pic, *a.* Anthocarpous fruit

an'thou-car'pous, *a.* Any anthocarpous fruit

an'thou-clin'i-um (ăn'thŏ-klĭn'ĭ-ŭm), *n.* [NL.] *Bot.* A clinanthium. [thocyanin

an'thou-cy'an (-sī'ăn), *n.* Anthou-gen'e-sis, *n.* [*antho* + *-genesis.*] *Zool.* In certain plant lice, production of both male and female by asexual lice. — **an'thou-ge-net'ic** (-jĕ-nĕt'ĭk), *a.*

an-thog'ra-phy (ăn-thŏg'rə-fĭ), *n.* [*antho-* + *-graphy.*] The description of flowers.

an'thoid (ăn'thoid), *a* [*antho-* + *oid.*] Flowerlike.

an'tho-ky'an (ăn'thŏ-kī'ăn), *n.* Anthocyanin.

an'tho-lite (ăn'thŏ-līt), *n.* [*antho-* + *-lite.*] A fossil flower.

An'tho-me-du'sæ (ăn'thŏ-mē-dū'sē), *n. pl* [NL. See ANTHO-; MEDUSA.] *Zool.* A suborder of hydrozoans of the order Leptolinæ (which see) in which the hydranths and reproductive zooids are not protected by the cœnosarc, and the medusæ (when developed) bear the gonads in the manubrium and have no lithocysts. *Athecata* and *Gymnoblastea* are synonyms. — **an'tho-me-du'san** (-dū'săn), *a & n.*

An'tho-my'ia (-mī'*ya*), *n.* [NL.; *antho-* + Gr. *μυῖα* fly] *Zool* A genus of Diptera, closely related to the house fly, the type of a large family, **An'tho-my-i'i-dæ** (-mī-ĭ'ĭ-dē), whose larvæ, as those of the *cabbage flies* and *turnip flies*, are often injurious to vegetables

An'tho-nin, *n.* [Cf. F. *Antonin.*] A member of the monastic order of St Anthony.

An'tho-ny, An'to-ny (ăn'tŏ-nĭ), *n* [L. *Antonius*: cf. It. & Sp. *Antonio*, F *Antoine.*] **1.** Masc. prop. name. L *Antonius* (ăn-tō'nĭ-ŭs); F. *Antoine* (ăn'twăn'); It. & Sp. *Antonio* (ăn-tō'nē-ō); Pg. *Antonio* (ăn-tō'-nē-ō); G *Antonius* (an-tō'nē-ŏōs), *Anton* (an'tōn) — Dim. *Tony.* — Fem *Antonia.*

2. Short for ANTHONY PIG.

Anthony's fire. = SAINT ANTHONY'S FIRE.

ant'hood', *n.* See -HOOD.

an-thoph'a-gous (ăn-thŏf'*ă*-gŭs), *a* [*antho-* + *-phagous.*] Eating flowers

an'thō-phil'i-an (ăn'thō-fĭl'ĭ-ăn), *a.* Anthophilous.

An-thoph'y-ta (ăn-thŏf'ĭ-*tă*), *n. pl.* [NL See ANTHO-; -PHYTE.] Syn of SPERMATOPHYTA.

an'tho-phyte (ăn'thō-fīt), *n.* A spermatophyte.

an'tho-rism (ăn'thō-rĭz'm), *n.* [Gr. *ἀνθορισμός*; *ἀντι* against + *ὁρίζειν* to bound.] *Rhet.* A description or definition contrary to that given by the adverse party. *Rare.*

an'tho-sid'er-ite (-sĭd'ẽr-īt), *n.* [*antho-* + Gr. *σιδηρίτης* of iron.] *Min.* A hydrous iron silicate occurring in tufts.

an'tho-sperm, *n.* [*antho-* + *sperm.*] *Bot.* A tetraspore. *Obs.*

An'tho-sper'mum (-spûr'mŭm), *n.* [NL. See ANTHO-; SPERM.] *Bot.* A genus of small rubiaceous shrubs, of Africa and Madagascar. *A. æthiopicum* and some other species are known as amber trees.

an'tho-tax'is, *n.* [NL.] *Bot.* = ANTHOTAXY

an'tho-xan'thin, *n.* [*antho-* + *xanthin.*] Xanthophyll.

an'thra-cæ'mi-a, *-ce'mi-a* (ăn'thrə-sē'mĭ-*ă*), *n* [NL. See ANTHRAX; -HÆMIA.] *Med.* The disease anthrax.

anthracene brown. See ANTHRAGALLOL, DYE

anthracene green. =CERULEIN. See DYE.

anthracene red. See DYE.

an'thra-ce-nif'er-ous (ăn'thrăsē-nĭf'ẽr-ŭs), *a.* See -FEROUS; ANTHRACENE.

an-thra'ci-a (ăn-thrā'shĭ *ă*), *n.* [NL. See ANTHRAX.] *Med.* A diseased condition characterized by carbuncular eruptions.

an'thra-cin (ăn'thrə-sĭn), *n.* Anthracene. [into anthracite.

an'thra-cite, *v. t* To convert

anthracite black. See DYE

an'thra-ci-tif'er-ous (ăn'thrăsĭ-tĭf'ẽr-ŭs), *a.* See -FEROUS; ANTHRACITE

an'thra-cit-ism (-sĭt-Yz'm), *n.* Quality of being anthracitic *R.*

an'thra-cit'ous (-sĭt'ŭs), *a.* Anthracitic.

an'thrac-no'sis (ăn'thrăk-nō'sĭs), *n.* [NL.] = ANTHRACNOSE

an'thra-co-man'cy (ăn'thrə-kō-măn'sĭ), *n.* [Gr. *ἄνθραξ, -ακος*, coal + *-mancy.*] Divination by inspecting burning coals.

an'thra-com'e-ter (-kŏm'ĕ-tẽr), *n.* [Gr. *ἄνθραξ* coal, carbon + *-meter.*] An instrument for measuring the amount of carbon dioxide present in a gaseous mixture. — **an'thra-co-met'ric** (-kō-mĕt'rĭk), *a*

an'thra-co-ne-cro'sis, *n.* [NL.; Gr *ἄνθραξ, -ακος*, carbuncle + *necrosis.*] *Med.* Necrotic transformation of tissue, as in gangrene.

An'thra-co-sau'rus (ăn'thrăkō-sō'rŭs), *n.* [NL.; Gr *ἄνθραξ, -ακος*, coal + *-saurus.*] *Paleon.* A genus of labyrinthodonts from the coal measures of England. The skull was about a foot long, of triangular outline, and externally pitted.

an'thra-nil, *n. Org. Chem.* A volatile oil, C_7H_5ON, an inner anhydride of anthranilic acid.

an'thra-nol (-nōl; -nŏl), *n.* [*anthracene* + 1st *-ol.*] *Org. Chem.* A crystalline compound, $C_{14}H_9OH$, derivative of anthracene (9-hydroxy-anthracene).

an'thro-ge-og'ra-pher, *n.* Erron. for ANTHROPOGEOGRAPHER

anthrop. *Abbr* Anthropology; anthropological.

An-throp'i-dæ (ăn-thrŏp'ĭ-dē), *n. pl.* [NL., fr. Gr. *ἄνθρωπος* man] Syn. of HOMINIDÆ.

an-thro'pi-nism (ăn-thrō'pĭnĭz'm), *n* [Gr. *ἀνθρώπινος* human + *ism*] Consideration of things relatively to man. — **an-thro'pi-nis'tic** (-nĭs'tĭk), *a.*

an'thro-po-bi-ol'o-gy, *n.* The biology of man. — **an'thro-po-bi'o-log'i-cal,** *a.*

an'thro-po-cos'mic, *a* [*anthropo-* + *cosmic.*] Of or pertaining to both man and the cosmos.

an'thro-pof'a-gy. Anthropophagy *Ref. Sp.*

an-thro'po-glot (ăn-thrō'pŏglŏt; ăn'thrŏ-pō-), *n.* [Gr *ἀνθρωπόγλωττος*; *ἄνθρωπος* man + *γλῶττα, γλῶσσα*, tongue.] An animal with a tongue like that of man, as the parrot.

an'thro-pog'o-ny (ăn'thrŏ-pŏg'ŏ-nĭ), *n.* = ANTHROPOGENY.

an'thro-poi'dal, *a.* Anthropoid.

an'thro-pol'a-try (-pŏl'ă-trĭ), *n.* [*anthropo-* + *-latry.*] Man worship. — **an'thro-po-lat'ric** (-pŏ-lăt'rĭk), *a.*

an-throp'o-lith (ăn-thrŏp'ŏ-lĭth), **an-throp'o-lite** (-līt), *n.* [*anthropo-* + *-lith, -lite.*] *Paleon.* A petrified human body or portion of it — **an'thro-po-lith'ic** (ăn'thrŏ-pŏ-lĭth'ĭk), *a.*

Continental influences, somatology, or anthropometry. **b** The science of the natural history of man; the science of man in relation to his physical character (anthropography, anthropometry), to his historical and geographical distribution (anthropogeography, ethnography), to the origin, classification, and relationship of races (ethnology), to his environmental and social relations (anthroponomics, demography, sociology), and to the history of culture (prehistoric anthropology, archæology, folklore).

Of the various branches of knowledge, whose subject is man, the most comprehensive is *anthropology*, which in fact, taken in its broadest sense, embraces all the others. *A. H. Keane.*

2. *Theol.* The doctrine of man in his relations to God.

An-tig'o-ne (ăn-tĭg'ŏ-nē), *n.* [L., fr. Gr. Ἀντιγόνη.] *Gr. Myth.* A daughter of Œdipus and Jocasta, typical of the faithfulness and heroism in the Greek ideal of noble womanhood. In Sophocles's "Œdipus at Colonus" she accompanies her blinded father to Attica, where she remains with him until his death. In the "Antigone" she buries the body of her brother Polynices in violation of the command of her uncle, Creon, who sentences her to burial alive. She hangs herself in the tomb. In the (lost) "Antigone" written by Euripides, she is saved by, and married to, her lover Hæmon, Creon's son, with the aid of Dionysus. In Sophocles's play Hæmon kills himself in the tomb of Antigone. Cf. (Œdipus, Isemene, Polynices.

An-tig'o-non (-nŏn), *n.* [NL.; Gr. ἀντι- like + γόνυ knee;—so called from the geniculate stems.] *Bot.* A small genus of tropical polygonaceous herbs, climbing by tendrils, having apetalous flowers with brightly colored petaloid sepals. *A. leptopus* is the mountain rose

an'ti-mon'arch-ist (-mŏn'ăr-kĭst), *n.* One opposed to monarchical government.

an'ti-mo-nate' (ăn'tĭ-mō-nāt'), *n.* A salt of antimonic acid.

an'ti-mo'ni-al (-mō'nĭ-ăl), *a.* Of or pertaining to antimony; containing antimony. — *n. Pharm.* A preparation or medicine containing antimony.

antimonial powder, *Pharm.*, a powder consisting of one part oxide of antimony and two parts phosphate of calcium. It is a diaphoretic, emetic, and cathartic; — also called *James's powder*. — **a. vermilion.** = ANTIMONY VERMILION.

an'ti-mo'ni-at'ed (ăn'tĭ-mō'nĭ-āt'ĕd), *p. a.* Combined or prepared with antimony; as, *antimoniated* tartar.

an'ti-mon'ic (-mŏn'ĭk), *a. Chem.* Pertaining to, or derived from, antimony; — said of those compounds in which antimony is pentavalent.

antimonic acid, any of three acids derived from antimonic oxide (Sb_2O_5) and distinguished, as in the case of the phosphoric acids, as *orthoantimonic acid* (H_3SbO_4), *metantimonic acid* ($HSbO_3$) and *pyroantimonic acid* ($H_4Sb_2O_7$); specif., the ortho acid. According to a less proper, but still common, usage the acid $HSbO_3$ is called specif. *antimonic acid*, and the acid $H_4Sb_2O_7$, *metantimonic acid*, thus causing some confusion. All three acids are obtainable in the free state as white powders. — **a. anhydride**, antimony pentoxide. — **a. chloride**, antimony pentachloride.

an'ti-mo-nide (ăn'tĭ-mō-nĭd; -nĭd), *n.* Also **-nid.** *Chem.* A binary compound of which antimony is one constituent.

an'ti-mo'ni-ous (-mō'nĭ-ŭs), *a. Chem.* Pertaining to, or derived from, antimony; — said of those compounds in which antimony is trivalent.

antimonious acid, the acid H_3SbO_3, obtained as a white precipitate by treating tartar emetic with dilute sulphuric acid; also, the acid $HSbO_2$, obtained from the former as a white powder by loss of water, and distinguished as *meta-antimonious acid*. — **a. anhydride**, antimony trioxide. — **a. chloride**, antimony trichloride.

an'ti-mo-nite' (ăn'tĭ-mō-nīt'), *n.* **a** *Chem.* A salt of antimonious acid. **b** *Min.* Stibnite.

an'ti-mo'ni-u-ret'ed } (-mō'nĭ-ū-rĕt'ĕd; -mō-nĭ'ū-rĕt'ĕd),
an'ti-mo'ni-u-ret'ted } *a. Chem.* Combined with or containing antimony; as, *antimoniureted* hydrogen, or stibine.

an'ti-mon-soon' (-mŏn-sōōn'), *n. Meteor.* The upper, contrary-moving, current of the atmosphere over a monsoon.

an'ti-mo-ny (ăn'tĭ-mō-nĭ), *n.* [LL. *antimonium*, of unknown origin.] **1.** Orig., the mineral stibnite. See STIBNITE.

2. An element of metallic appearance and crystalline structure, tin-white in color, hard and brittle. Symbol *Sb* (*Stibium*); at. wt., 120 2. Antimony occurs in the free state, also in the minerals stibnite, kermesite, valentinite, senarmontite, etc., and in the ores of lead and other metals. Metallic antimony has been known since the 15th century. It is prepared chiefly from its sulphide stibnite, by roasting and reducing with charcoal or by reducing directly with iron in crucibles. Melting point 630° C. (1166° F.); Sp. gr., 6.715. Weight per cu. ft. 419.2 lbs. Its principal use is as a constituent of alloys, as type metal, to which it imparts hardness and the property of expanding on solidification. Chemically, antimony is classed sometimes as a metal, sometimes as a nonmetal. Its prominent valences are three and five, and it is placed with nitrogen, phosphorus, arsenic, etc., in the periodic system. Compounds of antimony are used in medicine and the arts. See below.

an'ti-mo-nyl' (ăn'tĭ-mō-nĭl'), *n.* [*antimony* + *-yl.*] *Chem.* A univalent radical, SbO, composed of antimony and oxygen. It forms a series of salts, of which the best known is

antimonyl potassium tartrate, or tartar emetic.

antimony ocher. Native antimony oxide, esp. cervantite.

antimony pentachloride. *Chem.* A compound, $SbCl_5$, obtained by the direct union of antimony and chlorine as a colorless fuming liquid which combines with water to form the crystalline hydrates $SbCl_5{\cdot}H_2O$, $SbCl_5{\cdot}4H_2O$.

antimony pentoxide. *Chem.* A compound, Sb_2O_5, obtained as a pale yellow amorphous powder by heating antimonic acid.

antimony rubber. An elastic durable red variety of vulcanized caoutchouc. It contains antimony sulphide.

antimony trichloride. *Chem.* A compound, $SbCl_3$, obtained as a soft, white, fuming crystalline mass by dissolving antimony trisulphide in hydrochloric acid and distilling; — called also *butter of antimony*.

antimony trioxide. *Chem.* A compound, Sb_2O_3 or Sb_4O_6, formed as a white powder when antimony burns or when antimonious acid is carefully heated, and occurring native as valentinite and senarmontite.

antimony trisulphide. *Chem.* A compound, Sb_2S_3, occurring native as stibnite, and obtained as an orange-red precipitate by passing hydrogen sulphide into a solution of antimony trichloride.

antimony vermilion. A fine vermilion pigment prepared by treating antimony chloride or tartar emetic with a thiosulphate, in solution.

antimony white. Antimony trioxide, Sb_2O_3.

an'ti-ne-phrit'ic (-nē-frĭt'ĭk), *a. Med.* Counteracting diseases of the kidneys. — *n.* An antinephritic remedy.

an'ti-neu-ral'gic (-nū-răl'jĭk), *a. Med.* Relieving neuralgia. — *n.* A remedy for neuralgia.

an'ti-node' (ăn'tĭ-nōd'), *n. Physics.* That point of a vibrating body which lies midway between two adjacent nodes.

an'ti-no'mi-an (ăn'tĭ-nō'mĭ-ăn), *a.* [See ANTINOMY.] Of or pertaining to the antinomians; opposed to the doctrine that the moral law is obligatory.

an'ti-no'mi-an (ăn'tĭ-nō'mĭ-ăn), *n. Eccl. Hist.* One who maintains that, under the gospel dispensation, the moral law is of no use or obligation, on the ground that faith alone is necessary to salvation. The term was applied to John Agricola and his followers, with whom the doctrine was rather a theory of salvation than a rule of ethics; but the term has been applied to others actually or supposedly justifying immoral practices by such a theory, as certain Gnostics of the 2d and 3d centuries A. D., the Davidists, Familists, etc. — **an'ti-no'mi-an-ism** (-ĭz'm), *n.*

an-tin'o-my (ăn-tĭn'ō-mĭ), *n.*; *pl.* -MIES (-mĭz). [L. *antinomia*, Gr. *ἀντινομία*; *ἀντί* against + *νόμος* law.] **1.** Opposition of one law or rule to another law or rule.

Different commentators have deduced from it the very opposite doctrines. In some instances this apparent *antinomy* is doubtful. *De Quincey.*

A brooding, analytic, modern mind, conscious of the awful *antinomies* of existence, yet hanging on to a shred of hope, courageous in the face of an apparently heartless fate. *R. Burton.*

2. An opposing law or rule of any kind.

As it were by his own *antinomy*, or counterstatute. *Milton.*

3. *Metaph.* A contradiction between two principles each of which is taken to be true, or between inferences correctly drawn from such principles. A genuine antinomy does not involve any logical fallacy. Kant held that natural antinomies ensue when reason endeavors to apply the categories of the understanding, suitable to empirical experience, to the transcendental and absolute. He distinguishes: first, the antinomy of the conceptions of a finite and an infinite world in space and time; second, of the divisibility and indivisibility of matter; third, of freedom and necessity; fourth, of the existence or nonexistence of a necessary being, or God.

an'ti-non'nin (ăn'tĭ-nŏn'ĭn), *n.* A yellowish poisonous substance derived from cresol, used as a fungicide.

An-tin'o-us (ăn-tĭn'ō-ŭs), *n.* [L., fr. Gr. *Ἀντίνοος*.] **1.** A beautiful youth born at Claudiopolis in Bithynia, the favorite of Hadrian, who enrolled him among the gods after he was drowned in the Nile, A. D. 122.

He was just turned of eighteen, light and lithe of form, and graceful as a young *Antinous*. *Irving.*

2. *Astron.* Formerly, a northern galactic constellation, now merged in Aquila.

An'ti-o'chi-an (ăn'tĭ-ō'kĭ-ăn), *n.* **1.** A native or inhabitant of Antioch, esp. of Antioch in Syria or in Pisidia.

2. An adherent of the Antiochian church or school.

An'ti-o'chi-an, *a.* **1.** Pertaining to Antiochus of Ascalon, an eclectic of the New Academy and a teacher of Cicero.

2. Of or pert. to Antioch, esp. Antioch in Syria, or the Seleucidan kings of Syria, who usually bore the name Antiochus.

Antiochian era. See ERA. — **A. school**, *Theol.*, the system of doctrinal views taught in the 4th and 5th centuries in Antioch in Syria, whose peculiarities consisted in the assertion of the freedom of the will, opposing Augustinianism on this point; of the conjunction of the human and divine natures in Christ, opposing the Athanasian doctrine of their union; and in interpreting the Scriptures grammatically rather than allegorically, as the Alexandrian school did. — **A. text.** See TEXT.

an'ti-o'don-tal'gic (-ō'dŏn-tăl'jĭk), *a. Med.* Efficacious in curing toothache. — *n.* A remedy for toothache.

An-ti'o-pe (ăn-tī'ō-pē), *n.* [Gr. *Ἀντιόπη*.] *Gr Myth.* **1.** A Theban princess carried off by Epopeus, king of Sicyon, and rescued by her uncle Lycus. an′ti-tox′in (-sĭn), *n.* Also **-ine.** [*anti-* + *toxin*, *toxine*.] Any of certain complex soluble chemical compounds, probably of a proteid nature, occurring in the blood (either normally or under certain special conditions), that have the power of neutralizing some specific poison, esp., a compound capable of neutralizing one of the specific poisons produced in the body by pathogenic bacteria, and hence conferring immunity, or conducing toward recovery, from the disease caused by the bacteria. In many cases antitoxins are gradually developed as a result of the presence in the body of bacterial poisons; and injections of the blood serum of animals rendered immune to a particular disease by previous inoculations will confer temporary immunity from that disease, or have a curative effect. This method of treatment is highly successful in diphtheria, and more or less effective in lockjaw and certain other diseases. The serum is usually obtained from immunized horses. In a loose sense the term *antitoxin* is extended to other blood constituents, as bacteriolysins, which contribute toward protection against disease. Cf. SIDE-CHAIN THEORY.

See OCULAR.] The entire horn, or any branch of the horn, of an animal of the deer family. Antlers differ from the horns of other ruminants in being solid, generally branched, bony outgrowths, shed and renewed annually. Usually they are present only in the male, but also in the female in the reindeer and caribou. When growing they are soft and covered with a downy, vascular covering, the velvet, which afterwards wears or is rubbed off. The main stem is called the beam; the branches, the tines or points. The latter are generally more numerous in older animals, horns of young bucks being simple spikes. In the red deer the first tine (*a* in illust.) is called the **brow antler**; the next (*b*), the **bay-antler**, or **bez-antler**; the next (*c*), the **royal antler**; the terminal ones (*d*), the **sur-royal**, or **crown, antlers.** Cf. a-or'ta (ā-ôr'tȧ), *n.* [NL., fr. Gr. ἀορτή, fr ἀείρειν to lift, heave.] *Anat. & Zool.* The great artery which carries the blood from the heart to all parts of the body except the lungs, the main trunk of the arterial system. In fishes and the early stages of all higher vertebrates the aorta divides near its origin into several branches (the *aortic arches*) which pass in pairs round the esophagus and unite to form the systemic aorta. One or more pairs of these arches persist in the adult in amphibia and reptiles, but only one arch in birds and mammals, this being on the right side in the birds and on the left in the mammals. In man the aorta extends up from the left ventricle of the heart and arches back over the root of the left lung, then descends in the thorax along the left side of the spinal column, passing through the diaphragm, and dividing opposite the fourth lumbar vertebra into the common iliac arteries. See INNOMINATE ARTERY.

a'phid (ā'fĭd; ăf'ĭd), *n.* [See APHIS.] *Zoöl.* A plant louse; any of numerous small homopterous insects of the family **A-phid'i-dæ** (ā-fĭd'ĭ-dē). They are small sluggish insects that suck the juices of plants, and on account of their numbers often do great damage. In addition to the winged males, and the winged females which lay eggs, there are females, usually wingless, capable of producing living young parthenogenetically for many generations in rapid succession, thus forming the large colonies often seen on plants. Many species secrete a sweet fluid called *honeydew*, of which ants are very fond, from the alimentary canal. Aphids are preyed on by birds and many insects, esp. by the larvæ of the ladybugs. Among the most injurious aphids are the grapevine phylloxera (*Phylloxera vastatrix*), and the woolly root louse of the apple (*Schizoneura lanigera*).

Aphid (*Aphis malı*), much enlarged. *a* Winged adult male; *b* Wingless viviparous individual

Aph'ro-di'te (-dī'tē), *n.* [Gr. Ἀφροδίτη.] **1.** *Gr. Relig.* The goddess of love and beauty and of life as expressive of the cosmic power of love, probably originally an Oriental goddess of vegetation and the reproductive forces of nature; — identified by the Romans with Venus (which see). As **Aphrodite Urania** (ū-rā'nĭ-ā) she corresponds to the Semitic Astarte (which see), "queen of the heavens," but in later Greek literature, owing to the influence of Plato, is regarded as the embodiment of spiritual love, and as opposed to Aphrodite **Pandemos** (păn-dē'mŏs) (originally a civic goddess, perhaps of marriage), personifying earthly or common love. Aphrodite was also worshiped: (1) as a goddess of the sea (cf. ÆNEAS); (2) as a goddess of death and the underworld, an Oriental idea springing from the myth of "Venus and Adonis" (see ADONIS); and (3) as a goddess of war (also Oriental), in Greece (chiefly in Sparta and Corinth) called **Aphrodite Areia** (ā-rī'ā). According to Homer, Aphrodite is the daughter of Zeus and Dione. According to Hesiod, she arose from the foam of the sea, and landed either at Cythera or at Paphos in Cyprus; hence she was called both **Cytherea** and **Cypris**. The consort of Aphrodite, according to the Odyssey, is Hephæstus; other sources give Ares. She is accompanied by Erotes (see EROS) and tended by the Charites and Horæ. Sparrows and doves were especially sacred to her, and in various connections other animals, the ram, hare, dolphin, tortoise, swan, etc., and, of plants, the rose, myrtle, and apple. Cf. APPLE OF DISCORD.

a-poc'a-lyp'ti-cal (-tĭ-kăl) } or pertaining to a revelation, or, specif., to the "Revelation of St. John;" containing, of the nature of, or having to do with, prophetic revelation.
There is an *apocalyptic* side in the Synoptical portraiture of the kingdom. There is a goal in the future, a consummation, or Second Advent of the Christ to judgment. *G. P. Fisher.*
apocalyptic literature, or simply, **apocalyptic**, a class of Jewish and Christian writings beginning about 250 B. C. and continuing into the opening centuries A. D. They aimed to comfort the faithful in their suffering condition, and reconcile it with God's righteousness by prefiguring the future triumph of Israel or the Messianic kingdom. The chief apocalyptic writings besides the Revelation of St. John are: Baruch, (Ethiopic) Book of Enoch, (Slavonic) Book of Enoch, or the Book of the Secrets of Enoch, Ascension of Isaiah, Book of Jubilees, Assumption of Moses, Testaments of the XII. Patriarchs, Psalms of Solomon, Sibylline Oracles.
Prophecy and *apocalyptic* both claim to be a communication through the Divine Spirit of the character and purposes of God and His kingdom, . . . but differ in the following respects: (1) Prophecy believes that God's goodness will be justified in this world; *Apocalyptic* almost wholly despairs of the present, and its main interests are supramundane: . . . Hence (2) its adoption of pseudonymous authorship; (3) its indefinitely wider view of the world's history. *Dict. of Bible (Hastings).*
— **a. number**, the number 666, mentioned in Rev. xiii. 18. It has been variously interpreted, plausibly as a designation of Nero by means of gematria, in reference to the popular belief that Nero would return to life as Antichrist.
